Own charges.—The undersigned certifies that, to the best of its knowledge and belief, the summary of charges and supporting schedules and explanations have been prepared from the books of account and records of the undersigned in accordance with recognized commercial accounting practices; that they include only those charges allocable to the terminated portion of this contract; that the charges as stated are fair and reasonable; and that they have been prepared with knowledge that they will, or may, be used by contracting officers acting on behalf of the United States as the basis of settlement with the undersigned or with others.

Subcontractors' charges.—The undersigned certifies that it has examined, or caused to be examined, to an extent which it considers adequate in the circumstances, the claims of its immediate suppliers (exclusive of charges arising from termination claims filed against such immediate suppliers by their suppliers) as summarized as Item 8, that, in its opinion, the settlements of its immediate suppliers' own charges are fair and reasonable, said charges are allocable to the terminated portion of this contract, and said settlements were negotiated in good faith, and are not more favorable to its immediate suppliers than those which the undersigned would make if reimbursement by the Government were not involved. The undersigned certifies that it has no knowledge to doubt the reasonableness of the settlements with more remote suppliers or to doubt that the charges for them are allocable to this contract. The undersigned shall not be deemed to have made any representations with respect to the immediate and more remote suppliers' claims or the settlement thereof other than those expressed in this certificate.

INSTRUCTIONS

1. This Form No. A-3 is to be prepared by the contractor as soon as cost information required in the Summary can be determined.

2. If space provided in these schedules is not sufficient, attach additional sheets, using the same headings. Inventory on hand at the date of termination should be grouped in Schedule A-3-a by "Raw Materials, Purchased Parts, and Supplies," and "Work in Process." Costs should be shown to the greatest extent practicable for items included in this inventory listing. Subcontractors may also use this schedule for listing finished units on hand at date of termination not to be billed.

3. The costs shown in this Summary are those costs incurred which are applicable to the entire contract. Where costs applicable to the inventory can be determined accurately, the contractor should present his proposal on Form A-2.

4. An explanation should be attached as to the bases of allocation and calculation of the amounts of indirect factory expenses (Line 3 of Summary) and general and administrative expense (Line 4 of Summary) applicable to the contract.

5. Include in Other Charges (Line 5 of Summary and Schedule A-3-b) all costs not previously included.

INSTRUCTIONS

1. *Preparation of schedule.* The number of copies to be prepared will be specified by the Government representative or contractor from whom the Termination Notice was received. Columns 1 through 11 should be filled in immediately on all copies to the extent practicable without unduly delaying submission of the inventory schedule. Columns 6 and 7 will not be filled in for Government-owned property. The inventory schedules will be used for the following purposes:

Property disposition copies are to be mailed to the Government representative named in the Termination Notice (if you are a prime contractor), or to the contractor from whom you received Notice of Termination (if you are a subcontractor) as soon as the inventory information has been entered.

Contractor's own charges schedule copy is to accompany your charge schedule (Form B–1 or B–2). It will not be necessary to prepare this copy for Government-owned property.

Contractor's settlement proposal copies, one of which is the original, will accompany your Contractor's Settlement proposal (Form A–1). By this time, such inventory as will be disposed of by your firm will have been sold, retained, or otherwise disposed of and the disposal information entered in columns 12 and 13 as provided in the columnar instructions.

Contractor's file copy should be maintained for your records showing the same information as the original.

CERTIFICATE

This is to certify that the inventory described on the face of this schedule consists of items properly allocable to the contract, that the quantities are not in excess of the reasonable quantitative requirements of the terminated portion of the contract, and that the offers indicated in column 11 are fair and reasonable in the opinion of the undersigned.

COLUMNAR INSTRUCTIONS

Column 1—Line number. Number each entry in sequence. This will facilitate necessary references in case of adjustments, disposal actions, etc.

Column 2—Description. Specific instructions as to the method of listing, and the detail of description will be furnished by the Government representative or contractor from whom the Termination Notice was received.

Columns 6 and 7—Unit and total costs. An explanation of your method of computing costs should be attached to the original and to the copy accompanying your cost statement. This explanation should cover your treatment of transportation and discounts, and should also explain whether "first-in-first-out" or some other method is used.

Column 8—Recommended disposal. Whenever practicable, give your recommendation for disposal of those items you do not wish to retain. Use following code:

D—Sell to distributors.
M—Sell to manufacturers.
P—Public sale on bids.
W—Sell to other war contractors (name on attached statement).
V—Sell to original vendor.
S—Scrap (reasons to be set forth on attached statement).
X—Other recommended method. (Explain on attached statement referring to proper item number.)

Recommendation should represent your opinion of the method which will move the property with greatest speed consistent with the best interest of the Government as to price and other appropriate factors.

Column 9—Enter OPA ceiling or market price per unit if practicable. If ceiling price is used, indicate by letter "c" before price, thus "c12.50."

Columns 10 and 11—Contractor's offer. Any offer for inventory for an amount less than your cost must be explained on an attached statement. Such explanations should include reference to line number and page number to facilitate identification.

Columns 12 and 13—Disposal credits. Materials retained, returned to supplier, or otherwise disposed of. These credits are to be recorded on the copy of this schedule which is submitted with the Contractor's Settlement Proposal (Form A–1), and on the Contractor's File Copy.

INSTRUCTIONS

1. *Preparation of schedule.* The number of copies to be prepared will be specified by the Government representative or contractor from whom the Termination Notice was received. Columns 1 through 12 should be filled in immediately on all copies to the extent practicable without unduly delaying submission of the inventory schedule. Columns 5, 6, 7, and 8 will not be filled in for Government-owned property. The inventory schedules will be used for the following purposes:

Property disposition copies are to be mailed to the Government representative named in the Termination Notice (if you are a prime contractor), or to the contractor from whom you received Notice of Termination (if you are a subcontractor) as soon as the inventory information has been entered.

Contractor's own charges schedule copy is to accompany your charge schedule (Form B–1 or B–2). It will not be necessary to prepare this copy for Government-owned property.

Contractor's settlement proposal copies, one of which is the original, will accompany your Contractor's Settlement Proposal (Form A–1). By this time, such inventory as will be disposed of by your firm will have been sold, retained, or otherwise disposed of, and the disposal information entered in columns 13 and 14 as provided in the columnar instructions.

Contractor's file copy should be maintained for your records showing the same information as the original.

CERTIFICATE

This is to certify that the inventory described on the face of this schedule consists of items properly allocable to the contract, that the quantities are not in excess of the reasonable quantitative requirements of the terminated portion of the contract, and that the offers indicated in column 12 are fair and reasonable in the opinion of the undersigned.

COLUMNAR INSTRUCTIONS

Column 1—Line number. Number each entry in sequence. This will facilitate necessary references in case of adjustments, disposal actions, etc.

Column 2—Description. Specific instructions as to the method of listing, and the detail of description will be furnished by the Government representative or contractor from whom the Termination Notice was received.

Columns 5, 6, 7, and 8—Unit and total costs. These columns should be completed in accordance with the classification of costs indicated. However, where such a procedure is not practicable, items may be grouped for costing purposes conforming to the cost accounting procedures used by the contractor. In all cases an explanation of the contractor's method of computing costs should be attached. When the contractor cannot present the minimum cost data with accuracy and has therefore presented his charges on a total cost basis, the cost data should be completed to the greatest extent practicable.

Column 9—Recommended disposal. Whenever practicable give your recommendation for disposal of those items you do not wish to retain. Use following code:

D—Sell to distributors.
M—Sell to manufacturers.
P—Public sale on bids.
W—Sell to other war contractors (name on attached statement).
V—Sell to original vendor.
S—Scrap (reasons to be set forth on attached statement).
X—Other recommended method. (Explain on attached statement referring to proper item number.)

Recommendations should represent your opinion of the method which will move the property with greatest speed consistent with the best interest of the Government as to price and other appropriate factors.

Column 10—Enter OPA ceiling or market price per unit if practicable. If ceiling price is used, indicate by letter "c" before price, thus "c12.50."

Columns 11 and 12—Contractor's offer. Any offer for inventory for any amount less than your cost must be explained on an attached statement. Such explanations should include reference to line number and page number to facilitate identification.

Columns 13 and 14—Disposal credits. Materials retained or otherwise disposed of. These credits are to be recorded on the copy of this schedule which is submitted with the Contractor's Settlement Proposal (Form A–1), and on the Contractor's File Copy.

APPENDIX A—SPECIAL INSTRUCTIONS FOR DESCRIPTION OF INVENTORY UNDER COLUMN 2 OF STANDARD CONTRACT TERMINATION INVENTORY SCHEDULES (FORMS C–1, C–2, AND C–3)

GENERAL INSTRUCTIONS

The inventory schedules provided in Form C–1, C–2, and C–3 are intended to assist contractors and property disposal officers in valuing and disposing of property resulting from contract terminations, as well as for the purpose of arriving at the settlement amount.

It is therefore essential that the inventory be classified in general groupings as outlined in these supplementary instructions. The instructions should be carefully studied before inventory lists are prepared and followed to the extent practicable with each contract termination inventory.

OFFERS BY CONTRACTORS

It will greatly facilitate final settlement if that part of the listed property which the contractor is prepared to purchase is segregated under the various subdivisions of the property lists.

CONDITION OF EQUIPMENT

The condition of equipment listed on Schedule C–3, and of any property listed in Schedule C–1 or C–2 which is other than new and excellent, should be indicated, using the following condition codes:

N—New.
E—Used—reconditioned.
O—Used—usable without repairs.
R—Used—repairs required.
1—Excellent.
2—Good.
3—Fair.
4—Poor.

For salvage show only "X" and no number: X—means Salvage—Obsolete Property (no further value for use as originally intended).

Except in case of salvage, a "letter-number" combination must always be used to describe condition. Examples: N2—New and in good condition; R3—Used, repair required, general condition fair.

CLASSIFICATION OF PROPERTY

Specific instructions as to the classification of property listed on each of the three schedules, C–1, C–2, and C–3 are included in the following paragraphs.

RAW MATERIALS, PURCHASED PARTS, AND SUPPLIES (SCHEDULE C–1)

1. Purchased parts and components identified with a particular assembly may be listed together under the group heading in which the assembly would normally fall, not withstanding the fact that they are standard parts or common components which would otherwise be included under the group headings listed below.

2. With the exception of the above, items should be listed under the following group headings. The group headings should be shown at the top of each group listing. A new page should be started for each group; or, in the case of small inventories, groups may be separated by extra space.

Crude animal and vegetable products, edible.
Crude animal and vegetable products, inedible.
Fibers, vegetable and animal, unmanufactured.
Leather.
Boot and shoe cut stock and findings.
Wood basic materials.
Pulp, paper, and paperboard.
Textile basic manufactures.
Food and beverage basic materials.
Oils, fats, waxes, and derivatives, animal and vegetable.
Petroleum and coal products, except raw materials for chemical industries.
Chemicals.
Paints, varnishes, lacquers, japans, thinners, pigments, driers, fillers, and related products.
Iron and steel, including pigs, ingots, castings and forgings (before machining), plates, sheets, strips, bars, structural shapes, piling, rails, tubular products, wire, and other shapes and forms.
Copper and copper-base alloy basic shapes and forms.
Aluminum and aluminum-base alloy basic shapes and forms.
Magnesium and magnesium-base alloy basic shapes and forms.
Other nonferrous basic shapes and forms.
Fabricated metal basic products, including basic hardware, wire products, insulated wire and cable, stamped, pressed, and perforated metal basic products.
Nonmetallic mineral basic products, including natural stone products, clay products, glass basic products, hydraulic cements, concrete products, gypsum products, pottery basic products, mineral wool basic products, abrasive basic products, asbestos basic products, graphite and carbon products, mica and refractories.
Raw materials not classified above.
Mechanical common components, including engines, pumps, power-transmission equipment, bearings, valves and steam specialties, lubrication equipment (i. e., standard components that can be used in more than one product).
Electrical common components, including motors, controls, switches, wiring devices, lamps (i. e., standard components that can be used in more than one product).
Noncommon components, parts, equipment, and accessories (i. e., components that can be used only in the particular industry in which any given product falls). For example, if the product is motor vehicle, the group heading should read "Motor Vehicle Noncommon Components" and should include automotive engines, tires, etc. If the product is aircraft, the group heading would read "Aircraft Noncommon Components" and should include aircraft hardware, aircraft electrical fittings, etc.).
Containers and closures.
Purchased parts and supplies not classified above.

WORK IN PROCESS (SCHEDULE C–2)

Property should be segregated into groups of similar items; for instance, component parts of a particular subassembly should be grouped together, completed subassemblies should be shown in the same group, partially fabricated items of the same general type should be listed together. Appropriate headings should be used for the different groups so that a prospective buyer may readily locate the type of property in which he is interested. Whenever practicable, the group headings set forth for Schedule C–1 should be used for this purpose.

Parts fabricated by the contractor should be included in the Inventory Schedule C–2 for Work in Process to the extent practicable. Where such parts are not easily segregated by the contractor from similar items of purchased parts, it is permissible to include them with purchased parts in Inventory Schedule C–1 for "Raw Materials, Purchased Parts, and Supplies." The term "Manufactured Parts" is intended to represent completely fabricated units which are identifiable as piece parts or subassemblies and which have been manufactured in the contractor's own plant.

JIGS, TOOLS, DIES, FIXTURES, ETC. (SCHEDULE C–3)

Items should be listed under the following group headings. The group headings should be shown at the top of each group listing. A new page should be started for each group; or, in the case of small inventories, groups may be separated by extra space:

Gages and precision measuring instruments.
Perishable tools.
Jigs, dies, and fixtures.

LARGER ITEMS OF PRODUCTION EQUIPMENT UNDER SCHEDULE C–3

This form should also prove satisfactory for the listing of major items of production equipment for property disposal, particularly Government-furnished production equipment. When used for such purposes, items should be listed under the following group headings (attachments, accessories, and auxiliaries should be included with the major item of equipment to which they pertain):

General-purpose industrial machinery and equipment, including engines and turbines, compressors and pumps, conveyors, cranes, derricks, hoists and winches, industrial trucks, trailers, tractors, and stackers, and fan and blower equipment.
Electrical machinery and apparatus, including rotating equipment, transmission and distribution equipment, motor starters and controllers.
Special industry machinery (machinery for industries requiring specialized machines).
Metal-working machinery, including machine tools, primary and secondary metal forming and cutting machinery and equipment.
Office machines.
Motor vehicles.
Furniture and fixtures.
Miscellaneous machinery and equipment.

NOTE: In order to assist in classifying property as specified above, it is expected that a supplement will be issued at an early date setting forth alphabetically some 1,500 items and types of property frequently encountered in contract terminations, and indicating under which of the classifications specified in these Supplementary Instructions particular property should be listed. The Standard Commodity Classification Number for each item and type will also be indicated.

Form With Respect to the Removal of Property From Contractor's Plants Upon Termination

§ 815.950 *Suggested form of receipt.*

The United States of America (government) hereby acknowledges receipt from _____ (contractor) of the property listed _____[1] and claimed by the contractor to be allocable to terminated war contract(s) number(s) _____ and title to which has been tendered by the contractor free and clear of all liens and encumbrances. Title has been accepted by the government in compliance with the contractor's demand that the property be removed from his plant(s) pursuant to Procurement Regulation No. 15. The execution of this receipt is without prejudice to any determination of the allocability of the property to the terminated portion(s) of said contract(s). If it is determined prior to final settlement that any of said property is not so allocable, then the government, in arriving at the amount of the final settlement will take into account either the disposal value of such property at the time of removal or the proceeds realized from the disposal of such property, or will return the property to the contractor at government expense, all at the election of the government; and after final settlement the contractor will have no claim against the government by reason of such property.

CONTRACT WITH WAR CONTRACTOR FOR STORAGE AND SERVICE

This Contract entered into pursuant to the First War Powers Act and Executive Order No. 9001 this _____ day of _____, 194__ by and between the United States of America (hereinafter referred to as the Government), represented by the Contracting Officer executing this contract and _____

_____

[1] a corporation organized and existing under the laws of the State of _____

[1] a partnership consisting of _____

_____

[1] an individual trading as a _____

_____

of the city of _____ in the State of _____ (hereinafter called the Contractor); Witnesseth:

Whereas Contract(s) was (were) entered into between the Contractor and the Government numbered as follows: _____; and

Whereas said contract(s) provide(s) for termination of such contract(s) at the convenience (option) of the Government, and the Government has issued notice of termination thereof; and

Whereas the Contractor has submitted to the Government an inventory of property in Schedule "A" attached hereto which it certifies is allocable to the aforementioned terminated contract(s) or has been furnished to the Contractor by the Government in connection therewith and has requested that the Government take and remove said property; and

Whereas the Contractor is willing to store the property for the Government, and the Government has agreed to such storage at the Government's expense;

Now, therefore, in consideration of the mutual promises of the parties hereto, it is agreed as follows:

ARTICLE 1. *Transfer of title.* The Contractor (without prejudice to any right which the Contractor may have to compensation for such property in connection with the termination settlement of said terminated contract(s) does hereby transfer to the Government, free and clear of all liens and encumbrances, title to the property set forth in said Schedule "A", as it may from time to time be amended (hereinafter referred to as the property), which is not already Government-owned; and in furtherance thereof the Contractor agrees to furnish to the Contracting Officer such evidences of ownership and other instruments of transfer as the Contracting Officer may reasonably require; provided, however, that pursuant to Article 7 hereof and except as therein specified otherwise, the Government reserves the right to contest the allocability of any or all of the property to the terminated portion(s) of said contract(s).

ART. 2. *Services.* The Contractor agrees to perform all the services necessary in the handling, storage, and preservation of the property in the quantities and conditions set forth in said Schedule "A" for the consideration of $_____ per month.[2] The property is on the date hereof in the possession of the Contractor in the quantities and conditions set forth in said Schedule "A". With the consent of the parties Schedule "A" may be amended from time to time by the addition of other property. In the event property is so added or deliveries are made pursuant to Article 11 hereof, the compensation to be paid to the Contractor shall be equitably adjusted by mutual agreement of the parties hereto. If the parties fail to agree upon the adjustment to be made, the dispute shall be determined as provided in Article 21 (Disputes) hereof.

ART. 3. *Contract period.* (a) The Contractor agrees to perform the services described in Article 2 hereof beginning on _____, until this contract shall be terminated by either party hereto giving to the other 30 days' previous notice in writing.

(b) Storage charges are per month. Any fraction of a month shall be deemed a full month. A storage month shall extend from a date in one calendar month to, but not including, the same date of the next succeeding calendar month; but if there be no corresponding date in the next succeeding calendar month, it shall extend to and include the last day of the month. When the last day of a final storage month falls on Sunday or a legal holiday, the storage month shall be deemed to expire at midnight on the next succeeding business day.

ART. 4. *Location of storage space.* The property shall be stored at the following premises _____

ART. 5. *Inspection.* The Government reserves the right to inspect at any time the Contractor's storage space and the property stored hereunder.

ART. 6. *Segregation of property.* All the property shall be kept separate from all other property whether or not such property may, by law or by custom, be considered fungible. This does not require, however, that the property be stored in separate rooms, on different floor levels from other similar property, or in a particular space.

ART. 7. *Allocability.* (a) Except as otherwise specifically provided in this Article, as it may from time to time be amended, or in any other agreement, the Government does not concede, and may contest, the allocability of any of the property to the terminated portion(s) of said contract(s). If it is determined prior to final settlement of the terminated contract(s) that any of the property is not allocable to the terminated portion(s) thereof, then the Government, in arriving at the amount of the final settlement, will take into account either the disposal value of the property at the time of removal or the proceeds realized from the disposal of the property, or will return the property to the contractor at government expense, all at the election of the Government; and after final settlement the contractor will have no claim against the Government by reason of such removal or disposition.

(b) The parties hereto agree that the property identified as below indicated is allocable to the afore-mentioned terminated contract(s):[3]

ART. 8. *Revision of storage charges.* In the event it is determined that all or any part of the property is not allocable to the terminated portion(s) of said contract(s), the amount of consideration set forth in Article 2 hereof shall by mutual agreement of the parties hereto be revised downward retroactively to and including the month in which such property was first stored hereunder. The revised amount of consideration shall continue in effect until a subsequent revision in accordance with the terms of this Article or adjustment pursuant to Article 2 hereof. If the parties fail to agree upon the revision to be made, the dispute shall be determined as provided in Article 21 (Disputes) hereof. Any revised amount of consideration shall be embodied in a supplemental agreement to this contract. If the Contractor has already been paid for the month or months as to which the amount of consideration is revised, the Government shall be entitled to a credit on all payments thereafter due the Contractor for the excess paid; or if so ordered by the Contracting Officer, the Contractor shall immediately refund to the Government the amount of such excess.

ART. 9. *Watchmen or guards—plant protection.* In addition to the requirements for the care of the property contemplated by Ar-

ticle 14 hereof, the Contractor shall maintain in and about the storage space such adequate plant protective devices and shall employ such watchmen, guards and other personnel as the Contracting Officer may direct in writing, to prevent espionage, sabotage, and other malicious destruction or damage. If, pursuant to the Contracting Officer's written direction the Contractor incurs any additional expenses during the period the property is stored pursuant to this contract, the Contractor shall be paid a reasonable amount therefor. If the parties are unable to agree on an amount, the dispute shall be determined as provided in Article 21 (Disputes) hereof.

ART. 10. *Payments.* The Contractor shall submit monthly to the Contracting Officer a properly certified invoice for all accrued charges under this contract for the preceding storage month. Recognition is given to the fact that the Government fiscal year ends on 30 June. Payment for charges accruing hereunder after that date shall be contingent upon the availability of appropriations therefor.

ART. 11. *Deliveries.* Deliveries of all, or from time to time part, of the property from storage space to the Government at the storage site or to its designated carrier or transfer agent will be accomplished by the Contractor on receipt of a written order from the Government. Plus or minus tolerances of quantities and weights within reasonable limits in accordance with good commercial practice will be accepted. The Contractor shall be paid a reasonable amount for any charges for drayage to the said designated carrier or transfer agent incurred at the direction of the Contracting Officer. In the event that the parties fail to agree upon the reasonable amount to be paid for drayage charges, the dispute shall be determined as provided in Article 21 (Disputes) hereof.

ART. 12. *Waiver of lien.* It is understood and agreed that the Contractor has no warehouseman's lien on the property and will not assert any warehouseman's lien thereon.

ART. 13. *Transfer for administration.* This contract may be transferred by the Government at any time, in whole or in part, to any Government department or governmental agency for administration purposes.

ART. 14. *Liability for care of goods.* The Contractor shall be liable for any loss or injury to the property caused by his failure to exercise such care in regard to it as a reasonably careful owner of similar goods would exercise, but he shall not be liable for any loss or injury to the property which could not have been avoided by the exercise of such care.

ART. 15. *Records of government-owned property.*

is designated as the officer to maintain the necessary property records in connection with this contract.

ART. 16. *Federal, state and local taxes.* (a) The consideration provided herein includes all applicable Federal, state and local taxes in effect at the date of this contract, except that it does not include any taxes on the property stored under this contract.

(b) If after the date of this contract the Federal Government or any state or local Government shall impose, remove or change (including any change by the removal by statute of an exemption available to the contractor for the purposes of this contract) any tax or charge upon the transportation of, storage or privilege of storing, the property, which tax or charge must be borne by the Contractor because of a specific contractual obligation or by operation of law; and, if in case of an increase in such an existing tax or the imposition of such a new tax, the Contractor has paid such tax or charge to the Federal Government or to a state or local government, or any other person; or, in case of a decrease or elimination of any such tax, and the Contractor is relieved to that extent; then the consideration named herein will be increased or decreased accordingly, and any amount due to the Contractor as a result of such change will be charged to the Government and entered on vouchers (or invoices) as a separate item: Provided, however, that the Government reserves the right to issue to the Contractor in lieu of such payment a tax exemption certificate or certificates acceptable to the Federal Government or state or local government, as the case may be. The amount of any adjustment pursuant to this paragraph (b) may be determined by a written agreement between the parties hereto. Nothing contained herein shall be construed as requiring the Government to reimburse the Contractor for any Federal, state, or local income taxes, income surtaxes or excess profits taxes or any state or local property taxes, except as provided in paragraph (c) hereof.

(c) If after the date of this contract the Contractor incurs any state or local property tax with respect to the property allocable to the aforementioned terminated contract(s), the consideration will be increased in the manner set out in paragraph (b) hereof.

(d) In the case of any state or local tax or charge which the Contractor contends is chargeable to the Government because of the provisions of this Article, or any other provision of this contract, the Contractor agrees to refrain from paying such tax or charge upon the direction of the Contracting Officer (in which event the Government will save the Contractor harmless from penalties and interest incurred through compliance with the direction of the Contracting Officer not to pay such tax); to take such steps as may be directed by the Government to cause such tax or charge to be paid under protest; to preserve, and, if so directed by the Contracting Officer, to cause to be assigned to the Government any and all rights to the abatement or refund of such tax or charge; if so requested, to permit the Government to prosecute any claim, litigation or proceeding for the refund of such tax in the name of the Contractor, and to furnish to the Government all reasonable assistance and cooperation requested by the Government in any litigation or proceeding for the recovery of such tax or charges.

ART. 17. *Eight-hour law.* (§ 803.346)

ART. 18. *Anti-discrimination.* (§ 803.325)

ART. 19. *Officials not to benefit.* (§ 803.322)

ART. 20. *Covenant against contingent fees.* (§ 803.323)

ART. 21. *Disputes.* (§ 803.326)

ART. 22. *Assignment of rights hereunder.* (§ 803.365)

ART. 23. *Definitions.* (a) The term "Secretary of War" as used herein shall include the Under Secretary of War, and the term "his duly authorized representative" shall mean any person or board authorized by the Secretary of War to act for him other than the Contracting Officer.

(b) Except for the original signing of this contract, and except as otherwise stated herein, the term "Contracting Officer" as used herein shall include his duly appointed successor or his authorized representative, or in the event of transfer pursuant to Article 13 hereof, the person designated as Contracting Officer by the Government department or governmental agency to which this contract is transferred.

ART. 24. *Alterations.* The following changes were made in this contract before it was signed by the parties hereto:

NOTE: When in the opinion of the Contracting Officer the circumstances so require, special articles may be added to this contract to provide for particular methods of storing, handling or preserving the property. Such articles may specify that certain items or groups of items may be placed in outside storage or should receive special maintenance. It may also be desirable in some cases to specify particular arrangements of the property—for example, between aisles or otherwise in order to permit ready access to, and visible inspection of, each lot of property, in a particular type of stacks so as to protect property or insure maximum use of storage space; or in accordance with necessary safety requirements.

NOTE: Here follows Appendix A consisting of Directive Orders 1 to 6 of the Office of War Mobilization, set forth as paragraphs 15-1000 to 15-1006.2. This material was included for purposes of information only. See 9 F.R. 478, 2251, 5192, 5193, 6135.

SUBPART A—INTRODUCTION

§ 816.1601 *General.* The priorities system is a vital control in war production. It is the means by which one program is preferred over another program when a conflict in delivery dates develops and the production of one item must be placed before that of another item. In this manner the more urgent need is given precedence over the lesser need.

§ 816.1602 *War Production Board.* Since priorities relate not only to military procurement, but also to indirect military and civilian procurement, the War Production Board has been given the primary authority to prescribe and administer the priorities system and the distribution of materials among competing claimants.

§ 816.1603 *Army and Navy Munitions Board.* The Army and Navy Munitions Board (ANMB), under delegated authority from the War Production Board, coordinates the extension of preference ratings by the Army, Navy, certain government agencies, and foreign governments.

§ 816.1604 *Scope of part.* (a) These instructions do not affect interpretations of the ANMB Priorities Directive or authorizations granted thereunder. They deal principally with procedural phases of priorities and are offered as a guide to military personnel charged with the responsibility of applying the priorities system to military procurement. Since any system of this type must have flexibility, instructions such as these cannot remain static. Therefore, provision is made for the insertion of changes, as they occur, so that the instructions will at all times correctly reflect current conditions.

(b) These instructions replace and supersede Priorities Instructions dated 18 February 1942, and Priority-Allocation Instructions numbered from 1 to 11 inclusive, all of which should be destroyed, but they do not invalidate internal operating procedures and interpretations established by the individual military agencies which are not in conflict with these instructions. Priority-Allocation Instruction No. 12 (Post Exchanges), however, remains in full force and effect.

§ 816.1605 *Clearance of instructions.* It is to be especially noted that letters of interpretation or instruction concerning priorities procedures, for general distribution within technical services, must be submitted to the Production Division, Headquarters, Army Services Forces, for approval. This is necessary in order to avoid any interpretations or instructions which are not in keeping with basic priorities procedures and which tend to depart from uniformity.

§ 816.1606 *Regulations relating to priorities.* Every officer responsible for priorities should study carefully this Regulation and the basic principles of the priorities system as set forth in:

WPB Priorities Regulation No. 1.
WPB Priorities Regulation No. 3.
WPB Priorities Regulation No. 12.
WPB Priorities Regulation No. 18.
CMP Regulation No. 3.
CMP Regulation No. 5.
WPB Directive No. 23.

Copies of the above may be obtained from a War Production Board office.

§ 816.1607 *Compliance with regulations.* The success of any plan or system is dependent upon the extent of cooperation of the various units operating under it. Therefore, it is the policy of the Army to require strict adherence to all regulations, orders, directives, and instructions issued in connection with priorities. Every authenticating official who knowingly issues or causes to be issued a preference rating certificate which is found to be improper or unauthorized, either as to form or substance, will be held strictly accountable for his actions, and the certificate will be subject to revocation.

§ 816.1608 *Special priority procedures.* Special procedures have been established for the assignment of preference ratings for procurement by and for Post Exchanges and Army Specialized Training Program.

SUBPART B—DEFINITIONS

§ 816.1610 *Definitions.* For the purpose of this part definitions set forth below are established:

"Priorities directive." The ANMB Priorities Directive is a determination of relative urgency of military programs and projects.

"Priority" is the degree of precedence given to an order or contract to obtain completion, delivery, or performance on a particular date at the expense, if necessary, of competing contracts or orders of lower priority held by the same supplier or facility.

"Preference rating" is a symbol (AA-1, AA-2, etc.) assigned to a contract, order, award, or letter of intent, to establish the degree of precedence.

"Original preference rating" is the rating assigned by a certificate or WPB preference rating order to delivery of an end item, construction of a project, or use of a facility.

"Extended preference rating" is the rating applied or used by a prime contractor or subcontractor for delivery of components or materials.

"Preference rating certificate" is the instrument by which preference ratings are assigned.

"Emergency or special rating" is a rating higher than that authorized by the ANMB Priorities Directive or WPB orders, and is granted only in special cases of utmost urgency by the ANMB or WPB.

"Prime contract" is a contract or order placed by the Army or Navy, or by an approved foreign government, directly with an individual, firm, or corporation to supply military or naval material, equipment, or facilities.

"Prime contractor" is the individual, firm or corporation with whom the Army or Navy, or an approved foreign government, has placed a prime contract.

"Subcontract" is a contract or order placed with a supplier by an individual, firm, or corporation holding a prime contract or another subcontract for material or services to be incorporated in a prime contract.

"Subcontractor" is the individual, firm, or corporation with whom a prime contractor, or another subcontractor, has placed a purchase order or subcontract for materials or services to be incorporated in a prime contract.

"Authentication" is the execution, evidenced by the signature of the duly authorized official of the contractor, of the authentication statement on Form PD–3A.

"Countersignature" is the validating of a PD–3A preference rating certificate, by the signature of a duly authorized U. S. Government Official.

"Certification" is a representation by the holder of a preference rating, endorsed upon his purchase order, by means of which he extends the rating to his supplier in accordance with the terms of Priorities and CMP Regulations.

"Material" means any commodity, equipment, accessory, part, component, assembly, or product of any kind.

"Material physically incorporated" includes all commodities, accessories, parts and assemblies, or other products which are physically or chemically incorporated in the end item. Excluded are facilities, machine tools, capital equipment and repair, maintenance, and operating supplies.

"Machine tool" means any non-portable power driven, metal working machine listed in Exhibit A of War Production Board Order E–1–b, with certain exclusions set forth in that order.

"Productive capital equipment" is capital equipment (excluding machine tools) which physically processes or otherwise acts upon or handles materials or items physically incorporated in end products, or which is necessary to operate such equipment, such as cranes, furnaces, chemical tanks, turbines, generators, and machinery.

"Construction capital equipment" is equipment which is physically used in construction of projects or which otherwise acts upon or handles material or items to be physically incorporated in a construction project; such as power shovels and concrete mixers.

"Non-productive or administrative capital equipment" is capital equipment which is necessary for the operation of the administrative side of a manufacturing plant, military installation, or for a construction project, such as office equipment, plant protective equipment, and equipment for the health and well being of employees.

"Expansion" is the creation of new facility capacity by addition to existing equipment or one or more units or the installation of equipment where none existed before.

"Replacement" is a necessary installation of a similar unit of equipment of similar size to take the place of a unit previously installed and which has become useless through wear and tear or accident and which cannot be repaired.

"Training aid or device" is defined as equipment used exclusively and directly for the training of military personnel. This does not include housing, messing, administrative, or other similar operating equipment or supplies or items of individual issue or use. It includes such items as link trainers, bombing trainers, single items of mechanical equipment (or parts thereof) of ships, planes, and ordnance.

"Army," Technical Services, Services, or Military." The terms Army, Technical Services, Services and Military, as used herein, include in all cases the Technical Services, the Army Air Forces and the Service Commands. Attention is called to § 801.108 (d) and (e) which are applicable to this part.

SUBPART C—DETERMINATION OF PREFERENCE RATINGS

§ 816.1611 *Preference ratings as strategic decisions.* The Joint Chiefs of Staff of the Army, Navy, and Air Forces periodically prepare a statement of the strategic urgencies of the various parts of the Military Program. Their decisions are based on their knowledge of the type of munitions needed for the various phases of the war. For example, weapons which can be used against the enemy are more urgent than construction projects in the continental United States.

§ 816.1612 *Army and Navy Munitions Board Priorities Directive.* The strategic decisions of the Joint Chiefs of Staff are converted into industrial preference ratings and are published as the Army and Navy Munitions Board Directive. This document becomes the basis of all preference ratings assigned by the Army, Navy, and agencies under Army and Navy Munitions Board priority jurisdiction. It is a basic instrument universally required for the operation of the military priorities system.

§ 816.1613 *Overall preference rating structure.* The ANMB Priorities Directive is incorporated into the general priorities structure established by the WPB. Consequently, ratings assigned on PD–3A certificates or military CMP allotment forms (where permitted) are directly related to preference ratings assigned under CMP and Priorities Regulations, on PD–1A Forms, and under "P", "L", "M", and "E" orders.

§ 816.1614 *Implementation of the ANMB Directive.* (a) As the ANMB Priorities Directive is a broad policy document, it is necessary to issue detailed instructions to the Services responsible for procurement. Considerable flexibility is allowed the technical services in the implementation of the Priorities Directive. Separate instructions, approved by the Production Division, Headquarters, Army Service Forces are issued from time to time by the respective services of the Army.

(b) In cases where quantitative limitations are imposed in the Priorities Directive, quarterly accounting is required. It is, therefore, customarily necessary for the offices in the field to report the dollar value of ratings assigned in the various preference rating groups under specific accounting instructions. Certain services which have programmed their preference ratings for procurement and have secured advance approval, have been relieved from accounting.

§ 816.1615 *Compliance.* (a) Since preference ratings are based on war strategy, it is imperative to comply strictly with the ratings provided in the Priorities Directive. Failure to comply may easily retard vitally important programs.

(b) Compliance is also important because an incorrect rating may be extended. Extensions average 10 per contract and consequently an incorrect rating may actually result in 11 incorrect ratings. Enforcing compliance with these Instructions and with the ANMB Priorities Directive is the responsibility of the chiefs of technical services. The WPB is responsible for enforcing compliance by industry, and military personnel should report violations to WPB field offices whenever discovered.

§ 816.1616 *Preference rating structure.* (a) The current ANMB Priorities Directive and WPB documents establish the relative urgencies among programs, schedules, profits, and items of procurement as outlined below:

AAA	AA–3
AA–1	AA–4
AA–2	AA–5
AA–2X	

(b) Special means of securing higher-than-routine ratings including AAA are explained in Subpart M of this part, and application should be made through the responsible Service when such assistance is imperative.

SUBPART D—USE OF PREFERENCE RATING CERTIFICATE, FORM PD–3A

§ 816.1620 *Use of Form Pd–3A.* (a) WPB Form PD–3A is used for assigning preference ratings to "military" prime contracts and is issued exclusively by the military organizations.

(b) Form PD–3A also is used to assign preference ratings to military procurement by or for designated foreign governments, both for purchases by the technical services and by the designated foreign governments.

(c) A private contractor's procurement of machine tools and all types of capital equipment may be rated by a PD–3A certificate if the equipment is necessary for the completion of a military prime contract or subcontract. However, unless military purposes will constitute the major use of the equipment, the contractor should apply for a rating to the WPB on a PD–1A or other appropriate form. The PD–1A certificate is the civilian counterpart of the PD–3A certificate.

(d) All correspondence dealing with Form PD–3A should contain reference to the serial number of the certificate and preference rating assigned, also the contract number or purchase order number, as well as the name of the service concerned.

§ 816.1621 *Cases where PD–3A is not applicable.* Where an item is covered by a WPB Limitation Order which specifically states that a special form (other than the PD–3A will be used) the appropriate WPB form should be completed. Before issuing a PD–3A certificate for capital equipment, it is the responsibility of the purchasing and contracting officer or countersigning official to ascertain whether or not the equipment being procured is subject to any of the "L" or "M" order provisions, also to determine whether or not a PD–3A certificate may be used. WPB orders are described in Subpart O. A list of WPB Orders and Forms is available in a printed publication entitled "Priorities" which may be obtained from the War Production Board, Publications Section, Washington, D. C., and which is published monthly.

§ 816.1622 *Supplies of Form PD–3A.* Supplies of Form PD–3A should be obtained from the nearest WPB Regional or District Office.

§ 816.1623 *Copies of Form PD–3A.* The countersigning officer's copy of Form PD–3A is considered the official file copy and must be retained for six months after the completion of the contract covered. The copy marked for the Army and Navy Munitions Board may be destroyed and the War Production Board copy is required only for certificates requiring approval under Directive No. 23, explained in Subpart G of this part. Copies designated for the chief of service should be promptly dispatched.

SUBPART E—PREPARATION OF PREFERENCE RATING CERTIFICATE, FORM PD–3A, FOR PRODUCTION CONTRACTS, SPOT PURCHASES, CONSTRUCTION PROJECTS, AND CAPITAL EQUIPMENT

§ 816.1628 *Preparation of Preference Rating Certificate, Form PD–3A, for production contracts, spot purchases, construction projects, and capital equipment.* The various sections of the PD–3A certificate should be completed as follows:

(a) *Government Contract No.* The complete number of the contract or purchase order for the items covered by the certificate should be given in this space. Orders placed under Treasury Procurement Schedules must include not only the order number, but the number of the TPS contract as well. Where the PD–3A is issued to cover items in a "Letter of Intent" the date of such letter, and adequate identification symbol of such letter, shall be placed in this subpart. If the space provided is not sufficient for giving information about the "Letter of Intent", a footnote should be indicated and the complete information added at the bottom of the certificate.

(b) *Issued To.* The name of the "prime contractor" with whom the Army or Navy contract was placed is inserted here. When a PD–3A is issued for capital equipment being purchased by a military prime or subcontractor the name of the purchaser of the equipment is shown.

(c) *Address.* The address must be that one of the company where the PD–3A Form will be filed and where it can be inspected, if known, otherwise the principal office of the company.

(d) *Government Agency Placing Contract.* This section must show the name and address of the Technical Service which issued the related prime contract, purchase order, or "Letter of Intent."

(e) *Required Delivery Date.* The required delivery date must be shown as indicated by the contract involved. The delivery date must be a date subsequent to the date the preference rating certificate is issued. A preference rating certificate which does not show an actual required delivery date is not valid and shall not be honored. Such terms as "at once", "as soon as possible", "immediately", etc., are not adequate. A firm shall not accept as valid a certificate which does not carry a specific required delivery date.

(f) *Quantity Each Shipment, Dollar Value Each Shipment.* The quantity and dollar value of each shipment required by the contract should be shown in sufficient detail to provide proper control.

(g) *Description.* (1) A sufficient description of the items called for in the prime contract should be made to identify the type of material being procured or service to be performed. When the certificate assigns a rating to the construction project it should be clearly described, and the machine tools and capital equipment to be installed should be itemized wherever possible. A contractor is authorized to extend a preference rating covering a construction project only for construction capital equipment specifically listed on the PD–3A certificate or on purchase orders issued subsequently when duly approved.

(2) Wherever the contract is a secret or confidential document and the inclusion of such information in the PD–3A certificate can be considered as divulging secret or confidential information, the term, "Special" should be used in the columns calling for quantity, value, and description in lieu of such information. This procedure will make unnecessary marking the certificate "Secret" or "Confidential" and will eliminate special handling and safekeeping. However, it is considered that in most instances the secret or confidential nature of a contract is in the specifications of the items called for and not in the fact that any one firm is manufacturing any specified quantity of a particular item for any particular delivery. Since the preference rating certificate will be the property only of government officials and the prime contractor, it is felt that the above procedure is adequate in most cases.

(h) *Authentication.* The authentication is designed to make Form PD–3A applicable to authorized purchases of machine tools and capital equipment, in addition to its primary purpose of rating a prime contract. When used in connection with a prime contract, this certification merely states that the information shown on the PD–3A Form is correct as it relates to the prime contract which it covers. The issuing Government Official should countersign the certificate and forward the original to the contractor except in the case of machine tools and capital equipment. The contractor, by executing the authentication, will indicate his acceptance of the rating assigned before he commences extension of the rating covered by the certificate. Only the original copy of the certificate need be manually signed. The copies should carry the typed or stamped name and address of the Government official and the date on which the countersignature was made.

(i) *Preference Rating.* The issuing Government Official will indicate herein the preference rating applicable to the contract as determined by the current Priorities Directive.

(j) *ANMB Code or Authority.* This section should make reference to the specific instrument authorizing the rating being assigned, if covered by special authority.

(k) *Urgency Standing No.* Where the certificate covers machine tools the applicable urgency standing number, if any, should be stated.

SUBPART F—RATING PRODUCTION CONTRACTS AND SPOT PURCHASES

§ 816.1631 *Definition.* All contracts which are not specifically covered in Priorities Instructions on; Construction; Capital Equipment and Machine Tools; Maintenance, Repair, and Operating Supplies; are classified for priority purposes as Production Contracts or Spot Purchases.

§ 816.1632 *Application of ratings to production contracts and spot purchases.* Ratings are applied to Production Contracts and Spot Purchases in the following ways:

(a) CMP "A" products may be rated on PD–3A certificates or on CPM allotment forms. The rating is applicable to the authorized production schedule and may be used by the contractor to secure materials (except controlled materials) and "B" products physically incorporated in the end item and necessary to execute the authorized production.

(b) CMP "B" products and all other products except "A" products, and noncontrolled materials, are rated on PD–3A certificates. Ratings assigned to nonclassified products may be used by the contractor to secure materials and products physically incorporated in the end item and necessary to carry out the production required by the contract except that manufacturers operating under Priorities Regulation 11–B may only extend the rating received from the War Production Board. A "B" product producer must extend the ratings assigned on the allotment form by which he receives materials and may not extend his customer's rating.

§ 816.1633 *Preference ratings assigned to production contracts.* Preference ratings assigned to production contracts may not be extended to secure capital equipment.

§ 816.1634 *Indefinite contracts.* Since Priorities Regulation No. 1 states that preference ratings may be assigned only to contracts bearing definite delivery dates preference ratings may not be assigned to long term contracts issued by the Army which are indeterminate as to

amount or estimated as to delivery and under which deliveries are made subject to purchase orders issued subsequently by the using activity. Preference rating certificates should be issued by the ordering officer when placing specific amounts under such contracts. In the event that this restriction results or threatens to result in undue delay in performance of a contract, application for special assistance may be made to the Production Division, Headquarters, Army Service Forces, through the chief of the technical service covered.

SUBPART G—RATING CAPITAL EQUIPMENT AND MACHINE TOOLS

§ 816.1635 *General procedure.* Army Procurement Officers are responsible for assigning preference ratings to capital equipment and machine tools purchased by the Services or by military contractors. Current military policies require careful consideration of each equipment purchase, and officers are responsible for determining that capital equipment is actually necessary and that other facilities are not available. In addition, War Production Board Directive No. 23 requires approval by WPB field offices of priority actions involving capital equipment and machine tools with specific exceptions listed below:

(a) Where the capital equipment or machine tools are to be incorporated in command construction, as defined in War Production Board Directive No. 23. This exception is limited to equipment and tools for incorporation at the time of construction and does not include subsequent replacements, repairs, or additional equipment for command construction.

(b) Where the total value of the items rated by the instrument does not exceed $500.

(c) Where the instrument is countersigned outside the forty-eight states, District of Columbia and the Dominion of Canada.

(d) In the case of emergency purchases under the circumstances specified in Directive No. 23, paragraph (d) (3).

(e) Where the equipment or tools are for use on board ship, including floating dry docks, or for use outside the forty-eight states, and the District of Columbia for military purposes. The term "Military Purposes" includes all equipment or tools furnished to military organizations for use by military personnel of any nation.

(f) Where the capital equipment is for military operations. This would include all organizational and operational equipment for use in military establishments or by military personnel. It does not include machine tools, except machine tools to be installed in mobile equipment.

(g) Administrative capital equipment.

(h) Other cases excepted by the War Production Board. This exception may be used to cover purchases classified for purposes of military security.

§ 816.1636 *Use of Form PC–20.* Where WPB approval is required, the original and three (3) copies of Form PD–3A and one copy of PC–20 for each specific type of Capital Equipment or Machine Tool will be forwarded to the WPB Field Office. Form PC–20 is not required for administrative capital equipment nor where productive equipment is to be incorporated in a project which has been approved by War Production Board or the Army on a PD–3A or WPB–617 Form on which the equipment involved was specifically listed.

§ 816.1637 *Procedures for securing approval.* Various procedures are in operation for the review and approval of applications for assigning preference ratings to capital equipment and machine tools. Since these procedures are integrated with the administrative controls of the services, special instructions will apply to the routing, and to the military and WPB approval arrangements.

§ 816.1638 *Validation of certificates.* On all preference rating certificates coming within the scope of Directive No. 23, the statement, "Approved for Issuance", signed by the appropriate WPB official, must appear. Or, where such approval statement does not appear, the following statement may be placed on the instrument by the Army representative: "Under the terms of Directive 23, this instrument is valid without WPB approval indorsement". Cases where the approval of the War Production Board need not appear on the document include those cases covered by the specified exceptions, those cases where WPB is limited to, but has failed to take action within ten days, and those cases where the WPB has approved the transaction on a document other than the original. These provisions are applicable where contracts or purchase orders bearing a delegation of authority indorsement are used in lieu of PD–3A certificates.

SUBPART H—RATING CONSTRUCTION PROJECTS

§ 816.1639 *General.* War Production Board Directive No. 23 requires that construction projects, except command construction and certain specified exceptions, may be rated only by the War Production Board. Command construction may be rated on Form PD–3A Preference Rating Certificates by Army contracting officers.

§ 816.1640 *Command construction.* Command construction may be rated on PD–3A certificates by the Army contracting and procurement officers in the field. These certificates do not require the approval of the Army and Navy Munitions Board or of the War Production Board.

(a) Command construction, as defined in Directive No. 23, consists of projects ordered built by either the Chief of Staff, U. S. Army, or the Chief of Naval Operations, U. S. Navy, viz.: air fields; military housing; alien housing; facilities for the repair of finished items of munitions; overseas or theater of operations construction; seacoast fortifications; ports and depots; camouflage and other passive defense projects (whether or not owned and operated by the Army or Navy); emergency flood control projects having a value of less than $100,000; military hospitals; maneuver, training and staging areas and proving grounds.

§ 816.1641 *Other construction.* (a) In addition to using PD–3A certificates for command construction, the Corps of Engineers may issue PD–3A certificates, under delegated authority, for all construction supervised by the Corps of Engineers which is owned, leased, or operated by the War Department.

(b) Construction other than that included in the above, may be assigned preference ratings only by the War Production Board. Applications for preference ratings should be submitted on Form WPB–617. If the application covers a project of less than $25,000 it may be rated by a War Production Board field office.

(c) Application for amendments not exceeding $10,000 to outstanding P–19–h certificates that were issued by the Army and Navy Munitions Board, will be processed by the Army and Navy Munitions Board. Applications on Form PD–200b (WPB–1548) for such amendments will not be submitted to the War Production Board, but will be submitted through military channels to the Army and Navy Munitions Board.

(d) A PD–3A certificate for command construction or a WPB–617 Form for other construction projects, may include the capital equipment and machine tools for the project and the rating may be extended to such tools or equipment where they are specifically listed on the form. The urgency standing number of all machine tools so included should be indicated where applicable.

(e) Applications for preference ratings for construction projects must be prepared in accordance with the requirements of the ANMB List of Prohibited Items for Construction dated 8 November 1943.

§ 816.1642 *Procedures for securing approval.* Various procedures are in operation for the review and approval of applications assigning preference ratings to construction projects. Since these procedures are integrated with the administrative controls of the services, special instructions issued by the service concerned will apply to the routing, and to the military and WPB approval arrangements.

SUBPART I—MAINTENANCE, REPAIR, AND OPERATING SUPPLIES

§ 816.1648 *MRO Procurement by the Army.* (a) Maintenance, repair, and operating supply items, referred to as MRO, including capital additions not exceeding $500 in value, may be assigned preference ratings by following a simplified procedure which is based on CMP Regulations 5 and 7. A preference rating may be assigned by placing on the purchase order or contract for maintenance, repair, and operating supply items, the preference rating, identification symbol, and certification statement, as follows:

AA–1–W–MRO. The use of the preference rating or symbol on this order by the undersigned as a procuring Claimant Agency is authorized under applicable CMP Regulations.

This method of rating purchases may not be used in connection with regularly programmed MRO items which are those included in the Army Supply Program and which are rated by the PD–3A procedure.

(b) The quantity limitations of paragraph f of CMP Regulation 5 are not applicable to purchases of MRO by the Army.

(c) Priorities Regulation No. 3 of the War Production Board includes a list of items to which preference ratings may not be assigned by use of the certification statement of CMP Regulation No. 5 shown above. If it is necessary to assign a rating to an item on List B of Priorities Regulation No. 3, a PD–3A certificate and an AA–1 rating as specified in the ANMB Priorities Directive may be used.

§ 816.1649 *MRO Procurement by private contractors.* All private contractors, whether they are prime contractors or subcontractors, are governed exclusively by CMP Regulation 5 in their procurement of MRO. A service may not issue a preference rating certificate to a private contractor for MRO of the private contractor.

SUBPART J—PREFERENCE RATINGS FOR CONTRACTS BY OR FOR FOREIGN GOVERNMENTS

§ 816.1652 *Cash purchases.* The Army and Navy Munitions Board is responsible for assigning priority ratings on preference rating certificate, Form PD–3A, to prime contracts of foreign governments covering items being procured by cash purchase for the direct use of the military forces of such foreign governments.

§ 816.1653 *International Aid Requisitions.* The technical services are responsible for assigning ratings on preference rating certificate, Form PD–3A, to prime contracts placed by the Technical Services as procuring agencies pursuant to approved International Aid Requisitions filed with the War Department.

SUBPART K—EXTENSION OF PREFERENCE RATINGS

§ 816.1656 *Procedure.* (a) Preference ratings, irrespective of the manner of their original acquisition or assignment, are applied or extended by indorsing on a purchase order an appropriate certification.

(b) Where, under the provisions of CMP Regulation No. 3 or CMP Regulation No. 1, the purchase order must bear an allotment number or symbol, the certification prescribed in CMP Regulation No. 3 will be used. In all other cases, except those noted in the following paragraph, the certification set forth in Priorities Regulation No. 3 will be used. CMP Regulation No. 7 provides a standard certification which may be used in place of either of the two certifications mentioned above.

(c) Certain orders of the War Production Board in the "P" series require that a special certification or preference rating be used with respect to the extension of preference ratings to specified products or materials. Also Priorities Regulation No. 9 prescribes special requirements with respect to the application of preference ratings to certain items for export. The provisions of these orders must be complied with.

§ 816.1657 *To what ratings may be extended.* (a) Ratings may be extended to: (1) Materials and parts which will be physically incorporated into material to be delivered, including commodities which are normally consumed or converted into scrap or by-products in the course of processing. (2) Material and parts necessary to restore inventory to a practical working minimum level to the extent that deliveries from it pursuant to the rating have been made.

(b) Ratings may also be extended for the use of facilities or for repair work under the circumstances prescribed in Priorities Regulation No. 3.

§ 816.1658 *Combining ratings.* (a) Any person who has received the same preference rating by different preference rating certificates or orders, or extensions, may combine these ratings and extend them to a single delivery on a single properly certified purchase order. Preference ratings of different grades whether received by the same or different preference rating certificates or orders, or extensions, may also be extended on a single purchase order. The amount of material to which each rating is extended must be shown separately or if the material involved is of such type that the supplier can determine the effect of the extension of the rating on his own production and delivery schedules, the amount may be shown on a percentage basis.

(b) Each rating extended in combination may apply to no greater quantity of materials than if the ratings were extended by a separate instrument. However, ratings of different grades may be combined and the rating of the lowest grade extended to the total.

§ 816.1659 *B Product producers.* B Product producers may not extend the ratings received with orders but must use the ratings assigned on their allotment forms.

§ 816.1660 *Copies of preference rating extensions.* Copies of purchase orders used to extend preference ratings need not be sent to the army offices involved nor to the War Production Board.

SUBPART L—RERATING PROCEDURES

§ 816.1665 *General.* (a) Priorities Regulation No. 12 covers the rerating of contracts and purchase orders. Reratings may be made upward or downward and include any change from one category to another. For example, a contract changed from AA–2X to AA–1, or from AA–1 to AA–2X comes within the scope of this regulation. Extensions may be made of upward reratings for delivery of material which will itself be delivered on a rerated delivery or physically incorporated into material to be so delivered, including material consumed or converted into scrap or by-products as the result of processing. Also reratings may be extended for material necessary to bring inventory up to a practicable working minimum whenever, as a result of delivery on the rerating, the inventory has been impaired below that minimum.

(b) When contracts are rerated downward, extensions of the new rating must be made to all uncompleted deliveries under the original contract. This must be done within five business days following the date the downward rerating is received.

§ 816.1666 *Rerating of price contracts.* Contracting procurement and inspecting officials may rerate prime contracts for supply items and construction projects only upon specific instructions from the office of the chief of the technical service. Form PDL–2102 shall be used exclusively for this purpose, including prime contracts under the jurisdiction of the Army Air Forces. "A" products may be rerated on allotment forms.

§ 816.1667 *Rerating of subcontracts.* (a) Prime contractors and subcontractors may rerate subcontracts or portions thereof either by Form PD–4Y, or by furnishing the supplier with a duplicate purchase order carrying the appropriate indorsement for the new rating as provided in Priorities Regulation No. 3, or by letter or telegram, listing the specific purchase orders, original ratings and new ratings. If the latter course is followed, such letter or telegram should be filed with the original purchase orders. The rerating shall cover only the undelivered quantities of materials specifically raised to new levels by means of the rerating certificates PDL–2102, PD–4Y, telegram, letter, or new purchase order received by the prime or subcontractor.

(b) PD–4Y is reproducible and samples may be obtained at WPB field offices. No duplicate copies of PD–4Y certificates issued by contractors are required by WPB.

§ 816.1668 *Rerating of authorized schedules under CMP allotments.* As to those "A products where no allotment is being made at the time, the rerating will be accomplished by a letter substantially in the following form: "The authorized schedule carrying allotment number ____, as shown on the (advance) allotment previously sent to you, is hereby rerated and assigned the following preference rating."

§ 816.1669 *Extensions of reratings.* A rerating of a delivery may not be extended to anything to which the original rating could not be extended such as materials for plant improvement, expansion or constructions, to machine tools or other capital equipment.

§ 816.1670 *General provisions.* (a) No person is required by reason of rerating, to terminate or interrupt a production schedule if such termination or interruption would mean a substantial loss in production: *Provided*, That rescheduling may not be delayed for more than forty days after such rerating is received.

(b) No person shall, by reason of a rerating, divert material specially produced for an order bearing a rating higher than A–2 and deliver the same under the higher rerated order if such material is completed at the time the rerating is received or is scheduled for completion within fifteen days thereafter, unless such diversion is specifically

directed by the War Production Board, or unless the new rating is AAA.

(c) Single forms of PDL–2102, or PD–4Y may be used to rerate deliveries to be made under different contracts with the same contractor and may specify different new ratings for separate deliveries to be made under the same contract.

(d) Reratings are retroactive to the effective date of the original rating.

(e) It must be emphasized that PDL–2102 and PD–4Y are not certificates covering original ratings. They are not to be used to acquire new or additional deliveries.

SUBPART M—SPECIAL RATING PROCEDURE AND SCHEDULING ASSISTANCE

§ 816.1675 *Definition.* (a) A special rating is AAA or any rating which is higher than the rating authorized in the current ANMB Priorities Directive. This higher rating is assigned only by the Recording Secretary of the WPB or by delegated authority under certain circumstances.

(b) A special rating is not to be assigned under any circumstances by contracting, procurement, and inspecting officials. Such officials should not instruct suppliers to rearrange production or delivery schedules in anticipation of the receipt of the actual special rating authorization.

§ 816.1676 *Considerations preliminary to applying for a special rating.* (a) If a special rating is granted, delay will occur in the production of some other essential items which have actually been rated as more essential by high strategic authorities. Such a sacrifice should be requested only when the interruption is small and does not entail a lengthy delay to the items which will be displaced. In many cases special rating does more than merely divert a like amount from some other project. This is because the disruption of the manufacturing schedule may drastically cut the production of the entire plant.

(b) The choke point or bottleneck should be located. Only the most directly affected contract need be investigated. It should be determined whether the inability of the supplier to deliver with the present rating is because of higher rated orders on his own books or is due to delay in securing materials or components from sub-suppliers. A special rating should only be sought for the particular items causing the delay and only for the quantity of the item necessary to alleviate the situation.

(c) Accurate, complete and up to the minute information must be furnished with respect to the orders which will be set back and the amount of delay of those orders, if the authorization is granted. In cases where order boards of suppliers are extremely complicated or consist of large numbers of small items, the maximum time lost by the displacement may be acceptable where the subject request is minute in comparison with the capacity of the industry to produce. It is essential that one of the following be clearly established:

(1) Whose orders, what programs, what items, will be delayed and to what extent?

(2) No orders be delayed over ------ days or -------- man hours.

(3) In cases of standard production items the ratio of the quantity requested to the total daily or weekly production may be given.

(d) A showing must be made that the specifications do or do not provide for approved alternates, and if they do, that all possible sources for the approved substitutes have been exhausted, with a statement of the sources contacted. For specifications on a performance basis, a similar showing must be made.

§ 816.1677 *Procedure for applying for a special rating.* (a) When it is necessary to apply for a special rating, the following procedure is applicable: All applications except those by contractors of the Army Air Forces covering "A" or "B" Products, and all other products, should be made through the office of the chief of the technical service. The application should be accompanied by WPB Form SR–1 (12–11–42) in triplicate and such additional copies as may be required by services. All information and data requested by the form should be supplied. Attention is directed to paragraphs 3, 5, 6, 8, and 9 of the form, the answers to which must be definite. The paragraph headed, "Basic Cause of Need for Rating," in addition to other causes, should show specifically the amount of delay, both in time and quantity, which will occur if the special rating is not authorized. The office of the chief of the technical service should show specifically that the granting of the special rating is necessary in order to meet the requirements in both time and quantity of the Army program involved.

(b) In the case of applications filed by contractors in the Air Programs of the Army Air Forces, the following procedure shall apply: The contractor shall fill out an ASU–16 Report of Critical Shortage. This report will then be authenticated by the AAF resident representative concerned. The report is then sent to the Army Air Forces District Procurement Office in the District in which the contractor is situated. If the shortage cannot be relieved in the District Office, the papers are forwarded to the Aircraft Scheduling Unit or to the Office of the Assistant Chief of Air Staff, M. M. & D., depending on the nature of the item. The SR–1 Form above referred to is filled out as set forth in the preceding paragraph and filed with the Special Rating Branch through the Army Air Forces Washington Office.

§ 816.1678 *Advice as to action taken on application.* (a) If, after investigation, it is decided to assign the special rating, the WPB will send a telegram in the name of the Recording Secretary to the applicant named in paragraph 1 of the SR–1 Form. This telegram will authorize the application of the special rating only to the quantities of items specified in the telegram. The applicant should be instructed to immediately extend the rating upon receipt to this supplier. Telegrams will also be sent to the supplier in cases where it appears that the war effort can be expedited by such action but in all such cases these telegrams will be addressed to the individual who is shown as fully cognizant of the facts involved.

(b) In all cases the sponsoring technical service will be advised of the action taken upon the application for special rating by an appropriate indorsement to the transmittal communication. If the application is approved a copy of the WPB telegram granting the special rating will be inclosed with the indorsement. If the application is denied or other action taken rather than authorizing the requested special rating, a complete explanation for such action will be set forth in the indorsement. The technical service will promptly notify the applicant of the action taken upon an application when the special rating is not authorized in order that any suggested action may be followed and reconsideration requested if further details can be submitted which would warrant further consideration by the Special Rating Section.

§ 816.1679 *Requests for special scheduling.* (a) Requests for scheduling assistance for items covered by General Scheduling Order M–293 or other scheduling orders which are not available on their present production schedule to meet the requirement in either time or quantity for Army Supply Program may be submitted to the WPB through the interested technical service.

(b) These applications for scheduling assistance may be submitted on the above mentioned SR–1 Form in the same manner as requests for special ratings and will be considered by the Special Rating Section to determine the urgency of the requirements.

SUBPART N—RELATION OF PRIORITIES TO MATERIAL ALLOCATION SYSTEMS

§ 816.1685. *Systems for controlling scarce materials.* (a) Systems controlling the distribution of scarce materials, like preference ratings, are an essential part of the general scheme of effecting precedence. The most important of the procedures for controlling the distribution of materials is the Controlled Materials Plan. Only a brief review of that plan can be given in this subpart and interested officers are referred to the War Production Board CMP Regulations and the instructions on CMP issued by Army Service Forces.

(b) The Controlled Materials Plan is a system for the distribution of three common denominator materials—steel, copper, and aluminum. The available supply of these materials is divided among the Claimant Agencies (Army Service Forces, Navy, Civilian Requirements, etc.) quarterly and is allotted to manufacturers by one of two methods: All products containing controlled materials are divided into two classifications. "A" and "B" Products. "B" Products are listed in the official War Production Board "B" Product List. All products containing controlled materials not found on the official "B" Product List are "A" Products. Materials are distributed for the manufacture of "A" Products in the following manner: The manufacturer upon receiving a contract for the production of "A" Products, customarily submits an application for an allotment of the controlled materials necessary to complete the contract. The procuring agency which placed the contract makes the manufacturer an allotment of controlled materials which are necesary based on the application and an analysis of a bill of material contents. In like manner, the prime contractor in placing subcontracts for "A" Product components, passes on to his subcontractor a sufficient portion of the allotment he has received to enable his subcontractors to complete their components.

(c) A manufacturer of "B" Products files with the appropriate WPB Industry Division quarterly an application for an allotment of materials necessary for the manufacture of "B" Products by the applicant during the quarter. An allotment is made to the manufacturer by the Industry Division on a CMPL–150 Form. The "B" Product manufacturer would pass on a portion of this allotment to his suppliers of "A" Product components in the same manner as a prime contractor producing "A" Products. Allotments are not made by the purchaser to manufacturers of "B" Products whether the "B" Products are end items or components of other "A" or "B" Products.

(d) A similar procedure of direct allotment is provided for construction projects and there are special procedures for certain products in which one Claimant Agency has a predominant interest, for small warehouse purchases, and for small orders. The procedure for obtaining MRO under CMP has been referred to in subpart I of this part and is covered by CMP Regulation No. 5.

(e) A preference rating is always assigned to the authorized production schedule for an "A" Product. An "A" Product manufacturer may receive his preference rating on the allotment form or on a PD-3A certificate. This preference rating is extendible by the "A" Product manufacturer to his suppliers for all materials and components necessary to carry out the authorized production schedule, except the controlled materials.

(f) The "B" Product manufacturer shows upon his CMP-4B application the preference ratings applicable to the contracts for which he is requesting an allotment of materials. He receives his preference rating or ratings on the CMPL–150 Form and these preference ratings may be extended to his suppliers. Ordinarily the preference rating assigned to the "B" Product manufacturer on the CMPL–150 Form will conform to the pattern of the ratings of the contracts held by the manufacturer. The ratings received by the B Product manufacturer from his customers may not be extended (except AAA) but the "B" Product manufacturer in making deliveries to his customers must make these deliveries in accordance with the ratings received from the customers.

§ 816.1686 *Relationship of ratings to material control systems.* (a) The effect of a preference rating with respect to contracts for "A" Products is modified by the Controlled Materials Plan to the extent that a lower rated order for an "A" Product once accepted by the manufacturer may not be displaced by a higher rated order (except AAA) subsequently placed. That is, a manufacturer may not accept a contract rated lower than AAA if deliveries on the contract would prevent him from making scheduled deliveries on a rated contract for "A" Products previously accepted by the manufacturer.

(b) Orders for controlled materials are accepted by producers of controlled materials in the order in which they are presented. Preference ratings are not applicable to such orders and are disregarded in scheduling the production and delivery of controlled materials. Controlled materials are obtainable only if orders are accompanied by allotment symbols indicating that they are part of an allotment made by an authorized agency in the manner above described.

(c) Although CMP modifies the effect of preference ratings upon the production and delivery of "A" Products and controlled materials, it does not otherwise alter the operation of the preference rating system. For example, even under CMP, preference ratings control the production and delivery of "B" Products, of products unclassified as "A" or "B" Products, and of non-controlled materials. All procuring agencies and manufacturers, including "A" Product manufacturers, are dependent upon their preference ratings to obtain these products and materials.

§ 816.1687 *Optional procedure under Priorities Regulation No. 11–B.* An optional procedure for distributing noncontrolled materials has been established by WPB Priorities Regulation No. 11–B. This regulation provides that a manufacturer of products unclassified as either "A" or "B" Products may make application to the appropriate Industry Division of the WPB on a PD-870 Form for a preference rating for specified quantities of non-controlled materials. The authorization to the manufacturer is accompanied by preference ratings which are extendible by the manufacturer to his suppliers. A manufacturer operating under Priorities Regulation No. 11–B may not extend the ratings he receives from his customers. However, the rating received with his allotment will conform to the ratings of the contracts held by him if above certain base ratings.

SUBPART O—SUMMARY OF WPB ORDERS

§ 816.1690 *Summary of WPB orders.* (a) P-Orders are Preference Rating Orders. "Blanket" Preference Rating Orders are used to avoid paperwork by assigning ratings which may be used for more than one delivery to obtain a variety of materials not specified in the assignment of the rating. A "P" Order saves time which would be required to assign hundreds of identical ratings on individual application forms (such as PD–1A or PD–3A), when it has been determined that a certain end-use should be assigned a specific rating without restriction.

(b) P-Orders are of two general types. The "open-end" type which assigns a rating to deliveries of all material required for the production of a named end-product. There is no restriction on the quantity of material which may be obtained by use of the rating and, as a rule, any person whose operations fit into the rated category may use the rating. This type of order is seldom issued. The "pre-audit" type of P-Order gives closer control. It also assigns a blanket rating, but the rating may be used only to obtain the quantity and types of material specifically authorized after proper periodic application to the War Production Board, as set forth in the P-Order.

(c) L-Orders are Limitation Orders, and like P-Orders, are economic controls which control end-product output. Unlike P-Orders (which promote production of needed end-products), the L-Orders restrict or prohibit the manufacture of less needed end-products. The most typical L-Order is a horizontal cut which limits each manufacturer of the regulated product to a certain percentage of his production during a base period (usually a pre-war year). An L-Order may prohibit or regulate manufacture, sale, purchase, delivery, acceptance of delivery, etc. L-Orders were used to stop the production and regulate the sale of automobiles, refrigerators, etc. Other L-Orders provide standardization and simplification practices, providing that certain end-products (e. g., bicycles) may be produced only in accordance with specifications set forth in the L-Order.

(d) M-Orders are material orders. They govern the distribution or use of raw materials, e. g., copper, iron and steel, lumber, paper, etc. One type of M-Order is the "Conservation Order" which provides, for example, that copper or steel may not be used in certain listed end-products. Other M-Orders are called "General Preference Orders". These exercise a great variety of controls and are difficult to classify. The following are the most usual provisions found in M-Orders: (1) A general inventory restriction and a rule that war orders must be filled first; (2) a rule that certain listed uses shall have preference in obtaining the regulated material; (3) a rule that all purchase orders must be filed with WPB and the distribution of the material held subject to close check, with perhaps the establishment of a "kitty" or reserve pool; (4) a requirement that suppliers must report their potential supply to WPB and users report their prospective demands, permitting WPB to compare the total supply with the demand; (5) a complete allocation order, providing that no person shall deliver or take delivery of the restricted material except as specifically authorized by the War Production Board.

(e) E-Orders are Equipment Orders. They are similar in principle to the M-Orders but are used to regulate the distribution of certain vital manufacturing equipment, such as machine tools.

(f) T-Orders are Transportation Orders. This type of order regulates ship-

ments of certain listed end-products, by tank cars and tank trucks. Its purpose is to prevent unnecessary cross-hauling.

(g) U-Orders are Utilities Orders. They perform the same functions as P-Orders, L-Orders, and M-Orders, in the field of "utilities," electric power, gas, water, steam, telephone, and telegraph.

(h) R-Orders are Rubber Orders and regulate the use of rubber.

(i) S-Orders are Suspension Orders. They impose specific penalties for violations of WPB orders and regulations. They may be used to stop or limit the business operations of a concern which has failed to comply with regulations issued in the interest of the war effort.

§ 816.1691 *Appeals from L, M, and R-Orders.* Relief from the restrictions of these orders may be obtained in individual cases by (a) specific WPB authorization, or (b) by appeals to WPB. The applicable L, M, and R-Orders state which or both methods may be used. Where under the second method the applicant takes an appeal to WPB involving items or material being procured to or for the account of the Army, such appeal is referred to the Army and Navy Munitions Board for a recommendation as to its military essentiality before final action is taken by WPB. The appeal is placed with WPB not by the technical service, but by the processor of the restricted material or producer of the prohibited item. To assure appropriate military review of such appeals and support, where necessary, it is important that the applicant identify the appeal as involving military procurement. In the case of a prime or subcontractor, the military prime contract involved should be identified by the appropriate symbols of the contract, Letter of Intent, or purchase order to indicate the military end item.

§ 816.1692 *Index to orders.* All WPB orders are indexed in the monthly publication, "Products and Priorities", obtainable from the War Production Board Publications Section, Washington, D. C.

SUBPART P—PREFERENCE RATINGS FOR PROCUREMENT FROM UNIT FUNDS

§ 816.1695 *Authority delegated to Special Services Division.* Authority has been granted to the Special Service Division, Headquarters, Army Service Forces, to administer, control, and redelegate to field officers authority to issue Preference Rating Certificates, War Production Board Form PD–3A, and assign thereon the applicable rating for the procurement of items being purchased with unit or similar funds.

§ 816.1696 *Procedure.* (a) Unit or similar funds are denied in AR 210–50.

(b) Preference Rating Certificates, War Production Board Form PD–3A, may be issued by field Purchasing and Contracting Officers or Special Service Officers for purchases totaling $500.00 or less without prior approval. Purchases must not be split to avoid prior approval.

(c) Before issuance of Preference Rating Certificates, War Production Board Form PD–3A, the following must be clearly established:

(1) The Commanding Officer will state in writing that the items sought are immediately necessary.

(2) The Post Quartermaster will certify that the items are not available from Quartermaster depots or supply stocks.

(d) The statements referred to in paragraph (c) above will be attached to the issuing officers' copy of Preference Rating Certificates, War Production Board Form PD–3A, and remain on file for a period of not less than six months after completion of the transaction.

(1) In instances where an item is covered by a War Production Board Limitation Order which specifically states that a form other the PD–3A will be used, the appropriate War Production Board Form must be completed and forwarded to Priorities Liaison Officer, Fiscal Branch, Special Service Division, Headquarters, Army Service Forces, which officer in turn will analyze the application and expedite its consideration by the War Production Board.

(2) The duplicate copy of all Preference Rating Certificates issued under the above authority will be forwarded to the Priorities Liaison Officer, Fiscal Branch, Special Service Division, Headquarters, Army Service Forces.

(e) On purchases involving more than $500.00 the PD–3A certificate will be accomplished in quintuplicate and all copies will be forwarded to the Priorities Liaison Officer, Fiscal Branch, Special Service Division, Headquarters, Army Service Forces, accompanied by the statements referred to above for further consideration. Preference Rating Certificates, War Production Board Form PD–3A, should be procured from the local War Production Board Office.

§ 816.1697 *Accomplishing the PD–3A Certificate and assigning the applicable rating.* The issuing officer will be responsible for the proper accomplishment of all PD–3A certificates. The issuing officer will:

(a) Place the Contract Number, Purchase Order Number, or Requisition Number in the space provided for on the form.

(b) Insert the name of the supplier in the space "Issued to."

(c) The address of the office of the supplier where original copy of PD–3A certificate will be filed.

(d) Insert "War Department", and Station in section headed Government Agency Placing Contract.

(e) Insert actual required delivery date in applicable column, such terms as "30 days", "60 days", "At Once", et cetera are not sufficient.

(f) Insert quantity and dollar value, (which may be an estimated amount if actual value is not known) and description in applicable spaces provided for on form.

(g) For purchases amounting to less than $500.00 the issuing officer will manually countersign the PD–3A certificate and insert thereunder the name of the Post or Station and the date the certificate was actually issued.

(h) On purchases amounting to more than $500.00 the certificate will not be countersigned in the field.

(i) Insert Preference Rating "AA–3" in space provided for. In no instance may a rating higher than AA–3 be assigned on Preference Rating Certificate, War Production Form PD–3A by field issuing officers.

(j) Insert in A.N.M.B. Code No. or Authority, "1st Ind. A.N.M.B. 3–30–43, JSL".

§ 816.1698 *Out-of-Line rating.* Any request for a rating higher than AA–3 required to effect delivery for purchases from unit or similar funds must be processed as follows:

(a) The certificate will be accomplished as set forth in § 816.1697, and (after countersignature as prescribed) actually tendered to the supplier. Should the supplier state he cannot make delivery on the assigned rating, have this statement confirmed by the complete accomplishment of Form SR–1, in triplicate.

(b) Form SR–1, in triplicate, obtainable from the local office of the War Production Board, should be forwarded by the issuing officer to the Special Ratings Section, Production Service Branch, Production Division, Headquarters, Army Service Forces. Information copy should be forwarded simultaneously to Priorities-Liaison Officer, Fiscal Branch, Special Service Division, Headquarters, Army Service Forces.

VOLUME 9 NUMBER 147

Washington, Tuesday, July 25, 1944

The President

EXECUTIVE ORDER 9458

AMENDING PARAGRAPHS 6 AND 7 OF EXECUTIVE ORDER NO. 9195 OF JULY 7, 1942, PRESCRIBING REGULATIONS RELATING TO AERIAL FLIGHTS BY PERSONNEL OF THE ARMY, NAVY, MARINE CORPS, COAST GUARD, AND NATIONAL GUARD

By virtue of and pursuant to the authority vested in me by section 20 of the act of June 10, 1922, 42 Stat. 632, as amended by section 6 of the act of July 2, 1926, 44 Stat. 782, and by section 18 of the Pay Readjustment Act of 1942, approved June 16, 1942, 56 Stat. 368, it is ordered that paragraphs 6 and 7 of Executive Order No. 9195 of July 7, 1942,[1] prescribing regulations relating to aerial flights by personnel of the Army, Navy, Marine Corps, Coast Guard, and National Guard, be, and they are hereby, amended to read as follows:

"6. Each enlisted man who is on duty with the Army Air Forces or is serving in any part of the aeronautic organization of the Navy, Marine Corps, or Coast Guard and who is a qualified aircraft pilot or observer shall be required to participate regularly and frequently in aerial flights by his commanding officer. Orders for such requirement shall remain in force until revoked by the issuing authority or by a subsequent commanding officer of the enlisted man, whether in the same or another organization, except as hereinafter provided in paragraph 12. Such orders and the revocation thereof shall be reported to the Commanding General of the Army Air Forces or to such officer or officers as he may designate for the Army, the Chief of Naval Personnel for the Navy, the Commandant of the Marine Corps for the Marine Corps, or the Commandant of the Coast Guard for the Coast Guard.

"7. Each enlisted man who is on duty with the Army Air Forces or is serving in any part of the aeronautic organization of the Navy, Marine Corps, or Coast Guard and who is not a qualified aircraft pilot or observer may be required to participate regularly and frequently in aerial flights by his commanding officer. Orders for such requirement shall remain in force until revoked by the issuing authority or by a subsequent commanding officer of the enlisted man, whether in the same or another organization, except as hereinafter provided in paragraph 12. Such orders and the revocation thereof shall be reported to the Commanding General of the Army Air Forces or to such officer or officers as he may designate for the Army, the Chief of Naval Personnel for the Navy, the Commandant of the Marine Corps for the Marine Corps, or the Commandant of the Coast Guard for the Coast Guard."

Chapter X—War Food Administration (Production Orders)

[WFO 9, Amdt. 1]

PART 1220—FEED

LIMITATIONS ON SALE, SHIPMENT, AND INVENTORIES OF PROTEIN MEAL AND ON USE OF SOYBEAN PRODUCTS

Section 1220.2 (8 F.R. 16960, 9 F.R. 3475, 4319) is hereby amended as follows:

Paragraph (d) is amended to read:

(d) *Limitations on mixed feed manufacturers.* No mixed feed manufacturer shall use protein meal in the manufacture of mixed feeds, unless he used protein meal for such purpose prior to December 18, 1943. During the calendar year 1944, no mixed feed manufacturer shall use any quantity of protein meal in the manufacture of mixed feeds, which is in excess of the average quantity of protein meal used by him in the manufacture of mixed feeds during the calendar years 1942 and 1943, or 60 tons, whichever is greater: *Provided, however*, That, in computing the maximum quantity of protein meal which may be used by a manufacturer in the manufacture of mixed feeds under this paragraph, any urea used in the manufacture of mixed feeds during the calendar years 1942 and 1943 may be counted as protein meal at the rate of three tons of protein meal per ton of urea, and any urea used in the manufacture of mixed feeds after July 1, 1944, shall be counted as protein meal at such rate: *Provided, further*, That, in computing the maximum quantity of protein meal which may be used by a manufacturer in the manufacture of mixed feeds under this paragraph, any protein meal used during the calendar quarter beginning July 1, 1944, in the manufacture of cubes or pellets containing not less than 30 percent protein for the feeding of cattle or sheep on the range, which is in excess of the average quantity of protein meal used for such purpose during the corresponding quarters of the years 1942 and 1943, need not be taken into account. Whenever he deems it necessary to the orderly distribution of protein meal, the Director may limit the quantity of protein meal which any mixed feed manufacturer may use in the manufacture of mixed feeds during any part of the calendar year.

Paragraph (g) is amended to read:

(g) *Inventory limitations.* (1) No person shall accept delivery of any protein meal which, together with his inventory of protein meal, would exceed the total tonnage of protein meal needed by such person to fill his manufacturing, sales or feeding requirements, as follows:

(i) Season's requirements for fish meal; and

(ii) Ninety days' requirements for all other protein meal;

Except that: (a) Any handler or mixed feed manufacturer may accept delivery of a single carload lot (as determined under regulations of the Office of Defense Transportation) of any protein meal if individual deliveries of carload lots are not made more frequently than similar deliveries to such person in the past;

(b) Any feeder may accept delivery at any time of not to exceed 2,000 pounds of any protein meal if individual deliveries are not made more frequently than similar deliveries to such persons in the past; and

(c) Any ranchman may accept delivery of protein meal in such amounts as are necessary to provide a readily available supply of protein meal for ranch feeding purposes and to make the most economical use of transportation facilities under regulations issued by the Office of Defense Transportation.

(2) The Director may prohibit any processor from building up an inventory of protein meal in excess of either the quantity produced by him during the last fifteen days in which he produced protein meal or his inventory of protein meal on the corresponding day of the feeding year 1941–1942, whichever is greater.

Paragraph (j) is amended to read:

(j) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of protein meal, mixed feed and urea, of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

Paragraph (k) is amended to read:

(k) *Records and reports.* Every person subject to this order shall maintain for not less than two years accurate records concerning his monthly production, sales, purchases, contracts for sale or purchase, deliveries and shipments of protein meal, mixed feed and urea. Any person receiving statements pursuant to paragraph (h) shall retain such statements on file for not less than two years. In addition, the Director shall be entitled to obtain such information from, and require such reports and the keeping of such other records, by any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

Paragraph (m) is amended to read:

(m) *Violations.* In accordance with the equitable procedure, any person who violates any provision of this order may be prohibited from receiving, making any deliveries of, or using protein meal. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability, or duty created by, or to enjoin any violation of, any provision of this order.

Paragraph (q) (1) is amended to read:

(1) "Protein meal" means tankage, meat scrap, liver meal, fish meal, whale guano, corn gluten meal, and cake, meal or pellets derived from cottonseed, soybeans, peanuts, flaxseed, copra, sesame, babassu, ouricury, palm kernel and sunflower seed.

Paragraph (q) (7) is amended to read:

(7) "Mixed feed manufacturer" means any person who manufactures mixed feed for sale.

Paragraph (q) (8) is amended to read:

(8) "Mixed feed" means any feed manufactured for sale for the feeding of livestock or poultry, which contains, among other ingredients, protein meal or urea.

NOTE: All reporting and record keeping requirements of this amendment have been approved by, and subsequent reporting and record keeping requirements will be subject to the approval of, the Bureau of the Budget

in accordance with the Federal Reports Act of 1942.

(54 Stat. 676, 55 Stat. 236, 56 Stat. 176; E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 F.R. 14783)

Issued this 21st day of July 1944.

Chapter XI—War Food Administration (Distribution Orders)

[WFO 17, Amdt. 5]

PART 1407—DRIED FRUIT

RAISIN VARIETY GRAPES, ZANTE CURRANT GRAPES, RAISINS, AND ZANTE CURRANTS

War Food Order No. 17, as amended, 9 F.R. 4321, 4319 (formerly designated as Food Distribution Order No. 17, as originally issued by the Secretary of Agriculture on January 30, 1943, and as amended, 8 F.R. 1706, 12042), is further amended to read as follows:

§ 1407.2 *Restrictions relative to raisin variety grapes. Zante Currant grapes, raisins, and Zante Currants*—(a) *Definitions.* (1) "Person" means any individual, partnership, corporation, association, business trust, or any organized group of persons, whether incorporated or not.

(2) "Director" means the Director of Distribution, War Food Administration.

(3) "Raisin variety grapes" means Thompson Seedless, Muscat, and Sultana grapes, grown in Fresno, Kern, Kings, Madera Merced, Stanislaus, San Joaquin, or Tulare Counties in the State of California, in the fresh or partially dried form.

(4) "Zante Currant grapes" means the grapes of the Zante Currant variety, grown in Fresno, Kern, Kings, Madera, Merced, Stanislaus, San Joaquin, or Tulare Counties in the State of California, in the fresh or partially dried form.

(5) "Raisins" means raisin variety grapes preserved by the removal of a part of the natural moisture, and includes such fruit in the processed or unprocessed condition.

(6) "Zante Currants" means Zante Currant grapes preserved by the removal of a part of the natural moisture, and includes such fruit in the processed or unprocessed condition.

(7) "Processing" means grading, sizing, stemming, seeding, or treating raisins or Zante Currants by the use of water, steam, chemicals, or compressed or hot air.

(8) "Producer" means any person engaged in the production of raisin variety grapes or Zante Currant grapes; and such term includes, but is not limited to, any owner of such grapes at the time of the harvesting or picking of such grapes.

(9) "Packer" means any person engaged in the business of processing and packaging raisins or Zante Currants.

(10) "Dehydrator" means any person engaged in the business of drying raisin variety grapes or Zante Currant grapes by the use of artificial heat or by sun drying.

(b) *Restrictions.* (1) No producer may sell or deliver any raisin variety grapes or any Zante Currant grapes, except to (i) the Office of Distribution (including, but not being limited to, any corporate agency thereof), or (ii) any person designated by the Director, or (iii) any dehydrator for the purpose of converting such grapes into raisins or Zante Currants. No producer may, unless specifically authorized by the Director, use more than 100 pounds of raisin variety grapes or Zante Currant grapes during each calendar year for any purpose other than for conversion into raisins or Zante Currants.

(2) No person may, unless specifically authorized by the Director, purchase or accept delivery of any raisin variety grapes or any Zante Currant grapes for any purpose other than for conversion into raisins or Zante Currants.

(3) No person may, unless specifically authorized by the Director, purchase, accept delivery of, or use any raisins or any Zante Currants for conversion into alcohol, brandy, wine, any other beverage (whether alcoholic or not), any concentrate, any syrup, or any non-food product or non-food byproduct.

(4) No person may sell any raisins or any Zante Currants for conversion into alcohol, brandy, wine, any other beverage (whether alcoholic or not), any concentrate, any syrup, or any non-food product or non-food byproduct except to (i) the Office of Distribution (including, but not being limited to, any corporate agency thereof), or (ii) any person designated by the Director.

(5) On March 1 of each year each person, other than a packer, shall, without regard to existing contracts, set aside for delivery to the Office of Distribution, or any person designated by the Director, all of the unprocessed raisins produced in the then immediately preceding calendar year, or owned by or under contract to, such person on said date, and hold such unprocessed raisins so set aside for a period of one year thereafter unless, during such period, said unprocessed raisins are acquired by the Office of Distribution or a person designated by the Director.

(6) No person may sell or deliver any raisin variety grapes, any Zante Currant grapes, any raisins, or any Zante Currants with knowledge or reason to believe that such quantity, or any portion thereof, thus sold or delivered is to be used in violation of this order.

(7) No dehydrator shall convert any raisin variety grapes into raisins by any method other than sun drying, unless specifically authorized by the Director.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of raisin variety grapes, Zante Currant grapes, raisins, and Zante Currants of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in raisin variety grapes, Zante Currant grapes, raisins, and Zante Currants.

(e) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, War Food Order No. 17, Fruit and Vegetable Branch, Office of Distribution, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (e) shall not be construed to deprive the Director of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(f) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using the material subject to priority or allocation control pursuant to this order. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Director, be addressed to the Director of Distribution, War Food Administration, Washington 25, D. C., Ref. WFO–17.

(i) *Effective date.* This order shall become effective at 12:01 a. m., p. w. t., July 21, 1944. PART 1410—LIVESTOCK AND MEATS

BEEF REQUIRED TO BE SET ASIDE

War Food Order No. 75–2, § 1410.18, as amended (9 F.R. 2200, 4003, 4319, 5107) is further amended to read as follows:

§ 1410.18 *Beef required to be set aside*—(a) *Definitions.* (1) "Governmental agency" means the Army, Navy, Marine Corps, or Coast Guard of the United States (excluding, for the purposes of this order, United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations), War Food Administration (including but not restricted to any corporate agency thereof), the War Shipping Administration, and the Veterans Administration.

(2) "Northern Area of Zone 9" includes the following:

(i) Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island;

(ii) All that portion of New York east of and including the counties of Saint Lawrence, Jefferson, Lewis, and Herkimer, and east and southeast of and including the counties of Otsego, Delaware, Sullivan, Orange, Rockland, Westchester, New York, Bronx, Kings, and Richmond;

(iii) All that portion of Pennsylvania east of and including the counties of Tioga, Lycoming, Union, Mifflin, Juniata, Perry, and Franklin;

(iv) New Jersey and Delaware;

(v) All that portion of Maryland east and southeast of and including the counties of Washington, Frederick, Montgomery, Prince Georges, Charles, and Saint Marys; and

(vi) The District of Columbia.

(3) "Set aside meat" means meat of the type and grade required to be set aside, reserved, and held under this order.

(4) "Authorized purchaser" means:

(i) Any person who is under contract to sell or deliver set aside meat, or products prepared in whole or part therefrom, to a governmental agency;

(ii) Any person who has delivered set aside meat, or products prepared in whole or part therefrom, to a governmental agency, and has not replaced the set aside meat so delivered, or contained in the products so delivered, by a purchase of set aside meat under this order;

(iii) Any person who is authorized by the Director to purchase set aside meat.

(5) "Army-style beef" means (i) dressed steer carcasses weighing between 400 and 1,100 pounds, or dressed heifer carcasses weighing between 350 and 600 pounds, and (ii) graded "U. S. Choice", "U. S. Good", "U. S. Commercial", or "U. S. Utility".

(6) Any term not specifically defined herein shall have the meaning ascribed thereto in War Food Order No. 75, as amended (8 F.R. 11119, 9 F.R. 4319), or War Food Order No. 75–1, as amended (8 F.R. 11327, 9 F.R. 4319, 5888).

(b) *Class 1 and Class 2 slaughterers; Army-style beef.* No Class 1 slaughterer, and no Class 2 slaughterer who in any calendar week slaughters 52 or more head of cattle producing Army-style beef, shall deliver meat unless he shall:

(1) Set aside, reserve, and hold for delivery to governmental agencies or persons entitled to purchase set aside meat under War Food Order No. 73 (8 F.R. 13880, 9 F.R. 4319), or War Food Order No. 74 (8 F.R 13880, 9 F.R. 4319).

(i) 35 percent of the conversion weight of each week's production of beef graded "U. S. Choice" and "U. S. Good" and 35 percent of the conversion weight of each week's production of beef graded "U. S. Commercial", obtained from steers and heifers whose carcasses meet Army specifications for carcass beef or frozen boneless beef;

(ii) In the form of carcass or frozen boneless beef meeting Army specifications, 35 percent of each week's production of beef graded "U. S. Utility" produced from steers and heifers whose carcasses meet Army weight specifications; and

(iii) In the case of any slaughterer of kosher beef located in the Northern Area of Zone 9, who has registered with the Office of Price Administration as required by paragraph (d) of § 1364.407 of Maximum Price Regulation 169, as amended, the percentage applicable under (b) (1) (i) and (b) (1) (ii) hereof shall be 30 percent for all beef derived from the slaughter of steers and heifers, the forequarters or wholesale kosher cuts of which have been sold or delivered as kosher beef to bona fide buyers of kosher beef.

(2) Bone, in accordance with Army specifications for frozen boneless beef, not less than 90 percent of the beef set aside, reserved, and held in accordance with (b) (1) (i) hereof, and not less than 90 percent of the beef set aside, reserved, and held in accordance with (b) (1) (ii) hereof: *Provided, however,* That the Order Administrator may wholly or partially exempt any slaughterer from this requirement upon a proper showing that said slaughterer (i) does not have adequate facilities for boning, (ii) does not have, or is unable to obtain, sufficient personnel to bone said beef, or (iii) is unable to comply with this requirement for any reason which appears to the Order Administrator to warrant such exemption.

(c) *Federal inspection.* No Class 2 slaughterer who is subject to (b) hereof shall deliver meat unless he shall apply and qualify under the Meat Inspection Act (21 U.S.C. 71 et seq.) and the regulations applicable thereto, for Federal meat inspection of all army-style carcasses and beef required to be set aside by him under this order. No Class 2 slaughterer who becomes subject to (b) hereof by virtue of slaughtering, in any calendar week, more than 51 head of cattle producing army-style beef, and who fails to apply or qualify for Federal inspection as herein provided, shall thereafter slaughter, in any calendar week, more than 51 head of cattle producing army-style beef.

(d) *Conversion weight.* Conversion weights shall be computed in accordance with (p) of War Food Order No. 75–1. The Director may, upon written application, revise any conversion weight factor where it is shown that such factor is working an undue hardship in the preparation of certain products.

(e) *Credits allowed on deliveries.* Subject to the provisions of (f) hereof, any set aside meat delivered to a governmental agency, authorized purchaser, or person entitled to purchase set aside meat under the provisions of War Food Order No. 73, or War Food Order No. 74, may be credited against the requirements of (b) hereof for meat of the type and grade so delivered.

(f) *Certificates.* No set aside meat shall be delivered to any authorized purchaser, and no credit shall be allowed for any such delivery unless, within 10 days after delivery, the slaughterer obtains a certificate signed by the authorized purchaser, acknowledging receipt of the meat and containing the following: the name and address of both parties and the date of delivery; the contract number of the contract between the authorized purchaser and the governmental agency; and a statement by the authorized purchaser that the set aside meat so delivered, or an equivalent amount of set aside meat, will be or has been used in the fulfillment of such contract. The slaughterer shall endorse on such certificate, the conversion weight of such meat, together with a description permitting conversion in accordance with (p) of War Food Order No. 75–1. The slaughterer and the authorized purchaser shall each retain an original of

such certificate for delivery to the Director upon request. All statements contained in or accompanying such certificate shall be deemed made to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(g) *Storage; packaging.* All Army-style beef set aside and reserved under this order shall be stored in such manner as to maintain the quality thereof, and shall be prepared and packaged in accordance with Army specifications.

(h) *Authorized purchasers required to redeliver.* Each authorized purchaser who receives set aside meat under the provisions of this order shall deliver all such meat, or an equivalent amount of set aside meat, to a governmental agency or person entitled to purchase set aside meat under the provisions of War Food Order No. 73, or War Food Order No. 74.

(i) *Allocation.* The Director may, by general order or written notice to individual slaughterers, order the allocation of meat set aside under this order to or among specific governmental agencies, authorized purchasers, or persons entitled to purchase set aside meat under War Food Order No. 73, or War Food Order No. 74. In the absence of such allocation, slaughterers may, subject to (f) hereof, sell meat so set aside to any such person or agency.

(j) *Existing contracts.* The provisions of this order shall not be construed as reducing the amount of meat which any slaughterer is required to offer or to deliver under any existing contract with a governmental agency, as defined herein, or with the United States Maritime Commission.

(k) *Reports.* Every slaughterer subject to (b) hereof shall report to the Director concerning his production of and transactions in set aside meat. Such reports shall be made at such times and upon such forms as the Director may require.

(l) *Effective date.* This amendment shall become effective 12:01 a. m., e. w. t., July 23, 1944. With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 75–2, as amended, prior to said date, all provisions of said War Food Order No. 75–2, as amended, in effect prior hereto shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Bureau

Subchapter A—Income Tax and Excess-Profits Tax

[T. D. 5393]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

PART 35—EXCESS-PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INTEREST ON DEFICIENCIES AND REFUNDS AND EXTENSION OF TIME FOR FILING APPLICATIONS FOR GENERAL EXCESS PROFITS TAX RELIEF

Regulations 103, 111, 109, and 112 amended to conform to Public Law 201 (78th Congress, First Session), relating to interest on deficiencies and refunds resulting from the application of section 722 of the Internal Revenue Code and to extension of time for filing applications for general excess profits tax relief under such section, and for other reasons.

In order to conform Regulations 103, 111, 109, and 112 [Parts 19, 29, 30, and 35, Title 26, Code of Federal Regulations, 1940 Supp., Cum. Supp., 1941 Supp., and Cum. Supp., respectively] to Public Law 201 (78th Congress), approved December 17, 1943, relating to interest on deficiencies and overpayments resulting from the operation of section 722 of the Internal Revenue Code and to extension of time for filing applications for general excess profits tax relief under such section, and for other reasons, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding section 293 the following:

PUBLIC LAW 201 (78th Congress, 1st Session), approved December 17, 1943.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 2 (a) *Deficiencies.* Section 292 of the Internal Revenue Code is amended (1) by inserting immediately before the first paragraph the following: "(a) *General rule.*" and (2) by inserting at the end of such section the following:

(b) *Deficiency resulting from relief under section 722.* If any part of a deficiency for a taxable year beginning prior to January 1, 1942, is determined by the Commissioner to be attributable to the final determination of an application for relief or benefit under section 722 for any taxable year, no interest shall be assessed or paid with respect to such part of the deficiency. If any part of a deficiency for a taxable year beginning after December 31, 1941, is determined by the Commissioner to be attributable to the final determination of an application for relief or benefit under section 722 for any taxable year (excluding any portion of a deficiency of excess profits taxes constituting a deficiency by reason of deferment of tax under section 710 (a) (5), and excluding, in case the taxpayer has availed itself of the benefits of section 710 (a) (5), such portion of a deficiency under Chapter 1 as may be determined by the Commissioner to exceed any refund or credit of excess profits tax arising from the operation of section 722), no interest shall be assessed or paid with respect to such part of the deficiency for any period prior to one year after the filing of such application, or September 16, 1945, whichever is the later.

PAR. 2. There is inserted immediately preceding § 30.722–1, the following:

PUBLIC LAW 201 (78th Congress, 1st Session), approved December 17, 1943.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 722 (d) of the Internal Revenue Code (prescribing the time for filing applications for general relief under the excess-profits tax) is amended to read as follows:

(d) *Application for relief under this section.* The taxpayer shall compute its tax, file its return, and pay the tax shown on its return under this subchapter without the application of this section, except as provided in section 710 (a) (5). The benefits of this section shall not be allowed unless the taxpayer within the period of time prescribed by section 322 and subject to the limitation as to amount of credit or refund prescribed in such section makes application therefor in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. If a constructive average base period net income has been determined under the provisions of this section for any taxable year, the Commissioner may, by regulations approved by the Secretary, prescribe the extent to which the limitations prescribed by this subsection may be waived for the purpose of determining the tax under this subchapter for a subsequent taxable year.

(b) The amendments made by subsection (a) shall be applicable with respect to taxable years beginning after December 31, 1939.

PAR. 3. Section 30.722–5 (a), as amended by Treasury Decision 5264, approved May 8, 1943, is further amended to read as follows:

(a) *Requirements for filing.* Except as provided in section 710 (a) (5) and § 30.710–5 (relating to deferment of payment of excess profits tax in certain cases under section 722) and except as provided in (d) of this section, the taxpayer is not permitted to claim the benefits of section 722 in computing its excess profits tax on its return, but must compute its excess profits tax, file its excess profits tax return, and pay the tax thus shown on such return without regard to the provisions of section 722. To obtain the benefits of section 722 for any taxable year beginning in 1940 or 1941, the taxpayer must, within the period of time for filing a claim for credit or refund and subject to the limitation as to amount of credit or refund prescribed by section 322 as applicable to the taxable year for which relief is claimed, file under oath an application on Form 991 (revised January, 1943) for the benefits of section 722, unless the provisions of (d) of this section are applicable to the taxpayer. Generally, an application for relief under section 722 must be filed for an excess profits tax taxable year within three years from the time the excess profits tax return for such year was filed, or within two years from the time the tax for such year was paid, whichever is the later. See section 322 and the regulations thereunder, however, as to the specific rules relating to the period of limitation upon the filing of claims for credit or refund, and the limitations upon the amount of credit or refund.

If an application for relief on Form 991 (prior to its revision in January, 1943) for taxable years beginning in 1940 or 1941, has been filed prior to May 8, 1943, the date of the approval of Treasury Decision 5264, such application shall be considered an application for relief under section 722, but the relief for which such application constitutes a claim shall be restricted to the specific grounds stated in the application. If new grounds in addition to those set forth in such application are relied upon by the taxpayer for relief under section 722 with respect to years beginning in 1940 or 1941, a supplemental application for relief, or an amendment to the application already filed for such years, shall be filed under oath on Form 991 (revised January, 1943) prior to the expiration of the period of time prescribed by section 322 for the filing of a claim for credit or refund with respect to such years.

Except as otherwise provided in this section, the application on Form 991 (revised January, 1943) must set forth in detail and under oath each ground under section 722 upon which the claim for relief is based, and facts sufficient to apprise the Commissioner of the exact basis thereof. The mere statement of the provision or provisions of law under section 722 upon which the claim for relief is based shall not constitute an application for relief within the meaning of section 722. It is incumbent upon the taxpayer to prepare a true and complete claim and to substantiate it by clear and convincing evidence of all the facts necessary to establish the claim for relief; failure to do so will result in the disallowance of the claim. If a claim for relief is based upon section 722 (b) (5) and § 30.722–3 (e) (relating to factors other than those expressly provided by section 722 (b) (1), (2), (3), and (4) and § 30.722–3 (a), (b), (c), and (d)), the application must state the factors which affect the business of the taxpayer, which may reasonably be considered as resulting in an inadequate standards of normal earnings during the base period, and the reasons why the extension of relief under section 722 to the taxpayer would not be inconsistent with the principles underlying the provisions of section 722 (b) (1), (2), (3), and (4) and § 30.722–3 (a), (b), (c), and (d), and with the conditions and limitations enumerated therein. No new grounds presented by the taxpayer after the period of time for filing a claim for credit or refund prescribed by section 322 will be considered in determining whether the taxpayer is entitled to relief or the amount of constructive average base period net income to be used in computing such relief for a taxable year.

A separate application on Form 991 (revised January, 1943) shall be filed for each taxable year for which relief is claimed under section 722, except as otherwise provided by (d) of this section. If an application for relief (whether under section 722 prior to its amendment by the Revenue Act of 1942 or after such amendment) has been filed for any excess profits tax taxable year prior to the current taxable year for which relief is claimed, the supporting data and infor-

mation submitted with such earlier application need not be repeated on Form 991 (revised January, 1943) filed for the current taxable year provided reference is made to such earlier application as constituting part of Form 991 (revised January, 1943) filed for the current taxable year. If the grounds for relief and the amount of the constructive average base period net income claimed for use in computing the excess profits tax for the current taxable year are the same as those contained in an application for relief filed with respect to a prior taxable year, and if a constructive average base period net income has not been determined which under the provisions of (d) of this section may be used by the taxpayer in computing its excess profits tax for the current taxable year for which relief is claimed, only the first page and pertinent lines of Schedule A, Form 991 (revised January, 1943) for the current taxable year need be executed under oath provided that the data and information filed with the application for such prior taxable year are incorporated by reference in the application for the current taxable year. See (d) of this section for requirements with respect to application for the benefits of section 722 where relief has been determined for a prior taxable year.

If an unused excess profits credit for any taxable year for which an application for relief on the appropriate Form 991 has not been filed, computed on the basis of a constructive average base period net income, is to be used as an unused excess profits credit carry-over or carry-back, the taxpayer must file an application on Form 991 (revised January, 1943) for the taxable year to which such unused excess profits credit carry-over or carry-back is to be applied. The application in such case must be filed within the period of time prescribed by section 322 for the filing of a claim for credit or refund for the taxable year to which the carry-over or carry-back is to be applied. In addition to all other information required, such application shall contain a complete statement of the facts upon which it is based and which existed with respect to the taxable year for which the unused excess profits credit so computed is claimed to have arisen, and shall claim the benefit of the unused excess profits credit carry-over or carry-back. If an application on the appropriate Form 991 for the benefits of section 722 has been filed with respect to a taxable year, or if the filing of such application is unnecessary under (d) of this section, and if the excess profits credit based upon a constructive average base period net income determined for such taxable year, produces an unused excess profits credit for such year, to obtain the benefits of such unused excess profits credit as an unused excess profits credit carry-over or carry-back the taxpayer should file an application upon Form 991 (revised January, 1943), or an amendment to such application if already filed, for the taxable year to which such unused excess profits credit carry-over or carry-back is to be applied. Such application or amendment should be filed within the period of time prescribed by section 322 for the filing of a claim for credit or refund for the taxable year to which the carry-over or carry-back is to be applied. In addition to all other information required, such application or amendment should incorporate by reference the data and information submitted in support of the application filed for the taxable year for which the unused excess profits credit arose, and in addition should claim the benefit of the unused excess profits credit carry-over or carry-back. If the facts and circumstances which affected the taxpayer during the base period and during the excess profits tax taxable year to which the unused excess profits credit carry-over or carry-back is to be applied are different from those which affected the taxpayer during the base period and during the year for which the unused excess profits credit arose, the determination of the constructive average base period net income to be used in the computation of the unused excess profits credit shall be made in the light of the facts as they existed with respect to the year for which such unused excess profits credit arose. As to the extent to which the application for relief on Form 991 (revised January, 1943), or an amendment thereto, claiming the benefit of an unused excess profits credit carry-over or carry-back constitutes a claim for refund, see (c) of this section.

PAR. 4. Section 30.722–5 (c), as amended by Treasury Decision 5264, is further amended by inserting at the end thereof the following new paragraph:

No interest shall be allowed or paid with respect to any part of an overpayment for a taxable year beginning in 1940 or 1941 which is determined by the Commissioner to be attributable to the final determination of an application for relief or benefit under section 722 for any taxable year. See section 3771 (g).

PAR. 5. Section 30.722–5 (d), as amended by Treasury Decision 5264, is stricken out, and § 30.722–5 (e), as amended by Treasury Decision 5264, is renumbered § 30.722–5 (d).

PAR. 6. Section 30.722–5 (d), as renumbered by this Treasury decision, is amended as follows:

(A) By starting the second sentence after the heading as a new paragraph, and by changing the ninth word thereof to read "paragraphs".

(B) By striking out the first sentence after the heading and inserting in lieu thereof the following:

The taxpayer shall file an application for relief under section 722 for each taxable year for which such relief is claimed, regardless of whether a constructive average base period net income has been determined with respect to such taxpayer for a prior taxable year. However, if a constructive average base period net income has been finally determined under section 722 (a) with respect to the taxpayer or if permission is granted by the Commissioner after a determination which has not become final, such taxpayer may use the constructive average base period net income so determined, except as further adjustments may be required by section 711 (b), in computing its excess profits credit based on income, its adjusted excess profits net income, and its excess profits tax in any return required to be filed thereafter. If the taxpayer is of the opinion that, by virtue of a change in the factors upon the basis of which relief has been determined for a prior taxable year, it is entitled to a constructive average base period net income in a subsequent taxable year in an amount less than that previously determined, it may use such smaller amount as a constructive average base period net income in computing its excess profits tax on its return filed for such subsequent year. If upon examination of a return in which the taxpayer, in accordance with the two preceding sentences has used, in whole or in part, a constructive average base period net income previously determined, the Commissioner may, if the facts in the case warrant such action, determine that for the taxable year no constructive average base period net income under section 722 is allowable or that a constructive average base period net income is allowable in a different amount.

If all or a portion of constructive average base period net income determined for a prior taxable year is used by the taxpayer in computing the excess profits credit based on income in its return for a subsequent taxable year, such use shall be deemed to be an application by the taxpayer for the benefits of section 722 for such subsequent year to the extent of the constructive average base period net income so used in the return. Such application shall be deemed to include all the information and data submitted in support of all prior applications for relief which have been filed by the taxpayer. If the facts and circumstances which affected the taxpayer during the base period and which formed the basis of a claim for relief under section 722 (b) (4) or (5) or section 722 (c) for a prior taxable year are not present or are different during the subsequent taxable year for which all or a portion of the constructive average base period net income previously determined with respect to such claim is used by the taxpayer on its return in computing its excess profits credit, the taxpayer shall file with its excess profits tax return for such subsequent taxable year a statement containing a brief description of such facts and circumstances and an account of their effect upon the business of the taxpayer for such subsequent taxable year. For example, if a constructive average base period net income had been determined for a taxpayer because of a change in the character of the taxpayer's business accomplished through the acquisition and operation by the tax payer of an additional plant during the base period, and if such plant had been abandoned in a year subsequent to the year for which the determination had been made, the taxpayer's statement should state this fact. If it is the opinion of the Commissioner that the taxpayer is not entitled to relief for such subsequent year, or is entitled to relief in an amount less than that previously determined and used in the computation of the excess profits credit in the return for such subsequent year, the Commissioner may disallow the application for relief for that year in whole or in part.

For any taxable year with respect to which the taxpayer uses all or a portion of a previously determined constructive average base period net income in computing the excess profits tax shown on its return in accordance with this subsection and claims the benefit of the carry-over or carry-back of an unused excess profits credit, computed by using such constructive average base period net income, the taxpayer should file an application on Form 991 (revised January, 1943) claiming the benefits of such carry-over or carry-back and containing the information required by paragraph (a) of this section with respect to an unused excess profits credit carry-over or carry-back, in addition to the information required by this paragraph.

PAR. 7. Section 35.710–5 is amended by changing the first sentence after the heading to read as follows:

If a taxpayer claims the benefits of section 722 (relating to general excess profits tax relief through a constructive average base period net income), it must compute its tax, make its return, and pay its tax thus shown on the return without the benefits of such section, and must make an application for relief under section 722 within the period of time prescribed by section 322 for the filing of a claim for credit or refund.

PAR. 8. There is inserted immediately preceding section 35.722–1 the following:

PUBLIC LAW 201 (78th Congress, 1st Session), approved December 17, 1943.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 722 (d) of the Internal Revenue Code (prescribing the time for filing applications for general relief under the excess-profits tax) is amended to read as follows:

(d) *Application for relief under this section.* The taxpayer shall compute its tax, file its return, and pay the tax shown on its return under this subchapter without the application of this section, except as provided in section 710 (a) (5). The benefits of this section shall not be allowed unless the taxpayer within the period of time prescribed by section 322 and subject to the limitation as to amount of credit or refund prescribed in such section makes application therefor in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. If a constructive average base period net income has been determined under the provisions of this section for any taxable year, the Commissioner may, by regulations approved by the Secretary, prescribe the extent to which the limitations prescribed by this subsection may be waived for the purpose of determining the tax under this subchapter for a subsequent taxable year.

(b) The amendments made by subsection (a) shall be applicable with respect to taxable years beginning after December 31, 1939.

PAR. 9. Section 35.722–5 (a) is amended to read as follows:

(a) *Requirements for filing.* Except as provided in section 710 (a) (5) and § 35.710–5 (relating to deferment of payment of excess profits tax in certain cases under section 722) and except as provided in (d) of this section, the taxpayer is not permitted to claim the benefits of section 722 in computing its excess profits tax on its return, but must compute its excess profits tax, file its excess profits tax return, and pay the tax thus shown on such return without regard to the provisions of section 722. To obtain the benefits of section 722 for any taxable year, the taxpayer must, within the period of time for filing a claim for credit or refund and subject to the limitation as to amount of credit or refund prescribed by section 322 as applicable to the taxable year for which relief is claimed, file under oath an application on Form 991 (revised January, 1943) for the benefits of section 722, unless the taxpayer has deferred on its return a portion of its excess profits tax under section 710 (a) (5), or unless the provisions of (d) of this section are applicable to the taxpayer. Generally, an application for relief under section 722 must be filed for an excess profits tax taxable year within three years from the time the excess profits tax return for such year was filed, or within two years from the time the tax for such year was paid, whichever is the later. See section 322 and the regulations thereunder, however, as to the specific rules relating to the period of limitation upon the filing of claims for credit or refund, and the limitations upon the amount of credit or refund.

If an application for relief on Form 991 (prior to its revision in January, 1943) for a taxable year has been filed prior to May 8, 1943, the date of the approval of Treasury Decision 5264, such application shall be considered an application for relief under section 722, but the relief for which such application constitutes a claim shall be restricted to the specific grounds stated in the application. If new grounds in addition to those set forth in such application are relied upon by the taxpayer for relief under section 722, a supplemental application for relief, or an amendment to the application already filed for such years, shall be filed under oath on Form 991 (revised January, 1943) prior to the expiration of the period of time prescribed by section 322 for the filing of a claim for credit or refund with respect to such years.

In any case in which the taxpayer claims on its excess profits tax return, in accordance with section 710 (a) (5) and § 35.710–5, the benefit of a tax deferment under section 710 (a) (5), it must attach duplicate copies of its completed application for relief under section 722 on Form 991 (revised January, 1943) to its excess profits tax return on Form 1121. If a taxpayer files an excess profits tax return on which is deducted a tax deferment claimed under section 710 (a) (5) without attaching a completed Form 991 (revised January, 1943) thereto, the taxpayer will not be deemed to have claimed on its return in accordance with section 710 (a) (5) and § 35.710–5 the benefits of section 722. (See § 35.710–5.) In such case, the amount of tax shown on the return shall be the amount shown by the taxpayer increased by the amount of tax deferment improperly claimed. In order to obtain the benefits of section 722 with respect to the tax thus shown on the return in such a case, the taxpayer must file an application for relief under section 722 on Form 991 (revised January, 1943) within the period of time for filing a claim for credit or refund prescribed by section 322.

Except as otherwise provided in this section, the application on Form 991 (revised January, 1943) must set forth in detail and under oath each ground under section 722 upon which the claim for relief is based, and facts sufficient to apprise the Commissioner of the exact basis thereof. The mere statement of the provision or provisions of law under section 722 upon which the claim for relief is based shall not constitute an application for relief within the meaning of section 722. It is incumbent upon the taxpayer to prepare a true and complete claim and to substantiate it by clear and convincing evidence of all the facts necessary to establish the claim for relief; failure to do so will result in the disallowance of the claim. If a claim for relief is based upon section 722 (b) (5) and § 35.722–3 (e) (relating to factors other than those expressly provided by section 722 (b) (1), (2), (3), and (4) and § 35.722–3 (a), (b), (c), and (d)), the application must state the factors which affect the business of the taxpayer, which may reasonably be considered as resulting in an inadequate standard of normal earnings during the base period, and the reasons why the extension of relief under section 722 to the taxpayer would not be inconsistent with the principles underlying the provisions of section 722 (b) (1), (2), (3), and (4) and § 35.722–3 (a), (b), (c), and (d), and with the conditions and limitations enumerated therein. No new grounds presented by the taxpayer after the period of time for filing a claim for credit or refund prescribed by section 322 will be considered in determining whether the taxpayer is entitled to relief or the amount of constructive average base period net income to be used in computing such relief for a taxable year.

A separate application on Form 991 (revised January, 1943) shall be filed for each taxable year for which relief is claimed under section 722, except as otherwise provided by (d) of this section. If an application for relief (whether under section 722 prior to its amendment by the Revenue Act of 1942 or after such amendment) has been filed for any excess profits tax taxable year prior to the current taxable year for which relief is claimed, the supporting data and information submitted with such earlier application need not be repeated on Form 991 (revised January, 1943) filed for the current taxable year provided reference is made to such earlier application as constituting part of Form 991 (revised January, 1943) filed for the current taxable year. If the grounds for relief and the amount of the constructive average base period net income claimed for use in computing the excess profits tax for the current taxable

year are the same as those contained in an application for relief filed with respect to a prior taxable year, and if a constructive average base period net income has not been determined which under the provisions of (d) of this section may be used by the taxpayer in computing its excess profits tax for the current taxable year for which relief is claimed, only the first page and pertinent lines of Schedule A, Form 991 (revised January, 1943) for the current taxable year need be executed under oath provided that the data and information filed with the application for such prior taxable year are incorporated by reference in the application for the current taxable year. See (d) of this section for requirements with respect to application for the benefits of section 722 where relief has been determined for a prior taxable year.

In order to obtain the benefits of an unused excess profits credit for any taxable year for which an application for relief on Form 991 (revised January 1943) was not filed, using the excess profits credit based on a constructive average base period net income as an unused excess profits credit carry-over or carry-back, the taxpayer, except as otherwise provided in (d) of this section, must file an application on Form 991 (revised January 1943) for the taxable year to which such unused excess profits credit carry-over or carry-back is to be applied within the period of time prescribed by section 322 for the filing of a claim for credit or refund for such latter taxable year. In addition to all other information required, such application shall contain a complete statement of the facts upon which it is based and which existed with respect to the taxable year for which the unused excess profits credit so computed is claimed to have arisen, and shall claim the benefit of the unused excess profits credit carry-over or carry-back. If an application on Form 991 (revised January 1943) for the benefits of section 722 has been filed with respect to any taxable year, or if the filing of such application is unnecessary under (d) of this section, and if the excess profits credit based upon a constructive average base period net income determined for such taxable year produces an unused excess profits credit for such year, to obtain the benefits of such unused excess profits credit as an unused excess profits credit carry-over or carry-back the taxpayer should file an application upon Form 991 (revised January 1943), or an amendment to such application if already filed, for the taxable year to which such unused excess profits credit carry-over or carry-back is to be applied. Such application or amendment should be filed within the period of time prescribed by section 322 for the filing of a claim for credit or refund for the taxable year to which the carry-over or carry-back is to be applied. In addition to all other information required, such application or amendment should incorporate by reference the data and information submitted in support of the application filed for the taxable year for which the unused excess profits credit arose, and in addition should claim the benefit of the unused excess profits credit carry-over or carry-back. If the facts and circumstances which affected the taxpayer during the base period and during the excess profits tax taxable year to which the unused excess profits credit carry-over or carry-back is to be applied are different from those which affected the taxpayer during the base period and during the year for which the unused excess profits credit arose, the determination of the constructive average base period net income to be used in the computation of the unused excess profits credit shall be made in the light of the facts as they existed with respect to the year for which such unused excess profits credit is computed. As to the extent to which the application for relief on Form 991 (Revised January 1943), or an amendment thereto, claiming the benefit of an unused excess profits credit carry-over or carry-back constitutes a claim for refund, see (c) of this section.

PAR. 10. Section 35.722–5 (c) is amended by inserting at the end thereof the following new paragraph:

No interest shall be allowed or paid with respect to any part of an overpayment which is determined by the Commissioner to be attributable to the final determination of an application for relief or benefit under section 722 for any taxable year prior to one year after the filing of such application, or September 16, 1945, whichever is the later. See section 3771 (g).

PAR. 11. Section 35.722–5 (d) is stricken out and § 35.722–5 (e) is renumbered § 35.722–5 (d).

PAR. 12. Section 35.722–5 (d), as renumbered by this Treasury decision, is amended as follows:

(A) By starting the second sentence after the heading as a new paragraph, and by changing the ninth word thereof to read "paragraphs".

(B) By striking out the first sentence after the heading and inserting in lieu thereof the following:

The taxpayer shall file an application for relief under section 722 for each taxable year for which such relief is claimed, regardless of whether a constructive average base period net income has been determined with respect to such taxpayer for a prior taxable year. However, if a contsructive average base period net income has been finally determined under section 722 (a) with respect to the taxpayer or if permission is granted by the Commissioner after a determination which has not become final, such taxpayer may use the constructive average base period net income so determined, except as further adjustments may be required by section 711 (b), in computing its excess profits credit based on income, its adjusted excess profits net income, and its excess profits tax in any return required to be filed thereafter. If the taxpayer is of the opinion that, by virtue of a change in the factors upon the basis of which relief has been determined for a prior taxable year, it is entitled to a constructive average base period net income in a subsequent taxable year in an amount less than that previously determined, it may use such smaller amount as a constructive average base period net income in computing its excess profits tax on its return filed for such subsequent year. If upon examination of a return in which the taxpayer, in accordance with the two preceding sentences has used, in whole or in part, a constructive average base period net income previously determined, the Commissioner may, if the facts in the case warrant such action, determine that for the taxable year no constructive average base period net income under section 722 is allowable or that a constructive average base period net income is allowable in a different amount.

If all or a portion of a constructive average base period net income determined for a prior taxable year is used by the taxpayer in computing the excess profits credit based on income in its return for a subsequent taxable year, such use shall be deemed to be an application by the taxpayer for the benefits of section 722 for such subsequent year to the extent of the constructive average base period net income so used in the return. Such application shall be deemed to include all the information and data submitted in support of all prior applications for relief which have been filed by the taxpayer. If the facts and circumstances which affected the taxpayer during the base period and which formed the basis of a claim for relief under section 722 (b) (4) or (5) or section 722 (c) for a prior taxable year are not present or are different during the subsequent taxable year for which all or a portion of the constructive average base period net income previously determined with respect to such claim is used by the taxpayer on its return in computing its excess profits credit, the taxpayer shall file with its excess profits tax return for such subsequent taxable year a statement containing a brief description of such facts and circumstances and an account of their effect upon the business of the taxpayer for such subsequent taxable year. For example, if a constructive average base period net income had been determined for a taxpayer because of a change in the character of the taxpayer's business accomplished through the acquisition and operation by the taxpayer of an additional plant during the base period, and if such plant had been abandoned in a year subsequent to the year for which the determination had been made, the taxpayer's statement should state this fact. If it is the opinion of the Commissioner that the taxpayer is not entitled to relief for such subsequent year, or is entitled to relief in an amount less than that previously determined and used in the computation of the excess profits credit in the return for such subsequent year, the Commissioner may disallow the application for relief for that year in whole or in part.

For any taxable year with respect to which the taxpayer uses all or a portion of a previously determined constructive average base period net income in computing the excess profits tax shown on its return in accordance with this subsection and claims the benefit of the carry-over or carry-back of an unused excess profits credit, computed by using such constructive average base period net income, the taxpayer should file an application on Form 991 (revised January, 1943) claiming the benefits of such carry-over or carry-back and containing the information required by paragraph (a) of this section with respect to an unused excess profits credit carry-over or carry-back, in addition to the information required by this paragraph.

Chapter IX—War Production Board

Subchapter A—General Provisions

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 903—DELEGATIONS OF AUTHORITY

[Supplementary Directive 1Q, as Amended July 22, 1944]

RATIONING OF TIRES, TIRE CASINGS, TIRE TUBES, ETC.

Further delegation of authority with reference to the rationing of tires, tire casings, tire tubes, tire retreading and recapping materials and gasoline.

§ 903.22 *Supplementary Directive 1Q.* (a) The authority heretofore delegated to the Office of Price Administration by Directive No. 1, § 903.1, is hereby extended to include the exercise of control over:

(1) The sale, transfer, delivery or other disposition of all tires, tire casings, tire tubes, tire retreading and recapping materials, by or to any person;

(2) The use, alteration, mounting, or other disposition of tires, tire casings, tire tubes, tire retreading and recapping materials by any person; and

(3) The sale, transfer, delivery or other disposition of gasoline by any person to any consumer; the use of gasoline by any consumer, the use of gasoline substitutes or gasoline blends by any consumer in a motor vehicle, and the blending of gasoline by any gasoline dealer; and

(4) The sale, transfer, delivery or other disposition of gasoline by any person to any person other than a consumer, to the extent of requiring the delivery of such coupons, certificates or other evidence as the Office of Price Administration may prescribe as a condition to such sale, transfer, delivery or disposition.

(5) The importation by any person, for the personal use of such person, of tires, tire tubes and tire casings.

(b) The authority of the Office of Price Administration shall include the power to regulate or prohibit the sale, transfer, delivery or other disposition of tires, tire casings, tire tubes, tire retreading and recapping materials, and gasoline to, or acquisition, use, alteration, mounting or other disposition of said materials and facilities by, any person who has acted in violation of any rationing regulation or order prescribed by the Office of Price Administration.

(c) The authority delegated by this order does not include the power to limit or restrict:

(1) The quantity of the materials and facilities referred to herein obtainable by the Army, Navy, Marine Corps or Coast Guard of the United States, or by government agencies or other persons to the extent to which they acquire such materials or facilities for export to and consumption or use in any foreign country; and

(2) The manufacture of tires, tire tubes, tire casings, tire retreading and recapping materials, or the manufacture, processing, distilling or refining of gasoline; and

(3) The importation, use, sale, transfer, delivery or other disposition of airplane tires, airplane tire casings, or airplane tire tubes.

(4) The importation for testing purposes of tires, tire tubes or tire casings by any manufacturer of camelback, tires, tire tubes or tire casings; and

(5) The importation of bicycle tires, tire tubes or tire casings manufactured in the continental United States, Canada or the British Isles; and

(6) The importation from the Dominion of Canada of tires, tire tubes or tire casings manufactured in the continental United States, Canada or the British Isles; and

(7) The importation of tires, tire tubes or tire casings by diplomatic representatives of any foreign Government, for their personal use or the use of members of their staffs; and

(8) The importation of tires, tire tubes or tire casings by commercial representatives of any foreign Government, for use in their official business.

(d) As used herein:

[NOTE: Paragraphs (1) through (7), formerly paragraphs (3) through (9), redesignated July 22, 1944.]

(1) "Gasoline" means any petroleum product either commonly known or sold as gasoline (including casinghead and natural gasoline) or having a flash point below 100° Fahrenheit (closed cup test, ASTM D–56–36), except: (i) fuel oil as defined in Ration Order No. 11, naphthas, aromatics, synthetic rubber raw materials, solvents or specialties, not used or blended for use as fuel in internal combustion engines, (ii) any finished petroleum product having an octane rating of 85 or more (ASTM D–357–42T) or any component thereof, used for the propulsion of aircraft, and (iii) liquefied petroleum gases.

(2) "Motor vehicle" means any rubber-tired, self-propelled conveyance the motive power for which is furnished by an internal combustion engine designed for operation by gasoline and which is built primarily for the purpose of transporting persons or property.

(3) "Tire, tire tube, tire casing, and tire recapping and retreading materials" mean any of the foregoing made in whole or in part of any kind of rubber.

(4) "Rubber" means any form or type of natural, reclaimed, or synthetic rubber, or other similar materials.

(5) "Person" includes any individual, partnership, corporation, association, business trust, government or government agency, or any organized group of persons whether incorporated or not.

(6) "Consumer" means any person acquiring gasoline for use, including use as a component part of any manufac-

tured article, material, or compound other than gasoline. The term includes dealers and distributors to the extent that they use gasoline, or acquire gasoline for use rather than for transfer.

(7) "Gasoline dealer" means any person engaged in the business of selling or transferring gasoline, except a person who transfers, receives, or uses gasoline in such a manner as to be required to account for the state motor fuel taxes imposed thereon directly to the motor fuel tax administration of a state.

(e) This supplementary directive supersedes the delegation of authority to the Office of Price Administration made by Supplementary Order M-15-c, § 940.4, as amended, Supplementary Directive No. 1-B, § 903.3, as amended, and Supplementary Directive No. 1-H, § 903.9, as amended: *Provided, however*, That all action heretofore taken (including, without limitation, regulations or orders heretofore issued) by the Office of Price Administration pursuant thereto or pursuant to said supplementary directives as originally issued, is hereby ratified, approved and confirmed, and the authority so delegated shall continue to remain in full force and effect with respect to all such action which is not inconsistent with the terms of this directive, for all purposes including the purpose of allowing or sustaining any suit, action, prosecution or administrative or other proceeding heretofore or hereafter commenced with respect to any violation heretofore committed or right or liability heretofore incurred under or pursuant to the terms thereof.

Issued this 22d day of July 1944.

WAR PRODUCTION BOARD,
By S. W. ANDERSON,
Program Vice Chairman.

PART 903—DELEGATIONS OF AUTHORITY

[Supplementary Directive 1-X]

RATIONING OF PASSENGER AUTOMOBILES

§ 903.50 *Supplementary Directive No. 1-X; delegation of authority to the Office of Price Administration with reference to the rationing of passenger automobiles*—(a) *Supplementary Directive 1-A revoked.* Supplementary Directive 1-A is hereby revoked.

(b) *Rationing authority over passenger automobiles transferred to Office of Price Administration.* In order to permit the efficient rationing of passenger automobiles, the authority delegated to the Office of Price Administration by Directive 1 (§ 903.1) is hereby extended to the exercise of control over the sale, transfer or other disposition of passenger automobiles by any person to any other person, and the use or alteration of passenger automobiles by any person, including without limitation (1) the Army and Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, and (2) Government agencies or other persons acquiring such products for export to or for use in any foreign country.

(c) *Limitations on the authority delegated.* The power, authority and discretion hereby delegated to the Office of Price Administration in respect to the rationing of passenger automobiles shall be subject to the terms and conditions specified in said Directive 1, insofar as they are not inconsistent with this Supplementary Directive 1-X, and shall be exercised under the following conditions:

(1) Quotas have been or may be established by the War Production Board from time to time, fixing the number of passenger automobiles to be made available from the existing stockpile of such vehicles and from new production to various Government agencies. The quota established for any agency may not be altered except by the War Production Board. Within the limits of its own quota each such agency shall determine the use to which its passenger automobiles are to be put and the Office of Price Administration shall not refuse to authorize the transfer of a passenger automobile to such agency on any ground other than that its particular quota has been exhausted.

(2) Quotas have been or may be established by the War Production Board from time to time, fixing the number of passenger automobiles to be made available from the existing stockpile of such vehicles and from new production to the Office of Defense Transportation for meeting essential civilian needs. Subject only to whatever quota may be established, the Office of Price Administration shall authorize the transfer, sale, delivery, use, alteration or other disposition of passenger automobiles pursuant to such orders and regulations and pursuant to such standards of eligibility and need as it may deem necessary in the public interest and to promote the national defense.

(3) The Office of Price Administration shall exercise no authority over the production of passenger automobiles produced after the effective date of this Directive 1-X or their distribution by manufacturers to distributors and dealers. Nor shall it require from manufacturers any reports concerning such production and distribution.

(4) The authority of the Office of Price Administration shall include the power to regulate or prohibit the sale, transfer, delivery or other disposition of passenger automobiles to, or the acquisition, use, alteration or other disposition of passenger automobiles by, any person who has acted in violation of any rationing regulation or Order prescribed by the Office of Price Administration.

(d) *Reports to War Production Board.* The Office of Price Administration shall furnish reports at monthly intervals to the War Production Board covering the number of passenger automobiles transferred from each of the established quotas, and shall furnish such other reports as may be required by the Board.

(e) *Definition.* "Passenger automobile" means any automobile, built upon a standard or lengthened passenger car chassis having a seating capacity of not more than ten (10) persons, including taxicabs but not including ambulances, hearses or station wagons.

(f) *Modification of this Directive 1-X.* The War Production Board may from time to time amend this Directive 1-X in such manner and to such extent as it may determine to be necessary. This directive modifies Directive 1 (§ 903.1) to the extent applicable and supersedes the delegation of authority to the Office of Price Administration made by Supplementary Directive No. 1A (§ 903.2), as amended: *Provided, however*, That all action heretofore taken (including without limitation, regulations or orders heretofore issued) by the Office of Price Administration pursuant to Supplementary Directive No. 1A as originally issued and amended, is hereby ratified, approved and confirmed, and the authority so delegated shall continue to remain in full force and effect with respect to all such action which is not inconsistent with the terms of this directive, for all purposes including the purpose of allowing or sustaining any suit, action, prosecution or administrative or other proceeding heretofore or hereafter commenced with respect to any violation heretofore committed or right or liability heretofore incurred under or pursuant to the terms thereof.

Issued this 22d day of July 1944.

PART 903—DELEGATIONS OF AUTHORITY

[Supp. Directive 1A, Revocation]

Section 903.2 *Supplementary Directive 1A.* Supplementary Directive 1A is hereby revoked as of July 22, 1944. This revocation does not affect any liabilities incurred under the directive. Supplementary Directive 1A is superseded by Supplementary Directive 1-X, effective July 22, 1944.

Issued this the 22d day of July 1944.

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 FR. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-580]

JOHN POSTON

John Poston, of 725 Virginia Street, Berkeley, California, is a building contractor. In March or April of 1943, he began construction of a two-unit duplex dwelling on premises at the northeast corner of the intersection of Santa Fe Avenue and Cornell Avenue, Berkeley, California, without authorization from the War Production Board and at an estimated cost of $5,000, which amount exceeded the limit of $200 permitted by Conservation Order L-41, in violation of that order. John Poston was aware of War Production Board restrictions on construction, or, from his experience, should have been aware of them, and his doing this construction without authorization constituted a violation which was the result of gross negligence on his part.

This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.580 *Suspension Order No. S-580.* (a) Neither John Poston, his successors or assigns, nor any other person, shall do any construction on the premises at the northeast corner of the intersection of Santa Fe Avenue and Cornell Avenue, Berkeley, California, including putting up or altering the structure, and including the making of any connections with any utility or service as defined in or governed by Utilities Order U-1, or any supplementary Utilities Order of the U-series, as amended from time to time, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve John Poston, his successors or assigns, from any restrictions, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 21, 1944.

Issued this 11th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1181—PASSENGER AUTOMOBILES

[General Conservation Order M-130, Revocation]

Section 1181.1 *General Conservation Order M-130* is hereby revoked as of July 22, 1944. This revocation does not affect any liabilities incurred under the order. Conservation Order M-130 is superseded by Amendment No. 14 to the Office of Price Administraotion New Passenger Automobile Rationing Regulations Order No. 2-B, as amended July 22, 1944.

Issued this 22d day of July 1944.

PART 1293—HAND TOOLS SIMPLIFICATION

[Limitation Order L-157, Schedule VIII as Amended July 22, 1944]

WOOD-BORING BITS

§ 1293.9 *Schedule VIII to Limitation Order L-157*—(a) *Definitions.* For the purposes of this order:

(1) "Producer" means any person who manufactures, forges or otherwise fabricates wood-boring bits.

(2) "Distributor" means any person who purchases wood-boring bits for resale.

(3) "Ultimate consumer" means any other purchaser of wood-boring bits.

(4) "Wood-boring bit" means any tool for boring wood.

(5) "Style" means a given combination of twist and cutting head, exclusive of point.

(b) *Simplified practices.* After January 22, 1944, no producer may begin the manufacture or fabrication of any wood-boring bit which does not conform to the types, styles, sizes, dimensions, and grades set forth in Appendix A of this schedule. Notwithstanding this provision a producer may manufacture and fabricate non-conforming wood-boring bits to fill orders which were on his books before January 22, 1944. Non-conforming wood-boring bits may not be delivered or shipped by a producer after April 22, 1944.

(c) *Exemptions.* The following are exempt from the restrictions established by paragraph (b) of this schedule:

1. Adjustable countersinks.
2. Integral countersink bits.
3. Machine center bits.
4. Plug cutters.
5. Screw driver bits.
6. Bung-boring bits.
7. Spike-boring machine bits.
8. Bits for hollow mortising chisels.
9. Bits requiring screw shanks and tapered shanks.
10. Handled gimlets.
11. Small fluted drills for spiral and other hand drills.
12. Wood-boring bits of the types described in Appendix A which are of diameters greater than the maximum diameters listed for the respective types: *Provided*, That they conform to the provisions of Appendix A as to finish. (This provision does not apply to Expansive Bits, Type 10.)
13. Wood drills with points other than the point shown in Fig. 8.[1]

(d) *Sets.* No producer shall make for his inventory and no distributor shall acquire for his inventory or shelf stock any sets of wood-boring bits. Any number of bits in excess of one which have been grouped for purposes of sale as a unit shall be deemed a set for the purposes of this paragraph. Nothing contained in this paragraph shall prohibit a producer from producing sets to fill a specific order placed directly or indirectly by an ultimate consumer, or a distributor from making up a set or sets to fill a specific order placed by an ultimate consumer.

Issued this 22d day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A

NOTE: Appendix A amended July 22, 1944.

Material. Shall be of a good grade of steel which shall have a carbon content of not less than 0.45 percent.

Style. No type of wood-boring bit shall be made in any styles other than those described herein, and no producer shall make any type in more styles than the number permitted herein.

Grade. No producer shall make any type and style of wood-boring bit in more than one grade.

Finish. All wood-boring bits shall be free from scale. Polishing shall be limited to that necessary to assure the proper functioning of the tool, and shall not be finer than that resulting from the use of a 90-grit emery wheel, dry, when good commercial polishing technique is employed. The round and square portions of hand bits, including expansive bits, shall not be polished. The groove or hollow of the flight of ship-twist bits shall not be polished, except that the groove of power driven ship-twist bits 5/8 inch or less in diameter may be polished. All bits may be given a protective coating of anti-corrosion compound.

TYPE 1. *Auger bits*—May be made in both double twist, and solid center single twist. Bits shall be forged from a single piece of steel and shall have a square tapered bit stock shank, screw point, two spurs and two

Tolerances:
Bit diameter: plus 0.015 inch.
Length over-all and length of twist: Plus or minus 10 percent.

TYPE 2. *Car bits*—May be made single twist, double twist, or solid center single twist and shall have a square tapered bit stock shank and screw point. Single twist bits may have an extension lip and a single spur on opposite sides of the point (Fig. 3), or have a cutting edge and a side lip located at right angles to the cutting edge (Fig. 4), while double twist and solid center single twist bits shall have two spurs and two extension lips so beveled as to form cutting edges (Fig. 1 and Fig. 2). No producer shall make car bits in more than two styles. Car bits shall be forged from a single piece of steel and may be made in over-all lengths of 12 and 18 inches, and only in the following sizes:

Length of twist: Plus or minus ½ inch.

[1] Bits 12 inches over-all shall have 8 inch twist. Bits 18 inches over-all shall have 12 inch twist.

TYPE 3. *Auger bits (machine except ship auger)*—May be made in both double twist and solid center single twist. Bits shall be forged from a single piece of steel, and shall have a round shank having a diameter of ¼ inch and a length of 2 inches, which may be flattened on one side to a width of ⅜ inch and a length of 1½ inches, screw or brad point, and two spurs and two extension lips so beveled as to form cutting edges (Fig. 1 and Fig. 2). Machine auger bits shall be made only in the following sizes:

Length overall and length of twist: Plus or minus 3/16 inch.

TYPE 8. *Plug bits, hand, with threaded guide*—Shall be made double twist with a threaded cylindrical guide, axially located, and shall have two spurs and two extension lips so beveled as to form cutting edges (similar to Fig. 7) and a square tapered bit stock shank. They shall be made only in the sizes permitted for type 7 plug bits.

TYPE 9. *Plug bits, hand, with screw point*—Shall be made double twist with a screw point in lieu of a cylindrical guide (similar to Fig. 7) and a square tapered bit stock shank. They shall be made only in the sizes permitted for type 7 plug bits.

TYPE 10. *Expansive bits*—May be made in plain, screw, or gear adjusting styles and shall have square tapered bit stock shanks. Two cutters shall be used to bore holes of any diameter within the capacity range of the bit, except that a third cutter may be made for use in the larger bit for boring holes up to four inches in diameter. Expansive bits shall be made only in accordance to the following requirements:

Tolerance on over-all length: Plus or minus 3/16 inch.

[1] Hand bits shall have a square tapered shank approximately 1 3/16 inches long by 7/16 inch square at large end, with taper of 5 degrees on a side or a total of 10 degrees.

[2] Machine bits up to and including 2 1/16 inches in diameter shall have a round shank ½ inch in diameter; bits more than 2 1/16 inches in diameter shall have round shanks ¾ inch in diameter. Tolerance on over-all length: Plus or minus ¼ inch.

TYPE 12. *Gimlet bits, double cut*—Shall be forged from a single piece of steel and the cutting edges shall be sharpened and terminate in a point. Gimlet bits of this type shall have square tapered bit stock shanks, and shall be made only in the following sizes:

Nominal size (largest diameter of twist) (inch)	Length		Length of square of shank

Length over-all and length of twist: Minus 3/16 inch.
Length of square of shank: Plus or minus ¼ inch.

TYPE 13. *Drills and countersinks for boring for wood screws:*

(a) *Tapered drills (twisted section tapered to correspond with threaded part of screws)*—Shall be made double drill twist (Fig. 8) and shall have a round shank and two permissible over-all lengths of not more than 4½ and 6 inches respectively. They shall have a length of twist of not more than 2 inches, and may be made only in sizes having larger diameters of 3/16, 7/32, and ¼ inch.

(b) *Straight drills*—Shall be made double drill twist (Fig. 8), shall have a round shank and two permissible over-all lengths of not more than 4½ and 6 inches respectively. They shall be made only in sizes of ⅛, 5/32, 3/16, 7/32, ¼, 9/32, 5/16, 11/32, ⅜, and 7/16 inch.

(c) *Countersinks* (with square tapered bit stock shanks)—Shall be made only in rose pattern, having an over-all length of 4½ inches, and in one size with largest cut of ¾ inch. The included angle between the sides of the cutter shall be 82 degrees.

TYPE 14. *Wood drills having a point as shown in Fig. 8.* Shall be made double drill twist and shall have a tapered square bit stock shank and an over-all length ranging from approximately 3½ to 10 inches depending on the diameter, or a straight shank and an over-all length ranging from approximately 2½ to 6 inches. These drills may be made in sizes from 1/16 inch to 1 inch by thirty-seconds.

TYPE 15. *Bell hangers or electricians drills*—Shall be made double drill twist (Fig. 8), and shall have a tapered square bit stock shank. May be made in over-all lengths of 12, 18, and 24 inches only, and in diameters from 3/16 to 5/8 inch by sixteenths, and ¾ inch.

TYPE 16. *Dowel bit*—Shall be made double twist with two spurs and two extension lips so bevelled as to form cutting edges (Fig. 1). May have a tapered square bit stock shank or a round machine shank and may be made in sizes from 3/16 to 1 inch by sixteenths, having an over-all length not to exceed 5 inches.

TYPE 17. *Machine drills (double drill twist)*. May be made with spurs and brad point and with tapered head (Fig. 8) and shall have straight round shank or round shanks, having a diameter of ½ inch and a length of 2 to 2½ inches, which may be flattened on one side to a width of ⅜ inch and a length of 1½ inches. Machine bits shall be made only in the following sizes:

NOTE: Type 17 table amended July 22, 1944.

Length overall and length of twist: Minus 0.250 inch.

TYPE 18. *Tapping or sugar tree bits*—Shall be made either double twist, or solid center single twist, except that no producer shall make more than one style. Bits shall be forged from a single piece of steel and shall have a square tapered bit stock shank, screw point, and a round cut head (Fig. 9). May be made in sizes of ⅜, 7/16, and ½ inch, having an over-all length not to exceed 4½ inches.

NOTE: Types 19, 20, and 21 added July 22, 1944.

TYPE 19. *Multispur machine bits*—Shall be made only in the following sizes. Bits having a diameter up to and including 2⅛ inches shall have a round shank ½ inch in diameter; bits having a diameter of more than 2⅛ inches may have round shanks ¾ inch in diameter.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, Int. 14]

PLANTS ENGAGED IN SEVERAL ACTIVITIES

The following interpretation is issued with respect to CMP Reg. 5:

Where a plant is engaged for the majority of a year principally in the production of a certain item listed in a schedule of CMP Regulation No. 5, and for a brief period during that year produces an item listed in another schedule of CMP Regulation No. 5, or produces an item which is unlisted, that plant, pursuant to paragraph (e) of CMP Regulation No. 5, may at all times use the rating assigned to the principal activity to procure maintenance, repair and operating supplies.

Example. A distillery which is producing industrial alcohol under Order M–69 may use the AA–1 MRO rating, assigned in Schedule I under Chemicals and Allied Products for the procurement of maintenance, repair and operating supplies. If that distillery has been authorized to operate its facilities exempt from the provisions of paragraph (b) and (e) of Order M–69 for the month of August, 1944, it may continue to use the AA–1 MRO rating for maintenance, repair and operating supplies. Similarly, if an industrial alcohol plant has been authorized under M–30 to tax pay or to deliver in bond for the purpose of tax paying, a portion of his production, such an authorization will not affect his right to use an AA–1 rating for maintenance, repair and operating supplies.

Issued this 22d day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–575]

ATLAS FURNACE AND ENGINEERING, INC.

Atlas Furnace and Engineering, Inc., a corporation located at 2952 Nicollet Avenue, Minneapolis, Minnesota, is engaged in the business of cleaning and repairing furnaces and heating apparatus and in installing new heating systems. Between August 23 and November 19, 1943, the corporation sold, delivered and installed new heating units on customers' certifications as required by Preference Rating Order P–84, which certifications were false in that the equipment was not to replace heating equipment worn out beyond repair, or destroyed, and the responsible officers of the company had reason to believe the certifications were false. The responsible officers of Atlas Furnace and Engineering, Inc., were aware of Preference Rating Order P–84 and these acts must be deemed to constitute wilful violations of the order.

These violations of Preference Rating Order P–84 have diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.575 *Suspension Order No. S–575.* (a) Atlas Furnace and Engineering, Inc., its successors or assigns, shall not order, buy, receive or accept delivery of new plumbing and heating equipment as defined in or governed by List A of General Limitation Order L–79 (as amended from time to time), unless hereafter specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Atlas Furnace and Engineering, Inc., its successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) No allocation, including allotments, shall be made to Atlas Furnace and Engineering, Inc., its successors or assigns, of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(d) This order shall take effect on July 22, 1944, and shall expire on November 22, 1944.

Issued this 15th day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–584]

HENRY B. BYORS

Henry B. Byors of 19 Highland Terrace, Marblehead, Massachusetts, is a dealer in and installer of heating and plumbing equipment. In January, February, June and September of 1943, he participated in the construction of four residences located at 160 Atlantic Avenue, at 19 Russell Street, at 27 Barnard Street, and at 47 Gregory Street, all in Marblehead, without authorization from the War Production Board; each construction exceeded the limit of $200, permitted by Conservation Order L–41 and was in violation of that order. Henry B. Byors was aware of War Production Board restrictions on construction and should have familiarized himself with them, and his participating in these construction jobs without authorization constituted violations of Conservation Order L–41 which were the result of gross negligence on his part.

In connection with these construction jobs, he sold new metal plumbing and heating equipment in violation of General Limitation Order L–79; he installed copper or copper base alloy pipes in violation of Supplementary Conservation Order M–9–c–4, and he installed a copper base alloy tank in violation of General Limitation Order L–199; these violations were the result of gross negligence on his part. He further failed to keep proper records as required by Priorities Regulation 1 as a result of gross negligence.

On or about October 28, 1943, Henry B. Byors wilfully furnished false and misleading information to the War Production Board by antedating a bill for plumbing fixtures delivered by him on one of the construction jobs above described, knowing it was to be shown to representatives of the War Production Board.

These violations of War Production Board regulations have diverted critical materials to uses not authorized by the War Production Board and have interfered with the controls established by the War Production Board for the allocation of critical materials, and they have hampered and impeded the war effort of the United States of America. In view of the foregoing, it is hereby ordered, that:

§ 1010.584 *Suspension Order No. S–584.* (a) Deliveries of material to Henry B. Byors, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this suspension order shall not apply to orders for maintenance or repair (excluding minor capital additions) as defined in CMP Regulation 5 (as amended from time to time), nor to orders bearing a preference rating of AA–2X or higher.

(c) Nothing contained in this order shall be deemed to relieve Henry B. Byors, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 22, 1944, and shall expire on October 2, 1944.

Issued this 15th day of July 1944.

Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 23]

EXPERIMENTAL MODELS

§ 944.44 *Priorities Regulation 23*—(a) *Background and purpose of this regulation.* Certain orders and regulations of the War Production Board limit or prohibit the manufacture of certain articles or the use of certain materials in making the articles. These restrictions apply to the manufacture of experimental models of the articles and therefore prevent persons from making such experimental models. The purpose of this regulation is to override those orders and regulations so as to allow experimental models of the restricted articles to be made under certain conditions. Nobody needs to read this regulation unless he wants to make experimental models of an article which cannot be made under existing orders and regulations.

(b) *Meaning of the term "experimental model."* The term "experimental model" means any model of a consumer or industrial product (e. g. refrigerator or printing press) which is made, as an experiment, for the purpose of determining whether it will be superior to or cheaper to make than present models and whether it can be reproduced on a commercial basis. The term does not include any models, such as samples, which are made for the purpose of promoting sales or creating a consumer demand for such articles. Nor does the term include experimental models of buildings or structures which involve construction. Such experimental construction jobs may be carried on only to the extent permitted under Order L–41.

(c) *Effect of other orders and regulations on manufacture of experimental models.* In spite of any order or regulation of the War Production Board limiting or prohibiting the manufacture of any article or the use of any material in making an article, any person may manufacture experimental models of any article and may use any materials in making them. However, in any case where the manufacture of experimental models of an article or the use of materials in making them would, but for this regulation, be prohibited by another order or regulation, the models may be made only within the limitations set forth in the following paragraphs (d) and (e).

(d) *Authorization required for making experimental models costing more than $5,000 in any month.* (1) No person shall, in any calendar month in any single plant, make experimental models (of the types which could not be made but for this regulation) costing in the aggregate more than $5,000, unless he has received written authorization from the War Production Board after applying on Form WPB–3879. The application should be filed in quadruplicate with the War Production Board Field Office for the district in which the plant is located.

(2) For the purposes of this paragraph (d), the person who completes the assembly of the experimental models shall be regarded as the person who "makes" the models, even though he may not be the person paying for them. Thus, in cases where a person (such as a commercial laboratory) makes experimental models for others, he must file an application on Form WPB–3879 if the total cost of all the experimental models which he makes during any calendar month in a single plant (or laboratory) exceeds $5,000.

(3) In determining the cost of experimental models, all direct costs (such as materials, components, sub-assemblies, labor, designing and drafting and the like) shall be included, even though part of the costs covers work done outside the plant in which the models are finally assembled. However, ordinary overhead costs (such as electricity, water, janitor service and the like) need not be included.

(e) *Additional limitations.* In addition to the restrictions set forth in paragraph (d), no person may make experimental models (of the types which could not be made but for this regulation) unless all of the following restrictions are complied with:

(1) Experimental models of an article may not be made unless they are made without diverting any managerial, scientific, or technical personnel or production workers or facilities from any work connected with the war effort.[1]

(2) Experimental models of an article may be made only in the minimum number and the minimum size required to determine the suitability of the article for commercial production and use. This does not permit a person to make trial production runs of experimental models.

(3) Materials which were allocated or allotted specifically for another purpose may not be used to make experimental models, except as permitted by § 944.11 of Priorities Regulation 1.

(4) Experimental models of an article shall not be distributed for the purpose of promoting sales or creating a consumer demand for the article, nor shall such models be exhibited to the trade or the public.

(f) *Illustrations.* The effect of this regulation is illustrated in the following examples:

(1) Order L–18–b prohibits the production or assembly of any new domestic vacuum cleaners or attachments. This regulation permits a person to make experimental models of domestic vacuum cleaners or attachments regardless of Order L–18–b.

(2) Order M–126 prohibits the use of iron or steel (except screws, nails, strapping or small hardware) in step ladders. This regulation permits a person to make experimental models of step ladders containing iron or steel steps, regardless of Order M–126.

(3) Order L–23–c prohibits producers from making more than three sizes of gas ranges and specifies the permitted types. This regulation permits a person to make other sizes of gas ranges for experimental purposes.

(4) Order L–192 prohibits producers from making construction machinery and equipment except in accordance with production schedules approved by the War Production Board. This regulation

[1] Attention is called to the provisions of the Selective Service Regulations which require a registrant who has been deferred from military service for occupational reasons and his employer to notify the Local Board promptly of any change in the registrant's job status. Attention is also called to the policies of the Selective Service System as to possible reclassification of occupationally deferred registrants when their employers use other similarly qualified employees for work not related to the war effort.

permits a person to make experimental models of construction machinery and equipment even though such experimental models do not appear in the production schedules approved under Order L–192.

(5) In each of the above four cases the limitations set forth in paragraphs (d) and (e) of this regulation must be complied with. However, where experimental models can be made within the provisions of existing orders and regulations of the War Production Board, this may be done without complying with the limitations of paragraphs (d) and (e). For example, the manufacture of cast iron boilers is restricted by Order L–187 which merely limits the number that can be made. Accordingly, a person may make experimental models of cast iron boilers within his quota under that order without complying with the limitations of paragraphs (d) and (e). However, if he wants to make experimental models of such boilers outside of his quota, he must comply with those limitations.

(g) *How to get priorities assistance for materials for experimental models.* Any person needing priorities assistance to get materials for making experimental models may use the V–9 allotment symbol and AA–3 preference rating assigned for that purpose by Preference Rating Order P–43, subject to the terms of that order. However, the priorities assistance provided by Order P–43 may not be used to get any facilities for making experimental models (of the types which could not be made but for this regulation), if such facilities would be capital additions.

NOTE: The reporting provisions of this regulation have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 22d day of July 1944.

PART 1029—FARM MACHINERY

[Limitation Order L–257, Direction 2 as Amended July 24, 1944]

SALES OF WHEEL-TYPE TRACTORS FOR INDUSTRIAL USE WITH CONSTRUCTION MACHINERY ATTACHMENTS

The following amended direction is issued pursuant to Limitation Order L–257.

(a) *Purpose and scope.* Paragraph (f) (2) of Limitation Order L–257 (§ 1029.15) prohibits the sale for non-farm use of most machinery and equipment covered by that order unless the buyer has a rating of AA–4 or higher. If the buyer has no rating, he usually must apply for one on Form WPB–541 (PD–1A). This direction requires that any one who wants to buy a wheel-type tractor for use with construction machinery attachments listed on Schedule A of Order L–192 must apply on Form WPB–1319 for approval to buy it and any necessary rating; he should use the same Form WPB–1319 that he uses in applying for the attachments under Order L–192. "War agencies" are treated the same as they are under L–192.

This direction covers only sales and deliveries to the ultimate user who wants to buy wheel-type tractors plus construction machinery attachments for non-farm use. All other sales of wheel-type tractors for non-farm use are governed by paragraph (f) (2) of L–257.

(b) *Restrictions on sale.* Except where the buyer is a "war agency", on and after May 12, 1944, no person may sell or deliver, and no person may buy or accept delivery of, any new wheel-type tractor for use with new construction machinery attachments covered by Schedule A of Limitation Order L–192, without specific approval of the War Production Board. Application for this approval, including both the tractor and the construction machinery attachments, should be made by the prospective buyer on a single Form WPB–1319 in accordance with the current instructions for the form. He must file the application in quintuplicate with the WPB regional office in the region in which he desires to use the tractor and attachments. This application when approved will state all conditions under which the purchase order may be placed with the seller, including the assignment of any necessary preference rating.

(c) *Sales to "war agencies".* If the buyer of the tractor is a "war agency", as defined in Order L–192, it does not have to get specific approval under this direction. However, when it files information copies of Form WPB–1319 under paragraph (c) (2) of L–192 covering its purchase of the construction machinery attachments, it must on the same form identify the tractor to be purchased.

Issued this 24th day of July 1944.

PART 1157—CONSTRUCTION MACHINERY

[Limitation Order L–192, as Amended July 24, 1944]

CONSTRUCTION MACHINERY AND EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export, of materials used in the production of construction machinery and equipment and repair parts; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1157.10 *Limitation Order L–192*—(a) *What this order does.* This order regulates the production and delivery of construction equipment and certain repair parts. The items of equipment covered by the order are listed in Schedules A, B and D. The order provides for scheduling the production and delivery of Schedule A equipment, prohibits sales and deliveries of Schedule A equipment except upon specific authorization of the War Production Board, and regulates the sales of repair parts for Schedule A equipment. With respect to Schedule B equipment, the order provides for the control of total production and restricts sales and deliveries to orders rated AA–5 or higher but does not regulate repair parts. It prohibits the production of Schedule D equipment.

(b) *Definitions.* For the purpose of this order:

(1) "Producer" means any person engaged in the manufacture of equipment.

(2) "Equipment" means that construction machinery and equipment listed in Schedules A, B and D attached hereto but not any equipment on rubber tired chassis or running gear built for or usable for the transportation of commodities or persons.

(3) "New", when applied to equipment, means any equipment which has never been delivered to and put into regular use by a person acquiring it for use.

(4) "Repair part" means any part manufactured for use in the repair and maintenance of equipment; but does not include components or attachments which change the functional operations of the equipment as originally shipped.

(5) "War agency" means the Army, Navy, Maritime Commission, War Shipping Administration and the military forces of any foreign country entitled to receive deliveries pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(6) "United States" means the United States of America and its territories and possessions.

(7) "Supplier" means any producer, dealer or distributor engaged in the business of selling equipment or repair parts.

(8) "Dealer or distributor" means any person who is engaged in the business of purchasing equipment or repair parts for the purposes of resale.

Schedule A Equipment

(c) *Procedure for placing and receiving orders for Schedule A equipment.* (1) No person shall sell or deliver any new equipment listed in Schedule A, except to a war agency, unless the purchase or delivery order is accompanied by authorization on Form WPB–1319. Application for such authorization and for a preference rating must be made by filing the required number of copies of Form WPB–1319 with the War Production Board regional office in the region in which the purchaser desires to use such equipment, in accordance with the current instructions for the form.

(2) A war agency shall furnish the Construction Machinery Division, War Production Board, Washington 25, D. C., with information copies of Form WPB–1319 made out in duplicate (or other written notice in duplicate) at the time that any order for such equipment is placed with a supplier.

(d) *Restrictions on production of Schedule A equipment.* Producers must not use or put into process any materials for the production or assembly of (1) any new Schedule A equipment except in accordance with such production schedules as may be approved by the War Production Board under paragraph (e), or (2) any parts to be physically incorporated into new Schedule A equipment in excess of those required by approved production schedules.

(e) *Production schedules.* On or before the 15th day of each calendar month, every producer must file on Form WPB–1689, in accordance with the instructions on the form, a statement of his production of Schedule A equipment for the previous month and his proposed production schedule of all new Schedule A equipment projected for all additional monthly periods for which production may be planned. Approval or modification of such production schedule for the period planned or for a shorter period will be indicated on an approved copy of the Form WPB–1689 returned to the producer prior to the first day of the calendar month succeeding such filing. No producer shall change his production schedules as approved or changed by the War Production Board without specific authorization of the War Production Board. When actual production in any month is less than production authorized for that month, the items not produced may be produced in any subsequent month unless the authorization is revoked or modified by the War Production Board. Therefore, such items must not be shown again as planned production on any subsequent production schedule.

(f) *Prohibiting transfer and use of new equipment.* (1) On or before the 15th day of each calendar month, every producer must file on Form WPB–1689, in accordance with the instructions on the form, a statement showing his proposed delivery schedule of all unfilled orders for new Schedule A equipment, his shipments made during the calendar month previous to filing, his shipments during the current month to the date of filing, and inventory of finished items on hand at the end of the month previous to filing. Approval of a delivery schedule of all new Schedule A equipment for the calendar month succeeding such filing will be indicated on an approved copy of the form returned to the producer prior to the first day of that month, and the sequence of deliveries will remain in force whether or not the equipment is actually shipped during that month unless the schedule is subsequently changed by the War Production Board. In addition to the requirement of authorization on Form WPB–1319 for sales or deliveries under paragraph (c), no producer shall use for other than experimental or demonstration purposes, or sell or deliver any new Schedule A equipment unless the use, sale or delivery has been specifically approved by the War Production Board on Form WPB–1689.

(2) The War Production Board may at any time revoke any delivery authorization provided for in subpatagraph (1) above as to any or all new Schedule A equipment included therein, direct or change the schedule for deliveries of any such equipment, allocate any order for that equipment listed on a producer's Form WPB–1689 to any other producer, or direct the delivery of any such equipment to any other person, at regularly established prices and terms.

(3) Notwithstanding any preference rating heretofore or hereafter granted, no producer shall change his schedule of deliveries of any new Schedule A equipment as approved or changed by the War Production Board, without specific authorization of the War Production Board.

(g) *Restrictions on resale, rental and use.* Every person, except a war agency, to whom delivery of any new equipment listed in Schedule A has been authorized pursuant to this order, must use such equipment on the project described in the authorization to purchase. In addition, every person except a war agency, thirty days prior to the sale, lease or use on any other project of such equipment, shall notify in writing the Used Construction Machinery Regional Specialist of the War Production Board Regional Office in the region in which the equipment is located. The War Production Board at any time on two weeks' written notice, may require any such person who owns such equipment to sell, lease, or use such equipment as directed. Nothing in this order shall be deemed to affect the applicability of Limitation Order L–196.

Repair Parts for Schedule A Equipment

(h) *Restrictions on sale and delivery of repair parts for Schedule A equipment.* A supplier must not sell or deliver repair parts for Schedule A equipment to any person unless the sale or delivery is permitted by one of the following subparagraphs:

(1) *Repairs for current use.* A supplier may sell or deliver repair parts to any person for current use if the purchaser certifies that he will need the parts to replace worn out parts within 30 days after receiving them. The certification must be in substantially the following form: "Authorized under Order L–192—current use". This certification shall constitute a representation to the War Production Board that the repair parts ordered are required to replace worn out parts within 30 days after receipt of the parts ordered and are not for stock; and that the purchaser does not have other parts on hand or on order with any other supplier for this purpose. The purpose of this subparagraph (1) is to release by certification repair parts which will be put immediately (or within 30 days after receipt) into construction machinery in order that such machinery may be kept operating or put into condition to operate. This subparagraph (1) is not intended to permit the purchase of repair parts for stock. Paragraph (h) (4) tells how an equipment owner can get authorization on Form WPB–1319 from the War Production Board to purchase a stock of repair parts.

Exception. The above certification for current use must not be used for parts orders over $1000 if such parts are to be used for crawler, walker, or truck type shovels, cranes or draglines, with a rated capacity of less than 2½ cubic yards. Parts orders over $1000 for current use for such machines must be approved on Form WPB–1319, in accordance with subparagraph (4) below, before the sale or delivery can be made. Repair parts purchase or delivery orders must not be subdivided for the purpose of coming within this $1000 limitation.

(2) *War agencies and persons repairing war agency equipment.* (i) This paragraph (h) does not restrict the sale or delivery of repair parts to war agencies for direct use by them.

(ii) A supplier may sell or deliver repair parts to any person who has contracted to repair equipment owned by a war agency if the purchaser certifies that the parts will be used only to repair equipment owned by the war agency. The certification must be given in substantially the following form: "Authorized under Order L–192—war agency contract." This certification shall constitute a representation to the War Production Board that the buyer has contracted to repair equipment owned by a war agency and that the parts ordered will be used only for the repair of that equipment.

(3) *Exports.* A supplier may sell or deliver repair parts for export on any purchase order for $100 or less if the purchaser certifies that the parts are for export. The certification must be given in substantially the following form: "Authorized under Order L–192—for export." This certification shall constitute a representation to the War Production Board that the parts ordered are for export. If the purchase order is for more than $100, it must be approved on Form WPB–1319, as explained in the next subparagraph. However, nothing in this order shall be deemed to relieve any person from the necessity of getting an export license from the Foreign Economic Administration where such license is required.

(4) *Specific authorization to buy repair parts.* A supplier may sell or deliver repair parts for stock or any other purpose not provided for above if the purchase or delivery of the repair parts has been specifically authorized by the War Production Board. Application for this authorization and for a preference rating, if none has been previously assigned, may be made by filing the required number of copies of Form WPB–1319 in accordance with the current instructions for the form. When a person receives authorization on Form WPB–1319, to purchase repair parts, he may give his supplier the authorization along with his purchase order or, if he prefers, he may give the supplier a certification in substantially the following form: "Authorized under Order L–192—on Form WPB–1319." This certification shall constitute a representation to the War Production Board that the purchase or delivery of the repair parts ordered has been specifically authorized by the War Production Board on Form WPB–1319.

(5) *Sales to producers.* This paragraph (h) does not restrict the sale or delivery of repair parts to producers.

(6) *Sales to dealers and distributors.* Unless otherwise specifically directed by the War Production Board, this paragraph (h) shall not restrict the sale or delivery of repair parts to dealers or distributors located in the United States or Canada.[1] However, a dealer or distributor located in the United States must

[1] If a dealer or distributor located in the United States wants a preference rating to increase the size of his stock of repair parts, or to establish a new stock of repair parts for resale, he may apply for a preference rating on Form WPB–547 (formerly PD–1X) for repair parts to be obtained from a manufacturer. Such a dealer or distributor may, of course, extend any preference ratings received from his customers.

not purchase repair parts under this exemption to repair construction equipment owned by him. If he wants to use repair parts for that purpose, he may do so by following the procedure of paragraph (h) (1) above. For example, if he is getting repair parts from another supplier for the repair of his own equipment, he must give the certification of paragraph (h) (1) or the WPB–1319 authorization to the other supplier; if he wants to repair his equipment with parts which he originally acquired for resale, he may do so and, in that case, the certification or the WPB–1319 authorization must be placed in his file.

(i) *Certification.* Each L–192 certification provided for in paragraph (h) must be signed manually or as provided in Priorities Regulation 7. If the person signing an L–192 certification is using a preference rating on his order, he may add the L–192 certification to any certification used to apply the preference rating instead of giving two separate certifications. The standard certification of Priorities Regulation 7 must not be used instead of the L–192 certification, although the standard certification may be used along with it in applying a preference rating. A supplier may rely on any such L–192 certification unless he knows or has reason to believe it to be false. The L–192 certification may be waived in the manner provided in Priorities Regulation 7, and the one-time certification of Priorities Regulation 7 may be used instead of the L–192 certification.

(j) *Spares.* Orders for repair parts intended to be used as spares for new equipment listed in Schedule A must be placed with the supplier at the same time as the order for such new equipment.

(k) *Allocation of production of repair parts for Schedule A equipment.* No producer shall deliver to war agencies in any one month any repair parts for Schedule A equipment whatsoever in excess of 75% of his sales of that repair part during the month, if the delivery would prevent deliveries of such repair part to fill orders properly placed by other persons. Similarly, no producer shall deliver to other persons in any month more than 25% of his sales of any repair part for Schedule A equipment if the delivery would prevent the filling of orders for delivery of such repair part to war agencies. "Other persons", as used in this paragraph, shall not include dealers or distributors who have ordered repair parts for their stock or inventory. A dealer or distributor, in placing a purchase order with a producer for repair parts for which he has received a customer's order that he is unable to fill out of his stock, may state on his purchase order to the producer whether the repair part is being ordered for a war agency or not. If the repair part is being ordered for a war agency, delivery by the producer on such order shall be considered a delivery to a war agency for the purpose of this paragraph. If the repair part is being ordered for a person other than a war agency, delivery by the producer on the order shall be considered a delivery to "other persons" for the purposes of this paragraph.

(l) *Filling repair parts orders upon specific direction of the War Production Board.* A producer shall, upon the specific direction of the War Production Board on Form WPB–1319, make delivery of any repair part for Schedule A equipment to fill any order specified in such direction: When application has not previously been filed, the person authorized to receive such repair part shall return to the War Production Board a signed copy of Form WPB–1319 as confirmation of the application. However, confirmation copies need not be filed by war agencies.

Schedule B Equipment

(m) *Restrictions on sale and delivery of Schedule B equipment.* After August 3, 1944, no person shall sell or deliver any new equipment listed on Schedule B unless the sale or delivery bears a preference rating of AA–5 or higher. This restriction does not apply to deliveries on orders placed before August 3, 1944.

(n) *Restrictions on production of Schedule B equipment.* On or before the 15th day of August 1944, and on or before the 15th day of October, January, April and July thereafter, every producer must file on Form WPB–1689, in accordance with the instructions on the form, a statement of his deliveries of new Schedule B equipment for the previous three months and his proposed production of all new Schedule B equipment for all succeeding calendar quarters for which production may be planned. Approval or modification of the quantity of such equipment to be produced in the calendar quarter succeeding such filing or for a longer period will be indicated on a copy of the Form WPB–1689 returned to the producer prior to the first day of the calendar month succeeding such filing. A producer must not during any period produce more units of any type of Schedule B equipment than the quantity approved for that period by the War Production Board of Form WPB–1689 without a specific authorization from the War Production Board. When actual production in any quarter is less than production authorized for that quarter, the quantity not produced may be produced in any subsequent quarter unless the authorization is revoked or modified by the War Production Board. Therefore, such items must not be shown again as planned production on any subsequent report. Production schedules of Schedule B equipment are not "frozen schedules" under Priorities Regulation 18.

(o) *Repair parts for Schedule B equipment.* This order does not restrict the sale or delivery of repair parts for Schedule B equipment.

Schedule D Equipment

(p) *Restrictions on production of Schedule D equipment.* In addition to such restrictions as may be imposed by Order L–217 and all schedules thereto, producers must not use or put into process any materials for the production or assembly of any equipment listed in Schedule D.

(q) *Sales and delivery of Schedule D equipment and repair parts therefor.* Except as provided in paragraph (p) above, this order does not restrict the sale or delivery of any equipment listed in Schedule D or repair parts therefor.

Miscellaneous Provisions

(r) *Production authorizations.* (1) Production will be authorized so that labor requirements therefor in any one plant will not interfere with war production in that plant cr in any other plant located in the same area.

(2) In approving a producer's total production of equipment for delivery to persons other than war agencies, the War Production Board may, with respect to any particular type of equipment, take into consideration the producer's total production of that type of equipment during the years 1937–1941 so that each producer will get approximately his proportion of the total non-military production of the industry on the basis of his production during the years 1937–1941. In addition, the War Production Board will take into consideration, among other factors, the availability of materials and components.

(s) *Substitution and conservation of critical materials.* In the manufacture of any item of equipment or repair parts, no producer shall use any alloy steel, stainless steel, copper, brass, bronze, nickel, tin or cadmium, where the use of other less critical materials will not impair the efficiency of operation of such item.

(t) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(u) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(v) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. The letter should be filed with the field office of the War Production Board in the district in which is located the plant or branch of the appellant to which the appeal relates.

(w) *Communications.* All communications concerning this order, except where specific reference is made herein to the contrary, shall be addressed to Construction Machinery Division, War Production Board, Washington 25, D. C., Ref: L–192.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of July 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

SCHEDULE A

Angledozers and modifications thereof (for mounting on tractors of more than 25 drawbar H. P.)
Batchers, construction material.
Batching plants, construction type.
Bins, construction material, portable and stationary types.
Bulk cement handling plants.
Bulldozers and modifications thereof (for mounting on tractors of more than 25 drawbar H. P.)
Cranes, attachments for tractor mounting.
Cranes, crawler and rubber tired mounted power, and modifications thereof, except freight handling lift trucks.
Crushers, jaw (sizes 9" x 14" to 30" x 44" openings, inclusive); except those intermediate sizes as indicated in Schedule D (Ref: L–217), and except those sizes of a type designed exclusively for mining and smelting.
Crushers, roll, construction aggregates, portable type, except those sizes and types as indicated in Schedule D (Ref: L–217).
Crushing plants, portable type.
Distributors, bituminous.
Distributors, water (street sprinklers and flushers).
Ditchers, ladder and wheel types.
Draglines, slack line and walking types (other types—see Cranes).
Drilling machines, portable water well and blast hole drills, churn drill type.
Dryers, construction aggregates.
Earth boring machines, vertical auger type (except post hole diggers).
Finishers, paving (concrete or bituminous).
Graders, earth moving (motor, blade and elevating types).
Heaters and circulators, tank car.
Hoists, contractors and material handling exceeding 6,000 pounds line pull at 250 FPM line speed or exceeding 1,300,000 foot pounds effort based on second wrap of cable.
Jacks, mud.
Loaders, portable bucket (other than drag, flight or scraper type coal conveyors).
Loaders, portable snow.
Logging arches, tractor drawn.
Maintainers, road (complete machines).
Mixers, concrete construction, above 7 cubic feet except those sizes and types as indicated in Schedule D (Ref: L–217).
Mixers, concrete truck or agitator type (with or without elevating towers), except those sizes and types as indicated in Schedule D (Ref: L–217).
Pavers, concrete.
Plants, asphalt, including travel mix type.
Plants, bituminous patch, hot or cold mixer type (more than 10 tons per hour capacity).
Plants, soil stabilizing.
Plows, snow (rotary and blower types).
Plows, snow (V and blade types), truck, grader or railroad mounted or mounted on tractors of more than 25 H. P., including wings.
Power control units for tractors (both cable and hydraulic).
Pumps, concrete, except for well cementing.
Pumps, portable engine or electric-motor-driven pumping units mounted on skids, with or without handles, or trailer mounted larger than 90,000 gallons per hour, self priming centrifugal pumps, horizontal or vertical triplex piston road pumps, ordinarily used for contractor's purposes or by contractors for dewatering and supply, except those sizes and types as indicated in Schedule D (Ref: L–217).
Rollers, road (pneumatic tired, portable, tandem and three wheeled types).
Scrapers, carrying and hauling, both drawn and self-propelled, except those under 2 cubic yards struck capacity.
Shovels, attachments for tractor mounting.
Shovels, crawler and rubber-tired mounted power, and modifications thereof.
Sprayers, (maintenance units) bituminous material (over 300 gallon capacity).
Spreaders, concrete paving.
Sweepers, street (including motor pick up type).
Wagons, crawler trailer (contractors, logging, cane, etc.).
Washing and screening plants, portable type.
Wheels, crawler trailer (complete assemblies).
Winches, tractor mounted.

SCHEDULE B

Angledozers, and modifications thereof (for mounting on tractors of 25 drawbar H. P. or less).
Backfill tampers.
Breakers, paving.
Brooms, contractors rotary.
Buckets, clamshell, concrete, dragline and orange peel.[1]
Buckets, scraper (bottomless for dragline operation).[1]
Buggies and carts, concrete (hand operated and power propelled).
Bulldozers, and modifications thereof (for mounting on tractors of 25 drawbar H. P. or less.)
Cement guns.
Chutes, concrete handling.
Clay diggers.
Concrete surfacing machines, hand carried and highway types.
Conveyors, construction material, portable belt type and for portable plants.
Derricks, contractors and material handling, stiff leg, guy, pole, tripod, and setter types (portable or stationary).
Discs, road, wheel mounted and harrow type for construction work.
Ditchers, blade.
Drilling machines, rock, and modifications thereof hand held or portable mounted (except electric coal and core drills).
Finegraders and subgraders, self-propelled type.
Finishers and rodding machines for wet concrete.
Form tamping and pulling machines.
Forms, concrete road.
Graders, under truck type.
Grapples, rock type.
Hammers, pile.
Heaters, asphalt surface and concrete mixer types.
Hoists, contractors and material handling, hand type and power driven having specifications not exceeding 6,000 pounds line pull at 250 FPM, line speed or not exceeding 1,300,000 foot pounds effort based on second wrap of cable.
Hoppers, portable concrete.
Joint and crack filling machines.
Kettles, bituminous heating.
Mixers, aggregate pulverizer.
Mixers, concrete construction, 7 cubic feet and smaller; except those sizes and types as indicated in Schedule D (Ref: L–217).
Mixers, plaster and mortar.
Plants, bituminous patch, hot or cold mixer type (10 ton per hour capacity and under).
Plows, cable laying.
Plows, snow (for mounting on tractors of 25 H. P. or less).
Pumps, portable engine or electric motor driven pumping units, mounted on skids, with or without handles, or trailer mounted 90,000 gallons per hour and smaller self-priming centrifugal pumps, plunger pumps, or diaphragm pumps ordinarily used for contractors purposes or by contractors for dewatering and supply, excluding farm type, industrial type and underwriters approved fire fighting pumps; except those sizes and types as indicated in Schedule D (Ref: L–217).
Rippers, road.
Rollers, tamping and sheepsfoot.
Scarifiers, complete machines, not attachments.
Screens, rotary, vibrator and gravity types, other than coal, mining, industrial or those for screening mud on well drilling, used as a component part of or replacement for a portable crushing, screening, or mashing plant.
Screening plants, portable type.
Sprayer, (maintenance units) bituminous material (300 gallon capacity and smaller).
Spreaders, construction material.
Towers, concrete placing and material elevating.
Vibrators, concrete.
Wagons, logging (wheel type).
Wellpoint systems.
Winches, contractors (see Hoists).

SCHEDULE D

The manufacture of items of equipment appearing in Schedule D is prohibited in accordance with paragraph (q).
Any item to the extent prohibited by any schedule to Limitation Order L–217.
Finegraders and subgraders, drawn type.
Joint levellers.
Scrapers, drag, fresno, and rotary over 27 cubic feet (or one cubic yard) capacity except those scheduled under Order L–257 or Order L–257–a.

[1] This item may be purchased as a repair part if it is being purchased to replace a similar item that is worn out.

PART 1157—CONSTRUCTION MACHINERY AND EQUIPMENT

[Limitation Order L–192, Direction 1 as Amended July 24, 1944]

REPAIR PARTS FOR CERTAIN LEND-LEASE EQUIPMENT

The following amended direction is issued pursuant to Limitation Order L–192.

The Foreign Economic Administration, and any government agency acting as procurement agent for the Foreign Economic Administration in connection with the acquisition of used construction equipment to be exported for use in open cast coal mining, are hereby assigned a preference rating of AA–1 for repair parts needed to repair, rebuild or recondition such equipment and for spare parts to accompany such equipment. This rating may be applied by any such agency on any purchase order for repair or spare parts for such equipment or on any contract or order requiring the repair, rebuilding or reconditioning of such equipment, whether the work is to be performed by the seller of the equipment or by another person. This rating may be applied or extended in the manner provided in Priorities Regulation 3 or Priorities Regulation 7. In addition to the certification applying or extending the rating, the identifying symbol "L–192—Direction 1" may be endorsed on any contract or order bearing this rating.

The restrictions on the sale and delivery of repair parts, as provided in paragraph (h) of Order L–192, shall not apply to the sale or delivery of repair parts under this direction if the purchase or delivery order bears the identifying symbol "L–192—Direction 1".

All deliveries of repair and spare parts by producers, pursuant to this direction, shall be treated as deliveries to war agencies for the purpose of paragraph (k) of Order L–192.

Issued this 24th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 9A, Interpretation 3]

PURCHASE OF LUMBER UNDER ORDER L–335

The following interpretation is issued pursuant to CMP. Reg. 9A.

(a) A repairman using lumber on a construction job he does for another person is not entitled to certify his lumber orders that he places with lumber suppliers. Under Order L–335, which governs the distribution of lumber, a contractor doing construction for another person is not considered the consumer of the lumber that he uses. The person for whom the construction work is being done is considered the consumer of the lumber and he is the one that is entitled to place the certification on the lumber order that the contractor places with his supplier. This provision also applies to a repairman that does construction work for another person. Construction is defined in Order L–41. A consumer may authorize the contractor or repairman to act as his agent in certifying a lumber delivery order and in such a case the contractor or the repairman signs the required certification "as duly authorized official" of the consumer. The contractor does not use his rating but the rating of the person for whom the construction work is being done. Even though a repairman may himself have a rating he cannot use it to get lumber for that construction job. After August 1, the effective date of Order L–335, repairmen placing orders for lumber required on construction jobs they do for other persons must either certify as agents for the persons for whom they do the work or have their lumber order certified by such persons. Lumber distributors have been allocated a small amount of lumber for civilian repairs and maintenance work and this lumber can be sold on uncertified and unrated orders. Repairmen may buy that type of lumber from lumber distributors the same as any other person, but only a limited amount of such lumber is available to distributors.

(b) A repairman doing other repair which is not construction, may use the CMP–9A rating and the certification under paragraph (q) (1) of L–335 to get lumber needed for such repairs, provided he does not get more than 50,000 board feet a calendar quarter for all purposes (except construction). In such a case, he should apply on Form WPB–3640.

Issued this 24th day of July 1944.

PART 3290—TEXTILE, CLOTHING AND LEATHER[1]

[Conservation Order M–187, as Amended July 24, 1944]

SUNN HEMP AND SUNN HEMP PRODUCTS

Section 3290.236 *Conservation Order M–187* is amended to read as follows:

§ 3290.236 *Conservation Order M–187*—(a) *Definition.* In this order:

"Sunn hemp" means fibers of the crotalaria or hibiscus variety, including but not limited to Benares hemp, Bengal hemp and Madras hemp, grown in India, or fibers of the same type wherever grown.

(b) *Reports.* (1) All processors and owners of Sunn hemp, having 500 pounds or more at any time during a calendar month, shall file a report monthly, not later than the tenth day of the following month, on Form WPB–914. This reporting requirement of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) All reports required to be filed under, and all communications concerning this order, shall be addressed to the War Production Board, Textile, Clothing and Leather Bureau, Washington, 25, D. C. Ref. M–187.

(c) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

Issued this 24th day of July 1944.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 33 as Amended July 24, 1944]

HIGHER ALIPHATIC ALCOHOLS

§ 3293.1033 *(Schedule 33 to General Allocation Order M–300*—(a) *Definition.* "Higher aliphatic alcohol" means any one of the following:

(1) Capryl alcohol (known also as "methyl hexyl carbinol" and "2-octanol").

(2) Octanol (2-ethyl hexanol).

(3) Normal octanol (normal octyl alcohol).

(4) Normal decanol (normal decyl alcohol).

(5) Lauryl alcohol (any mixture of normal aliphatic alcohols containing more than 50% normal dodecanol).

(6) Oleyl alcohol (normal octadecenol).

(7) Mixed higher aliphatic alcohols (any mixture of higher aliphatic alcohols containing less than 50% dodecanol and more than 80% of normal octanol, normal decanol, and lauryl alcohol, combined).

(b) *General provisions.* Higher aliphatic alcohols are subject to the provisions of General Allocation Order M–300 as Appendix B materials. The initial allocation date for oleyl alcohol is August 1, 1944, for capryl alcohol is July 1, 1942, when capryl alcohol first became subject to allocation under Order M–167 (revoked), and for octanol, normal octanol, normal decanol, lauryl alcohol and mixed higher aliphatic alcohols is September 1, 1943, when these alcohols first became subject to allocation under Order M–344 (revoked). The allocation period is the calendar month. The small order exemption without use certificate per person per month is as follows:

70 pounds of capryl alcohol.
370 pounds of octanol (2-ethyl hexanol).
50 pounds of normal octanol.
50 pounds of normal decanol.
360 pounds of lauryl alcohol.
40 pounds of oleyl alcohol.
50 pounds of mixed higher aliphatic alcohols.

(c) *Special provisions.* (1) Use, delivery and acceptance of delivery prior to August 1, 1944, of higher aliphatic alcohols other than oleyl alcohol will be authorized on the basis of applications filed in the form prescribed in Order M–344 (revoked). Oleyl alcohol is subject to allocation under this schedule beginning August 1, 1944.

(2) Restrictions on deliveries by suppliers shall apply to deliveries to other persons and not to intra-company deliveries, notwithstanding § 944.12 (intra-company deliveries) of Priorities Regulation No. 1, as amended.

(d) *Suppliers' applications on WPB–2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB–2947 (formerly PD–602). Filing date is the 20th day of the month before the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–33. A separate set of applications shall be filed for each higher aliphatic alcohol, but a consolidated application may be filed for all plants and warehouses. The unit of measure is pounds. In Table II, first, list in Column 1 customers who have filed use certificates with the applicant, and in Column 1a enter each primary product and end use stated in each certificate; second, specify in Column 1 "aggregate exempt small orders" and leave Column 1a blank; third, the applicant may specify in Column 1 his own name, and in Column 1a the product and end use for which he requests authorization to use the higher aliphatic alcohol. Fill in the other columns of Table I and fill in Table II as indicated.

(e) *Customers' certified statements of use.* Each person placing a purchase order for delivery from all suppliers in any month of more of any higher aliphatic alcohol than the exempt quantity specified in paragraph (b) shall furnish each supplier with a certified statement of proposed uses as prescribed in Appendix D of General Allocation Order M–300. Primary product and end use may be specified as follows, for each higher aliphatic alcohol ordered:

(Primary product).
Chemical Manufacture (specify product).
Anti-foam.
Oil additive.
Solvent (describe use).
Detergent.
Wetting agent.
Other (specify).
(End use).
Industrial (specify product).
Civilian consumer goods (specify product).
Export (if Lend-Lease, specify contract number; if other exports, specify license number and consignee).
Military (specify branch of Service and contract and specification number).

If the higher aliphatic alcohol is to be resold or exported as such, proposed use may be specified as "For authorized resale", "For resale on exempt small orders" or "For export" (specify destination and export license number).

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this schedule shall be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–33.

Issued this 24th day of July 1944.

PART 3296—SAFETY AND TECHNICAL EQUIPMENT

[Preference Rating Order P–43, as Amended July 22, 1944]

LABORATORIES

For the purpose of assisting laboratories in getting materials and to promote the national defense, preference ratings and an allotment symbol are hereby assigned to deliveries of such materials under the terms and within the limitations set forth in this order:

§ 3296.106 *Preference Rating Order P–43*—(a) *Definitions.* The meaning of various terms used in this order is set forth below:

(1) "Laboratory". Any person located in the United States, its territories or possessions,[1] who carries on scientific or technological investigation, testing, development or experimentation as his regular business or in the course of his business and who buys any materials especially for that purpose is considered a "laboratory" under this order in making such purchases, even though he does not have a separate department or organization in his company or institution for these activities. The term "laboratory" includes research laboratories, production control laboratories, testing laboratories, analytical laboratories, clinical laboratories, and instructional laboratories. It does not include any person to the extent that he is engaged in the manufacture of products for commercial sale or public distribution, even though the place in which the products are manufactured may be called a laboratory. "Serial-numbered laboratory" means a laboratory which has been assigned a serial number under this order. (Paragraph (g) explains how to apply for a serial number.)

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind. The term includes, but is not limited to, maintenance, repair and operating supplies for laboratories, equipment and instruments designed for use in laboratories, and other materials needed to carry on scientific or technological investigation, testing, development or experimentation. The term also includes such items as hand tools and safety equipment purchased by a laboratory for sale to its employees for use only in the laboratory activities. The term does not include chemicals prepared and packed for reagent use, which may be obtained in the manner provided in Order P–135.

(b) *How a laboratory gets controlled materials.* A laboratory may get controlled materials (as defined in CMP Regulation 1) needed for carrying on scientific or technological investigation, testing, development or experimentation by placing on its order the allotment symbol V–9, and the certification set forth in Priorities Regulation 7, or the following certification:

The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are required to carry on scientific or technological investigation, testing, development or experimentation, and that this order is placed in compliance with Preference Rating Order P–43.

Such an order is an authorized controlled material order for the purpose of all CMP Regulations.

(c) *How a laboratory gets Class A products.* A laboratory may get Class A products needed for carrying on scientific or technological investigation, testing, development or experimentation by placing on its order the preference rating AA–2 (or AA–1 in the case of serial-numbered laboratories or laboratories operated by the Army or Navy of the United States) and the certification set forth in Priorities Regulation 7 (or the certification set forth in paragraph (b) above) plus the following statement:

You are authorized to use the allotment symbol V–9 to order controlled materials and Class A products needed to fill this order or contract.

Serial-numbered laboratories must include their serial number in the certification. It is not necessary to show the weight of controlled material on such an order. The manufacturer of a Class A product who receives an order so endorsed may place an authorized controlled material order for controlled materials required to manufacture the product by using the symbol V–9 and the certification set forth in Priorities Regulation 7. If he requires an A component for the A product, he may use the same procedure as the laboratory uses in ordering A products; that is, he may place on his order the preference rating received from the laboratory, using the Priorities Regulation 7 certification plus the statement set forth above in this paragraph (c). The manufacturer of the A product may buy the other materials and products he needs to make the A product by placing the preference rating he received from the laboratory and the allotment symbol V–9 on his order with the certification set forth in Priorities Regulation 7.

(d) *How a laboratory gets other materials and products.* A laboratory may get the other materials and products needed for carrying on scientific or technological investigation, testing, development or experimentation by placing on its order the preference rating AA–2 (or AA–1 in the case of serial-numbered laboratories or laboratories operated by the Army or Navy of the United States) and symbol V–9, and the certification of Priorities Regulation 7 (or the certification set forth in paragraph (b) above). Serial-numbered laboratories must include their serial number in the certification.

(d–1) *Restrictions on getting materials to make experimental models of products designed primarily for civilian markets.* (1) A laboratory may get, in the manner provided in paragraph (b), controlled materials needed to make experimental models of products designed primarily for civilian markets. A laboratory may get Class A products and other materials and products needed to make such models in the manner provided in paragraphs (c) and (d) respectively, except that an AA–3 preference rating must be used instead of the AA–2 (or AA–1) rating assigned by those paragraphs.

(2) The priorities assistance provided by this order may not be used to get any facilities for making experimental models of the types which could not be made but for Priorities Regulation 23, if such facilities would be capital additions.

(3) Materials obtained under this order for use in making experimental models of the types which could not be made but for Priorities Regulation 23, may be used only in conformity with the restrictions of that regulation.

(e) *Use of priorities assistance for construction.* (1) The priorities assistance provided by this order may be used to get materials for maintenance and re-

[1] Laboratories located in Canada may obtain maintenance, repair and operating supplies in the United States under Canadian Order PO 5B.

[1] Formerly Part 1299, § 1299.1.

pair of buildings or structures needed to carry on scientific or technological investigation, testing, development or experimentation without getting permission under Order L–41 (Construction). The term "maintenance and repair", as used in this paragraph, means the work necessary to keep a building or structure in sound working condition or to fix it when it has become unsafe or unfit for service because of wear and tear; also the minimum work necessary to prevent more damage to a building or structure (or its contents) which has been damaged by fire, flood, tornado, earthquake, acts of war, or the like.

(2) Except as otherwise provided in paragraph (d–1) (2) above, the priorities assistance provided by this order may also be used to get materials for non-experimental construction jobs (other than maintenance and repair) needed to carry on scientific or technological investigation, testing, development or experimentation where the cost of the job does not exceed $500. (In determining the cost of such a construction job, the laboratory's cost of labor and the cost of any equipment which is being installed to carry on scientific or technological investigation, testing, development or experimentation, may be excluded. No job shall be subdivided for the purpose of coming within the $500 limit.) Under Order L–41 any such construction job may be carried on without getting permission to begin construction under Order L–41. All other non-experimental construction may be carried on only to the extent permitted under the provisions of Order L–41. The term "non-experimental construction", as used in this paragraph, means putting up or altering any sort of a building and the installing of any equipment or fixture, when the purpose of the construction is not to test the building, equipment or fixture, or any of its parts.

(3) The priorities assistance provided by this order may be used to get materials for carrying on experimental construction jobs, but such construction may be carried on only to the extent permitted under Order L–41. The term "experimental construction", as used in this paragraph, means putting up or altering any sort of a building and the installing of any equipment or fixture, when the purpose of the construction is to test the building, equipment or fixture, or any of its parts.

(f) *Restrictions on use of this order and materials obtained under it.* (1) [Deleted July 22, 1944.]

(2) Experimental models which are made with materials obtained under this order may be made only in the minimum number and the minimum size required to determine the suitability of the article for commercial production and use. This does not permit a person to make trial production runs of experimental models. Nor does it permit the making of experimental models which are to be distributed for the purpose of promoting sales or creating a consumer demand for the article.

(3) So far as practicable, no serial-numbered laboratory shall use the AA–1 preference rating assigned by this order to get materials for use in activities other than research and production control. For example, no educational institution which has been assigned a serial number shall use the AA–1 rating to purchase materials which are to be used only for instructional laboratory purposes, and no hospital which has been assigned a serial number shall use the AA–1 rating to purchase materials which are to be used only for clinical laboratory purposes. However, the AA–2 rating which is assigned to non-serial-numbered laboratories may be used for such instructional or clinical purposes.

(4) The priorities assistance provided by this order shall not be used to get materials for the production of any facility which is intended to be used to produce products or materials on a commercial scale, even though such facility may involve new features or developments. However, the priorities assistance may be used to get materials for the production of experimental models which are intended to be used only in developmental or experimental activities.

(5) The preference ratings assigned by this order shall not be applied to the delivery of any item appearing on List A or B of Priorities Regulation 3, except as specifically permitted in List B with respect to laboratory instruments and equipment.

(6) Material obtained under this order shall not be used for any purpose except scientific or technological investigation, testing, development or experimentation, within the limits stated above in this paragraph (f). Physical segregation of inventories is not required, but adequate records should be kept to show, quantitatively, that material obtained under this order is not used for other purposes.

(g) *Assignment of serial numbers.* Any laboratory desiring a serial number under this order may apply to the War Production Board on Form WPB–167 (formerly Form PD–107), in triplicate, for the assignment of a serial number. Serial numbers will be assigned only to laboratories which are engaged in research or production control activities and then only in cases where the War Production Board, in its discretion, determines (1) that the activities of the laboratory are highly essential in the prosecution of the war, and (2) that the assignment of a serial number is necessary in furtherance of the war effort.

(h) *Reports by serial-numbered laboratories.* Whenever the War Production Board shall so direct, each serial-numbered laboratory shall file with the War Production Board a report on Form WPB–3456 setting forth the principal activities of the laboratory and all other information required by the form. Failure of any serial-numbered laboratory to file the required report when directed to do so by the War Production Board shall be sufficient cause for revocation of the serial number. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Effect on other orders.* Nothing in this order shall be construed to relieve any laboratory from complying with any applicable regulation or order of the War Production Board (including orders in the "E", "L" and "M" series) or with any order of any competent authority. For example the assignment of preference ratings and an allotment symbol by this order does not relieve any laboratory from complying with the provisions of Limitation Order L–144 with respect to laboratory equipment.

(2) [Deleted July 22, 1944.]

(j) *Inventory restrictions.* No laboratory shall at any time accept delivery of any material (whether or not such material is obtained pursuant to this order) if the laboratory already has a practicable minimum working inventory thereof or if the acceptance of the material will cause such laboratory to have an inventory of the material in excess of a practicable working minimum, as provided in § 944.14 of Priorities Regulation 1. Furthermore, no laboratory shall accept delivery of any controlled material if acceptance of the controlled material would cause it to violate the inventory limitations of CMP Regulation 2.

(k) *Use of other ratings or allotment numbers or symbols.* Nothing contained in this order shall prevent any laboratory from using any ratings or allotment numbers or symbols which it may be entitled to use by reason of any preference rating certificate or any other order or regulation of the War Production Board.

(l) *Penalties for misrepresentation or other violations.* (1) The placing of any order bearing a certification or symbol as provided by this order shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U.S.C. 80), that the person placing the order is entitled, under the terms of this order, to use of the symbol or preference rating indicated thereon.

(2) Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Records.* Each laboratory acquiring materials pursuant to this order shall keep and preserve, for a period of not less than two years, accurate and complete records of all materials so acquired. Such records shall, upon request, be submitted to audit and inspection by a duly authorized representative of the War Production Board.

(n) *Communications to War Production Board.* All communications concerning this order and all applications and reports shall, unless otherwise directed, be addressed to: War Production Board, Safety and Technical Equipment Division, Washington 25, D. C., Ref: P–43.

Issued this 22d day of July 1944.

WAR PRODUCTION BOARD,

PART 3305—PAPERBOARD [1]

[Limitation Order L–239, as Amended July 24, 1944]

FOLDING AND SET-UP BOXES

The fulfillment of requirements for the defense of the United States has created shortages in the supply of materials entering into the production of folding and set-up boxes for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

Section 3305.16 [1] *Limitation Order L–239* as amended is now amended to read as follows:

§ 3305.16 *Limitation Order L–239*—(a) *What this order does.* This order applies to all folding and set-up boxes except paper milk containers and liquid tight containers as defined in Order L–239–b. It forbids the manufacture of certain boxes and places restrictions on the manufacture of many other types, especially on the size, weight and shape of boxes used for packing various commodities.

(b) *Definitions.* For the purpose of this order: (1) "Folding box" means any collapsible container, or part thereof, made of paper or paperboard, excepting paper milk containers, liquid tight containers as defined in Order L–239–b, and solid fibre or corrugated shipping containers not made on folding box machinery.

(2) "Blank" means any sheet of paper or paperboard, cut to shape or creased or scored for the purpose of being used as a box or part thereof, except as a paper milk container.

(3) "Set-up box" means a non-collapsible or rigid container, or part thereof, made of paper or paperboard, except-

[1] Formerly Part 3270, § 3270.29.

ing paper milk containers, cups, pails, and solid fibre or corrugated shipping containers not made on set-up machinery.

(4) "Pail" means a wedge shaped, folded, liquid-tight, paper container.

(5) "Box" unless otherwise specified, includes folding boxes, set-up boxes, pails and parts thereof.

(6) "Work in process" means any material for physical incorporation in boxes, on which actual box making operations have been started. No preparatory work such as art work, engravings, electrotypes, dies, or forms shall be deemed "work in process."

(7) "Virgin wood pulp" means pulp manufactured either by mechanical or chemical means from coniferous or broadleaf trees.

(8) "Gauge list" means any gauge list set forth in United States Department of Commerce Simplified Practice Recommendation R44–36 entitled "Box Board Thickness".

(9) "Multiple container" means a box containing a number of separately packaged items of the same commodity.

(10) "Set or combination box" means any box which contains two or more different articles.

Restrictions

(c) *General restrictions.* No person shall manufacture or commercially use any box in violation of any provision of this order, including its schedules, or purchase or sell any box which he knows, or has reason to believe, has been, or will be, manufactured in violation of any prohibition or restriction of this order, including its schedules.

(d) *Restrictions on use of metal.* No person shall manufacture or incorporate in the manufacture of boxes any metal bails or metal handles for boxes.

(e) *Restrictions on manufacture of seasonal boxes and sleeves.* No person shall manufacture:

(1) Any box for seasonal or other special purpose having a greater pulp content or area or weight of paper or paperboard than contained in the usual commercial box for like contents.

(2) Any sleeves or extra containers for seasonal or other special purposes unless also required for the usual commercial box for like contents.

(f) *Restrictions on dummy and display boxes*—(1) *Dummy boxes.* No person shall manufacture any commercial display box simulating a package and not intended for packaging purposes, or use for display purposes, any box not previously used for packaging.

(2) *Display boxes.* No person shall manufacture any box for simultaneous packaging and display purposes unless it is made without display features that require additional paperboard.

(g) *Restrictions on set or combination boxes.* No person shall manufacture any set or combination box without permission from the War Production Board in writing. The War Production Board will grant permission to manufacture set or combination boxes only in cases which involve no additional consumption of board over the quantity required to pack the items separately, or in cases where the resultant greater utility to the consumer is commensurate with the additional use of board involved.

(h) *Restriction on empty boxes.* No person shall knowingly manufacture boxes for sale at retail as empty boxes.

(i) *Restrictions on manufacture of boxes from virgin wood pulp.* No person shall manufacture any box from any of the following grades of paperboard listed in United States Department of Commerce Simplified Practice Recommendation R44–36 if any virgin wood pulp is contained in any of such paperboard: plan chipboard, filled news board, single news vat-lined chip, bending chip board, colored suit box chip back, solid jute, cracker shell board, or solid news.

(j) *Restrictions on pulp inner liners.* Except as provided in paragraph (l), no person shall commercially use, on the inside surface of any folding box, any liner made from (1) virgin wood pulp or (2) from any waste paper (including, but not limited to, white cuttings and manila cuttings) which can be processed to simulate the appearance of a virgin wood pulp liner.

(k) *Restrictions on virgin wood pulp boards.* Except as provided in paragraph (l) no person shall manufacture any box from paperboard containing in its total fibre furnish 50% or more virgin wood pulp or substitute high grade waste paper.

(l) *Permitted uses of pulp inner liners and kraft board.* The restrictions of paragraphs (j) and (k) shall not apply to boxes designed for use as outer containers in parcel post or express shipments. They also shall not apply to boxes designed for packaging any of the following products:

(1) Wet or oily foods.

(2) Products containing, by weight, 25% or more of metal.

(3) Any other product determined by the War Production Board as requiring the protection of such liner or paperboard to insure its delivery in merchantable condition to the ultimate consumer. Application for such determination may be made by the prospective packager by letter stating the pertinent facts.

(m) *Restrictions on size, weight and shape.* No person shall manufacture any box not covered by specific caliper or weight restrictions in this order unless it is made:

(1) Of paperboard no heavier than that reasonably required to transport the product with safety.

(2) No larger than is necessary to pack the product.

(3) Without extension edges, top or bottom cards, or padded tops, if the construction used requires an extra sheet of paperboard or an extra head.

Exceptions

(n) *Provisions not applicable to material completed or in process.* (1) No prohibition or restriction hereof shall apply to boxes completely manufactured or made from work in process prior to the effective date of such restriction.

(2) Where any restriction hereof limits the type, grade, or quality of paperboard which may be used in manufacturing any box, such restriction shall not apply to the use of any paperboard manufactured for that purpose prior to the effective date of such restriction.

(3) Where any restriction hereof limits the use of sheet-lined paperboard in manufacturing any box, such restriction shall not apply to the use of any paperboard sheet-lined prior to the effective date of such restriction.

(o) *Provisions not applicable to boxes for certain federal agencies.* The restrictions of this order shall not apply to boxes manufactured to meet the packaging specifications of, and delivered to or for the account of, the United States Army, Navy, Maritime Commission, War Shipping Administration, or any agency imposing such specifications for material to be delivered under the Act of Congress of March 11, 1941, entitled "An Act for the Defense of the United States" (Lend-Lease Act).

(p) *Inventory restrictions.* No person shall accept delivery of any quantity of boxes which will increase his inventory of that size and type of box to more than 25 tons or more than his reasonably anticipated requirements for the next ninety days, whichever is greater. No person shall order any quantity of boxes for delivery to him, or for his account, on any future date, if he has reason to believe that receipt thereof on that date will increase his inventory to more than the amount permitted in the first sentence of this paragraph. No person shall deliver, or accept an order for, any boxes which he has reason to believe will increase the purchaser's inventory to an amount greater than that permitted by this order.

Miscellaneous Provisions

(q) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(r) *Records.* All persons affected by this order shall keep for two years accurate and complete records concerning inventories, purchases, production and sales.

(s) *Inspection and audit.* All records required to be kept by this order shall upon request be submitted to authorized representatives of the War Production Board for inspection and audit.

(t) *Schedules.* All schedules attached to this order or issued as amendments to it are a part of this order as fully as if set out in it.

(u) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(v) *Appeals.* An appeal from the provisions of this order may be made by a letter stating informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(w) *Communications to War Production Board.* All appeals and other communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paperboard Division, Washington 25, D. C., Ref: L-239.

Issued this 24th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE 1—RETAIL BOXES

(a) *Definition.* For the purpose of this order "retail box" means any plain or fancy, lined or unlined box furnished directly to a retailer for packaging merchandise for retail distribution, excepting parcel post boxes and boxes for packaging foods, candy, drugs, or medicinal supplies.

(b) *Quota restriction.* No person shall use for the manufacture of retail boxes in any calendar year more than 65% of the tonnage of paperboard he put in process for the manufacture of retail boxes during 1941.

(c) *Restrictions on retail set-up boxes.* (1) No person shall manufacture any retail set-up box exceeding the following maximum specifications, provided that retail set-up boxes of sizes other than specified below may be manufactured if the material used is not of heavier weight than that permitted for the box of the size having the nearest higher area in square inches:

30 x 4 x 1⅝	5/8	50
36 x 5½ x 1⅝	5/8	50

(2) *Material for retail set-up boxes.* No person shall incorporate in any retail set-up boxes:

(i) Any grade or quality of paperboard higher than solid news No. 2 finish, Gauge List No. 3, or

(ii) Any bottom paper if the box is strip wrapped, or

(iii) Any lining on the side of the board forming the inside of the box, except news vat lining.

(d) *Restrictions on retail folding boxes.* No person shall manufacture any retail folding box for packing wearing apparel (exclusive of shoes) or flowers of any grade of paperboard except:

(1) The grades listed in paragraph (1) of this order, if made without virgin wood pulp.

(2) Mist-colored suit boxboard containing no more virgin pulp than is required to create the mist effect.

(e) *Exception for merchandise folders.* Notwithstanding the restrictions of paragraph (i) of this order and paragraph (d) of this schedule, a virgin wood pulp liner may be used on the outside of any merchandise folder made in conformity with the following specifications:

(i) *Style.* One-piece style only, with lock closures or metal clasps.

(ii) *Sizes.* Total over-all area of blank no larger than 600 square inches.

(iii) *Caliper.* Paperboard no thicker than .020 if the blank has an over-all area of under 200 sq. inches, .022 if the area is from 200 to 400 sq. inches, or .024 if over 400 sq. inches.

SCHEDULE 2—FOOD BOXES

(a) *Butter, lard, oleomargarine, shortening and similar boxes.* No person shall manufacture any box for packaging butter, lard, oleomargarine, shortening or similar products

with a content capacity of less than one pound or of a better grade or heavier weight of boxboard than the following:

(1) 1 lb. butter, lard, oleomargarine or shortening boxes: Single bleached sulphite or sulphate solid manilla—65 lbs. per M sq. ft.

(2) 2 lb. lard, shortening or oleomargarine boxes: Single bleached sulphite or sulphate solid manilla—69 lbs. per M sq. ft.

(3) 3 lb. and 4 lb. lard or shortening boxes: Single bleached sulphite news center, manila back—77 lbs. per M sq. ft.

(4) 5 Lb. lard or shortening boxes: Single bleached sulphite news center manila back—82 lbs. per M sq. ft.

(5) 8 Lb. lard or shortening boxes: Single bleached sulphite news center manila back—128 lbs. per M sq. ft.

(b) *Ice cream and frozen dessert boxes.* No person shall manufacture for ice cream or frozen dessert any:

(1) Box for direct fill factory pack, except:

(i) With content capacity of one pint, one quart, two gallons or larger than two gallons.

(ii) If in sizes of one quart or less, of a grade and weight of boxboard no better and no heavier than solid bleached sulphite or sulphate—71 lbs. per M sq. ft.

(iii) If a folding box, the outer flaps at both ends of the main panel should be no longer than 15/16 of an inch.

(2) Tuck end box of a better grade or heavier weight of boxboard than the following:

Pints—Single bleached sulphite solid manila—65 lbs. per M sq. ft.

Quarts—Bleached manila lined news—72 lbs. per M sq. ft.

(3) Carry-out pail, regardless of size, of a better grade or heavier weight of boxboard than single, bleached sulphite solid manila—71 lbs. per M sq. ft.

NOTE 1: Cubic inch capacity of formed cartons is calculated on center to center of score line dimensions. Basis of weight for all boxes in paragraphs (a), (b) and (c) of schedule 2 is #6 gauge list, except bleached manila lined news, which is #2 gauge list, as listed in Simplified Practice Recommendation R44-36 of U. S. Department of Commerce.

(c) *Food pails.* No person shall manufacture any food pail of a better grade or heavier weight of boxboard than the following:

(1) Hot food pails, generally known to the trade as chop suey pails, single bleached sulphite solid manila—82 lbs. per M sq. ft.

(2) All other food pails, single bleached sulphite solid manila—77 lbs. per M sq. ft. for two quart size and 69 lbs. per M sq. ft. for all other sizes.

(d) *Cereal boxes.* No person shall manufacture any box to hold less than 4 oz. net weight of any ready-to-eat breakfast cereal, for use by any person, including those listed in paragraph (o) of this order, except for use by the Armed Services in hospitals overseas.

(e) *Boxes for crackers and baked goods*—(1) *Definition.* For the purpose of this schedule "crackers and baked goods" mean products of the biscuit, cracker and pretzel industry.

(2) *Restrictions on packing.* No person shall pack crackers or baked goods without observing the following restrictions:

(i) Crackers, cookies or biscuits shall be packed not less than six bags, packets, or rolls to a folding or set-up box.

(ii) Single caddies and double caddies shall be filled to normal capacity, regardless of weight or count of contents.

(iii) Cracker caddies in carload lots shall be mill tied and knocked down flat, but not wrapped.

(f) *Boxes for crackers and baked goods; restrictions on manufacturing.* No person shall manufacture any box for packaging crackers or baked goods with false sides, ends, bottoms or covers, or that does not conform to the following specifications:

(1) *Caddies.* (i) Paperboard for caddies shall be no thicker than .050, if the caddies are single, or .055, if they are double.

(ii) Openings in caddies for bulk goods shall be not less than 10" x 10", if the caddies are single, or 10" x 20", if the caddies are double.

(iii) No single or double caddies shall be less than 6½ inches in depth, except that fruit-filled bars, sandwich varieties and shortbreads may be packed in caddies not less than 4⅜ inches in depth.

(iv) Flanges on telescope covers of laminated single or double caddies shall not exceed 2 inches in depth.

(2) *Nests for caddies.* Nests made from virgin wood pulp board shall be no thicker than .022 for single caddies, or .024 for double caddies.

(3) *Cartons—size.* (i) End flaps on seal end cartons shall not be more than ½ the width of the carton plus ½ inch, except that flaps on cartons for ground products (such as cracker meal) may be full width.

(ii) Tuck shall not exceed ⅞" from center of score line to edge of tuck, if cover flap is 5 inches or less in length, or 1 inch, if cover flap exceeds 5 inches in length.

(iii) Side flaps on tuck flap cartons shall not be longer than half the width of the carton front to back plus half the width of the tuck of the cover flap.

(4) *Cartons; weight.* The basis weight and caliper of boxboard of cartons shall be based on the cubic inch capacity of the formed carton or the legend weight, whichever is greater.

(i) Basis weight of board for cracker shell type cartons shall not exceed the following:

Cubic inch capacity of formed cartons	Legend weight up to and including	Weight per thousand square feet	Caliper
Up to 50	8 oz	72	See Gauge List No. 2.
51 to 150	12 oz	76	
151 to 200	1 lb	80	
201 to 250	2 lb	85	
251 and up	Over 2 lb	90	

(ii) Basis weight and caliper of board with printing surface, such as single manila lined and bleached manila lined boards used for printed cartons shall not exceed the following:

Cubic inch capacity of formed cartons	Legend weight up to and including	Weight per thousand square feet	Caliper
Up to 50	8 oz	76	See Gauge List No. 2.
51 to 150	12 oz	80	
151 to 200	1 lb	85	
201 to 250	2 lb	90	
251 and up	Over 2 lb	96	

(iii) Basis weight and caliper of board with printing surface such as patent coated news back board used for printing cartons shall not exceed the following:

Cubic inch capacity of formed cartons	Legend weight up to and including	Weight per thousand square feet	Caliper
Up to 50	8 oz	77	See Gauge List No. 6.
51 to 150	12 oz	82	
151 to 200	1 lb	88	
201 to 250	2 lb	96	
251 and up	Over 2 lb	104	

(5) *Cartons; printing designs.* Printing designs shall not extend (bleed) over carton edges if such extension (bleed) causes an excess use of paperboard through the use of double knives or otherwise.

(6) *Packets, trays and boats.* Paperboard for packets, trays and boats, shall be no thicker than .022.

(7) *Layer boards, strips, dividers and nestings.* (i) Layer boards, strips, dividers and nestings for cellophane bags, glassine bags, paper bags, packets, tray packages and boats shall be no thicker than .022, if made from laminated stock, and shall not exceed the basis of 90 sheets per 50 lb. bundle, if made from other stock.

(ii) Layer boards, strips, dividers and nestings for bulk receptacles shall not exceed the basis of 100 sheets per 50 lb. bundle, except that dividers for fruit-filled bars may be made of paperboard not exceeding the basis of 50 sheets per 50 lb. bundle, if not made from virgin wood pulp.

(8) *Single sale unit boxes.* Laminated paperboard for single sale unit boxes in one pound or up to and including two pound sizes shall be no thicker than .028.

(g) *Candy boxes*—(1) *Definitions.* For the purpose of this schedule:

(i) "Set-up candy box" means any set-up box designed for packaging chocolates or other candies, with the exception of (a) boxes of less than ½ lb. capacity or more than 5-lb. capacity and (b) boxes for bar and bulk goods.

(ii) "Finished weight" means the weight of the finished box, including all trays, partitions, decorations (made of any material), and other findings (except paper cups), but not including candy contents.

(2) *Maximum weight for standard sizes.* No person shall manufacture any set-up candy box of a maximum finished weight (subject to a 5% tolerance for variation in paperboard weight) greater than that specified for any of the following box sizes (net content capacity): 3¼ oz. for ½ lb. box, 5 oz. for 1 lb. box, 6¼ oz. for 1½ lb. box, 7¼ oz. for 2 lb. box, 8¼ oz. for 2½ lb. box, 9½ oz. for 3 lb. box, and 15 oz. for 5 lb. box.

(3) *Maximum weight for odd sizes.* For a "set-up candy box" of any size not listed in the preceding paragraph, the maximum "finished weight" shall be the same as for the nearest standard size listed in that paragraph. (For example, a 1 lb. 2 oz. box has the same maximum as a 1 lb. box; a 1 lb. 6 oz. box has the same maximum as a 1½ lb. box.

(4) *Outer containers.* No box designed as an outer container for one or more "set-up candy box" of any size shall be made except in conformity with the following specifications:

(i) *Paperboard.* Paperboard of no better grade or quality better than unlined chip or unlined news.

(ii) *Coverings.* Paperboard to have no cover papers. However, paper reinforcing strips no wider than 1¼" may be used around the top of the cover and the bottom of the base.

(iii) *Minimum size.* If designed for "set-up candy boxes" of any size listed below, minimum capacity shall be no less than the number of boxes (of that size) specified.

Set-up candy box size:	Minimum capacity of outer container
½ lb. or more but under 1 lb	6 boxes.
1 lb. or more but under 2 lbs	3 boxes.
2 lbs. or more but under 3 lbs	2 boxes.

(5) *Exceptions.* The restrictions of this paragraph (4) do not apply to outer mailing cartons.

SCHEDULE 3—BEVERAGE BOXES

(a) *Definition.* For the purpose of this schedule "beverage" means any alcoholic or

non-alcoholic beverage, exclusive of medicinal preparations.

(b) *Box prohibition.* No person shall manufacture or use any type of folding or set-up paperboard box for packaging bottled beverages. This includes, but is not limited to, boxes designed for conveying bottled beverages from bottlers to distributors and boxes, including those known as "bottle carry-outs", designed for the consumer's use in conveying bottled beverages from the distributor. This restriction does not apply to solid fibre or corrugated shipping containers.

SCHEDULE 4—TOBACCO BOXES

(a) *Cigarette wrappers.* No person shall manufacture any printed wrappers for 20s cuptype cigarette packages of paper heavier than as specified below (weight to be computed on the basis of 500 25" x 38" sheets per ream):

Cigarette size	Maximum paper weight	
	Uncoated	Coated
	Pound	*Pound*
Standard	60	65
King	65	70

(b) *Cigarette boxes.* (1) No person shall manufacture any 20–200 size cigarette box of heavier paperboard than gauge list 2, #2 finish, 65 lbs. per M sq. ft.

(2) When the boxes referred to in the preceding paragraph are shipped in carload lots, they shall be mill-tied and knocked down flat, but not wrapped.

(3) No cigarette box shall be manufactured to hold from 21 to 199 cigarettes.

(c) *Smoking tobacco boxes.* No person shall manufacture any folding box to hold less than 2½ oz. of tobacco which weighs more than 30 lbs. per M finished boxes, exclusive of the weight of the paper in which the tobacco is wrapped or of any overwrap.

SCHEDULE 5—WEARING APPAREL BOXES

(a) *Work shirt boxes.* No person shall manufacture any box for packaging work shirts that (1) holds less than six of such shirts or (2) is made from paperboard of a quality better than bleached manila lined news.

(b) *Accessories boxes.* No person shall manufacture any box for packaging less than six men's or boys' belts, garters (pairs) or suspenders.

(c) *Rubber-heel boxes.* No person shall manufacture any box for packaging rubber heels that (1) holds from two to five pairs of rubber heels, (2) is made of paperboard of better quality than bleached manila lined chip or news, or (3) is made of a paperboard caliper heavier than .018 for 1-pair boxes or .026 for boxes for six pairs or more.

(d) *Boxes for knit-wear*—(1) *Definition.* For the purposes of this Table, "knit-wear" means hosiery, knitted underwear, and knitted outerwear.

(2) *Manufacturing restrictions.* No person shall manufacture any box for packaging knit wear unless it conforms with the following restrictions:

(i) *Board grade.* Folding boxes shall be made of paperboard no better than patent coated news back; set-up boxes for women's rayon hosiery, of paperboard no better than white wood vat lined; and other set-up boxes of paperboard without virgin wood pulp of the grades listed in paragraph (i) of this order.

(ii) *Minimum size.* Boxes for packaging the items listed below shall be large enough to hold the number of units shown in the column entitled "Minimum box size" (prices specified below represent manufacturers' net wholesale prices):

HOSIERY

Name of item	Minimum box size
Men's, women's, children's, infants':	
Over $3/doz	prs. 6
$3/doz. or less	prs. 12

KNITTED UNDERWEAR

Knitted bathing trunks and suits, $18/doz or less	6
Knitted woolen gloves and mittens, over $24/doz	6
Knitted headwear and mufflers, $24/doz or less	12

(e) *Packaging restrictions*—(1) *Double-packing.* No knit wear manufacturer shall "double-pack" any knit wear. "Double-pack" means packaging the same piece of merchandise in both a paper envelope and a box.

(2) *Box findings.* No knit wear manufacturer shall use any of the following inner box findings in boxes for packaging knit wear; fly leaves, platforms, paper folders, paper bands, paper stiffeners, paperboards. However, paper stiffeners and either paper folders or paper bands (if available) may be used for women's rayon hosiery and for rayon underwear.

(3) *Rayon hosiery.* No hosiery manufacturer shall use any box made of white wood vat lined paperboard for packaging any hosiery except women's rayon hosiery.

(f) *Exceptions for mail or express distribution.* The minimum-size restrictions of paragraph (d) (2) (ii), the double-packing restriction of paragraph (e) (1), and box-findings restrictions of paragraph (e) (2) shall not apply to the manufacture and packaging of knitwear in boxes for mail or express delivery from the manufacturer to direct distribution retail customers.

SCHEDULE 6—LAUNDRY BOXES

(a) *Permitted grades.* No person shall manufacture any box for the packaging of laundry from paperboard containing virgin wood pulp of any grade of paperboard not listed in paragraph (i) of this order.

(b) *Flange depth.* No person shall manufacture any two piece laundry box with cover flange deeper than 2½ inches.

(c) *Caliper.* No person shall manufacture any laundry box of heavier weight board than the following:

Blanks:	Caliper
Less than 450 sq. inches	0.020
450 and less than 650 inches	.022
650 and less than 750 inches	.024
750 and less than 1100 inches	.026
1100 sq. inches and over	.030

SCHEDULE 7—SPORTING GOODS BOXES

Golf, tennis and baseball boxes. No person shall manufacture any box for packing less than twelve golf, tennis or baseballs or incorporate in the manufacture of any such box sheet lining, or paperboard exceeding in area or weight the paperboard required for a full telescope set-up box without projecting edges or dividers, basis sixty sheets per 50 ft. bundle.

SCHEDULE 8—TOY AND GAME BOXES

(a) *Limitation on manufacture.* No person shall use in the manufacture of boxes for games and toys during any period of twelve months, commencing with the issuance of this order, more than 60 percent of the tonnage of paperboard which he used for this purpose during the calendar year 1942.

SCHEDULE 9—PAPER PRODUCTS

(a) *Envelope boxes.* (1) No person shall use in the manufacture of any set-up envelope box:

(i) Any paperboard of a quality better than bending chip board or news vat lined chip, No. 2 finish, Gauge List No. 2, if cover paper is used; if cover paper is not used, the quality of the paperboard shall not be better than patent coated news back.

(ii) Any sheet lined board.

(iii) Any paperboard of a weight in excess of the maximum shown below (25" x 40"—50 lbs. per bundle), which weight shall be specified by the envelope manufacturer or packer:

	Sheets per bundle
Envelopes 14" half perimeter and less	60
Envelopes over 14" half perimeter and not exceeding 18" half perimeter	55
Envelopes over 18" half perimeter	40

(2) No person shall manufacture any envelope box that is double stripped on either box or cover.

(b) *Papeterie boxes.* No person shall use in the manufacture of any set-up box for papeteries:

(i) Any paperboard better than bending chip board or news vat lined chip, No. 2 finish, Gauge List No. 2, if cover paper is used: provided, however, that white wood vat lined board may be used in the covers and lids of hinge-style boxes; if cover paper is not used the quality of the paperboard shall not be better than patent coated news back.

(ii) Any paperboard of count in excess of the minimums shown below (25" x 40"—50 lbs. per bundle).

Boxes containing 23 envelopes or less with corresponding note paper and/or cards—60 sheets per bundle;

Boxes containing from 24 to 72 (inclusive) envelopes with corresponding note paper and/or cards—50 sheets per bundle;

Boxes containing more than 72 envelopes with corresponding note paper and/or cards—40 sheets per bundle.

(iii) Any sheet lined board or more than double stripping.

(2) No person shall manufacture any folding box for papeteries from paperboard of higher quality than patent coated news back without sheet lining, nor of greater weight per box than required for an equivalent cubical content set-up box.

(3) No box for papeteries shall be made or equipped with: (i) base or cover caps, flanges, non-paper coverings, padded tops, projections, or shoulders (ii) attached or unattached interior parts (such as dividers, drawers or slides, or partitions); or (iii) false work (such as false bottoms, ends, sides, traps, or decks); provided, however, that any such box for 24 or more envelopes with note paper and/or cards of corresponding size may be made or equipped with false work (other than false bottoms, ends, or sides) which does not enclose more than ¼ of the volume of the box.

(c) *Waxed paper cutter boxes.* No person shall manufacture any cutter boxes for packaging rolls of waxed paper excepting in accordance with the following maximum specifications:

(1) Box dimensions: $2^{11}/_{16}$ x $2^{11}/_{16}$ x $12^{3}/_{8}$ inches.

(2) Quality of paperboard: No higher than bleached manila lined news basis 70 sheets per 50 lb. bundle.

(d) *Roll toilet tissue.* No person shall manufacture any boxes for packaging roll toilet tissue.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 355,[1] Amdt. 17]

RETAIL CEILING PRICES FOR BEEF, VEAL, LAMB AND MUTTON CUTS AND ALL VARIETY MEATS AND EDIBLE BY-PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 355 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all retail sales of beef, veal, lamb and mutton cuts made on and after June 21, 1943, on all retail sales of variety meats and edible by-products made on and after June 5, 1943, and on all retail sales of dried beef (sliced) made on and after September 8, 1943. It also fixes dollar-and-cents ceiling prices on all sales of retail cuts of beef, veal, lamb and mutton, all variety meats and edible by-products and miscellaneous beef items which retail dealers are permitted to make to purveyors of meals. It also fixes dollars and cents ceiling prices on the meat items covered by this regulation when permission has been granted retail dealers to sell to other retail dealers for resale purposes. The only retail beef, veal, lamb and mutton cuts, variety meats and edible by-products, and miscellaneous beef items which may be sold are those described in section 20 of this regulation. The United States is divided into zones and different ceiling prices depend on the zone where your store is, its group, and the grade of meat you are selling. A store includes any place where beef, veal, lamb and mutton cuts or variety meats and edible by-products are sold at retail.

2. Section 2 (a) is amended to read as follows:

(a) You will find your ceiling prices for each grade of beef, veal, lamb and mutton cuts on your "OPA List of Ceiling Prices for Beef, Veal, Lamb and Mutton—Fresh, Frozen or Cured" (Article III, section 22) and for variety meats and edible by-products on your "OPA List of Ceiling Prices for Variety Meats and Edible By-Products" (Article III, section 28) and for miscellaneous beef items on your "OPA List of Ceiling Prices for Miscellaneous Beef Items" (Article III, section 29), on all sales made to individuals for consumption by themselves or their families off your premises. You will also use the same ceiling prices on sales to eating places if the dollar volume of such sales does not exceed 20% of your total dollar volume of all sales during any calendar month. If you have not obtained written permission in advance from your appropriate regional office, you cannot sell more than 20% of the total dollar volume of your sales during any calendar month to purveyors of meals. In exceptional cases where you have been granted permission in advance to sell more than 20% of your dollar volume of meats to eating places your ceiling price on all sales made to eating places shall be the prices on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30). In those cases where you have been granted permission to make sales to another retail dealer for resale purposes you will find your ceiling prices for such sales on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30). A copy of the lists for each kind of meat, variety meat and edible by-product and for miscellaneous beef items for your zone and group may be obtained from your local War Price and Rationing Board or from your District Office of the Office of Price Administration.

3. Section 3(d) is added to read as follows:

(d) On July 26, 1944, the dollars-and-cents specially authorized ceiling prices for beef, veal, lamb and mutton retail cuts, variety meats and edible by-products and for miscellaneous beef items sold to eating places or to other retail dealers for resale where written permission to make such sales has been granted in advance (Article III, section 30) take the place of all previous ceiling prices fixed by the Office of Price Administration for these particular sales made to the limited types of buyers and sales described. On and after July 26, 1944, in the exceptional instances where these special types of sales are permitted to be made, you must not sell or offer to sell any of the items named in Article III, section 30, to purveyors of meals or to other retail dealers at prices higher than those therein specified.

4. Section 5, including the headnote, is amended to read as follows:

SEC. 5. *The types of sales you are allowed to make.* (a) You may make sales to individuals for consumption by themselves or their families off your premises.

(b) You may make sales to hotels, restaurants, institutions, and other purveyors of meals selling or furnishing meals, of not more than 20% of the total dollar volume of your sales during any month. Your ceiling prices for such sales are the ceiling prices fixed by this regulation for sales to individuals for consumption by themselves or their families off your premises. (Article III, section 20.)

(c) You may make sales to hotels, restaurants, institutions and other purveyors of meals selling or furnishing meals, of more than 20% of the total dollar volume of your sales during any month only after the appropriate regional administrator has declared the area in which your store is located to be an area deficient in supplies of fabricated meat cuts for purveyors of meals, and—following such declaration—you have applied to the appropriate OPA District Office for, and have received written permission to make such sales.

Each Regional Administrator is authorized, either on his own motion or after consideration of applications made by one or more retail dealers, to declare any portion of the region under his jurisdiction to be an area deficient in supplies of frabricated meat cuts for purveyors of meals when he finds that the following conditions exist:

(1) Purveyors of meals within the area are unable to obtain fabricated meat cuts in sufficient volume to supply their requirements as determined under Ration Order No. 16 during the two month period immediately preceding May 1, 1944;

(2) The deficiency in supply is caused either by the fact that there are no dealers in the area selling fabricated meat cuts, or the dealers in the area selling fabricated meat cuts do not have adequate facilities or quotas to supply the requirements of purveyors of meals located in the area as determined under the first condition;

(3) Purveyors of meals in the area customarily have relied upon, and find it necessary to continue to rely upon local retail dealers for supplies of meat sufficient to fill their requirements.

Applications calling upon the appropriate Regional Administrator to declare a specific area to be deficient in supplies of fabricated meat cuts for purveyors of meals may be filed with the appropriate OPA District or Regional Office at any time during business hours on any business day by one or more retail dealers who operate a retail store or stores within the area.

Applications must be in writing, must be signed by the applicant or applicants, must describe the specific area for which the declaration is sought, and must set forth facts which indicate the existence of the conditions under which the Regional Administrator is authorized to declare the area to be deficient in supplies of fabricated meat cuts for purveyors of meals. If the application is filed in an OPA District Office, it shall be forwarded within five days to the appropriate Regional Office together with the recommendations of the OPA District Office Director based upon an accompanying analysis of the conditions existing in the specific area for which the declaration is sought.

Upon a finding by the Regional Administrator, either on his own motion or after consideration of a proper application or applications, that the conditions under which he is authorized to act exist, he shall declare the specific area to be deficient in supplies of fabricated meat cuts for purveyors of meals.

Following a declaration by the appropriate Regional Administrator that any specific area under his jurisdiction is deficient in supplies of fabricated meat cuts for purveyors of meals any retail dealer having a store located in that area may apply in writing to his OPA District Office for permission to sell more than 20% of the total dollar volume of his sales of meat made at his retail store or stores located in the area to purveyors of meals. The application for permission must be in duplicate, must be signed by the applicant, must give the address of the store or stores from which he intends to make sales by virtue of the permission, and must declare that the applicant, in all sales made from such store or stores to purveyors of meals after receipt of the requested permission, will charge no more than the ceiling prices listed in his "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30). For purposes of convenience he may combine an application made under this section with applications made under the analogous sections of Maximum Price Regulation No. 336 and/or Maximum Price Regulation No. 394.

Upon receipt of an application the OPA District Director shall grant the applicant the requested permission in writing. When the applicant has received such permission, his ceiling prices on all sales thereafter made to purveyors of meals must not exceed the ceiling prices for each grade of beef, veal, lamb and mutton retail cuts listed in the "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30).

(d) You may make sales to other retail dealers who purchase your retail meat cuts for resale or you may buy retail meat cuts for resale purposes from other retail dealers only after written permission to make such sales and/or purchases has been granted to both the seller and the buyer by the appropriate Regional Office. The buyer and seller must submit joint applications in duplicate to the appropriate OPA District Office for such permission and must state therein the reasons why permission to make such sales and purchases is being sought. The joint application submitted must be signed by both parties and must set forth facts which indicate the existence of the following conditions:

(1) The purchasing retail dealer serves an area which will be deprived of its adequate supply of meats unless provision is made for him to procure meats in the form of retail cuts;

(2) The purchasing retail dealer does not have the facilities necessary to cut wholesale cuts into retail cuts;

(3) The purchasing retail dealer either customarily purchased his meats in the form of retail cuts prior to May 17, 1943, or is just starting to sell meats at retail in the designated location;

(4) The selling retail dealer is regularly engaged in the business of making sales at retail, the major portion of his meat business consisting of sales to individuals for consumption by themselves or their families off his premises;

(5) The contemplated sale of retail cuts to the purchasing retail dealer will constitute only an incidental part of the selling retail dealer's business. In no event may sales of retail cuts to other retail dealers exceed 40% of the total dollar volume of sales made by the selling retail dealer.

The application also must include statement showing (1) the approximate total volume of meat cuts expected to be transferred monthly as a result of the arrangement, (2) the expected duration of the arrangement, (3) the name and address of both parties. For purposes of convenience buyers and sellers may combine applications made under this section with applications made under the analogous sections of Maximum Price Regulation No. 336 and/or Maximum Price Regulation No. 394. The OPA District Office shall forward the application to the appropriate regional office together with its recommendations.

Upon receipt of a joint application together with the recommendations of the OPA District Office, the appropriate Regional Office shall conduct whatever investigations it deems necessary concerning the statements in the joint application. Upon a finding by the Regional Administrator that all of the requirements of this section have been satisfied he is authorized to grant permission in writing authorizing the purchasing retail dealer to buy, or the selling retail dealer to sell retail meat cuts for resale in whateyer quantity and for whatever period as he may find to be appropriate under the circumstances. He also shall send a copy of whatever order he may make to the forwarding OPA District Office.

Where such permission has been granted, and if you are the retail seller, you may charge the retail dealer authorized to purchase retail cuts from you no more than the ceiling price for each cut and grade of beef, veal, lamb and mutton retail cuts listed on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30).

If you are the authorized purchasing retail dealer you may pay the authorized selling retail dealer no more than the ceiling price for the cut and grade of beef, veal, lamb and mutton retail cuts listed on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 30).

5. Section 9 is amended to read as follows:

SEC. 9. *Records and reports.* After May 17, 1943, you shall keep the same kind of records you have customarily kept, showing the prices you charge for beef, veal, lamb and mutton cuts, variety meats and edible by-products and for miscellaneous beef items. On all sales to hotels, restaurants, institutions and other eating places selling or furnishing meals made after July 26, 1944, you must keep records and give receipts to each respective purchaser, showing the name and address of each such purchaser, the date of each purchase, your name and address, the separate items of each order including the name, weight, and grade of each cut, variety meat item or edible by-product and miscellaneous beef item sold and the price charged therefor. If you are permitted to sell to other retail dealers for resale purposes you must keep records of each transaction and give receipts showing the same facts that you are required to show on your sales to eating places. You shall show the records to any representative of the Office of Price Administration upon request. If you have customarily given a customer a sales slip, receipt or similar evidence of purchase, you shall continue to do so. Furthermore, regardless of your previous custom, you shall, upon request by any customer, give a receipt showing the date, your name and address, the name, weight and grade of each cut, variety meat item or edible by-product, or miscellaneous beef item sold and the price you received for it.

These ceiling prices apply to stores in all groups providing permission has been received in advance authorizing sales to be made to eating places or other retailers.

Zone 1 includes the following areas: Washington, all counties; Oregon, all counties; California, all counties; Nevada, all counties.

All that portion of Idaho north of and including the counties of Idaho, Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Clearwater, Nez Perce, and Lewis.

NOTE 1: *Ground meat.* (a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in section 20 of the beef, veal, lamb and mutton retail regulation, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground, the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a customer and ground at the customer's request and which is wrapped and marked with that customer's name.

NOTE 2: *Cube steak.* The retailer must not sell any cubed steaks which have been cubed in advance of an order. If a customer buys any retail cut of meat and wants it cubed, the retailer may cube that cut of meat for the customer, only if the cubing is done in a manner so that the customer can observe it and no addition is charged the customer for the cubing.

NOTE 3: *Yearling lamb.* The ceiling prices for yearling lamb cuts of the different grades are lower than the above ceiling prices for lamb. The retailer must not sell retail yearling lamb cuts of choice grade at a higher price than the ceiling price for corresponding retail lamb cut of good grade; he must not sell retail yearling lamb cuts of good grade at a higher price than the ceiling price for the corresponding retail lamb cut of commercial grade; and, he must not sell retail yearling lamb cuts of commercial, utility and cull grades at a higher price than the ceiling price for the corresponding retail lamb cut of utility grade.

These ceiling prices apply to stores in all groups located in Zone 2 providing permission has been received in advance authorizing sales to be made to eating places or other retailers.

Zone 2 includes the following area: Montana and all counties; Wyoming and all counties; Utah and all counties; Arizona and all counties; all that portion of Idaho south of but not including Idaho County.

NOTE 1: *Ground meat.* (a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in section 20 of the beef, veal, lamb and mutton retail regulation, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground, the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a customer and ground at the customer's request and which is wrapped and marked with that customer's name.

NOTE 2: *Cube steak.* The retailer must not sell any cubed steaks which have been cubed in advance of an order. If a customer buys any retail cut of meat and wants it cubed, the retailer may cube that cut of meat for the customer, only if the cubing is done in a manner so that the customer can observe it and no addition is charged the customer for the cubing.

NOTE 3: *Yearling lamb.* The ceiling prices for yearling lamb cuts of the different grades are lower than the above ceiling prices for lamb. The retailer must not sell retail yearling lamb cuts of choice grade at a higher price than the ceiling price for the corresponding retail lamb cut of good grade; he must not sell retail yearling lamb cuts of good grade at a higher price than the ceiling price for the corresponding retail lamb cut of commercial grade; and, he must not sell retail yearling lamb cuts of commercial, utility and cull grades at a higher price than the ceiling price for the corresponding retail lamb cut of utility grade.

(c) *Retail ceiling prices on specially authorized sales to eating places or other retailers, Zone 3.*

NOTE 1: *Ground meat.* (a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in section 20 of the beef, veal, lamb and mutton retail regulation, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a customer and ground at the customer's request and which is wrapped and marked with that customer's name.

NOTE 2: *Cube steak.* The retailer must not sell any cubed steaks which have been cubed in advance of an order. If a customer buys any retail cut of meat and wants it cubed, the retailer may cube that cut of meat for the customer, only if the cubing is done in a manner so that the customer can observe it and no addition is charged the customer for the cubing.

NOTE 3: *Yearling lamb.* The ceiling prices for yearling lamb cuts of the different grades are lower than the above ceiling prices for lamb. The retailer must not sell retail yearling lamb cuts of choice grade at a higher price than the ceiling price for corresponding retail lamb cut of good grade; he must not sell retail yearling lamb cuts of good grade at a higher price than the ceiling price for the corresponding retail lamb cut of commercial grade; and, he must not sell retail yearling lamb cuts of commercial, utility and cull grades at a higher price than the ceiling price for the corresponding retail lamb cut of utility grade.

Louisiana, all that portion of Louisiana west of the Mississippi River from the northeast point of East Carroll Parish to the northeast point of Pointe Coupee Parish and west of and including the Parishes of Avoyelles, Saint Landry, Saint Martin, and Iberia.

The above prices are subject to the conditions contained in notes 1 to 3, inclusive.

NOTE 1: *Ground meat.* (a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in section 20 of the beef, veal, lamb and mutton retail regulation, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground, the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a customer and ground at the customer's request and which is wrapped and marked with that customer's name.

NOTE 2: *Cube steak.* The retailer must not sell any cubed steaks which have been cubed in advance of an order. If a customer buys any retail cut of meat and wants it cubed, the retailer may cube that cut of meat for the customer, only if the cubing is done in a manner so that the customer can observe it and no addition is charged the customer for the cubing.

NOTE 3: *Yearling lamb.* The ceiling prices for yearling lamb cuts of the different grades are lower than the above ceiling prices for lamb. The retailer must not sell retail yearling lamb cuts of choice grade at a higher price than the ceiling price for corresponding retail lamb cut of good grade; he must not sell retail yearling lamb cuts of good grade at a higher price than the ceiling price for the corresponding retail lamb cut of commercial grade; and, he must not sell retail yearling lamb cuts of commercial, utility and cull grades at a higher price than the ceiling price for the corresponding retail lamb cut of utility grade.

(g) *Retail ceiling prices on specially authorized sales to eating places or other retailers, Zone 7.*

The retailer must not sell retail yearling lamb cuts of choice grade at a higher price than the ceiling price for the corresponding retail lamb cut of good grade; he must not sell retail yearling lamb cuts of good grade at a higher price than the ceiling price for the corresponding retail lamb cut of commercial grade; and, he must not sell retail yearling lamb cuts of commercial, utility and cull grades at a higher price than the ceiling price for the corresponding retail lamb cut of utility grade.

(j) *Retail ceiling prices on specially authorized sales to eating places or other retailers, Zone 8—South.*

[For all stores permitted to make such sales]

These ceiling prices apply to stores in all groups located in Zone 8—North providing permission has been received in advance authorizing sales to be made to eating places or other retailers.

Zone 8—North includes the following area:

New York, all that portion of New York west of, and including the counties of Oswego, Oneida, Madison, Chenango, and Broome; but excluding the county of Chautauqua.

Pennsylvania, the following counties of Pennsylvania: McKean, Potter, Elk, Cameron, Clinton, Jefferson, Clearfield, Center, Indiana, Cambria, Blair, Huntingdon, Somerset, Bedford, and Fulton.

Maryland, the following counties of Maryland: Garrett and Allegany.

The above prices are subject to the conditions contained in notes 1 to 3, inclusive.

NOTE 1: *Ground meat.* (a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in section 20 of the beef, veal, lamb and mutton retail regulations, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground, the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a customer and ground at the customer's request and which is wrapped and marked with that customer's name.

NOTE 2: *Cube steak.* The retailer must not sell any cubed steaks which have been cubed in advance of an order. If a customer buys any retail cut of meat and wants it cubed, the retailer may cube that cut of meat for the customer, only if the cubing is done in a manner so that the customer can observe it and no addition is charged the customer for the cubing.

PART 1340—FUEL

[MPR 120,[2] Amdt. 109]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 120 is amended in the following respect:

Section 1340.205 (a) is amended to read as follows:

(a) Persons selling bituminous coal subject to this regulation shall keep the following records for as long as this regulation is in effect or for as long as the Emergency Price Control Act of 1942, as amended, shall permit, whichever period is the longer, but in no event to exceed two years. The records shall be made available for inspection by the Office of Price Administration.

(1) *Loading records.* Each producer shall keep for each day and for each mine (including any plant preparing his coal or any loading facility) a record of the actual sizes in inches or fractions thereof or in mesh, loaded at each such mine, preparation plant or loading facility into each railroad car with car initial and number; into each barge with name, number, or other designation; loaded at the tipple or mine storage facilities into locomotive tenders; conveyed directly from the mine to the yards or bins of consumer by conveyor, private railroad or tramway; and loaded into trucks or wagons. If the coal is treated or mechanically cleaned, this fact shall be noted on the loading record together with the method or designation of treatment or preparation used if the maximum price is dependent upon whether coals are treated or mechanically cleaned. The producer shall within 20 days from date of loading give all information required by this subparagraph (1) in writing (by copies of loading records or otherwise) to each person, such as sales agent, affiliate (but not distributor), as to so much of the producer's coal as is sold by such person from the mine and each such person shall keep such writing.

(2) *Shipping records or daily billing sheets.* Each producer, distributor and sales agent shall keep copies of all shipping records or daily billing sheets in his main office, or in the office in which his invoice records are maintained.

(3) *Invoices.* Each person selling bituminous coal subject to this regulation shall within 45 days after date of shipment give to his purchaser an invoice, and shall keep an exact copy thereof, showing all information and data required by this subparagraph (3). Each sales agent's or distributor's copy of his invoice shall show in addition the name and address of the producer; the name of the mine, or mines from which the coal is shipped; and whether he is acting as sales agent or distributor in the sale involved.

The invoice shall state the date of shipment; the name and address of the seller, of the buyer and of the consignee, if known; the destination; the name of the mine, or the trade name of the coals, and mine index number of the mine or mines from which shipment is made; the tonnage (or other unit of weight or measurement used by the seller) shipped from each mine of each size (stated in inches or fractions of inches or mesh); if loaded into a barge or railroad car, the name of the barge or the car initials and number; the per net ton price charged f. o. b. the mine; and the producing district number in which the mine or mines are located. Where such fact is necessary in the determination of the applicable maximum price, the invoice shall also state the type of mine from which the particular shipment is made (i. e., from an underground truck mine without a rail siding or connection, a mine loading coal entirely by hand, an underground mine, or a strip mine).

The invoice shall also show the carrier method, if shipment is by truck or water; the use to which the coal is to be put if the maximum price is dependent upon such use; and whether the coal is raw or mechanically cleaned if the maximum price is dependent upon whether the coals are raw or mechanically cleaned. The symbols established by the Solid Fuels Administration for War may be used for this purpose.

When an invoice, debit, credit, or other memorandum, evidencing a sale shows a price or charge which includes freight or other charges, including special service charges, there shall be an itemization of the charges made thereon. Where the producer has filed an application under § 1340.210 (a) (8) (ii) of the regulation and coal is crushed and sold subject to that section, the number assigned to the application shall be stated by the producer, his agent, or a distributor on the invoice as "application No. — crushed coal". If the maximum price was established temporary for the mine under § 1340.210 (a) (6), pending action on an application filed under that section, the invoice shall so state such fact, together with the date of filing such application.

(4) If a seller ships by lake or tidewater, he shall, within 60 days after vessel bill of lading, give to his purchaser an invoice and shall keep an exact copy thereof, showing all information and data required by this subparagraph (4). On such sales, the seller shall disregard subparagraph (3).

The invoice shall show the seller's name and address and the name and address of the buyer and of the consignee, if any, and the destination; the name of the vessel; the date of vessel shipment and the shipping point; the per net ton price or prices charged for the coals; and insurance and vessel freight. The seller's copy of the invoice shall identify him as producer, sales agent or distributor as the case may be.

As to each such vessel, the seller shall keep the railroad cargo manifest as received by him. The manifest shall show, or shall be made by the seller to show, the name of the vessel; the date loading was completed and the loading point; the name of each producer and the mine index number or name of each mine the coals of which were loaded into the vessel, identified by car number and initials; and the tonnage of each size shipped (stated in inches or fractions of inches or mesh).

A seller making such a shipment shall keep all invoices for coals so shipped as given him by his sellers so as to be readily accessible for examination by the Office of Price Administration and shall make them accessible for such examination.

(5) The invoice shall also include any other data required by the provisions of any part of this regulation, or of any order or authorization issued hereunder.

(6) Each person who buys bituminous coal shall keep each invoice as given him by his seller for the period of time specified in paragraph (a) above.

*Copies may be obtained from the Office of Price Administration.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[MPR 452,[1] Amdt. 5]

MANUFACTURERS' MAXIMUM PRICES FOR AUTOMOTIVE PARTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 13 (a) (1) (ii) of Maximum Price Regulation 452 is amended to read as follows:

(ii) The permitted labor cost to be used in the pricing formula provided in this paragraph (a) is to be determined by applying to the clock hours of each classification of labor estimated to be required on the basis of previous production experience, or where an estimate is not used, to the clock hours actually required, the hourly wage rate for such classification in effect on March 31, 1942, subject to the following qualifications:

(*a*) Where on March 31, 1942, the manufacturer used an average hourly wage rate, he may apply an average hourly wage rate if he uses the labor rates and the method of computing the average hourly wage rate in effect on March 31, 1942.

(*b*) If individuals have been or are promoted from one classification to another because of increased efficiency, the wage rate in effect on March 31, 1942, for the higher classification may be used.

(*c*) Where a manufacturer has in effect for the particular production an incentive wage plan and his hourly wage rate for any classification of labor is higher than it was on March 31, 1942, because of that plan, the manufacturer may, with the approval in writing of the National Office of the Office of Price Administration, adjust his March 31, 1942, wage rate to reflect the increase in his hourly labor rate resulting from the incentive wage plan. In the case of an incentive wage plan providing for an increased hourly wage rate when labor efficiency exceeds the manufacturer's standard under the plan, approval of the use of an adjusted wage rate in the calculation of costs under this paragraph (a) will not be granted if the degree of labor efficiency reflected in the manufacturer's standard is lower than current normal efficiency. A manufacturer's request for the approval of the use of an adjusted March 31, 1942, wage rate in the computation of costs under this paragraph (a) shall be addressed to the Office of Price Administration, Washington, D. C., and shall contain a description of the manufacturer's incentive wage plan; a comparison of the wage rates in effect on March 31, 1942 and those in effect under the incentive wage plan; a statement of any wage increases put into effect in addition to wage rate increases resulting from increased labor efficiency; evidence that where an hourly wage rate increase is contingent upon labor efficiency exceeding a designated standard of efficiency, that standard is not lower than current normal efficiency.

This amendment shall become effective July 22, 1944.

Issued this 22d day of July 1944.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RO 2B,[1] Amdt. 14]

PASSENGER AUTOMOBILES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order No. 2B is amended in the following respects:

1. Section 3.1 is amended to read as follows:

SEC. 3.1 *Persons who file applications with the Office of Price Administration, Washington, D. C.* (a) The following persons shall file letters of application for certificates for 1942 cars directly with the Office of Price Administration, Washington, D. C.:

(1) Agencies of the Federal Government and the American National Red Cross. An agency of the Federal Government which has a quota for 1942 cars established by the War Production Board shall state the number of cars for which it requires certificates. Certificates shall be issued only to the extent of the applicable quota fixed by the War Production Board for the current allocation period. All other Federal Agencies and the American National Red Cross shall state the number of cars applied for, the purpose for which each car will be used, and the reasons why a rationed car is needed.

(2) A person requiring a car for export. For export to and use in Canada, application for a car may be made only through the Canadian Division of the War Production Board, and for export to and use in any other foreign country, only through the Foreign Economic Administration. The application shall be made in such manner as the War Production Board or the Foreign Economic Administration respectively shall determine. Certificates shall be issued only to the extent of the applicable quota fixed by the War Production Board for the current allocation period.

(3) A person requiring a car for experimental purposes or a body builder who proposes to alter the car obtained. He must establish that the experiment or alteration will further the war effort or the public welfare.

(b) A certificate on Form R-214, modified to permit its use for sixty days from the date of issuance, will be issued for each car approved.

2. Section 3.2 is revoked.

This amendment shall become effective July 22, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[RMPR 342,[1] Amdt. 1]

NAIL KEGS AND NAIL KEG STAVES AND HEADING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 7 of the regulation is amended to read as follows:

SEC. 7. *Petitions for amendment or applications for adjustment*—(a) *Government contracts or subcontracts.* See Procedural Regulation No. 6 for adjustment provisions on certain government contracts or subcontracts.

(b) *Individual adjustment.* The Price Administrator may by order adjust the maximum prices established under this regulation for one or more plants of any seller who can show (1) that increased costs result in hardship which will impede his production of essential supply, and (2) that his existing maximum price is less than manufacturing costs if his current over-all profits are favorable in relation to those of a representative peace-time period; or that his existing maximum price does not exceed total costs if his current over-all profits are comparable to his over-all profits for a representative peace-time period; or that his existing maximum price does not afford a reasonable profit if current over-all profits are unfavorable to those in a representative peace-time period. Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1 and, in general, shall contain the following data:

(1) Over-all profit and loss statements broken down by departments for the years 1941, 1942, 1943 and the available quarters of 1944 and indicating in the detail customarily shown in statements prepared for the applicant's own use shipping, selling and general and administrative expenses applicable to each department and balance sheets for the same periods.

(2) Cost of goods sold statements for the years 1941, 1942, 1943 and the available quarters of 1944, covering the bilge sawn nail keg staves, nail keg heading or nail kegs, and indicating in the detail customarily shown in statements prepared for the applicant's own use a complete breakdown of all manufacturing costs.

(3) Specifications and quantity of bilge sawn nail keg staves, nail keg heading or nail kegs produced and the quantity of each specification shipped should be shown.

If any of the above information has been submitted prior to application on OPA Forms A & B for any of the specified periods or if the exact information required in this amendment has been reported as part of a prior application for adjustment of a maximum price, the applicant may so indicate and omit these periods from the current application.

(c) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

This amendment shall become effective July 27, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been waived by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of July 1944.

Acting Administrator.

PART 1377—WOODEN CONTAINERS

[MPR 461,[1] Amdt. 4]

SLACK COOPERAGE AND COOPERAGE STOCK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

A new paragraph (c) is added to section 10 to read as follows:

(c) *Individual adjustment.* The Price Administrator may by order adjust the maximum prices established under this regulation for one or more plants of any seller who can show (1) that increased costs result in hardship which will impede his production of essential supply, and (2) that his existing maximum price is less than manufacturing costs if his current over-all profits are favorable in relation to those of a representative peace-time period; or that his existing maximum price does not exceed total costs if his current over-all profits are comparable to his over-all profits for a representative peace-time period; or that his existing maximum price does not afford a reasonable profit if current over-all profits are unfavorable to those in a representative peace-time period. Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1 and, in general, shall contain the following data:

(1) Over-all profit and loss statements and balance sheets for the years 1941, 1942, 1943, and the available quarters of 1944, broken down by departments and indicating in the detail customarily shown in statements prepared for the applicant's own use shipping, selling and general and administrative expenses applicable to each department.

(2) Cost of goods sold statements for the years 1941, 1942, 1943, and the available quarters of 1944, covering the item on which price adjustment is requested and indicating in the detail customarily shown in statements prepared for the applicant's own use a complete breakdown of all manufacturing costs.

(3) Specifications and quantity produced and the quantity of each specification shipped should be shown for the item on which price adjustment is requested.

If any of the above information has been submitted prior to application on OPA Forms A & B for any of the specified periods or if the exact information required in this amendment has been reported as part of a prior application for adjustment of a maximum price, the applicant may so indicate and omit these periods from the current application.

This amendment shall become effective July 27, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been waived by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of July 1944.

ARTICLE I—PROHIBITION AND SCOPE OF REGULATION

SECTION 1. *Prohibition against dealing in commodities above maximum prices*—(a) *Local sales.* On and after May 25, 1943, regardless of any contract, agreement, lease or other obligation or of any price regulation heretofore issued by the Office of Price Administration no person shall sell or deliver and no person in the course of trade or business shall buy or receive in the Virgin Islands of the United States any article listed or described in Article IV at prices higher than the maximum prices set forth in Article IV; and no person shall agree, offer, or attempt to solicit or attempt to do any of the foregoing.

(b) *Export transactions.* On and after February 20, 1944, regardless of any contract, agreement, lease or other obligation or of any price regulation heretofore issued by the Office of Price Administration, no person shall export, or transfer for purposes of exportation to a foreign place any article listed or described in Article IV at prices higher than the maximum prices set forth in Article IV; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That on all sales for export to a foreign place there may be added to the applicable maximum prices established under Article IV all costs of shipment actually incurred or to be incurred by the seller. Such costs shall be itemized and separately shown on the seller's invoice. No incurred costs in excess of those permitted by any applicable price regulation or order issued by the Office of Price Administration shall be allowed.

[Sec. 1 amended by Am. 13, 9 F.R. 2177, effective as of 2-20-44]

SEC. 2. *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 395 may be charged, demanded, paid, or offered.

SEC. 3. *To what transactions, products and persons this ceiling applies*—(a) *What commodities are covered.* This regulation applies only to the articles listed or described in Article IV of this regulation.

(b) *What transactions are covered.* This regulation applies only to sales at wholesale or at retail of the articles listed or described in Article IV of this regulation.

SEC. 4. *Relations to other regulations.* (a) The sale of commodities not otherwise governed by this Maximum Price Regulation No. 395 shall be covered by the General Maximum Price Regulation,[1] Maximum Price Regulation No. 201,[2] or any other price regulations applicable to sales within the Virgin Islands of the United States.

SEC. 5. *Geographical applicability.* (a) The provisions of this Maximum Price Regulation No. 395 shall be applicable to sales within the Virgin Islands of the United States unless otherwise provided herein.

ARTICLE II—TERMS OF SALE

SEC. 6. *Prohibited practices*—(a) *General.* Any device to obtain a higher-than-ceiling price without actually raising the dollar-and-cents price is as much a violation of this Maximum Price Regulation No. 395 as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation, arrangements, premiums, special privileges, tying agreements, combination sales, trade understandings and the like.

(b) *Adjustable pricing.* A price may not be made adjustable to a maximum price which will be in effect at some time after delivery of any commodity covered by this regulation has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

SEC. 7. *Fractional prices at retail.* Whenever provision is made in this regulation for the calculation of a maximum price not otherwise specified in dollars and cents, for the sale of a commodity at retail, and such calculation results in a fraction of a cent, then the amount so calculated shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent, if the fraction is one-half cent or more.

ARTICLE III—MISCELLANEOUS

SEC. 8. *Petitions for amendment.* (a) Any person seeking an amendment of any provision of this Maximum Price Regulation No. 395 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation 1:[3] *Provided, however*, That any such petition shall be filed with the Director of the Office of Price Administration for the Virgin Islands of the United States.

SEC. 9. *Applications for adjustment.* (a) Any seller or group of sellers may apply for adjustment of a maximum price of a commodity established for him or them by this Maximum Price Regulation No. 395, or any order issued hereunder when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of such commodity which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such commodity; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

(b) Except as otherwise provided in this section 9, all applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 7.[4]

SEC. 10. *Records and reports*—(a) *Records to be kept.* (1) Every person making sales other than at retail of the commodities subject to this Maximum Price Regulation No. 395 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase and each sale made by such person, showing the date thereof, the name and address of the buyer and seller, the direct cost thereof, the price paid or received, the mark-up charged and the quantity purchased or sold.

(2) Every person making sales at retail of the commodities subject to this Maximum Price Regulation No. 395 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and the mark-up charged by the seller to the buyer.

(b) *Prices to be marked and posted.* (1) On and after the date any commodity becomes subject to this Maximum Price Regulation No. 395, every person offering to sell at retail any such commodity, shall mark the maximum price of such commodity in a manner plainly visible to and understandable by the purchasing public. The maximum prices may be marked on the commodities themselves or may be posted at the place in the establishment where the commodities are offered for sale, and may be posted by price lines if the selling price of each commodity is marked thereon. The maximum prices shall be indicated in the form "Ceiling Price $_____," or "Our Ceiling $_____".

(c) *Sales slips and receipts.* (1) Every seller at retail of the commodities subject to this Maximum Price Regulation No. 395, who has customarily given purchasers sales slips or receipts, shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

(d) *Notification of maximum retail prices by persons selling to retailers.* (1) Every person selling to a retailer any of the commodities enumerated in Article IV, for which dollar-and-cents prices are established at retail, on and after the effective date of maximum prices established by this Maximum Price Regulation No. 395, before or at the time of the first delivery to such purchaser, shall supply the purchaser with a statement of the maximum retail prices set forth below for the commodity or commodities delivered.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1[5] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 11 amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 12. *Definitions.* (a) When used in this Maximum Price Regulation No. 395 except as otherwise provided herein, the terms:

(1) "Sale at retail" means a sale or selling to an ultimate consumer.

(2) "Sale at wholesale" means a sale by a person who received delivery of a commodity and resells it, without substantially changing its form, to any person other than an ultimate consumer and shall include any sale to the United States, any government, or any of its political subdivisions, any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library, commercial or industrial user, or any agency of any of the foregoing.

(3) "To deliver" means to transfer actual possession of the commodity to the purchaser or to any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(4) "Records" includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(5) "Landed cost" means the price the importer paid, which in no event may exceed the maximum price established by any applicable price regulation or order, less discounts allowed to the importer, plus all costs of shipment actually incurred by the importer: *Provided*, That in computing the costs of shipment incurred by the importer, war risk insurance costs shall not exceed the amount represented by the charge for war risk insurance by the War Shipping Administration on an identical shipment: *And further provided*, That for commodities imported by the Food Distribution Administration the landed cost shall be the Food Distribution Administration price.

[Subparagraph (5) added by Am. 3, 8 F.R. 11438, effective 8-21-43]

(6) "Direct cost" means landed cost as defined in section 12 (a) (5), plus the appropriate maximum local trucking charges and if sold in the islands of St. Thomas or St. John, the applicable trade tax imposed by the municipality.

[Subparagraph (6) added by Am. 10, 8 F.R. 16793, effective 12-27-43]

(7) "Export" means to sell, ship, deliver, or transfer a commodity to a buyer in a foreign place regardless of where title passes or where the invoicing is done and includes all sales, deliveries or transfers in the Virgin Islands of the United States for purposes of exportation to a foreign place.

(8) "Foreign place" means any place outside of the continental United States and the territories and possessions of the United States.

[Subparagraphs (7) and (8) added by Am. 13, 9 F.R. 2177, effective as of 2-20-44]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to the terms used herein.

ARTICLE IV—PROHIBITION AND SCOPE OF REGULATION

SEC. 13. *Table I: Maximum prices for charcoal.* (a) Maximum prices for charcoal sold in the Virgin Islands of the United States at retail shall be:

Unit	Island of St. Croix				Island of St. Thomas		Island of St. John	
	Feb. 15-Aug. 14 inclusive		Aug. 15-Feb. 14 inclusive					
	Not delivered	Delivered	Not delivered	Delivered	Not delivered	Delivered	Not delivered	Delivered
Bag (or barrel)	$0.90	$1.00	$0.80	$0.90	$1.30	$1.40	$1.00	$1.10
Half-bag	.45	.50	.40	.45	.65	.70	.50	.55
5 gal. kerosene tin	.20	.20	.19	.19	.20	.20	.20	.20

[5] 8 F.R. 13240.

(b) The maximum prices of charcoal sold at wholesale shall not exceed the maximum prices established above for sales at retail.

(c) When used in this Table I, the terms:

(1) "Charcoal" means the carbonaceous residue of wood subjected to smothering combustion.

(2) "Sale at retail" means a sale or selling to an ultimate consumer, including religious, educational or charitable institution, whether by a producer or non-producer of charcoal.

(3) "Sale at wholesale" means a sale by a person who buys a commodity and resells it, without substantially changing its form, to another seller of the commodity, and includes sales by producers to sellers of charcoal, and sales to industrial or commercial users.

(4) "Delivered" means the physical delivery of charcoal by, or at the expense of, the seller to a place different from the location of the seller's business establishment and to a place from which a purchaser customarily receives delivery.

(5) "Units of measurement"

Container	U. S. dry quarts	Capacity: Bushels	Capacity: Ratio to capacity of kerosene tin
Bag (or barrel)	103.2	3.2	6:1
Half-Bag	51.6	1.6	3:1
Kerosene tin (5 liquid gals.)[1]	17.2	.54	1:1
"Klim" powdered Milk Tin (5 lbs. net)[2]	3.4	.11	1:5
"La Pura" oleomargarine tin (5 lbs. net)[2]	2.4	.08	1:7

NOTE: The dry measure of a 5-gal. kerosene tin is accurately defined. The specifications of other units are approximately proportionate. A "heap" varies in size as a fractional part of the capacity of a kerosene tin. The specifications of a "heap" may not be fixed exactly.

[1] The term "5 liquid gallons" refers to the designated capacity of the container for kerosene.

[2] The term "5 lbs. net" refers to the capacity of the container designated for the product originally contained therein.

(d) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to the terms used herein.

SEC. 28. *Maximum retail prices for toys and games.* The maximum retail prices for toys and games sold or delivered in the Virgin Islands of the United States shall be computed as follows:

(a) On imported toys and games the direct cost to the importer as defined in section 12 (a) (6) may be multiplied by 1.75.

[Paragraph (a) amended by Am. 8, 8 F.R. 16062, effective 11-26-43; and Am. 10, 8 F.R. 16793, effective 12-27-43]

SEC. 29. *Maximum retail prices for sanitary napkins and tampons*—(a) *Definitions.* When used in this section 29, the term:

(1) "Sanitary napkins" includes all absorbent dressings sold for use by women during the menstrual period, the wadding of which is composed of wood cellulose in any proportion.

(2) "Tampons" are specially constructed wads of cotton and/or cellulose, non-medicated, with or without applicator, designed for internal menstrual sanitary protection.

(b) *Pricing method.* The maximum retail prices for sanitary napkins and tampons shall be the sum of the following costs multiplied by 1.30:

(1) The landed cost,

(2) Local trucking charges,

(3) If sold in the island of St. Thomas or the island of St. John, the applicable trade tax imposed by the municipality.

[Secs. 28 and 29 added by Am. 7, 8 F.R. 15865, effective 11-26-43]

Sec. 30. *Maximum prices for locally produced poultry and poultry imported from the West Indies*—(a) *Commodities and transactions governed by this regulation.* (1) This regulation applies to wholesale and retail sales and deliveries of chickens, ducks, geese, guinea fowl, squabs and turkeys, including live, dressed, drawn, when locally produced

or imported from the West Indies, except as noted in paragraph (a) (2) below.

(2) This regulation specifically exempts from price control by the Office of Price Administration the following poultry, if sold or delivered in the Virgin Islands of the United States:

Breeding poultry sold by producers to buyers other than food dealers or consumers, when locally produced or imported from the West Indies.

Day-old and baby chickens, nestlings and fledglings of ducks, geese, guinea fowl and turkeys, when locally produced or imported from the West Indies.

All pigeons except squabs as defined in paragraph (b) (5) below.

Undomesticated game fowl (not including guinea fowl) and wild water fowl.

Fighting cock (gamecock).

(3) The prices of poultry and poultry products not specifically covered in paragraph (a) (1) or exempted in paragraph (a) (2) are subject to any applicable regulation or order issued or which shall be issued by the Office of Price Administration. This regulation withdraws from Maximum Price Regulation No. 201 poultry imported from the West Indies; but Maximum Price Regulation No. 201 governs poultry imported from any other place, if the commodity is subject to price regulation in the continental United States, and section 22 of Maximum Price Regulation 395 governs turkeys, hard chilled, dressed but not eviscerated, Grade B, old and young originating in the continental United States.

(b) *Definitions.* (1) "Locally produced poultry" means poultry raised within the Virgin Islands of the United States to the stage at which the poultry is sold or delivered to a seller at wholesale or at retail or to a final consumer, regardless of where the poultry was originally hatched.

(2) Poultry "raised in accordance with modern commercial poultry raising methods" means poultry systematically raised in accordance with modern hygienic and sanitary standards of high quality and fed strictly on commercial feeds.

(3) "Dressed" poultry means poultry which has been killed and plucked. It may or may not have been bled.

(4) "Drawn poultry" means dressed poultry from which the entrails have been removed without contamination of the body cavity.

(5) "Squab" means any pigeon, except a homing pigeon intended to be raised for its flying habits, which is an unfledged nestling.

(c) *Maximum retail prices, live weight.* The maximum retail prices, live weight, for certain kinds of poultry sold or delivered in the Virgin Islands of the United States shall be the pertinent price set forth in the following Table XVI.

TABLE XVI—RETAIL POULTRY PRICES, LIVE WEIGHT

(d) *Service charges for dressing.* The seller may add a service charge not in excess of ten cents per head for dressing chickens, ducks, geese, guinea fowl and turkeys. The charge for dressing squabs may not exceed ten cents per pair.

(e) *Maximum prices at wholesale.* The maximum wholesale price is subject to agreement between buyer and seller, but in no event may exceed the corresponding maximum retail price including, if applicable, the charge for dressing.

(f) *Prices for dressed and drawn poultry and for chilled or frozen poultry sold on the basis of dressed weight.* Any person offering for sale dressed and drawn poultry or chilled or frozen poultry priced on the basis of dressed weight shall apply to the Territorial Director for the Virgin Islands for authorization of his maximum price. The Territorial Director may by order authorize a price, and may require such pertinent information from the seller as will assist him in establishing the price.

The price authorized by the Territorial Director shall be subject to adjustment at any time by the Administrator for the Ninth Region.

Any seller who objects to an authorized or adjusted price may obtain review as provided in Revised Procedural Regulation No. 7 issued by the Office of Price Administration.

[Sec. 30 added by Am. 9, 8 F.R. 16298, effective 11-22-43; amended by Am. 11, 9 F.R. 1398, effective 2-8-44]

SEC. 31. *Maximum prices at retail and at wholesale for imported millinery sold or delivered in the Virgin Islands of the United States*—(a) *Definitions.* When used in this section 31 the term:

(1) "Millinery" includes all customary forms of men's, boys', ladies', misses' and children's headwear of whatever material composition and style, but does not include infants' headwear or veils.

(2) "Class of millinery items" means a group of millinery products all of which are identically priced and received in one delivery.

(b) *Pricing method.* (1) Maximum retail prices for imported millinery shall be computed by multiplying the direct cost to the importer by the applicable multiplier set forth in Table XVII below:

TABLE XVII—IMPORTED MILLINERY

	Sales in the municipality of St. Thomas and St. John	Sales in the municipality of St. Croix
Multiplier	1.40	1.50

(2) The wholesale price is subject to agreement between buyer and seller, but in no event may the wholesale price exceed the maximum retail price for the commodity.

(3) No sales at retail in excess of the retail price computed in accordance with the method stipulated in subparagraph (b) (1) herein shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) *Price lists and statements*—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than January 3, 1944, a statement of the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of millinery items in stock on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list, setting forth the same information for each class of millinery items subsequently acquired by him within three days after placing such class of millinery items on sale.

(2) *Price statement required of the seller at wholesale.* Any person, including the importer, who sells millinery products to a buyer in the course of business shall furnish such buyer with a written statement of the direct cost of each class of millinery items to the importer, and shall certify this information to be true and correct.

[Sec. 31 added by Am. 10, 8 F.R. 16793, effective 12-27-43]

SEC. 32. *Maximum prices for cattle sold in the Virgin Islands of the United States*—(a) *Definitions.* When used in this section 32 the term:

(1) "Cattle" means all members of the domesticated bovine species.

(2) "Young cattle" means those cattle commonly accepted by the trade as young.

(3) "Old cattle" means those cattle commonly accepted by the trade as old.

(4) "Soup bones" means scrap soup bones only and does not include bones customarily sold as meat.

[Subparagraph (4) added by Am. 17, 9 F.R. 3857, effective 4-15-44]

(b) *Maximum prices.* The maximum prices for cattle sold in the Virgin Islands of the United States for slaughter shall be the applicable price given in Table XVIII below.

SEC. 38. *Maximum prices for imported piece goods sold or delivered in the Virgin Islands of the United States*—(a) *Definitions.* When used in this section 38, the term:

(1) "Piece goods" means all unused finished piece goods, yard goods and pound goods, 12 inches or more in width, consisting basically of wool or other animal fibre, cotton, rayon, silk, linen, oil-cloth or synthetic textile fibre by whatever process manufactured, whether commonly used for dress or other garment making or for industrial, utility or household purposes.

(2) "Imported piece goods" means piece goods not actually manufactured or produced in the Virgin Islands of the United States.

(3) "Foreign place" means any place outside of the continental United States and the territories and possessions of the United States.

(4) "Class of piece goods items" means a group of piece goods products having the same or similar description, all of which have identical maximum prices and are received by the seller in one delivery.

(b) *Maximum prices*—(1) *Piece goods directly imported from foreign places.* The maximum prices at retail and at wholesale of piece goods directly imported from a foreign place shall be governed by Maximum Price Regulation No. 201.

(2) *All other imported piece goods.* (i) Maximum retail prices for imported piece goods, except those directly imported from a foreign place, shall be computed by multiplying the direct cost to the importer by the applicable multiplier set forth in Table XXVI below:

TABLE XXVI—IMPORTED PIECE GOODS

	Sales in the Municipality of St. Thomas and St. John	Sales in the Municipality of St. Croix
Multiplier	1.35	1.50

[Table XXVI corrected 9 F.R. 4542, effective 4-22-44]

(ii) The wholesale prices for such imported piece goods are subject to agreement between buyer and seller, but in no event may the wholesale price exceed the seller's maximum retail price for the commodity.

(iii) No sales at retail of such imported goods in excess of the retail price computed in accordance with the method stipulated in sub-division (b) (2) (i) herein shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) *Price lists and statements*—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than two weeks after the effective date a statement indicating the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of piece goods items in his inventory on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list setting forth similar information for each class of piece goods items subsequently acquired by him within three days after placing such class of piece goods items on sale. The inventory and supplementary price lists shall contain the following information:

(i) Description of class of piece goods items: type, brand, size, supplier's stock number if available.

(ii) The date of receipt (applicable only when filing the supplementary price list).

(iii) The name and address of the supplier.

(iv) The direct cost to the importer.

(v) The applicable multiplier (or markup).

(vi) The retailer's maximum price.

(2) *Price statement required of the seller at wholesale.* Any person, including the importer, who sells or transfers imported piece goods (except those subject to Maximum Price Regulation No. 201) to another person for purposes of resale shall furnish such person with a written statement of the direct cost of each class of such piece goods items to the importer, and shall certify this information to be true and correct.

Group A	1.40	1.50
Group B	1.50	1.60

(ii) Notwithstanding the provisions of subparagraph (b) (2) (i), the seller may apply to the Territorial Director for the Virgin Islands for approval of a nationally advertised retail price for a commodity subject to this section when such commodity is nationally advertised by the manufacturer thereof. The applicant shall set forth:

(*a*) A description of the article to be priced;

(*b*) Conclusive evidence that the manufacturer has established a nationally advertised resale price at retail;

(*c*) A statement of the direct cost of the article to the importer;

(*d*) A correct statement of such nationally advertised price. The Territorial Director may in his discretion approve such nationally advertised resale price as the maximum retail price of the seller. Unless the seller makes such application, and unless the Territorial Director approves such resale price, the retailer may not sell such article at prices in excess of those established in paragraph (b) (2) (i) above.

(iii) The wholesale prices for such imported women's and girls' wear and accessories shall be subject to agreement between buyer and seller, but in no event may the wholesale price exceed the seller's maximum retail price for the commodity.

(iv) No sales at retail of such imported women's and girls' wear and accessories in excess of the retail price computed in accordance with the method set forth in subparagraph (b) (2) (i), or (b) (2) (ii) above, whichever is applicable, shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) ***Price lists and statements***—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than July 10, 1944, a statement indicating the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of women's and girls' wear and accessories covered by this section which he has in his inventory on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list setting forth similar information for each class of such imported women's and girls' wear and accessories within three days after placing such class of women's and girls' wear and accessories on sale. The inventory and supplementary price lists shall contain the following information:

(i) A description of class of women's and girls' wear and accessories: type, brand, size, supplier's stock number if available;

(ii) The date of receipt (applicable only when filing the supplementary price list);

(iii) The name and address of the supplier;

(iv) The direct cost to the importer;

(v) The applicable multiplier (or markup);

(vi) The retailer's maximum price.

(2) *Price statement required of the seller at wholesale.* Any person, including the importer, who sells or transfers women's and girls' wear and accessories (except those subject to Maximum Price Regulation 201) to another person for purposes of resale shall furnish such person with a written statement of the direct cost of each class of such women's and girls' wear and accessories to the importer, and shall certify this information to be true and correct.

(ii) Notwithstanding the provisions of paragraph (b) (2) (i), the seller may apply to the Territorial Director for the Virgin Islands for approval of a nationally advertised retail price for a commodity subject to this section when such commodity is nationally advertised by the manufacturer thereof. The applicant shall set forth:

(*a*) A description of the article to be priced;

(*b*) Conclusive evidence that the manufacturer has established a nationally advertised resale price at retail;

(*c*) A statement of the direct cost of the article to the importer;

(*d*) A correct statement of such nationally advertised price. The Territorial Director may in his discretion approve such nationally advertised resale price as the maximum retail price of the seller. Unless the seller makes such application, and unless the Territorial Director approves such resale price, the retailer may not sell such article at prices in excess of those established in paragraph (b) (2) (i) above.

(iii) The wholesale prices for such imported men's and boys' wear and accessories shall be subject to agreement between buyer and seller, but in no event may the wholesale price exceed the seller's maximum retail price for the commodity.

(iv) No sales at retail of such imported men's and boys' wear and accessories in excess of the retail price computed in accordance with the method set forth in paragraph (b) (1) (i) or (b) (1) (ii) above, whichever is applicable, shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) *Price lists and statements*—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than July 17, 1944, a statement indicating the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of men's and boys' wear and accessories covered by this section which he has in his inventory on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list setting forth similar information for each class of men's and boys' wear and accessories subsequently acquired by him within three days after placing such class of imported men's and boys' wear and accessories on sale. The inventory and supplementary price lists shall contain the following information:

(i) Description of class of men's and boys' wear and accessories: type, brand, size, supplier's stock number if available;

(ii) The date of receipt (applicable only when filing the supplementary price list);

(iii) The name and address of the supplier;

(iv) The direct cost to the importer;

(v) The applicable multiplier (or markup);

(vi) The retailer's maximum price.

(2) *Price statement required of the seller at wholesale.* Any person, including the importer, who sells or transfers men's and boys' wear and accessories (except those subject to Maximum Price Regulation 201) to another person for purposes of resale shall furnish such person with a written statement of the direct cost of each class of such men's and boys' wear and accessories to the importer, and shall certify this information to be true and correct.

SEC. 43. *Maximum prices for imported children's and infants' wear sold or delivered in the Virgin Islands of the United States*—(a) *Definitions.* When used in this section 43 the term:

(1) "Children's and infants' wear" includes all children's wear in girls' sizes 2–6, and boys' sizes 2–6, and all infants' wear in sizes 0–2, and includes boys', girls' and infants' outerwear, underwear, nightwear, hosiery, bootees and socks, harnesses, bibs, binders, diapers, and miscellaneous articles of children's and infants' wear made principally of fabric, and includes infants' footwear and headwear, but does not include boys' and girls' millinery and shoes.

(2) "Imported" as applied to children's and infants' wear means children's and infants' wear not actually produced or manufactured in the Virgin Islands of the United States.

(3) "Foreign place" means any place outside of the continental United States and the Territories and Possessions of the United States.

(4) "Class of children's and infants' wear" means a group of products comprised of children's and infants' wear having the same or similar description, all of which have identical maximum prices and are received by the seller in one delivery.

(b) ***Maximum prices***—(1) *Children's and infants' wear directly imported from foreign places.* The maximum prices at retail and at wholesale of children's and infants' wear directly imported from a foreign place shall be governed by Maximum Price Regulation No. 201.

(2) *All other imported children's and infants' wear.* (i) Maximum retail prices for imported children's and infants' wear, other than those covered by paragraph (b) (1) above, shall be computed by multiplying the direct cost to the importer by the applicable multiplier set forth in Table XXXI below:

TABLE XXXI—CHILDREN'S AND INFANTS' WEAR

	Sales in the municipality of St. Thomas and St. John	Sales in the municipality of St. Croix
Multiplier	1.35	1.50

(ii) Notwithstanding the provisions of paragraph (b) (2) (i), the seller may apply to the Territorial Director for the Virgin Islands for approval of a nationally advertised retail price for a commodity subject to this section when such commodity is nationally advertised by the manufacturer thereof. The applicant shall set forth:

(*a*) A description of the article to be priced;

(*b*) Conclusive evidence that the manufacturer has established a nationally advertised resale price at retail;

(*c*) A statement of the direct cost of the article to the importer;

(*d*) A correct statement of such nationally advertised price.

The territorial Director may in his discretion approve such nationally advertised resale price as the maximum retail price of the seller. Unless the seller makes such application, and unless the Territorial Director approves such resale price, the retailer may not sell such article at prices in excess of those established in paragraph (b) (2) (i) above.

(iii) The wholesale prices for such imported children's and infants' wear shall be subject to agreement between buyer and seller, but in no event may the wholesale price exceed the seller's maximum retail price for the commodity.

(iv) No sales at retail of such imported children's and infants' wear in excess of the retail price computed in accordance with the method set forth in paragraph (b) (2) (i) or (b) (2) (ii) above, whichever is applicable, shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) *Price lists and statements*—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than July 24, 1944, a statement indicating the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of children's and infants' wear covered by this section which he has in his inventory on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list setting forth similar information for each class of such imported

children's and infants' wear subsequently acquired by him within three days after placing such class of imported children's and infants' wear on sale. The inventory and supplementary price lists shall contain the following information:

(i) Description of class of children's and infants' wear: type, brand, size, supplier's stock number, if available;

(ii) The date of receipt (applicable only when filing the supplementary price list);

(iii) The name and address of the supplier;

(iv) The direct cost to the importer;

(v) The applicable multiplier (or markup);

(vi) The retailer's maximum price.

(2) *Price statement required of the seller at wholesale.* Any person, including the importer, who sells or transfers children's and infants' wear (except those subject to Maximum Price Regulation 201) to another person for purposes of resale shall furnish such person with a written statement of the direct cost of each class of such children's and infants' wear to the importer, and shall certify this information to be true and correct.

SEC. 45. *Maximum prices for imported shoes sold or delivered in the Virgin Islands of the United States*—(a) *Definitions.* When used in this section 45, the term:

(1) "Shoes" means all customary forms of unused footwear (except hosiery) for men, boys, women, misses and children, including, but not limited to, street, evening, play, sport, beach, work shoes and slippers, moccasins, sandals, bedroom and boudoir slippers, rainwear overshoes such as rubbers and galoshes, and similar types of shoes and slippers, but does not include infants' footwear. Shoes are grouped in the following classes:

Class A. Shoes purchased directly from a manufacturer in the continental United States.

Class B. Shoes not purchased directly from a manufacturer in the continental United States.

(2) "Purchased directly from a manufacturer in the continental United States" as applied to shoes means shoes invoiced by the manufacturer in the continental United States to the seller in the Virgin Islands of the United States.

(3) "Imported" as applied to shoes means shoes not actually produced or manufactured in the Virgin Islands of the United States.

(4) "Foreign place" means any place outside of the continental United States and the Territories and Possessions of the United States.

(5) "Class of shoe items" means a group of shoe products having the same or similar description, all of which have identical maximum prices and are received by the seller in one delivery.

(b) *Maximum prices.* (1) Maximum retail prices for imported shoes shall be computed by multiplying the direct cost to the importer by the applicable multiplier set forth in Table XXXIII below:

TABLE XXXIII—IMPORTED SHOES

Class of shoes	Multiplier: Sales in the municipality of St. Thomas and St. John	Multiplier: Sales in the municipality of St. Croix
A. Shoes purchased directly from a manufacturer in the continental United States.	1.70	1.70

[1] NOTE: Shoes made in Cuba, Mexico or any foreign place in the West Indies, Central America or South America and directly imported from a foreign place by the seller in the Virgin Islands of the United States shall be governed by Maximum Price Regulation No. 201.

[Table amended by Am. 28, 9 F.R. 7424, effective 7-24-44]

(2) Notwithstanding the provisions of subparagraph (b) (1), the seller may apply to the Territorial Director for the Virgin Islands for approval of a nationally advertised retail price for a commodity subject to this section when such commodity is nationally advertised by the manufacturer thereof. The applicant shall set forth:

(i) A description of the article to be priced;

(ii) Conclusive evidence that the manufacturer has established a nationally advertised resale price at retail;

(iii) A statement of the direct cost of the article to the importer;

(iv) A correct statement of such nationally advertised price.

The Territorial Director may in his discretion approve such nationally advertised resale price as the maximum retail price of the seller. Unless the seller makes such application, and unless the Territorial Director approves such resale price, the retailer may not sell such article at prices in excess of those established in subparagraph (b) (1) above.

(3) The wholesale prices for such imported shoes shall be subject to agreement between the buyer and seller, but in no event may the wholesale price exceed the seller's maximum retail price for the commodity.

(4) No sales at retail of such imported shoes in excess of the retail price computed in accordance with the method set forth in subparagraph (b) (1) above shall be permitted, regardless of the number of transfers of the commodity which may occur in the Virgin Islands of the United States.

(c) *Price lists and statements*—(1) *Price lists to be filed by the seller at retail.* The seller at retail shall file with the Office of Price Administration in St. Thomas or St. Croix not later than August 7, 1944, a statement indicating the direct cost to the importer, his applicable multiplier and his maximum retail selling price for each class of imported shoes covered by this section which he has in his inventory on the date when he submits his statement to the Office of Price Administration. Thereafter, the retailer shall notify the Office of Price Administration of his ceiling prices by filing a supplementary price list setting forth similar information for each class of such imported shoe items subsequently acquired by him within three days after placing such class of imported shoe items on sale. The inventory and supplementary price lists shall contain the following information:

(i) Description of class of imported shoe items: type, brand, size, supplier's stock number, if available;

(ii) The date of receipt (applicable only when filing the supplementary price list);

(iii) The name and address of the supplier;

(iv) The direct cost to the importer;

(v) The applicable multiplier (or markup);

(vi) The retailer's maximum price.

(2) *Duplicate invoice to be filed by the seller purchasing directly from a manufacturer in the continental United States.* Any seller purchasing shoes directly from a manufacturer in the continental United States and establishing his maximum prices in accordance with the method stipulated for Class A shoes in paragraph (b) (1) of this section shall file a copy of his purchase invoice for such shoes with the Office of Price Administration in St. Thomas or St. Croix at the time when he files the inventory or supplementary price list required in subparagraph (c) (1) above. The seller shall certify such copy of the purchase invoice to be true and correct.

SEC. 4. *Relation to other regulations.* (a) The sale of commodities not otherwise governed by this Maximum Price Regulation No. 279 shall be governed by Maximum Price Regulation No. 188, as amended from time to time, unless revoked or modified by the Office of Price Administration.

(b) Any seller or group of sellers may apply for adjustment of a maximum price or for the establishment of a maximum price for a commodity or service not covered by this regulation. Such application shall be filed with the Office of Price Administration, Washington, D. C., Ref: MPR 279, and shall set forth the reasons why the applicant believes that the maximum prices established by this regulation are not generally fair and equitable and why the maximum prices should be established for the commodity or service. The Office of Price Administration may make such adjustment or establish such maximum price as it determines to be generally fair and equitable and will give due consideration to the prices prevailing between October 1 and October 15, 1941, inclusive, for the commodity or service involved. Upon the granting of such application, the Office of Price Administration shall issue a supplementary regulation establishing the maximum price for the commodity or service involved.

(c) Any seller or group of sellers may apply for adjustment of a maximum price established by this regulation. Such application shall be filed with the Office of Price Administration, Washington, D. C., Ref: MPR 279, and shall set forth the reasons why the applicant believes that the maximum price established by this regulation is not generally fair and equitable and why the maximum price should be adjusted. The Office of Price Administration may make such adjustment as it determines to be generally fair and equitable and will give due consideration to the prices prevailing between October 1 and October 15, 1941, inclusive, for the commodity involved. Upon the granting of such application, the Office of Price Administration shall issue a supplementary regulation establishing the maximum price for the commodity involved.

(d) Nothing contained in this regulation shall relieve any person from the provisions of any other regulation, order or requirement issued by the Office of Price Administration, except as specifically provided herein.

SEC. 5. *Evasion.* (a) The price limitations set forth in this regulation may not be evaded, whether by direct or indirect means. Among the practices which are prohibited as evasions of the price limitations set forth in this regulation are the following:

ARTICLE I—PROHIBITIONS AND SCOPE OF REGULATION

SECTION 1. *Prohibition against dealing in certain commodities at prices above the maximum.* (a) Maximum prices are established as follows:

(1) Regardless of any contract, agreement, lease, or other obligation or of any price regulation or order heretofore issued by the Office of Price Administration, no person to whom this regulation is applicable shall sell or deliver and no person in the course of trade or business shall buy or receive in the Territory of Hawaii any of the commodities set forth in this regulation at a price higher than the maximum prices specified herein; and no person shall offer, solicit or attempt to do any of the foregoing.

[Subparagraph (1) amended by Am. 16, 8 F.R. 13023, effective 5-19-43]

SEC. 2. *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 373 may be charged, demanded, paid, or offered.

SEC. 3. *To what transactions, commodities and persons these ceilings apply—*(a) *What transactions are covered.* This regulation covers sales within the Territory of Hawaii, unless otherwise provided herein, of the commodities enumerated below. The type of transaction covered, whether wholesale, retail, or both, is specified in each table.

(b) *What products are covered.* This regulation covers the commodities enumerated below.

(c) *What persons are covered.* Any person who sells or, in the usual course of business buys, any commodity enumerated below is subject to this regulation. The term "person" includes an individual, corporation, partnership, association, or any other organized group; their legal successors or representatives; the United States, or any government or any of its political subdivisions; or any agency of any of the foregoing.

[Sec. 3 amended by Am. 28, 8 F.R. 16997, effective 12-23-43]

[2] Statements of Considerations are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

SEC. 4. *Relation to other regulations.* (a) The sale of commodities not otherwise governed by this Maximum Price Regulation No. 373 shall be covered by the General Maximum Price Regulation for Hawaii and other price regulations applicable to sales within the Territory of Hawaii.

(b) This Maximum Price Regulation No. 373 supersedes the applicable provisions of General Order No. 49.[1]

SEC. 5. *Geographical applicability.* (a) The provisions of this Maximum Price Regulation No. 373 shall be applicable in the territory of Hawaii unless otherwise provided herein.

ARTICLE II—TERMS OF SALE

SEC. 6. *Prohibited practices—*(a) *General.* Any device to obtain a higher-than-ceiling price without actually raising the dollar-and-cents price is as much a violation of this Maximum Price Regulation No. 373 as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, combination sales, trade understandings and the like or by making discounts or other terms of sale more onerous to the purchaser than those in effect at the time any commodity became or may become subject to this regulation.

[Paragraph (a) amended by Am. 33, 9 F.R. 580, effective 12-16-43]

(b) *Adjustable pricing.* A price may not be made adjustable to a maximum price which will be in effect at some time after delivery of any commodity covered by this regulation has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

SEC. 7. *Fractional prices for commodities sold at retail.* (a) Whenever provision is made in this regulation for the calculation of a maximum price not otherwise specified in dollars and cents, for the sale of a commodity at retail, and such calculation results in a fraction of a cent, then the amount so calculated shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent, if the fraction is one-half cent or more.

ARTICLE III—MISCELLANEOUS

SEC. 8. *Petitions for amendment.* (a) Any person seeking an amendment of any provision of this Maximum Price Regulation No. 373 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1;[2] *Provided, however,* That any such petition shall be filed with the Director of the Office of Price Administration for the Territory of Hawaii, Honolulu, T. H.

SEC. 9. *Applications for adjustment.* (a) Adjustment of a maximum price, for any commodity subject to this regulation, heretofore granted by the Office of the Military Governor for Hawaii, shall continue in full force and effect until revoked or modified by the Office of Price Administration.

(b) Any seller or group of sellers may apply for adjustment of a maximum price of a commodity established for him or them by this Maximum Price Regulation No. 373, or any order issued thereunder, when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of such commodity which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such commodity; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

(c) Except as otherwise provided in this section 9, all applications for adjustment shall be filed in accordance with Procedural Regulation No. 7;[3] *Provided, however,* That the action to be taken thereunder by the Regional Administrator may be taken in like manner by the Director of the Office of Price Administration for the Territory of Hawaii.

SEC. 10. *Records and reports—*(a) *Records to be kept.* (1) Every person making sales at other than retail of the Commodities subject to this Maximum Price Regulation No. 373 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase and each sale made by such person, showing the date thereof, the name and address of the buyer and seller, the direct cost thereof, the price paid or received, the markup charged and the quantity purchased or sold.

(2) Every person making sales at retail of the commodities subject to this Maximum Price Regulation No. 373 shall, on and after the date of any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and the mark-up charged by the seller to the buyer.

(b) *Prices to be marked and posted.* (1) On and after the date any commodity becomes subject to this Maximum Price Regulation No. 373, every person offering to sell at retail any such commodity, shall mark the maximum price of such commodity in a manner plainly visible to and understandable by, the purchasing public. The maximum prices may be marked on the commodities themselves or may be posted at the place in the establishment where the commodities are offered for sale, and may be posted by price lines if the selling price of each commodity is marked thereon. The maximum prices shall be indicated in the form "Ceiling Price $------," or "Our Ceiling $------."

(c) *Sales slips and receipts.* (1) Every seller at retail of the commodities subject to this Maximum Price Regulation No. 373, who has customarily given purchasers sales slips or receipts, shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

(d) *Notification of maximum retail prices by persons selling to retailers.* (1) Every person selling any of the commodities enumerated in the tables below, for which dollar-and-cents prices are established at retail, on and after the effective date of maximum prices established by this Maximum Price Regulation No. 373, before or at the time of the first delivery to each purchaser, shall supply the purchaser with a statement of the maximum retail prices set forth below for the commodity or commodities delivered.

SEC. 11. *Enforcement and licensing.* (a) Persons violating any provision of this Maximum Price Regulation No. 373 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest office of the Office of Price Administration.

(c) *Licensing.* The provisions of Licensing Order No. 1,[4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (c) amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 12. *Definitions.* (a) When used in this Maximum Price Regulation No. 373, except as otherwise provided herein, the terms:

(1) "Sale at retail" means a sale to an ultimate consumer. However, a sale to any of the following types of purchasers by a retail store, which regularly and customarily sells to ultimate consumers other than industrial, commercial or institutional users, shall be deemed a sale at retail:

(i) A commercial or industrial user of any item: *Provided,* Such sale does not affect the direct cost of material sold by the purchaser or the direct cost of any service rendered by such commercial or industrial user, or

(ii) The United States, or any government, or any of its subdivisions, any re-

ligious, educational, or charitable institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library, or any agency of the foregoing.

[Subparagraph (1) amended by Am. 65, 9 F.R. 6817, effective 5-17-44]

(2) "Sale at wholesale" means a sale by a person who buys a commodity and resells it, without substantially changing its form, to any person other than an ultimate consumer and includes any sale to the United States, or any government, or any of its subdivisions, any religious, educational, or charitable institution for the sick, deaf, blind, disabled, aged, or insane, or any school, hospital, library, commercial or industrial user, or any agency of the foregoing, except as such sales come within the provisions of subparagraph (1) above.

[Subparagraph (2) amended by Am. 51, 9 F.R. 4245, effective 4-11-44; and Am. 65, 9 F.R. 6817, effective 5-17-44]

(3) "To deliver" means to transfer actual possession of the commodity to the purchaser or to any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(4) "Records" includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to the terms used herein.

SEC. 13. *Effective date.* This Maximum Price Regulation No. 373 shall become effective April 20, 1943. [MPR 373 originally issued April 20, 1943.]

[Sec. 16 revoked by Am. 63, 9 F.R. 6814 effective 5-6-44]

SEC. 17. *Table IV: Maximum prices for sugar*—(a) *Definitions.* When used in this Table IV the term:

(1) "Primary distributor" means any person who manufactures fine granulated sugar or granulated sugar, or the agent of any such person. The term "agent" shall be deemed to include a broker, factor, commission merchant, or a person who takes title but actually performs functions commonly performed by brokers, factors, or commission merchants.

(2) "Canner" means a canner of pineapples.

(3) "Class of purchaser" refers to the practice adopted by the primary distributor in setting different prices for sales to different purchasers or kinds of purchasers (for example, jobber, wholesaler, Army, Navy, canner), or for purchasers located in different areas, or for different quantities or grades, or under different conditions of sale.

(b) *Maximum prices for sales by primary distributors located on the Island of Oahu*—(1) *Sales of granulated sugar to canners.* (i) $5.25 per one hundred pounds on orders placed by the canner with the primary distributor before June 25 of any calendar year for deliveries to be made during the same calendar year.

(ii) $5.45 per one hundred pounds on orders placed by the canner with the primary distributor on and after June 25 of any calendar year for deliveries to be made during the same calendar year.

(iii) The containers shall be in good sound condition of such material as is available, preferably jute with cotton liners.

(iv) These maximum prices include delivery by the primary distributor f. o. b. cars of the Oahu Railway & Land Company at the buyer's cannery in Honolulu, or the depot or wharf of the Oahu Railway & Land Company in Honolulu, or f. a. s. Inter-Island Steamer, at the buyer's option.

(v) There shall be deducted from these maximum prices an amount equal to two per cent thereof for cash within five days. As to when the five-day period commences, this shall be determined in accordance with the usage existing between the primary distributor and canners prior to the effective date of this regulation.

(vi) These maximum prices are for a quality and polarization of granulated sugar not below the average quality and polarization delivered to canners by the primary distributor during the calendar year 1942.

(2) *Sales of fine granulated sugar to persons other than canners.* (i) $5.45 per one hundred pounds.

(ii) Containers shall be in good sound condition of such material as is available; and in the case of 100-lb. bags, preferably jute with cotton liners

(iii) This maximum price shall be adjusted in accordance with the grade and package differentials employed by the primary distributor in December 1942.

(iv) This maximum price includes delivery by the primary distributor to the customary receiving points of the respective purchasers or classes of purchasers in accordance with the practice in existence during December 1942. However, if during December 1942 the primary distributor charged a premium for delivery to a particular purchaser or class of purchasers, there may be added to the maximum price for that purchaser or class of purchasers an amount not in excess of the premium so charged.

(v) On the other hand, the primary distributor shall not reduce his discounts and allowances to a particular purchaser or class of purchasers below those which he had in effect as to deliveries during December 1942 to the same purchaser or class of purchasers. Such discounts and allowances shall be deducted from the maximum price.

(vi) This maximum price is for a quality and polarization of fine granulated sugar not below the average quality and polarization delivered to persons other than canners during the calendar year 1942.

(c) *Maximum prices for sales by primary distributors located on the Island of Maui*—(1) *Sales of granulated sugar to canners.* (i) $5.25 per one hundred pounds less,

(ii) An amount equal to two per cent thereof for cash within five days.

(iii) Twenty-five cents per one hundred pounds.

(iv) As to when this five-day period commences, this shall be determined in accordance with the usage existing between the primary distributor and canners prior to the effective date of this regulation.

(v) The containers shall be in good sound condition of such material as is available, preferably jute with cotton liners.

(vi) This maximum price is f. o. b. railroad cars or buyers' conveyances Paia.

(vii) This maximum price is for a quality and polarization of granulated sugar not below the average quality and polarization delivered to canners by the primary distributor during the calendar year 1942.

(2) *Sales of fine granulated sugar to persons other than canners.* (i) $5.20 per one hundred pounds.

(ii) Containers shall be in good sound condition of such material as is available and in the case of 100-lb. bags, preferably jute with cotton liners.

(iii) This maximum price shall be adjusted in accordance with the grade and package differentials employed by the primary distributor in December 1942.

(iv) This maximum price includes delivery by the primary distributor to the customary receiving points of the respective purchasers or classes of purchasers in accordance with the practice in existence during December 1942. However, if during December 1942 the primary distributor charged a premium for delivery to a particular purchaser or class of purchaser, there may be added to the maximum price for that purchaser or class of purchasers an amount not in excess of the premium so charged.

(v) On the other hand, the primary distributor shall not reduce his discounts and allowances to a particular purchaser or class of purchasers below those which he had in effect as to deliveries during December 1942 to the same purchaser or class of purchasers. Such discounts and allowances shall be deducted from the maximum price.

(d) Maximum prices for sales of sugar by persons in the Territory not covered by this Table IV shall continue to be those established by the General Maximum Price Regulation for Hawaii or any applicable price schedule, regulation, or order issued by the Office of Price Administration.

SEC. 18. *Table V: Maximum prices for sales of fats and oils and canned meats in the Island of Oahu only.* (a) This Table V is applicable to all fats and oils and canned meats sold in the Island of Oahu, except such of these commodities as are covered by this Maximum Price Regulation or other orders or regulations issued by the Office of Price Administration.

(b) *Sales at wholesale.* (1) The wholesaler shall calculate his maximum price for each item (that is, kind, brand, grade and container size) of a commodity covered by this Table V as follows: (i) The wholesaler shall calculate the base price by adding the amounts permitted in paragraph (c) below; (ii) To this base price he may add the applicable margin set forth in paragraphs (g), (h) and (i) below; (iii) In appropriate cases he may add an additional amount as specified in paragraph (f) below.

(c) *Base price.* (1) In the case of purchases other than purchases from the Federal Surplus Commodities Corporation, "base price" means an amount not in excess of the sum of the following. Of course, if any of the items specified in subdivision (ii) through (vii) have already been included in the amount specified in subdivision (i) it may not again be added.

(i) An amount equal to the price which the wholesaler agreed to pay the mainland seller before deducting any cash discount, swell allowance or promotional allowance.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery to the mainland port of shipment, including transportation taxes, terminal charges, and extra charges for shipment of less than carload lots.

(iii) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storages, and insurance in connection therewith, in excess of six months shall not be included.

(iv) An amount computed at the rate of $1.20 per ton, weight or measurement, to cover cartage from warehouse to dock in port of shipment, whether or not actually incurred.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler.

(vi) An amount equal to cartage charges in Honolulu from dock to warehouse computed at a rate not in excess of $1.20 per ton, weight or measurement, provided that the commodity is moved from the dock at the wholesaler's expense.

(vii) With respect to packaged oleomargarine and lard only, and if the packaged oleomargarine or lard is placed in public cold storage in Honolulu at the wholesaler's expense, then an amount therefor computed at a rate not in excess of $.0033 per pound, net weight: *Provided*, That, no amount may be included for the first month's storage. Public cold storage charges for the first month's storage in Honolulu shall be absorbed by the wholesaler.

(2) In the case of purchases from the Federal Surplus Commodities Corporation, the base price shall be the net price paid plus an amount equal to cartage charges computed at a rate not in excess of $1.20 per ton, weight or measurement.

(3) If an identical item of the same grade in the wholesaler's inventory on hand has two or more different base prices, then the base price for that item may be determined by calculating a weighted average base price for that item.

(4) If the actual amount for a charge is not in hand with respect to a particular shipment of any item, the wholesaler may estimate the amount of the charge for the purpose of determining the base price, but upon the following conditions:

(i) That he set up an "error account;" which he shall keep and maintain for inspection by the Office of Price Administration for a period of not less than one year;

(ii) That when the actual amount becomes known he immediately include in this account the difference between the actual amount and the estimated amount;

(iii) That if the difference is an amount in excess of the actual amount, then such difference shall be deducted in calculating the base price for any item on hand or received in the next shipment;

(iv) That if the difference is an amount less than the actual amount, then such difference may be added in calculating the base price for any item on hand or received in the next shipment;

(v) That the error account show how the differences are applied.

(d) These maximum prices contemplate distribution by ony one wholesaler on the Island of Oahu. In the event that in the course of distribution of any commodity covered by this regulation after arrival in Honolulu, such commodity moves through the hands of more than one wholesaler, then the wholesalers shall distribute between them the margins set forth in appendices annexed hereto. In such event the primary wholesaler making the importations shall furnish the wholesaler purchasing from him a statement of the base price determined in accordance with this section.

(e) No extra charge may be added for delivery in the City of Honolulu.

(f) In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one-quarter (1¼%) per cent of it.

(g) *Oleomargarine, shortening and lard.* The maximum margins which may be added to the base price shall not be higher than the following:

(1) Bulk shortening and lard, $0.0175 per lb. net weight.

(i) "Bulk shortening and lard" means shortening and lard in drums, cans over 6 pounds net weight, tubs, tierces or barrels, and includes the following:

(*a*) Standard shortening such as Jewel, Pearl, Sance, Vegetele, Advance, Flakewhite, Fluffo, Seoco, Kneedit, Crustene, Hydora, Durkee's, Superla, Ore, Diamond Head;

(*b*) Hydrogenated and high ration shortening such as Primax and Sweetex, Cove and Cove Super Mix, Heavy Duty MFB and Quik Blend, Vream and Vreamay, Kremit and Kremer, Bakerite and Bakerite 140.

(*c*) Lard.

(2) Packaged shortening and lard $.02 per lb. net weight.

(i) "Packaged shortening and lard" means shortening and lard in containers of six pounds net weight or less, and includes the following:

(*a*) Standard and hydrogenated shortening, such as Spry, Crisco, Jewel, Snowdrift, Fermay and Fluffo;

(*b*) Lard and lard compounds or substitutes.

(3) *Oleomargarine.*

(i) Bulk, $.03 per lb. net weight.

(ii) Packaged.

(*a*) Base price 20 cents per pound, net weight or over, $.0475 per lb. net weight.

(*b*) Base price under 20 cents per pound, net weight, $.0425 per lb. net weight.

(h) *Cooking and salad oils.* (1) The maximum margins for all cooking and salad oils other than olive oil and peanut oil which may be added to the base price shall not be higher than the following:

(i) *Bulk.*

(*a*) Containers over 5 gallons, $.018 per lb. net weight.

(*b*) 5-gallon containers, $.80 per 5 gallons.

(ii) *Packaged.*

(*a*) 1-gallon containers, $1.00 per case of 6 containers.

(*b*) ½-gallon containers, $.55 per case of 6 containers.

(*c*) 23-oz. containers, $.60 per case of 12 containers.

(*d*) 1-qt. containers, $.70 per case of 12 containers.

(*e*) 1-pt. containers, $.70 per case of 24 containers.

(2) The maximum margins for olive oil and peanut oil which may be added to the base price shall not be higher than the following:

(i) *Peanut oil 10% on selling price.*

(ii) *Olive oil.*

(*a*) Containers of one pint or more 10% on selling price.

(*b*) Containers of less than one pint 15% on selling price.

[Subparagraphs (1) and (2) amended by Am. 52, 9 F.R. 4351, effective 3–20–44]

(3) *Items not covered.* The maximum margin for any cooking or salad oil not covered above shall be 10 per cent on selling price over the base price.

(4) "Cooking and salad oils" shall mean all vegetable oils, whether pure or mixed such as "77", Angela Mia, Puritan, Fluffo Jewel, Star, Certified Crustene, Primrose, Wesson, Mazola; but shall not include prepared dressings.

(i) *Canned meats.* (1) The maximum margin for canned meats shall be 11 per cent on selling price over base price, except that when packed in glass, the maximum margin shall be 13 per cent on selling price over base price.

(2) The term "canned meats" includes canned meats and meats in combination with other foods, such as luncheon meats, spreads, sausages and sausage meats, frankfurters, hamburger, loaf goods, brains, tongues, bacon, corned beef, dried beef, sliced dried beef, hash, potted and deviled meats, spaghetti and meat balls, spaghetti sauce with meat, noodles and meat, vegetables and meat, stews, chili con carne, prepared hot tamales, chicken, turkey and other poultry, and similar items which are customarily considered shelf goods, and are not stored under refrigeration.

(j) *Sales at retail.*

[Item 4 amended by Am. 58, 9 F.R. 5438, effective 4–13–44]

NOTE: The maximum price for containers not listed in item 4 shall be computed on a basis of 16% on selling price over retailer's price cost, except that in the case of olive oil, it shall be 20% on selling price. In computing 16% on selling price over retailer's invoice cost, the maximum price shall be arrived at by dividing invoice cost in cents per pound by 0.84. For example, assume Brand "X" carries an invoice cost to the retailer of twenty cents per pound, dividing $.20 by 0.84 equals $.238. Adjusting this to the nearest cent gives a maximum retail price of twenty-four cents per pound. For fractional prices derived from this computation, see section 7 of this Maximum Price Regulation No. 373.

SEC. 19. *Maximum slaughterers' and wholesalers' prices for mainland meat products and certain mcinland dairy products, and maximum prices for island meats, hogs, rabbits, poultry and eggs sold by slaughterers, wholesalers and producers*—(a) *To what commodities and transactions this section applies.* (1) Maximum prices for sales by slaughters and wholesalers of meats, poultry and certain dairy products imported from the mainland are covered in paragraphs (h), (i), (j) and (k). A wholesaler for the purposes of these paragraphs is any person who customarily distributes the mainland commodities covered by this section for resale by retail outlets, or to commercial, industrial, institutional users, or to the Armed Forces of the United States.

(2) Maximum prices for sales of island produced meats, hogs, rabbits, poultry and eggs by slaughterers, wholesalers, and producers are covered in paragraphs (l) and (m). The terms "slaughterer" and "wholesaler", as used in these paragraphs, are defined therein.

(b) *Permitted practices.* (1) Where a wholesaler purchases from a mainland seller a variety of wholesale cuts of a particular carcass which are billed at one price, the wholesaler may sell the various wholesale cuts at the current market price provided that the total margin of profit received from the sale of all such wholesale cuts does not exceed the appropriate margin specified in Table A.

(c) *Sales invoices.* Every person making a sale of any commodity subject to this section shall furnish the buyer at the time of the delivery of the commodity with a written invoice or sales memorandum setting forth the date of sale, the name and address of the buyer and seller, the quantity and description of the commodity sold (including kind, grade, brand, container size, sex, weight, weight classes, etc., whichever is applicable,) and the price therefor, (including all allowances and payments for all services rendered or to be rendered in connection with the sale.) On the sale of live animals and carcasses listed in paragraphs (l) and (m) wherein the price varies with the weight, the weight of each individual carcass or animal shall be shown.

(d) *Records and reports.* Every person making a sale or purchase of any commodity subject to this section shall keep and make available for examination by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remain in effect, all sales invoices and sales memoranda required in paragraph (c) above.

In addition, all wholesalers are required to keep and make available:

(1) All records and data reflecting the charges incurred by the wholesaler in arriving at the selling price.

(2) The wholesaler's error account provided for in paragraph (h) (2).

[Section heading and paragraphs (a) through (d) amended by Am. 45, 9 F.R. 3341, effective 1–17–44]

(e) *Averaging of inventories.* If an identical item of the same grade in the wholesaler's inventory on hand has two or more different base prices, then the base price for that item may be determined by calculating a weighted average base price for that item. Each wholesale establishment of the same seller may be treated as a separate unit.

(f) *Delivery charges.* No charges for delivery may be added to the ceiling prices established by this section unless authorized by order of the Office of Price Administration, Honolulu, T. H., upon the written application of the seller.

[Paragraph (f) amended by Am. 45]

(g) *Gross income tax.* In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one-quarter per cent (1¼%) of the selling price.

(h) *How the primary wholesaler calculates his maximum price.* (1) The provisions of paragraphs (h), (i) and (j) apply only to those commodities which are imported direct from the mainland for distribution on the same island wherein is located the commodities' point of entry. The provisions of paragraph (k) apply to those commodities which are transshipped from or via another island. It is the intent of this section to allow only one wholesale markup on any one island. It is also the intent of this section to allow only one wholesale markup in the Territory of Hawaii when the secondary wholesaler is a branch office or a subsidiary (owned in whole or in part by the primary wholesaler or its officers) of the primary wholesaler. Independent secondary wholesalers importing from other islands shall compute their maximum prices in accordance with the provisions of paragraph (k). Each Territorial importer or wholesaler making sales to a second Territorial wholesaler of the commodities covered by this section shall state his base price on each invoice.

(2) *The error account.* If the actual amount for a charge is not in hand with respect to a particular shipment of any item, the wholesaler may estimate the amount of the charge for the purpose of determining the base price, but upon the following conditions:

(i) That he set up an "error account";

(ii) That when the actual amount becomes known he immediately include in this account the difference between the actual amount and the estimated amount;

(iii) That if the difference is an amount in excess of the actual amount, such difference shall be deducted in calculating the base price for any item on hand or received in the next shipment;

(iv) That if the difference is an amount less than the actual amount, then such difference may be added in calculating the base price for any item on hand or received in the next shipment;

(v) That the error account show how the differences are applied.

(i) *Calculation of the maximum price.* The maximum price for each item (that is, kind, brand, grade, and container size) covered by Table A of this section shall be the sum of the base price described in paragraph (j) below and the appropriate margins set forth in Table A.

(j) *Calculation of the base price.* (1) Except in the case of purchases from the Federal Surplus Commodities Corporation, the base price shall be an amount not in excess of the items described in subdivisions (i) through (ix) below. If any of the items have been absorbed by the seller, they may not again be added.

(i) An amount equal to the lower of either the amount the wholesaler paid the mainland supplier less all discounts and allowances except the discount for cash or prompt payment and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Price Regulation,[7] or the mainland suppliers maximum price permitted under the following mainland maximum price regulations, whichever governs the sale of the commodity in question: Maximum Price Regulation 169[8] (Beef and Veal Carcasses and Wholesale Cuts), Maximum Price Regulation 239[9] (Lamb and Mutton Carcasses and Cuts at Wholesale and Retail), Maximum Price Regulation 148[10] (Dressed Hogs and Wholesale Pork Cuts), Maximum Price Regulation 269[11] (Poultry).

However, if the mainland supplier processes or otherwise prepares the commodity for shipment and bills the wholesaler for this service as a separate item on the invoice, the wholesaler may add the amount of any such charge actually incurred.

(ii) If the wholesaler must process or prepare the commodity for shipment at his own expense subsequent to purchase from the mainland supplier, an amount equal to such charges actually incurred.

(iii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery to the mainland port of shipment, including such charges in connection therewith as were theretofore customarily included, such as icing charges, switching, demurrage, and the like.

(iv) An amount equal to the actual cold storage charges, and insurance in connection therewith at point of shipment actually incurred by the wholesaler.

(v) An amount computed at the rate of 12¢ per 100 pounds net weight to cover cartage from warehouse to dock at point of shipment, except that for eggs the rate shall be 5¢ per case.

(vi) The amount actually incurred for ocean freight, war risk and marine insurance, which, however, shall not be higher than the following:

	Per 100 pounds net weight
Refrigerated:	
Beef, veal, pork, lamb and mutton carcasses and wholesale cuts, bone in, in cloth or burlap	$3.50
All meat cuts, boneless or bone in, in containers, weighing over 15# per 100# net weight of content	4.00
All meat cuts, boneless or bone in, in containers, weighing from 10# to 15# per 100# net weight of content	3.90
All meat cuts, boneless or bone in, in containers, weighing under 10# per 100# net weight of content	3.80
Variety meats (in boxes):	
Liver and sweetbreads	4.10
Tongue, hearts, kidneys, brains, cooked tripe, etc	3.90
Variety meats (in pails):	
Liver and sweetbreads	4.20
Tongue, hearts, kidneys, tails, etc	4.00
Fresh or smoked sausage or ready-to-eat meats (typical items are frankfurters, bologna and meat loaves)	3.90
Poultry (except turkeys):	
Regular dressed	3.90
Eviscerated	4.10
Turkeys	4.25
Canned eggs:	
Whites, naked tins	3.70
Whites, tins, in cartons	3.90
Whole naked tins	3.80
Whole tins in cartons	4.00
Sugared yolks, naked tins	3.90
Sugared yolks, tins in cartons	4.10
Butter	3.40
Shelled eggs (per case)	1.95
Unrefrigerated:	
Smoked meats (typical items are ham, bacon, picnics, etc.)	1.40
Dry salt bellies	1.00

	Per 100 pounds net weight
Unrefrigerated—Continued.	
Dry sausage (typical items are salami, cervelat)	$1.55
Pork and beef cuts in brine	1.40
Fresh and smoked sausage or ready-to-eat meats	1.50
Cheese	1.15
Powdered milk	1.20
Shelled eggs, per case	.90
Gelatin (bulk)	1.90

NOTE: For commodities other than those listed above the amounts to be added for ocean freight and insurance in connection therewith, shall be the charges actually incurred.

(vii) An amount for cartage charges from dock to warehouse computed at a rate of 12¢ per 100# net weight, except that for eggs the rate shall be 5¢ per case. These cartage charges may be added only if the commodity is moved from the dock at the wholesaler's expense.

(viii) An amount equal to cold storage charges actually incurred by the wholesaler in the Territory after the first 30 days but not exceeding 90 days. A wholesaler who operates his own storage plant may add an amount equal to customary public cold storage rates. All storage charges for products that are in storage for 30 days or less shall be absorbed by the wholesaler.

(ix) On sales to other islands, an amount for cartage charges from warehouse to dock at the rate of 12¢ per 100# net weight, except that for eggs the rate shall be 5¢ per case. These cartage charges may be added only if the commodity is moved to the dock at the wholesaler's expense.

[Paragraph (j) amended by Am. 45, 9 F.R. 3341, effective 1–17–44; and Am. 56, 9 F.R. 4819, effective 4–25–44.]

(k) *Maximum prices for commodities transshipped from other islands.* The secondary wholesaler shall calculate his maximum price for each item (that is, kind, brand, grade, and container size) by adding to the primary wholesaler's base price the following:

(1) An amount equal to inter-Island ocean transportation charges actually incurred, including war risk and marine insurance.

(2) An amount not to exceed 12 cents per 100 pounds net weight to cover cartage from dock to warehouse at point of destination except that for eggs the rate shall be 5 cents per case.

(3) An amount equal to public cold storage at point of distribution in excess of the first month's charges. All storage charges for the first month's storage shall be absorbed by the wholesaler. This charge contemplates the wholesaler utilizing to the maximum, consistent with economic operation of his plant, all cold storage space owned and operated by him. The charges shall be computed and prorated according to the customary practices of the wholesaler.

(4) 150% of the margins specified for primary wholesalers in Table A, except that branch offices of a primary wholesaler, or offices owned wholly or in part by a primary wholesaler or its officers shall not be considered as secondary wholesalers, and the maximum margins shall be the applicable margin listed in Table A.

TABLE A—MAXIMUM MARGINS

[1] 10 percent on selling.
[2] 12% on selling.

However, the provisions of this paragraph as applied to certain commodities subject thereto may be modified by Order of the Territorial Director of the Office of Price Administration.

[Above paragraph added by Am. 56]

(l) *Maximum prices for sales by slaughterers of island produced meats, and for sales by any person of live island hogs*—(1) *Explanation.* (i) For the purposes of this paragraph, a slaughterer is anyone who kills the live animal, and, after dressing it, sells and distributes the carcass or wholesale cuts to wholesalers, retailers or to commercial, industrial, or institutional users, or to the Armed Forces of the United States.

(ii) The cuts or cutting methods referred to in this section are defined in paragraph (n) below.

(2) *Custom slaughtering.* The maximum remuneration which a slaughterer may receive for killing and dressing any animal except hogs is the retention of the hide, offal, and other by-products. The maximum remuneration which a slaughterer may receive for killing any hog is the retention of the offal plus a fee for slaughtering of one cent per pound live weight.

[Heading and subparagraphs (1) and (2) amended by Am. 45]

(3) *Additional provisions.* The maximum prices established in this section are based upon the slaughterer's retention of the offal. If the slaughterer elects to sell the carcass and the offal together, an amount not exceeding the maximum price for the offal sold may be added to the maximum price for the carcass. In the case of a sale of a boned beef wholesale cut the slaughterer may add ½ cent per pound to the maximum price per pound for such wholesale cut with bone-in and multiply the total by the number of pounds in the bone-in cut.

(4) *Island beef.* (i) "Beef" means meat derived from the carcasses of bovine animals which does not qualify as veal as defined in subparagraph (5) (i).

(ii) "Beef carcass" means and is limited to the dressed carcass, side, or sides of beef which shall be dressed with tail, kidney knob or knobs, and hanging tender left on.

(iii) The beef carcass shall not be broken in any other manner than described in paragraph (n).

(iv) All steers and heifers shall be stamped "A". Cows and bulls shall be stamped "B".

(v) [Revoked]

[Subdivision (v) revoked by Am. 56, 9 F.R. 4819, effective 4–25–44]

(8) *Hogs.* Table F below fixes ceiling prices for live hogs, including live pigs, sold or delivered by any person. It does not apply to sales or deliveries to bona fide hog raisers of live hogs for breeding purposes and of live hogs weighing 175 pounds or less for feeding for more than one month. The Office of Price Administration may establish ceiling prices in excess of those set forth in Table F below for sales of live hogs weighing more than 175 pounds for feeding for more than one month upon written application by the seller to the Office of Price Administration, Iolani Palace, Honolulu, T. H. No payments, commissions or allowances for any service, including feeding, transportation or shrinkage should be made by the buyer of live hogs to the seller unless the total sales price, including such payment, commission, or allowances, is equal to or less than the maximum price. No extra charges may be made for delivery or other services.

(m) *Maximum prices for sales of island meats by wholesalers, and maximum prices for sales of island rabbits, poultry and eggs by wholesalers and producers.* (1) For the purposes of paragraph (m), a wholesaler is anyone whose selling establishment is not physically attached to a slaughtering plant, and who purchases carcasses or wholesale cuts and resells the same to retail outlets, or to commercial, industrial or institutional users, or to the Armed Forces of the United States. By this definition, any wholesaler who does any slaughtering must use the slaughterers' maximum prices on sales of those carcasses of cuts which he himself slaughters.

[Heading and subparagraph (1) amended by Am. 45, 9 F.R. 3341, effective 1–17–44]

(2) Carcasses shall not be broken in any other manner than as described in paragraph (n).

(3) In the case of a sale of a boned wholesale cut the wholesaler may add ½ cent per pound to the maximum price per pound for such wholesale cut with bone-in and multiply the total by the number of pounds in the bone-in cut.

(n) *Wholesale cuts*[1]—(1) *Island beef.* (i) "Beef wholesale cut" means and is limited to any of the following cuts meeting the following minimum specifications derived from the beef carcass, but excluding the offal and any item not included herein. All cuts shall be made according to the definite guides and measurements specified. Ribs are designated as 1st to 13th, inclusive, counting as the 1st rib that one which is nearest the neck end of the side.

(ii) "Hindquarter" means the posterior portion of the side remaining after the severance of the 12-rib forequarter from the side, and comprising the round, full loin including the 13th rib, flank, kidney and hanging tender all in one piece, which posterior portion shall be obtained by cutting the beef side between the 12th and 13th ribs keeping the knife firmly against the 12th rib while cutting down the length of the rib to the point at the end of the rib where the rib joins the rib (costal) cartilage, from which point passing through the cartilage and meat of the flank and short plate in the same straight line, completing the cut.

(iii) "Forequarter" means the anterior portion of the side remaining after

[1] Charts of standard beef wholesale cuts filed as part of the original document.

the severance of the 1st rib hindquarter from the side, and comprising the rib, regular chuck, brisket, short plate and foreshank all in one piece, which anterior portion contains the 1st to the 12th rib, inclusive. All heart (mediastinal) fat, but no other fat, shall be removed from the forequarter. The skirt (diaphragm) shall not be removed from any cut or part of the forequarter to which it is attached.

(iv) "Round" means the portion of the hindquarter remaining after the severance of the untrimmed full loin; and flank from the hindquarter, which portion shall be obtained as follows: the untrimmed full loin and flank shall be severed from the hindquarter by cutting in a straight line perpendicular to the contour of the outside or skin surface of the hindquarter. The cut shall be made on a straight line formed by and starting from that point on the backbone which is the juncture of the last (5th) sacral vertebra and the first (1st) tail (caudal) vertebra, and passing through that point which just misses the end of the protuberance of the femur bone and exposes the ball of the femur bone, continuing in the same straight line beyond the second point to complete the cut. Two tail vertebrae shall be left on the round. Attached to the tail bone of the round shall be the tip or rear corner of the fifth sacral vertebra all cod, rudder and pelvic fat remaining on the round after its severance from the full loin and flank shall remain on the round.

(v) "Trimmed full loin" means the portion of the hindquarter remaining after the severance of the round, flank, hanging tender (from the open side), kidney knob and excess loin (lumbar) and pelvic (sacral) fat from the inside of the loin, from the hindquarter, and comprising the short loin and sirloin (loin end) in one piece, the back bone of which portion shall include one and one-half (1½) thoracic vertebrae, six (6) lumbar vertebrae, and five (5) sacral vertebrae (the tip or real corner of the fifth sacral vertebra shall have been sawed off in severing the round from the full loin and flank), and which portion shall be obtained as follows: Part of the kidney knob, all of the kidney and the fat lying closely around the kidney in open (left) and closed (right) sides shall be removed first by a cut starting at the rear end of the kidney and slanting directly to the front edge of the half of the 12th thoracic vertebrae at the point of severance of the hindquarter and the forequarter.

(vi) The hanging tender, which means the cylindrical shaped piece of lean meat attached at one end under the kidney knob in open (left) side hindquarters shall be removed entirely from open side loins by being severed at a point opposite the juncture of the 1st and 2nd lumbar vertebrae.

(vii) After the severance of the round from the hindquarter, the flank shall be severed from the full loin by a cut starting at the heavy end of the full loin at the ventral point of severance of the round from the hindquarter and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line from the center of the protruding edge of the 13th thoracic vertebrae, but in making the cut no more than one inch of cod or udder fat shall be left on the flank side of the face of the loin. (The 10 inch measurement shall be made from the center of the protruding edge of the 13th thoracic vertebrae and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebrae).

(viii) The excess loin (lumbar) and pelvic (sacral) fat shall be trimmed from the inside of the full loin by placing the full loin upon a flat surface, with no other support to change its position, meat side down, and removing all fat which extends above a flat plane parallel with the flat surface supporting the full loin and on a level with the full length of the protruding edge of lumbar section of the chine bone. Then all fat shall be removed which extends above a flat plane using the following two lines as guides for each edge of the plane: an imaginary line parallel with the full length of the protruding edge of the lumbar section of the chine bone which line extends 1 inch directly above such protruding edge; a line on the inside of the loin two inches from the flank edge and running parallel with such edge for the full length of the loin. All fat obstructing the measurement of the second line shall first be removed. In addition all rough fat in the pelvic cavity of the heavy end of the loin (sirloin) shall be trimmed smooth and trimming by a knife shall be apparent. No fat remaining in the pelvic cavity shall exceed one inch in depth.

(ix) "Short loin" means that portion of the trimmed full loin remaining after the severance of the sirloin (loin end) from the trimmed full loin, which portion shall be obtained by a cut perpendicular to the contour of the outside or skin surface of the trimmed full loin begun at a point which is the juncture on the chine bone of the 5th and 6th lumbar vertebrae and continuing in a straight line perpendicular to the contour of the outside or skin surface of the trimmed full loin to and through a point flush against the end of the hip (pin) bone, but leaving no part of the hip (pin) bone in the short loin. The backbone of the short loin shall include five (5) lumbar vertebrae, one and one-half (1½) thoracic vertebrae and part of the 13th rib.

(x) "Sirloin" (loin end) means the thick portion of the trimmed full loin remaining after the severance of the short loin from the trimmed full loin. The backbone of the sirloin shall include one (1) lumbar vertebra, five (5) sacral vertebrae (the tip or rear corner of the fifth (5th) sacral vertebra shall have been sawed off in separating the round from the trimmed full loin and flank), and the entire hip bone (ilium).

(xi) "Regular chuck" means the portion of the cross cut chuck remaining after the severance of the foreshank and brisket from the cross cut chuck, and containing most of the blade bone (scapula), part of the (humerus) arm bone, parts of the five ribs (1st to 5th, inclusive), that section of the backbone attached to the ribs, and neck bone (cervical vertebrae from 1 to 7, inclusive), which portion shall be obtained by a cut through the cross cut chuck made in a straight line perpendicular to the contour of the outside or skin surface of the cross cut chuck (thereby separating the brisket and foreshank from the cross cut chuck) starting at a fixed point on the inside of the 5th rib determined by measuring off ten (10) inches along the 5th rib in a straight line from the center of the protruding edge of the 5th thoracic vertebra, continuing in the same straight line to the tip of the forward end of the breast bone (forward end of 1st segment of sternum), and passing through the (humerus) arm bone in the same straight line to complete the cut. (Note: The 10-inch measurement shall be made from the center of the protruding edge of the 5th thoracic vertebra and not from the hollow of the chine bone where the 5th rib joins the 5th thoracic vertebra).

(xii) "Short plate" means the portion of the forequarter remaining after the severance of the cross cut chuck and the rib from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), the rib (costal) cartilages attached to them, and part of the breastbone.

(xiii) "Brisket" means the portion of the cross cut chuck remaining after the severance of the regular chuck and foreshank from the cross cut chuck, which portion contains part of 5 ribs (1st to 5th, inclusive), part of the breastbone and the rib (costal) cartilages which connect the ends of the rib bones with the breastbone. All heart fat, but no other fat shall be removed from the brisket.

(xiv) "Flank" means the portion of the hindquarter remaining after the severance of the round and untrimmed full loin from the hindquarter, which shall be obtained after the removal of the round by separation from the untrimmed full loin, starting the cut at the point at the lower end of the loan end (sirloin) which was the ventral point of separation of the full loin and round, leaving no more than one inch of cod or udder fat attached to the flank side of the face of the full loin, and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line along the 13th rib from the center of the protruding edge of the 13th thoracic vertebra. (Note: The 10-inch measurement shall be made from the center of the protruding edge of the 13th thoracic vertebra and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebra.)

(xv) "Foreshank" means the portion of the cross cut chuck remaining after the severance of the regular chuck and brisket from the cross cut chuck, which portion shall be obtained (after separation of the regular chuck) by separation from the brisket by a cut following the natural seam and leaving the entire lip, or web muscle on the brisket.

(xvi) "Prime rib" means the portion of the forequarter remaining after the severance of the cross cut chuck and short plate from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), that section of the backbone attached to the ribs, posterior tip and cartilage of the blade bone (scapula), part of the blade bone (scapula),

which portion shall be obtained (by separation from the short plate) by a straight cut across the ribs starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra and continuing to and through a fixed point determined by measuring off 10 inches on the inside of the 6th rib along the 6th rib from the center of the inside protruding edge of the 6th thoracic vertebra. (Note: The 10-inch measurements shall be made from the centers of the protruding edges of the 6th and 12th thoracic vertebrae, and not from the hollow of the chine.)

(xvii) "Cross cut chuck" means the portion of the forequarter remaining after the severance of the rib and short plate from the forequarter, and comprising the regular chuck, brisket and foreshank all in one piece, which portion shall be obtained by cutting through the forequarter in a straight line between the 5th and 6th ribs, keeping the knife firmly against the 5th rib while cutting to the point where the 5th rib joins the rib (costal) cartilage, at which point the cut shall continue in the same straight line through the cartilage, the breast bone (sternum) and the meat of the brisket and short plate to complete the severance. The cross cut chuck shall contain five (5) ribs (1st, to 5th, inclusive).

(xviii) "Arm chuck" means the portion of the cross cut chuck remaining after the severance of the brisket from the cross cut chuck and containing the regular chuck and foreshank all in one piece.

(xix) "Back" means the portion of the forequarter remaining after the severance of the short plate, brisket and foreshank from the forequarter, and containing the rib and regular chuck all in one piece, which portion shall be obtained by a cut made in a straight line starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra and continuing to and through a fixed point at the tip of the forward end of the breastbone (forward end of 1st segment of sternum) through the (humerus) arm bone in the same straight line to complete the cut. (Note: Measurements shall be made from the center of the protruding edge of the 12th thoracic vertebra, and not from the hollow of the chine.)

(xx) "Triangle" means the portion of the forequarter remaining after the severance of the rib from the forequarter, and containing the short plate, brisket, foreshank and regular chuck all in one piece, which portion shall be obtained by removing the rib from the forequarter by a straight cut across the ribs starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside of the protruding edge of the 12th thoracic vertebra and continuing to a fixed point determined by measuring off 10 inches on the inside of the 6th rib along the 6th rib from the center of the inside protruding edge of the 6th thoracic vertebra, and severing the rib from the forequarter by a second cut made in a straight line between the 5th and 6th ribs keeping the knife firmly against the 5th rib to the point where the second cut meets the end of the first cut. (Note: Measurements shall be from the center of the protruding edge of the 12th and 6th thoracic vertebrae, and not from the hollow of the chine.)

(xxi) "Long plate" means the combination of the brisket and the short plate (12 ribs).

(2) *Island veal.* (i) "Veal wholesale cut" means and is limited to any of the following cuts meeting the following minimum specifications, derived from the veal carcass, but excluding the offal and any item not included herein. Ribs are designated as first to thirteenth, inclusive, counting as the first rib that one which is nearest the neck end of the side.

(ii) "Hindsaddle or hindquarter" means the portion of the carcass or side, respectively, remaining after the severance of the 12-rib foresaddle or forequarter and comprising the legs or leg, and loin, double or single, including the 13th rib, flank and kidney, all in one piece, which portion shall be obtained by cutting the veal carcass or side between the 12th and 13th ribs, keeping the knife firmly against the 12th rib and following the curvature of the rib to the point where the 12th rib turns, from which point the cut shall be continued by following a line through the cartilage and meat of the flank in the same straight line at right angles to the chine bone, completing the cut. Tail or caudal vertebrae to be left on the hindsaddle or hindquarter are not to exceed 2 in number.

(iii) "Foresaddle or forequarter" means the anterior portion of the carcass or side, respectively, remaining after the severance of the one-rib hindsaddle or hindquarter, which anterior portion shall be obtained by cutting the veal carcass or side between the 12th and 13th ribs keeping the knife firmly against the 12th rib and following the curvature of the rib to the point where the 12th rib turns, from which point the cut shall be continued by following a line through the cartilage and meat of the flank in the same straight line at right angles to the chine bone, completing the cut.

(iv) "Loin, double or single", means that portion of the hindsaddle or hindquarter remaining after severance of the legs, which portion shall be obtained by cutting in a straight line at a right angle to the chine bone, starting at the juncture of the 5th and 6th lumbar vertebrae, and continuing through a point flush against the anterior end or pin bone end of the pelvis, leaving all the hipbone in the leg. The cut shall be made in a straight line perpendicular to the contour of the outside or skin surface of the hindsaddle or hindquarter. The double loin is split through the center of the chine bone to make 2 single loins. The loin includes the 13th rib and is untrimmed, that is, it includes the flank, kidney, and fat.

(v) "Legs or leg" means the portion of the hindsaddle or hindquarter remaining after the severance of the loin from the hindsaddle or hindquarter, which portion shall be obtained by cutting squarely in a line at a right angle to the chine bone, starting at the juncture of the 5th and 6th lumbar vertebra and continuing in the same straight line through a point flush against the anterior end or pin bone end of the pelvis, leaving all the hipbone in the leg. The cut shall be made in a straight line perpendicular to the contour of the outside or skin surface of the hindsaddle. The pair of legs may be split through the center to make 2 single legs. The tail or caudal vertebrae remaining on the legs or leg are not to exceed 2 in number.

(vi) "Shoulder" means that portion of the forequarter (1st 5 ribs) remaining after the severance of the breast, neck, shank, and ribs.

(vii) "Hotel rack" means that portion of the forequarter after the severance of the shoulder and breast, and continuing seven ribs, 6th to 12th inclusive.

(3) *Lamb and mutton.* (i) "Wholesale cut" means, and is limited, to the following cuts meeting the following minimum specifications, derived from the carcass of the lamb or mutton, excluding the offal and other by-products.

(*a*) "Hindsaddle" and "hindquarter" mean the double and single hindquarters, respectively, including the 13th rib. The hindsaddle is made by cutting between the 12th rib to the point where the 13th rib turns. The cut is completed by following a line through the flank at a right angle to the chine bone. This cut is split in half through the center of the chine bone to make the hindquarter.

(*b*) "Foresaddle" and "forequarter" mean the double and single forequarters, respectively, and includes 12 ribs. It is the anterior portion of the carcass remaining after the removal of the hindsaddle. The foresaddle is made by cutting between the 12th rib to the point where the 13th rib turns. The cut is completed by following a line through the flank at a right angle to the chine bone. This cut is split in half through the center of the chine bone to make the forequarter.

(*c*) "Legs" and "leg" mean a pair of legs and one leg, respectively. The legs are separated from the loin by cutting squarely in a line at a right angle to the chine bone, just exposing the end or point of the hip bone and leaving all of the hip bone in the leg. The cut shall be made in a straight line which is perpendicular to the contour of the outside or skin surface of the hindsaddle. The pair of legs may then be split through the center to make a single leg.

(*d*) "Untrimmed loin" and "untrimmed half-loin" mean the double and single loin, respectively, and is the part of the hindsaddle which remains after the legs have been removed. The loin is separated from the hindsaddle by cutting squarely in a line at a right angle to the chine bone, just exposing the end or point of the hip bone, leaving none of the hip bone in the loin. The cut shall be made in a straight line which is perpendicular to the outside or skin surface of the hindsaddle. The loin includes the 13th rib and is not trimmed, i. e., it includes the flank, kidney and fat. The half loin is made by splitting the loin in half through the center of the chine bone.

(*e*) "Hotel rack" may be either the double or single rib sections from the 6th to the 12th ribs, inclusive, minus the breast. It is made by cutting the foresaddle or forequarter, starting at a point on the 12th rib not more than four inches down from the point of the eye, cutting in a straight line to a point on the 5th rib which is not more than four inches from the hollow of the chine bone on the inside, in the lamb carcass, and not more than four and one-half inches from the hollow of the chine bone on the inside in the mutton carcass. It is then separated from the yoke by cutting between the 5th and 6th ribs following the curvature of the ribs close to the 5th rib. It may be split through the center of the chine bone to make two single rib sections.

(*f*) "5-rib shoulder" means a cut made from the yoke by cutting in a straight line starting at a point on the 5th rib not more than four inches from the hollow of the chine bone on the inside in the lamb carcass passing through a point at the forward end of the first segment of the sternum or breast bone. This cut will separate the shoulder from the breast and shank. When the shoulder has been separated from the breast and shank, the only bone to show on the side of the shoulder other than the ribs is the arm bone. It may be split through the center of the chine bone.

(*g*) "Yoke" means the foresaddle minus the hotel rack. It consists of the neck, brisket, breast, shanks, and shoulders. The half yoke is made by splitting the yoke in half through the chine bone and neck bone.

(*h*) "Breast or shank" means either the part which remains after the 5-rib shoulder has been removed from the yoke, in which case it includes the breast, brisket, and shank, or the part which remains after the 5-rib shoulder has been removed from the chuck, in which case it includes the breast and shank.

[Sec. 19 amended by Am. 14, 8 F.R. 12703, effective 8-15-43 on the Island of Oahu and 8-25-43 on all other Islands in the Territory and as otherwise noted]

SEC. 19a. *Sales at retail of Island meats, poultry, and certain dairy products.*

[Heading amended by Am. 46]

(a) *Prices to be marked and posted.* Notwithstanding the provisions of this Maximum Price Regulation 373, on and after the date any commodity becomes subject to this section 19a every person offering to sell any such commodity shall mark the selling price of such commodity on the commodity itself in a manner plainly visible to and understandable by the purchasing public. In addition to this requirement, every retailer shall also place on his meat counter, or other location equally accessible to the public, one or more copies of the maximum prices established herein. Retailers located in Zones 2 and 3 of Hawaii and Zone 2 of Maui may not include in the posted prices the allowed additions specified in paragraph (c).

(*b*) *Definitions.* When used in this section 19a the term:

(1) "Sale at retail" means a sale or a selling to ultimate consumers, restaurants, hospitals, and institutions where the sale of commodities covered herein aggregates $100.00 or less to the same person in a period of twenty-four hours. Sales over this amount shall not exceed the maximum prices for sales at wholesale established by this Maximum Price Regulation 373.

(2) "Zone 2 on the Island of Maui" shall comprise the district of Hana and that portion of the district of Makawao lying south of the south boundary of Ahupuha Kamaole.

(3) "Zone 2 on the Island of Hawaii" shall comprise the district of North Hilo, Hamakua, and Kau, as defined by Hawaiian Statute.

(4) "Zone 3 on the Island of Hawaii" shall comprise the districts of North Kohala, South Kohala, North Kona, and South Kona, as defined by Hawaiian Statute.

(c) The maximum prices of items of different grades from those specified shall be the most nearly comparable grade of that item for which a maximum price is established by this section 19a.

(d) [Revoked]

[Paragraph (d), formerly subparagraph (4), revoked by Am. 46, 9 F.R. 3967, effective 3-1-44]

(e) [Revoked]

[Paragraph (e), formerly subparagraph (5), revoked by Am. 55, 9 F.R. 4785, effective 3-1-44]

(f) No retailer may store under refrigeration, for buyers' account, any of the commodities covered by this section 19a for periods exceeding 24 hours.

(g) The maximum price for sales of retail cuts of meat, or other commodities specifically covered by this section 19a, aggregating between $50.00 and $100.00 shall be 10 per cent less than the maximum price specified in this section 19a.

(h) The maximum prices of wholesale cuts of Island meats sold by retailers shall be the same as those prescribed for wholesalers in section 19 of this regulation. It is the purposes of this provision to enable the retailer to compute his maximum prices on those carcasses or portions of carcasses from which are derived the retail cuts.

[Paragraph (h) added by Am. 15, 8 F.R. 13019, effective 8-27-43, and amended by Am. 46, 9 F.R. 3967, effective 3-1-44]

(i) The maximum price of any retail cut of meat where the various cuts from a particular carcass are all sold at the same price shall be 25% on selling price over the carcass cost.

[Paragraph (i) added by Am. 15]

[Sec. 19a, formerly (j) of sec. 19, amended by Am. 7, 8 F.R. 10270, effective 5-31-43 and as otherwise noted]

SEC. 19b. *Ceiling prices for sales at retail of mainland meats, meat products, poultry, eggs and certain dairy products*—(a) *What is covered by this section.* Ceiling prices for sales at retail of all mainland meats, meat products, poultry, eggs and certain dairy products are fixed in paragraph (h). The only mainland beef, veal, pork, lamb and mutton cuts and variety meats which you may sell or offer to sell at retail are those described in paragraph (e). Certain additional charges are permitted in paragraph (f) to cover transportation differentials existing in certain localities of the outer Islands. These localities are:

(1) "Zone 2 on the Island of Hawaii", which comprises the districts of North Hilo, Hamakua and Kau, as defined by section 7620 of Revised Laws of Hawaii, 1935.

(2) "Zone 3 on the Island of Hawaii", which comprises the districts of North Kahala, South Kahala, North Kona and South Kona, as defined by section 7620 of Revised Laws of Hawaii, 1935.

(3) "Zone 2 on the island of Maui", which comprises the districts of Hana and that portion of the district of Makawao lying south of the south boundary of ahupuaa Kamaole, as defined by section 7620 of Revised Laws of Hawaii, 1935.

(b) *What beef, veal, pork, lamb and mutton cuts or variety meats or edible by-products you may sell.* On and after effective date of this section, the only beef, veal, pork, lamb, and mutton items you may sell are:

(1) Those cuts—fresh, frozen, cured or smoked—which are described and given dollar-and-cents ceiling prices under this section.

(2) Those variety meats and edible by-products which are described and given dollar-and-cents ceiling prices under this section.

(3) Fresh and smoked sausage and ready-to-eat items which are given dollar-and-cents ceiling prices or margins under this section.

(c) *Sales to eating places.* Your ceiling prices for sales to hotels, restaurants, institutions and other eating places selling or furnishing meals are ceiling prices fixed by section 19 of this regulation (Maximum Slaughterers' and Wholesalers' Prices for Mainland Meat Products and Certain Mainland Dairy Products, and Maximum Prices for Island Meats, Hogs, Rabbits, Poultry and Eggs Sold by Slaughterers, Wholesalers and Producers). Nevertheless, you may during any month use the ceiling prices fixed by this section in selling to eating places if 80% or more of your total dollar sales of the items covered by this section during the previous calendar month were retail sales to consumers; that is, persons who buy these items to be eaten by themselves or their families off your premises.

(d) *Grades.* Mainland beef, veal, lamb and mutton must be graded as required under Maximum Price Regulation No. 169 (Beef and Veal Carcasses and Wholesale Cuts), Revised Maximum Price Regulation No. 239 (Lamb and Mutton Carcasses and Cuts at Wholesale and Retail) and Office of Economic Stabilization Regulation No. 1 (Grading and Grade Labeling of Meats).

The grades applicable to this section are these:

(1) Beef, veal and lamb grades:

Choice	or AA
Good	or A
Commercial	or B
Utility	or C

(2) Mutton grades:

Good	or S
Commercial	or M
Utility	or R

Under the requirements of Office of Economic Stabilization Regulation No. 1, grade marks placed on mainland beef, veal, lamb and mutton carcasses and wholesale cuts in conformance with that regulation may not be removed before selling.

Mainland poultry must be classified by grades as set forth in Revised Maximum Price Regulation No. 269 (Poultry). The grades are:

Grade A
Grade B
Grade C

(e) *Description of the mainland retail beef, veal, pork, lamb and mutton cuts you may make.* This paragraph describes the different retail cuts of beef, veal, pork, lamb and mutton which you may sell and how they are to be cut. If you have on hand a carcass, side, quarter or combination cut of mainland beef, veal, pork, lamb or mutton you must first cut it into the standard wholesale cuts set forth in section 19 of this regulation (Maximum Slaughterers' and Wholesalers' Prices for Mainland Meat Products and Certain Mainland Dairy Products, and Maximum Prices for Island Meats, Hogs, Rabbits, Poultry and Eggs Sold by Slaughterers, Wholesalers and Producers), before you make the retail cuts.

All mainland wholesale cuts of beef, veal, pork, lamb and mutton sold in the Territory of Hawaii must comply either with the cutting specifications set forth in Maximum Price Regulation No. 169 (Beef and Veal Carcasses and Wholesale Cuts), Revised Maximum Price Regulation No. 239 (Lamb and Mutton Carcasses and Cuts at Wholesale and Retail), Revised Maximum Price Regulation No. 148 (Dressed Hogs and Wholesale Pork Cuts), and Office of Economic Stabilization Regulation No. 1 (Grading and Grade Labeling of Meats), or with section 19 of this regulation.

All retail cuts covered in the following specifications shall be trimmed as described before the cuts may be weighed or sold to the customer. No fat shall be added to any of the cuts before they are weighed or sold to the customer.

(1) *Retail beef cuts*—(i) *Steaks.* (*a*) Flank steak is made from a standard wholesale beef flank. All membrane shall be removed from this steak. This steak shall not be cut into more than two pieces before selling.

(*b*) Porterhouse, T-bone and Club Steaks are made from the standard primal short loin. Porterhouse steaks contain a large portion of the tenderloin; T-bone steaks contain a small portion of the tenderloin; Club steaks contain no tenderloin. All fat exceeding 1" in thickness shall be trimmed from these steaks.

(*c*) Rib steaks are 10" and 7" cuts made from the standard primal rib after the blade bone or blade cartilage has been removed. The rib bone or bones in these cuts shall measure no longer than 10" or 7", respectively, in a straight line from the protruding edge of the chine bone.

(*d*) Round steak (bone in), full cut, includes a part of the top round, the bottom round, and the eye of the round and round bone. Round steaks (full cut) shall contain the round bone but no part of the knee cap or knuckle bone. All fat exceeding 1" in thickness shall be trimmed from this steak. It may be cut into two or more pieces before selling.

(*e*) Shoulder steak (blade bone) is made from the blade bone portion of the standard primal chuck. No portion of the arm knuckle shall be included in any blade bone shoulder steak. All fat exceeding 1" in thickness shall be removed from this steak.

(*f*) Shoulder steak (round bone or arm cut) is made from the shoulder round bone portion of the standard primal chuck. No portion of the arm knuckle shall be included in any round bone shoulder steak.

(*g*) Sirloin or pinbone (bone in) is made from the standard primal sirloin (loin end). All fat exceeding 1" in thickness shall be trimmed from this steak.

(*h*) Sirloin tip or butt steak (boneless) is made from the sirloin tip or butt roast.

(ii) *Roasts.* (*a*) Chuck or shoulder (round bone) roast is made from the shoulder round bone portion of the standard primal chuck. No portion of the arm knuckle shall be included in any chuck or shoulder (round bone) roast.

(*b*) Chuck or shoulder (blade bone) roast is made from the blade bone portion of the standard primal chuck. No portion of the knuckle shall be included in any blade bone roast.

(*c*) Heel of round (boneless) roast is separated from the hind shank according to the usual practice in each locality. It shall not include the front muscle of the shin bone and it shall be entirely boneless.

(*d*) Rib roast. This roast is made in 10" and 7" cuts from the standard primal rib. The rib bone shall measure no longer than 10" and 7", respectively, in a straight line from the protruding edge of the chine bone. The blade bone or cartilage shall be removed from this roast.

(*e*) Rump roast (trimmed, bone in) shall contain part of the aitch bone but no rump knuckle bone. Not more than 1" of fat shall be left on the outside or within the pelvic cavity of this cut.

(iii) *Stew and other cuts.* (*a*) Lean meat (boneless) is made from fresh, lean, muscle beef including skirt, brisket, flank, shank, neck, plate, heel of round, or other beef trimmings.

(*b*) Brisket (bone in) is made from the standard primal brisket without removing the bones. All fat exceeding 1" thickness shall be removed from this cut.

(*c*) Brisket (boneless) is the boneless meat of the primal brisket after all bone, gristle, cartilage and excess fat have been removed.

(*d*) Flank meat (boneless) is the meat remaining after the flank steak, bone, gristle, membrane and cod fat have been removed from the primal cut.

(*e*) Ground beef or hamburger means ground or chopped fresh, lean, muscle beef including skirt, flank, shank, neck, plate, brisket, heel of round or lean beef trimmings, and must not contain more than 28% beef fat by chemical analysis. Head meat, glandular meats, blood, cartilage, gristle, bone, cereal of any kind or any other ingredient shall not be put into ground beef.

(*f*) Knuckle bones (closely trimmed) shall include rump knuckle, arm bone knuckle, shoulder knuckle, and stifle joints, but shall not include knee caps or other bone.

(*g*) Shin bones (meaty), hind or fore, center cuts, are made from the standard wholesale fore shank after the tongue piece, knee bone, and knuckle end as been removed, and hind shank after the heel of round and hock and stifle joint have been removed.

(*h*) Plate (bone in) is made from the standard primal plate without removing the bones. The diaphragm or skirt muscle may or may not be removed, but the membrane on each side of the skirt and on the inside of the plate and all loose fat shall be removed.

(*i*) Plate (boneless) is the boneless meat of the primal plate after all bone, gristle, cartilage, membrane and excess fat have been removed.

(*j*) Short ribs are the part of the ribs which are removed when making a 7" rib cut from the standard 10" primal rib.

(*k*) *Suet.* Suet means the fat covering around the kidney and on the inside of the loin and pelvic cavities and does not include cod or other beef fats.

(iv) *Beef variety meats.* Beef variety meats means brains, heart, liver, sweetbreads, tongue, tripe, kidneys and tails.

(2) *Retail Veal Cuts*—(i) *Steaks and chops.* (*a*) Loin chops (small) (without kidney) means chops cut from the loin after removing the flank and the kidney. The fat may not be in excess of ½" on either side.

(*b*) Loin chops (large) means the large end of the veal loin or sirloin including the hip or pin bone.

(*c*) Rib chops means chops cut from the forequarter of veal and may include seven ribs. These chops shall not be over 6" in length on the inside from the protruding edge of the chine bone to the rib end of the chop and include the 6th and 12th ribs.

(*d*) Shoulder chops (blade or arm) mean any chops cut from the square cut shoulder. They shall not contain any part of the neck or shank or shoulder knuckle bone.

(*e*) Leg steaks or cutlets (round bone) are cut from the leg of veal "rump off". The portion known as the heel of round may not be included but may be used either as a boneless roast, boneless stewing veal, or ground veal.

(ii) *Roasts.* (*a*) Leg of veal (whole) means that portion of the hindquarter remaining after the severance of the loin at the pin bone. The hock joint must be removed before selling.

(*b*) Leg (shank half) means the whole leg as described, which has been cut in half. This must be sold without removing any round steaks (cutlets). The hock joint must be removed before selling.

(*c*) Rump of veal means the rump cut from the leg by placing the knife 1" from the knob at the aitch bone, contin-

uing the cut close to the edge of the aitch bone perpendicular to the outside or skin surface.

(*d*) Sirloin roast (bone in) means the entire hip or sirloin of veal cut from the whole leg of veal.

(*e*) Chuck or shoulder (square cut) (bone in) means the forequarter of veal minus the rib, shank, breast and neck.

(*f*) Loin roast (without kidney) means that portion of the hindquarter of veal remaining after severance of the legs at the hip or pin bone. The kidney and 3" of flank must be removed.

(*g*) Rib roast means the 6th to 12th ribs, inclusive, cut from the foresaddle. The ribs shall not be over 6" in length on the inside from the protruding edge of the chine bone to the end of the rib.

(*h*) Rump and sirloin (bone in) means a combination of the rump and the sirloin cuts as defined under each of those headings.

(iii) *Stews and other cuts.* (*a*) Breast (bone in) means all or any part of the breast cut into one or more pieces.

(*b*) Neck (bone in) means the entire neck and veal. This cut may also be sold boneless or as ground veal.

(*c*) Shank (hind or fore) (knee removed) means the shank cut from the forequarter or from the hindquarter after the round steak, heel of round and stifle joints have been removed. Knee caps must also be removed from this cut. Shank meat may also be sold boneless or in ground veal or patties.

(*d*) Trimmings means fresh pieces of veal including skirt, flank, shank, neck, breast or heel of round after all gristle, cartilage and sinews have been removed.

(*e*) Ground veal or patties means any part of the veal boned and ground and sold in any form (patties, loaves, etc.). Head meat, glandular meats, blood, cartilage, gristle, bone, cereal of any kind, or any other ingredient shall not be put into ground veal or veal patties.

(iv) *Variety meats.* Variety meats means brains, heart, liver, sweetbreads, tongue, tails, tripe and kidneys, from veal or calves.

(v) *Fabricated veal cuts.* Fabricated veal cuts are standard wholesale cuts from which at least 25% of the bone has been removed. They include the following cuts:

(*a*) Shoulders (boned, rolled and tied) means the whole veal shoulder, boneless, as prepared by mainland packers.

(*b*) Legs (boned, rolled and tied) means the leg of veal with all bone removed, rolled and tied.

(*c*) Legs (oven prepared) means leg of veal partially boned with the rump and shank bones removed.

(*d*) Breast (boneless) means the entire breast of veal with all bone, gristle and excess fat removed.

No fabricated veal cut may be sold at retail unless it is imported as such and it is properly identified at the place where it is offered for sale with a tag or sign attached stating "Fabricated veal".

(3) *Pork*—(i) *Retail pork cuts.* Retail cuts of mainland pork are made from carcasses or standard wholesale cuts of pork imported from the mainland. They include the following:

(*a*) "Regular ham" includes hams cut from the hog carcass not less than 2¼" nor more than 2¾" from the exposed end of the aitch bone, properly faced, with the shank cut off at or above the hock joint, with loose fat and gut fat removed from the face and pelvic cavity with the cushion side well rounded and no excessive fat.

(*b*) "Skinned ham" includes hams cut as regular hams but with the skin removed to leave a collar covering not more than 40% of the length of the ham, with the fat beveled back at least 3" from the lean meat at the butt, neatly rounded and beveled on flank and cushion, with not over 1¼" of fat left on any portion of the ham from which the skin has been removed.

(*c*) "Regular picnic, shank on", includes picnics cut from the shoulders 2 ribs wide in such manner as to leave not less than 1" or more than 2½" of blade bone in the picnic, closely trimmed, properly faced, with the lip and breast flap removed, well rounded and with the fat properly beveled on the butt end.

(*d*) "Regular picnic, shankless" includes regular picnics from which the shank has been cut off close to the breast and parallel to the knee joint.

(*e*) "Regular shoulder" includes shoulders cut two ribs wide, with the breast flap taken off and the neck removed close to the body of the shoulder, and with the foot cut off at the knee joint.

(*f*) "Skinned shoulders" includes shoulders cut as regular shoulders, but with skin taken off within 4" of the base of the shank, neatly beveled on the edges, and with not over ¾" of fat left on any portion of the shoulder from which the skin has been removed.

(*g*) "Regular or skinned shoulder, shank off" includes regular or skinned shoulders from which the shank has been cut off close to the breast and parallel to the knee joint.

(*h*) "Boston butt" includes butts the surplus fat of which has been removed to within ½" of the lean meat on all portions of the butt and which are neatly beveled on the edges.

(*i*) "Regular pork loins" includes loins from which all excess fat over the tenderloin has been removed and the fat on the back of which does not exceed approximately ½" in thickness.

(*j*) "Boneless pork loins, or Canadian bacon" means the boneless eye muscle only, which has been separated from the other parts of the pork loin at the natural muscle seam. The fat shall not exceed ¼" in thickness.

(*k*) "Fat back pork" includes pork derived from the fat back of well finished hogs and cut into pieces about 6" square.

(*l*) "Virginia cured" includes products dry salted cured, washed, peppered and hung from 10 to 30 days before smoking, smoked and hung until product is at least 5 months old.

(*m*) "Pork bellies, fresh or cured" means bellies reasonably square cut without excessive bootjack and boneless.

(*n*) "Pork sausage, bulk, type 2" means sausage made from pork which has a fat content not in excess of 50% and contains no extender or cereals.

(*o*) "Variety meats" includes brains, hearts, kidneys, liver and tongues.

(*p*) "Leg steaks, center cuts" are made from a skinned leg of pork and must not exceed 20% of the weight of the entire leg from which it is derived.

(*q*) "Pork chops, center cuts" are made from regular pork loins and shall not exceed 50% of the weight of the entire pork loin from which it is derived.

(*r*) "Shoulder steaks or roasts, bone in and boneless" are slices or roasts cut from a skinned shoulder. No fat in excess of ¾" may be left on these steaks or roasts.

(*s*) "Sausage, pork and veal (bulk) (type 3)" means sausage containing not more than 70% ground veal as defined in (*e*) (2) (iii) (*e*) and not less than 30% pork trimmings and fat.

[Subparagraph (*s*) added by Am. 50, 9 F.R. 4194, effective 3–13–44]

(ii) *Fabricated pork cuts.* Fabricated pork cuts are standard wholesale cuts of pork from which at least 25% of the bone has been removed. (Typical items are boneless or semi-boneless pork loins.) No fabricated pork cut may be sold at retail unless it is imported as such and it is properly identified at the place where it is offered for sale with a tag or sign stating "Fabricated Pork."

(4) *Retail lamb and mutton cuts*—(i) *Steaks and chops.* (*a*) Loin chops (large) are cut from the large end of the full loin or sirloin, including the entire hip or pin bone.

(*b*) Loin chops (small) are cut from the small end of the loin after removing the flank and kidney. The back fat, or suet, must not be in excess of ½" on either side.

(*c*) Shoulder (blade or arm chops) are cut from the square cut shoulder. They shall not contain any part of the shank or neck.

(*d*) Rib chops are cut from the hotel rack by cutting between the ribs. All chops that contain any segments of shoulder blade or cartilage shall be sold as shoulder lamb chops.

(ii) *Roasts.* (*a*) Leg means the whole leg of lamb after the loin has been removed at the hip or pin bone. (A short leg may also be sold by removing the sirloin or leg chops from the hip bone to the aitch bone).

(*b*) Chuck or shoulder (square cut, neck off) means the whole or any part of the lamb shoulders with neck, flank and breast removed.

(*c*) Sirloin roast (bone in) means the large or leg chops removed from the leg in one piece from the hip to the aitch bone.

(*d*) Rib roast means all or part of the hotel rack. The ribs shall not be more than 5" long from the hollow of the chine bone on the inside of a lamb or mutton carcass.

(*e*) Yoke or triangle (bone in) means the fore saddle minus the hotel rack. It consists of the neck, breast, flank, shank and 5-rib shoulder.

(iii) *Stews and other cuts.* (*a*) Breast or flank means all or any part of the breast or flank cut in one or more pieces.

(*b*) Neck (bone in) means all or any part of the neck cut in one or more pieces.

(*c*) Shanks (bone in) means shanks cut from the shoulder of lamb The shin bone or trotters must be removed.

[1] Ceiling prices for sales of mainland smoked or ready-to-eat meat items are fixed in Table H.

† If your "net cost" of the item being priced is under 40¢ per lb. add 12¢ per lb. to the "net cost". If your "net cost" of such item is 40¢ per lb. or more add 15¢ per lb. to your "net cost". "Net cost" is the amount you paid your supplier after deducting all discounts and allowances.

[Table C amended by Am. 50, 9 F.R. 4194, effective 3–13–44]

(e) Post your ceiling prices. **You must not later than March 1, 1944, post at your store your "Official OPA List of Retail Ceiling Prices of Mainland Meats, Meat Products, Poultry, Eggs and Certain Dairy Products". You may use an extra copy of the OPA list as long as the printing is just as legible and at least as large. The list should be put on or at the counter of the meat department of the store in one or more places where your customers may easily examine and read it. You must get your official copies of your price list for posting or copying from your War Price and Ration Board or from your district Office of Price Administration office. If you display any cut of beef, veal, pork, lamb or mutton or any variety meat or edible by-product, you must put on it your selling price for that cut. Section 10 (b) of this regulation shall not apply to this section.**

[Table H amended by Am. 55, 9 F.R. 4785, effective 4-11-44]

(i) *Inability to determine ceiling prices.* If you are unable to determine your ceiling prices for sales at retail of any mainland products covered by this section, you shall apply to the Office of Price Administration for the establishment of a ceiling price.

[Sec. 19b added by Am. 46, 9 F.R. 3967, effective 3-1-44 and amended as otherwise noted.]

SEC. 20. *Maximum prices for Island fish*—(a) *Maximum prices.* Maximum prices are established on fish caught in the waters of or adjacent to the Territory of Hawaii. The prices established by this section are maximum prices per pound for the whole fish or any portion thereof.

(1) The maximum price for fish sold or delivered on each island specified in Tables A to E inclusive, shall be the maximum price set forth for the fish listed or described in the table applicable to such island. The place where the seller parts with physical possession of the fish shall determine the applicable table except that where a delivered sale is made of fish shipped from one island to another island the maximum price shall be the maximum price set forth for such sale on the island in the table applicable to deliveries on the island of destination. Prices are established in each table: (1) Ex-dock, (2) Delivered retailer, (3) At retail. The maximum prices set forth "delivered retailer" are maximum prices delivered to the retailer's or other purchaser's customary receiving point according to usual trade practice. The maximum prices on sales or deliveries to persons customarily purchasing from wholesalers of fish such as commercial, industrial or institutional users or the Armed Forces of the United States, shall be the prices set forth as "maximum price delivered retailer." If delivery is made at a point other than the customary receiving point of the buyer, the seller shall deduct from the respective maximum price "delivered retailer" the cost of transporting the fish to the buyer's customary receiving point so that the aggregate price paid by the buyer for the fish and the cost of transportation to buyer's customary receiving point shall not exceed the maximum price "delivered retailer".

(2) In the event the fish is sold at or near the dock to be delivered to a wholesaler, at a place other than at or near the dock, the seller may add to the ex-dock maximum price the transportation charges incurred by the seller for such delivery, not to exceed public (contract or common) carrier rates, provided that the transportation charges are separately stated on the invoice.

(3) Where no retail maximum price for a steak or fillet of a particular fish is listed in the applicable table of Tables A to E, inclusive, the maximum price at retail for such unlisted steak or fillet shall be double the "maximum price delivered retailer" listed in the applicable table for the particular fish from which the steak or fillet is derived.

[Section heading amended by Am. 9, 8 F.R. 10984, effective 8-11-43; paragraph (a) amended by Am. 40, 9 F.R. 2177, effective 2-15-44]

(b) *Sales invoices, purchase records and receipts.* (1) Every person making a sale at other than retail of a commodity subject to this section shall furnish the buyer at the time of delivery with an invoice or sales memorandum showing the date of sale, the name and address of the seller, name and address of the purchaser, kind of fish, number of pounds, the price per pound and the total price charged or received. In the event such invoice or sales memorandum is not furnished, the buyer shall make a record showing the date of purchase, the name and address of the seller and buyer, kind of fish purchased, the price per pound and the total price charged or paid.

(2) Every person making a retail sale of fish and who has customarily given the purchaser a sales slip, receipt or similar evidence of purchase shall continue to do so. However, at the request of any purchaser, any person selling at retail, regardless of previous custom, shall give that purchaser a receipt showing the date of sale, the name and address of the seller, the name and address of the purchaser, the kind of fish, the number of pounds, the price per pound, and the total price charged or received.

(c) *Current records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, every person making sales or purchases of fish covered by this section shall keep and make available to the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect the following records:

(1) Copies of invoices or sales memoranda given to purchasers as required by paragraph (b) above.

(2) Invoices and sales memoranda received from suppliers and, if not received, the record of purchase required by paragraph (b) above.

(3) Any reports that the Office of Price Administration requires must be submitted.

(d) *Marking or posting.* Every person offering to sell at retail any commodity covered by this section shall mark the maximum price of such commodity in a manner plainly visible to and understandable by the purchasing public. The maximum price may be marked on the commodity itself or on the shelf, bin, rack, or other holder or container upon or in which the commodity is kept; or it may be posted at the place in the business establishment where the commodity is offered for sale. The maximum price shall be stated as follows: "Ceiling Price $_____" or "Our Ceiling Price $_____".

(e) *Gross income tax.* In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one quarter per cent (1¼%) of the selling price.

(f) *Definitions.* When used in this section 20 of the term:

(1) "Ex-dock" refers to all sales and deliveries which occur at or near the dock by fishermen or other persons except sales at wholesale or at retail by a seller at a store or other established place of business.

(2) "Steak" means a slice of fish from which the head, tail, and fins have been removed.

(3) "Fillet" means a slice of fish from which the head, tail, fins, and backbone have been removed.

[Sec. 20 amended by Am. 15, 8 F.R. 13019, effective 8–23–43 on the Island of Oahu; 8–30–43 on all other Islands and amended as otherwise noted.]

SEC. 20a. *Wholesalers' and retailers' maximum prices for sales of imported frozen fish on the Island of Oahu*—(a) *Scope of this section.* This section fixes the maximum prices at which wholesalers and retailers may sell imported frozen fish on the Island of Oahu. Paragraph (c), below, lists the various species of salt water fish, shell fish and mollusks for which specific dollars and cents maximum prices are established by this section together with the maximum prices. It also sets forth the procedure for establishing the maximum prices for sales at wholesale and retail of all other varieties of imported frozen fish covered by this section. Maximum wholesale and retail prices for frozen shrimp and prawn, however, continue to be fixed under section 55 of this regulation.

(b) *Definitions.* As used in this section 20a, the term:

(1) "Cleaned" refers to fish from which the viscera or entrails have been removed.

(2) "Dressed" refers to fish from which the viscera and head have been removed.

(3) "Fillet" means the heavy-meated section or strip of fish cut from along the backbone and outside the rib-bone, ex-

tending from the nape and gills to the tail.

(4) "Frozen fish" means fish that are naturally or artificially frozen.

(5) "Frozen seafood" means shellfish and mollusks that are naturally or artificially frozen.

(6) "Landed costs" shall include only actual invoice costs plus freight, mainland storage charges, wharf fees, cartage and insurance, and shall include credit for any rebates or commissions.

(7) "Round fish" means fish as it comes from the water.

(8) "Steak" means a cross section cut from a dressed fish.

(c) *Maximum prices; Island of Oahu only*—(1) *Specific maximum prices on the Island of Oahu only:*

[1] "Net cost" is the amount paid your supplier after deducting all discounts and allowances.

All cuts other than steaks or fillets may be sold at prices not to exceed the maximum price per pound of the round, cleaned or dressed fish from which they are derived.

(2) *Maximum prices for items which cannot be priced under subparagraph (1) above—Island of Oahu only.* In the case of a sale at wholesale or at retail of any imported frozen fish or seafood item not listed subparagraph (1) above (except frozen shrimp and prawn, for which maximum prices are established under section 55 of this regulation) the maximum price shall be the price authorized by the Territorial Director of the Office of Price Administration, upon the written application of the seller to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H.

Such authorization will be given in the form of an order prescribing a specific maximum price or a method of determining the maximum price for the applicant, or if the applicant is a wholesaler, for sellers of the commodity generally, including purchasers for resale or for a class of such sellers.

This application must contain:

(i) The name of the imported frozen fish or seafood item for which a maximum price is sought;

(ii) A statement of the maximum price permitted the mainland primary wholesaler under Maximum Price Regulation 364 [12];

(iii) A separate statement of the charges actually incurred by the seller in computing his landed cost.

(3) *Broken lots.* Sales of broken lots of frozen fish and seafood are permitted except on sales to other wholesalers. "Broken lots" are defined as partial lots of frozen fish and seafood that have been broken or separated from the original content of the immediate container in which the product has been packed by the processor, and which broken lots are sold, made ready for delivery, shipped out to a customer apart from the remainder of the original content of the immediate container. On sales of broken lots of frozen fish and seafood the wholesaler will be permitted to add 10% to the maximum prices for sales at wholesale, as set forth above.

[Paragraph (c) amended by Am. 62, 9 F.R., 6813, effective 4-25-44]

(d) In the case of a sale at wholesale or at retail of any imported frozen fish item not listed in paragraph (c) (except frozen shrimp and prawn, for which maximum prices are established under section 55 of this regulation) the maximum price shall be the price authorized by the Territorial Director of the Office of Price Administration, upon the written application of the seller to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H. Such authorization will be given in the form of an order prescribing a specific maximum price or a method of determining the maximum price for the applicant, or, in case the applicant is a wholesaler, for sellers of the commodity generally, including purchasers for resale, or for a class of such sellers. The application should contain:

(1) The name of the imported frozen fish item for which a maximum price is sought.

(2) A statement of the maximum price permitted the mainland primary wholesaler under Maximum Price Regulation 364, and

(3) A separate statement of the charges actually incurred by the seller in computing his landed cost.

(e) *Retailers' maximum prices for sales to eating places.* The maximum prices for sales to hotels, restaurants, institutions and other eating places are the maximum prices for sales at wholesale fixed under paragraph (c) of this section. Nevertheless, if you are a retailer, you may, during any month, use the maximum prices for sales at retail fixed under such paragraph in selling to eating places if 80% or more of your total dollar sales of the imported frozen fish items covered by this section during the previous calendar month were retail sales to consumers; that is, persons who buy these items to be eaten by themselves or their families off your premises.

(f) *Posting requirements for retailers.* Notwithstanding the provisions of section 10 (b) of this regulation, if you are a retailer, you must, not later than April 20, 1944, post at your store your "Official OPA List of Retail Maximum Prices for Imported Frozen Fish." It must be put on or at the counter of the fish department of your store at one or more places where your customers may easily examine and read it. You must get your official copies of your price list for posting or copying from your War Price and Rationing Board or from your district Office of Price Administration office. If you display any imported frozen fish item covered by this section, you must post on or near it your selling price for that item.

[Sec. 20a added by Am. 57, 9 F.R. 5168, effective 4-20-44 and amended as otherwise noted]

SEC. 21. *Table VIII: Maximum prices for fresh fruits and fresh vegetables*—(a) *Definitions.* For the purposes of this Table VIII, the term:

(1) "Sale at retail" means a sale to an ultimate consumer other than an industrial or commercial user, except that a sale at retail shall not include any sale to the United States or public institution, or an agency of either.

(2) "Sale at wholesale" means a sale to any person other than the ultimate consumer and shall include sales to licensed retail stores, peddlers, hotels, restaurants, licensed boarding houses, the United States, public institutions, and all commercial and industrial users.

(3) "Special institutional sales" means sales to hotels, restaurants, licensed boarding houses, the United States and public institutions where, in connection with such sale, the seller opens the container, reconditions the commodity and absorbs shrinkage and spoilage.

[12] 8 F.R. 4640, 5566, 7592, 11175, 12023, 12446, 12792, 14079, 15191, 15662, 16998; 9 F.R. 183, 946, 2023, 3388, 3459, 3424, 4182, 4650, 5163, 7420.

(b) *Special provisions.* (1) Wholesale sales may be made by broken lots, that is a part of a bag, box or crate, but the aggregate price received from the sale of such parts may not exceed the wholesale ceiling for the entire bag, box or crate. For example, for sales made by the half box, quarter box, etc., the maximum price shall be computed by dividing the wholesale ceiling by two, four, etc. In the case of a sale to any buyer who does not have a gross income tax license, the seller may add one and one-quarter per cent to the wholesale ceiling.

(2) Special institutional sales, where the seller opens the container, reconditions the commodity and absorbs shrinkage and spoilage, may not be made at prices higher than those appearing herein under the caption "Special Institutional Maximum Prices." Whether sales shall be by the unopened crate or otherwise shall be at the option of the buyer.

(3) *Extra charges.* No charges may be made for cartage or any other service rendered, or cost incurred, in connection with the sale of the commodities covered by this Table VIII if such charges result in prices higher than the maximum prices established herein.

(c) *Maximum prices for sales in the Island of Oahu only of fresh vegetables imported from the mainland.* (1) Where the total price for the aggregate quantity of any commodity sold results in a fraction of a cent, such total price shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

(e) *Maximum prices for sales in the Territory of Hawaii of island-grown produce.* (1) All grades shall conform to the specifications therefor established by the Agricultural Extension Service of the University of Hawaii and contained in Agricultural Extension Circular No. 156 as amended November 15, 1943. These specifications may be obtained at the University or at the Office of Price Administration, Honolulu, Hawaii, or at the District Offices of the Office of Price Administration, or from the County Agents on each island. "Commercial quality" (CQ) means that stock is of generally good quality and condition, and that size and appearance are acceptable to consumers. Generally good quality means that approximately 85% is desirable quality. Stock must not contain more than 10% serious damage nor more than 2% soft rot. "Merchantable quality" (MQ) means produce having not more than 15% serious damage and not more than ⅓ of this, or 5%, shall be soft rot. Size and appearance are not considered as important factors in this classification.

(2) Where the total price for the aggregate quantity of any item of produce sold results in a fraction of a cent, such total price shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

(3) "Sale at wholesale" means a sale by a person who customarily distributes island-grown produce to any person other than the ultimate consumers, and shall include sales to the United States, any other government or any of its political subdivisions, any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane or any school, hospital, library, an industrial or commercial user, or any agency of any of the foregoing: *Provided*, That any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library, an industrial or commercial user, or any agency of any of the foregoing, which during the period September 23, 1942, to December 23, 1942, purchased island-grown produce in an average gross amount not in excess of $100.00 per week, may purchase island-grown produce from licensed retailers at prices not in excess of the maximum prices for sales at retail. Any such purchaser exercising this permission shall file with the Office of Price Administration, Hawaii Territorial Office, Iolani Palace, Honolulu, T. H., not later than ten days after the first purchase from a licensed retailer, a statement setting forth the average weekly gross amount paid for island-grown produce during the period September 23, 1942, and December 23, 1942. Any licensed retailer shall be entitled to rely on a purchaser's statement that such purchaser has complied with this paragraph.

(4) "Sale at retail" means a sale or selling to an ultimate consumer.

[Subparagraphs (ii), (iii), (iv), (v) and (vi) amended by Am. 52, 9 F.R. 4351, effective 4-3-44]

(6) *Records and reports*—(i) *Records to be kept.* Notwithstanding the provisions of section 11 of this Maximum Price Regulation No. 373, every person making sales of any of the commodities covered by this section 21 shall on and after the date any such produce becomes subject to this paragraph keep for inspection by the Office of Price Administration for a period of not less than one year records as follows:

(*a*) *Persons making sales at wholesale.* Copies of the invoices or sales memoranda given to purchasers as required by subdivision (iii) below. Purchase records showing the date of purchase, name and address of supplier, kind and grade purchased, number of pounds or other unit of purchase, price per unit, total price paid and the quantity of each kind and grade on hand or order at the close of each calendar month.

(*b*) *Persons making sales at retail.* Copies of the invoices and sales memoranda received from suppliers.

(ii) *Prices to be marked and posted.* On and after the date any island-grown produce becomes subject to this paragraph (e) every person offering to sell such produce at retail shall mark the maximum price of such produce in a manner plainly visible to and understandable by the purchasing public.

The maximum price shall be marked on each item of produce itself or on the shelf, bin, rack, or other holder or container upon or in which the produce may be kept for purposes of sale. The maxi-

mum price shall be indicated in the form "Ceiling price $_____", or "Our Ceiling $_____."

(iii) *Sales slips and receipts.* (a) Every person selling at wholesale shall give the purchaser an invoice or a sales memorandum, showing the date of sale, name and address of the seller, the name and address of the purchaser, and with reference to each item of produce sold the following: the kind and grade, the number of pounds or other unit of sale, the price per unit and the total price received.

(b) Every person selling at retail who has customarily given purchasers sales slips or receipts or similar evidences of purchase shall continue to do so. However, upon request from a purchaser every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date of sale, the name and address of the seller, the name and address of the purchaser, and with reference to each item of produce sold the following: the kind and grade, the number of pounds or other unit of sale, the price per unit and the total price received.

[Paragraph (e) amended by Am. 7, 8 F.R. 10270, effective 6–14–43; Am. 11, 8 F.R. 11437, effective 6–14–43; Am. 28, 8 F.R. 16997, effective 11–5–43; and Am. 49, 9 F.R. 4240, effective 11–20–43 and as otherwise noted]

SEC. 22. *Table IX: Maximum prices for petroleum products.* (a) Maximum Price Regulation No. 137 [13] and Revised Price Schedule No. 88, except as otherwise provided herein, govern the sales of petroleum products in the Territory of Hawaii.

(b) On sales in the Territory of Hawaii, amounts not in excess of the following may be added to the maximum prices established by Revised Price Schedule No. 88, and Maximum Price Regulation No. 137 for gasoline, kerosene, and Diesel fuel:

(1) One cent per gallon for shipments from Honolulu to Kaumalapau, Lanai, Kaunakakai, Molokai, and Hana, Maui and points serviced therefrom. This addition may only be made on shipments from Honolulu, and does not apply to direct shipments.

(2) Two cents per gallon for shipments from Hilo to Honuapo, Hawaii.

(3) One and one-half cents per gallon for shipments by barge from Honolulu to Makukona and Kailua, Hawaii.

(4) Two and one-half cents per gallon for shipments by rail or tank truck, or both, from Hilo to Mahukona and Kailua, Hawaii.

[Subparagraph (4) amended by Am. 13, 8 F.R. 12299, effective 4–20–43]

(5) Two and one-half cents per gallon for gallon shipments from Kahului, Maui, to Hana, Maui.

(6) Seventy-five hundredths cents per gallon for shipments of gasoline, kerosene, and diesel fuel by barge from Honolulu to Lahaina.

(7) One and one-quarter cents per gallon for shipments of gasoline, kerosene and diesel fuel by barge from Honolulu to Honuapo.

[Subparagraphs (6) and (7) added by Am. 28, 8 F.R. 16997, 9 F.R. 2177, effective 12–23–43]

(8) ¾ cents per gallon for shipments by barge from Honolulu to Kawaihae.

SEC. 24. *Table XI: Maximum prices for retreaded and recapped rubber tires and retreading and recapping rubber tires.* (a) Revised Price Schedule No. 66," as amended, except as otherwise provided herein, governs the sale of retreaded and recapped tires and the retreading and recapping of tires in the Territory of Hawaii.

(b) *Retreading and recapping (tire carcass furnished by purchaser).* The maximum prices for retreading or recapping a tire are the prices set forth for such retreading or recapping in the following schedules.

(c) *Retreaded and recapped tires.* (Tire carcasses furnished by seller.) (1) The maximum prices for a retreaded or recapped tire, where the tire carcass is furnished by the seller are, regardless of the thickness of rubber on the tread of such tire carcass, the sum of the price for the retreading or recapping plus the price for the tire carcass as set forth herein under the designation of "Basic Tire Carcasses": *Provided, however,* That if the tire carcass is a Grade II tire, the price to be added for the tire carcass shall be 60 per cent of the price set forth herein under the designation of "Basic Tire Carcasses." Grade II tires are tires for which the maximum price when new is 85 per cent or less of the maximum price established for first line manufacturers' brands by § 1315.10 Appendix "A" of Price Schedule No. 63.[14]

(2) Where the tire carcass furnished by the seller, or the retreaded or recapped tire is one purchased by a dealer between and including August 11, 1943 to September 4, 1943, pursuant to the "Idle Tire Purchase Plan" of the Office of Price Administration, Hawaii Territorial Office, there shall be added to the maximum price established by paragraph 1 above the sum of $.50. In such case the seller shall furnish the buyer with an invoice or other sales memo describing the tire as to size, make and serial number, and upon which such sum or part thereof is separately stated as "Idle Tire Purchase Plan Charge."

[Paragraph (c) amended by Am. 18, 8 F.R. 14139, effective 8–11–43]

(d) *Basic tire carcasses.* The maximum prices for basic tire carcasses are the prices set forth herein under the designation "Basic Tire Carcasses."

SEC. 25. *Maximum prices for intoxicating liquor, wine, beer and ale sold by the case or bottle at wholesale and retail—* (a) *Maximum prices for sales in Oahu.* Except as otherwise provided herein, the maximum prices for intoxicating liquors, wine, beer, and ale sold at wholesale and retail, on the Island of Oahu, shall be:

(1) *Mainland hard liquor*—(i) *Sales at wholesale.* At the option of the wholesaler, the maximum wholesale prices shall be calculated by one of the following methods:

Method One: In the case of hard liquors which are listed in the "Tax Commissioner's Findings as to Tax Values of Liquor as of October 1, 1941," published by the Territorial Government, the maximum wholesale price shall be the highest price charged by the seller in the Territory on December 6, 1941, exclusive of any discounts for quantity purchases, plus all federal excise taxes imposed since that time, and the 6% Territorial tax, when applicable, or

Method Two: On all hard liquors not priced under Method One, the maximum wholesale price per case shall be the landed cost multiplied by 1.15, plus the federal excise tax as of April 1, 1944, and the 6% Territorial tax, when applicable.

(ii) *Sales at retail.* At the option of the retailer, the maximum retail prices shall be calculated by one of the following methods:

Method One: In the case of hard liquors which are listed in the "Tax Commissioner's Findings as to Tax Values of liquor as of October 1, 1941," published by the Territorial Government, the maximum retail price shall be the highest price charged by the seller in the Territory on December 6, 1941, plus all federal excise taxes imposed since that time, and the 6% Territorial tax, or

Method Two: On all hard liquors not priced under Method One, the maximum retail price shall be the landed cost as defined herein, multiplied by 1.53, plus the federal excise tax of April 1944, and the 6% Territorial tax. This calculated per case price shall be divided by the number of bottles per case to determine the retail ceiling price per bottle.

(2) *Wines*—(i) *Sales at wholesale.* The maximum price per case for all wines shall be the landed cost multiplied by 1.25, plus the federal excise tax as of April 1, 1944, and the 6% Territorial tax, when applicable.

(ii) *Sales at retail.* The maximum retail price for all wines shall be the landed cost multiplied by 1.87, plus the federal excise tax as of April 1, 1944, and the 6% Territorial tax. This calculated per case price shall be divided by the number of bottles per case to determine the retail ceiling price per bottle.

(3) *Cordials, liqueurs, and specialties*—(i) *Sales at wholesale.* The maximum wholesale price per case of all cordials, liqueurs, and specialties shall be the landed cost multiplied by 1.20, plus the federal excise tax of April 1944, and the 6% Territorial tax, when applicable.

(ii) *Sales at retail.* The maximum retail price of all cordials, liqueurs, and specialties shall be the landed cost multiplied by 1.74, plus the federal excise tax of April 1944, and the 6% Territorial tax. This calculated per case price shall be divided by the number of bottles per case to determine the retail ceiling price per bottle.

(4) *Mainland beer and ale*—(i) *Sales at wholesale.* The maximum wholesale price per case, delivered to the purchaser's place of business, of all mainland beer or ale shall be the landed cost multiplied by 1.13, plus the federal excise tax as of April 1, 1944, and the 6% Territorial tax, when applicable. In case the wholesaler does not make delivery to the purchaser's place of business, the maximum wholesale price shall be the maximum wholesale price set forth above less 5 cents per case.

(ii) *Sales at retail.* The retail ceiling price per case of all mainland beer or ale shall be the landed cost multiplied by 1.41, plus the federal excise tax as of April 1, 1944, and the 6% Territorial tax.

(iii) Customary bottle deposits and allowances must be continued.

(5) *Island beer*—(i) *Sales at wholesale.* The maximum wholesale price for island produced beer per case, delivered to the purchaser's place of business, shall be $2.23 per case. This price includes all federal taxes, but does not include the 6% Territorial tax, which may be added, when applicable. In case the wholesaler does not make delivery to the purchaser's place of business, the maximum wholesale price shall be the maximum wholesale price set forth above less 5 cents per case.

(ii) *Sales at retail.* The maximum retail price for island produced beer per case, shall be $2.68. This price includes all federal taxes, but does not include the 6% Territorial tax, which may be added.

(iii) Customary bottle deposits and allowances must be continued.

(6) *Island liquor.* Maximum prices for sales of island liquor by wholesalers or manufacturers and by retailers shall be as follows:

(i) 90 PROOF LIQUOR

Number of bottles per case	Size of bottles	Maximum wholesale prices per case	Maximum retail prices per bottle
4	1 gallon	$42.51	
3	1 gallon	31.88	
6	½ gallon	32.19	$5.32
12	1 quart	32.86	3.33
12	⅘ quart	26.67	2.71
24	1 pint	33.96	1.73
48	½ pint	35.08	.90

(ii) *Liquor other than 90 proof.* For liquor other than 90 proof, maximum prices shall be the prices determined by applying the factors shown in the following conversion table for each variation of 1 degree in proof content.

CONVERSION TABLE

Number of bottles per case	Size of bottles	Factors for adjusting maximum prices per case for sales at wholesale	Factors for adjusting maximum prices per bottle for sales at retail
4	1 Gallon	$0.4475	
3	1 Gallon	.3356	
6	½ Gallon	.3356	$0.06768
12	1 Quart	.3356	.03384
12	⅘ Quart	.2685	.02707
24	1 Pint	.3356	.01692
48	½ Pint	.3356	.00846

NOTE: *Fractions.* Drop fractions of less than ½ cent. For fractions of ½ cent or over, raise to the next highest whole cent. *Variations of less than one degree in proof content.* Adjust proportionally, (e. g., half the above amounts for variations of ½ degree, etc.)

(iii) *Examples.*

No. 1. To determine the maximum wholesale price for a case of 12 one-quart bottles of 85 proof gin (or other Hawaiian manufactured compound liquor):

Maximum price for a similar case of 90 proof liquor		$32.86
Factor for adjusting prices (from conversion table)	$0.3356	
Number of degrees variation in proof content (85–90)	−5	
Adjustment of 90 proof price $0.3356×(−5)	−$1.6780	
Adjustment after raising fraction of more than ½ cent		−1.68
Maximum price for a case of 85 proof liquor		$31.18

No. 2. To determine the maximum retail price for one-quart bottle of 85 proof liquor:

Maximum price for one quart bottle of 90 proof liquor		$3.33
Factor for adjusting prices (from conversion table)	$0.03384	
Number of degrees variation in proof content (85–90)	−5	
Adjustment of 90 proof price ($0.03384×5 (−5))	−$.16920	
Adjustment after raising fraction of more than ½ cent		−.17
Maximum price for one-quart bottle of 85 proof liquor		$3.16

No. 3. Complete schedule of 85 proof liquor prices resulting from application of Conversion Table in accordance with above examples:

85 PROOF LIQUORS

Number of bottles per case	Size of bottles	Maximum wholesale prices per case	Maximum retail prices per bottle
4	1 gallon	$40.27	
3	1 gallon	30.20	
6	⅓ gallon	30.51	$6.18
12	1 quart	31.18	3.16
12	⅘ quart	25.33	2.57
24	1 pint	32.28	1.65
48	½ pint	33.40	.86

(iv) *Transportation addition.* The maximum prices above established for sales at wholesale, are for delivery at the seller's warehouse. In the event the seller delivers to the buyer's place of business or to any other point designated by the buyer, he may add to the maximum price an amount not in excess of charges for transportation actually paid, or to be paid, in connection with such delivery. The seller may not make any additional charge for delivery made in vehicles owned or controlled by him without first obtaining written authorization from the Office of Price Administration.

(v) *Taxes.* The prices contained in paragraphs (a) (6) (i), through (iv), above, do not include the 6% Territorial tax, which may be added, but they do include the federal tax on distilled spirits of $9.00 per proof gallon, and all other taxes.

(vi) *Less than case lots.* Maximum prices for sales at wholesale of less than case lots should be proportional to the prices contained in paragraphs (a) (6) (i) through (v), above, for full cases. For this purpose, where fractions occur the next highest whole cent may be used. For example, the maximum price to be charged dispensers for a case of twelve ⅕ quart bottles of 85 proof gin is $25.33. The price of three bottles would be three-twelfths of $25.33. Since this would produce a price of $6.33¼, the fraction may be raised to the next highest cent, and $6.34 charged. The price for six bottles, however, would be $12.67, for seven bottles $14.78, etc. With respect to less than case sales in gallon sizes, the prices should be proportional to the price for a full case of three bottles. (Note that the rule for handling fractions for purposes of determining less than case prices is not the same as the rule for handling fractions when using the Conversion Table.)

(b) *Maximum prices for sales on all other islands in the Territory of Hawaii—*(1) *Direct shipments of any imported liquor, wine, beer or ale.* In the case of direct shipments from without the Territory of Hawaii to any island other than the Island of Oahu, of any intoxicating liquor, wine, beer, and ale set forth in paragraphs (a) (1) through (4), the maximum wholesale and retail prices shall be calculated as provided in paragraphs (a) (1) through (4).

(2) *Inter-island shipments.* In the case of any intoxicating liquor, wine, beer and ale originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory or in the case of any island produced liquor or beer shipped from one island to another, maximum prices shall be calculated as follows:

(i) *Sales at wholesale.* For sales at wholesale the maximum price shall be the maximum price as calculated under paragraphs (a) (1) through (6), plus an amount equal to the sum of the following amounts:

(a) Actual cost of freight, marine, and war risk insurance incurred for shipment between the Islands calculated in accordance with the provisions of paragraphs (c) (3) and (5).

(b) Actual cost of cartage charges from warehouse to dock in the island from which shipment is made, computed at a rate not to exceed $1.20 per ton, and from dock to warehouse, or to purchaser's place of business, in the island of destination, computed at a rate not to exceed $1.20 per ton.

(ii) *Sales at retail.* For sales at retail the maximum price shall be the maximum price as calculated under paragraphs (a) (1) through (6), plus an amount equal to the sum of the following amounts:

(a) Actual cost of freight, marine, and war risk insurance incurred for shipment between the Islands calculated in accordance with the provisions of paragraphs (c) (3) and (5).

(b) Actual cost of cartage charges from warehouse to dock in the island from which shipment is made, computed at a rate not to exceed $1.20 per ton, and from dock to warehouse in the island of destination, computed at a rate not to exceed $1.20 per ton.

(c) Actual cost of cartage charges incurred for hauling from dock or seller's warehouse to the buyer's place of business.

(d) The amounts to be so added to the maximum price per bottle shall be calculated by dividing the added costs as outlined above by the number of bottles per case.

(c) *Landed cost.* Landed cost is an amount not in excess of the sum of the amounts set forth below in subparagraphs (1) through (6). If any of the items specified in any subparagraph below have already been included in an amount determined under another subparagraph, they may not again be added.

(1) An amount equal to your invoice cost. Invoice cost shall include:

(i) In the case of any intoxicating liquors, wines, beers and ales, covered by this section, which were imported to or sold on the mainland and priced under Maximum Price Regulations 445 or 259, as the case may be: The amount you paid your supplier or the manufacturer's maximum price established by Maximum Price Regulations 445 or 259, whichever is lower, less all discounts and allowances except the discount for cash or prompt payment. This amount will include all Federal excise taxes except those imposed on or after April 1, 1944. No export premium may be included in the computation of your "landed cost".

(ii) In the case of any intoxicating liquors, wines, beers and ales, covered by this section imported directly into the Territory, which were not previously imported to or sold on the mainland and priced under Maximum Price Regulations 445 or 259: An amount to be determined upon application to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H.

[Subparagraph (1) amended by Am. 69, 9 F.R. 7424, effective 5–17–44]

(2) An amount equal to import duties and custom house brokerage fees.

(3) An amount equal to the transportation charges actually incurred by the wholesaler for transportation from the point at which the wholesaler received delivery to Hawaii, including transportation taxes, terminal charges, extra charges for shipments of less than carload lots, and territorial tolls and tonnage tax as shown on the bill of lading.

(4) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the wholesaler.

(5) An amount equal to charges for war risk and marine insurance actually incurred by the wholesaler. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(6) An amount equal to actual cartage charges in Hawaiian port of discharge from dock to warehouse, or retailer's customary receiving point, computed at a rate not in excess of $1.20 per ton, provided the commodity is moved from the dock at the wholesaler's expense. The wholesaler may, at his option, determine the tonnage on either weight or measurement basis.

(d) *Change in maximum prices.* Maximum prices for any brand or size of beverage coming under the terms of this section shall be fixed by determining the maximum price as provided herein on the first shipment to arrive in the Territory after the effective date of this amendment. The price thus determined shall remain the maximum price for such brand and size until a change in landed costs occurs, which, if recalculated, would result in a change in price upward or downward, of two percent or more in the maximum retail price per bottle, in which case the maximum price shall be recalculated as provided herein.

(e) *Filing and posting.* In addition to the requirements set forth in Section 10, relating to records and reports, all wholesalers or importers coming under the terms of this section are required to file with the Office of Price Administration, Honolulu, T. H., on Form THP–10, provided by this office, each calculation of wholesale and retail prices as provided herein. Wholesalers and importers are required to (1) furnish the retailer with a statement of retail ceiling price thus calculated, or (2) furnish the retailer with a statement of the landed cost of such items before the merchandise is sold by the wholesaler or importer.

(f) *Inability to determine maximum prices.* Any person who is unable to determine his maximum price for any intoxicating liquor, wine, beer, or ale, under the provisions of this section, shall apply to the Office of Price Administration, Honolulu, T. H., for the establishment of such maximum price.

(g) *Definitions.* (1) Except as otherwise provided herein, all liquors, wines cordials, liqueurs, beer, ale, and other alcoholic, vinous, spiritous, or malt beverages covered by this section are defined as set forth in Regulations 4 and 5 and Amendments thereto, issued under the terms of the Federal Alcohol Administration Act as amended and under the terms of Maximum Price Regulations 445 [16] or 259,[17] as the case may be, as now or hereinafter amended.

(2) "Mainland hard liquor, beer or ale" means any hard liquor, beer ale imported in the Territory of Hawaii.

(3) "Island liquor or beer" means any liquor or beer manufactured in the Territory of Hawaii.

(4) "Sale at retail" means a sale or selling to an ultimate consumer.

(5) "Sale at wholesale" means a sale to any person other than an ultimate consumer, and includes, but is not limited to, sales to wholesalers, retailers and dispensers by manufacturers, brewers, importers, and other wholesalers.

(6) "6% Territorial Tax" means the liquor tax imposed under the terms of the Hawaii Liquor Tax Act of July 1, 1939.

(7) The "highest price charged by the seller in the Territory on December 6, 1941," means the highest price at which the seller sold or offered to sell, in the Territory of Hawaii, on December 6, 1941, any hard liquor listed in the "Tax Commissioner's Findings as to Tax Values of Liquor as of October 1, 1941," published by the Territorial Government.

[Sec. 25 amended by Am. 2, 8 F.R. 6849, effective 5–6–43; Am. 38, 9 F.R. 1528, effective 11–8–43; and Am. 61, 9 F.R. 6810, effective 4–1–44]

[16] 9 F.R. 4687.

[17] 7 F.R. 8950, 9495, 9621; 8 F.R. 10902, 16835; 9 F.R. 3392, 3946, 4107.

For still wines	$0.25
For sparkling wines	.50

(d) *Inability to determine maximum prices.* Any dispenser who is unable to determine his maximum price for any intoxicating liquor, wine, beer or ale drink, under the provisions of this section, shall apply to the Office of Price Administration, Honolulu, T. H., for the establishment of such price.

(e) *Clubs, non-profit associations and hotels.* (1) any club, non-profit association or any hotel may apply to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., for permission to sell liquor drinks at a price not in excess of the highest price for which such drinks were sold or offered for sale by such club, non-profit association or hotel on December 6, 1941.

(f) *Evasion.* (1) The limitations set forth in this section shall not be evaded whether by direct or indirect methods.

(2) Specifically, but not exclusively, the following practices are prohibited:

(i) Serving or selling any straight drink in a glass or other container other than one having a capacity of one fluid ounce.

(ii) Serving or selling any straight drink without filling to the capacity, with liquor, the glass or other container in which it is served;

(iii) Measuring the liquor to be put into a mixed drink in a glass or other container other than one having a capacity of one fluid ounce.

(iv) Diluting, cutting or mixing with another ingredient a liquor prior to its being served as a drink or its incorporation into a mixed drink;

(v) Charging a cover or service charge to a consumer. If such a charge was normally made on December 6, 1941, application may be made to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., for permission to continue to make a similar charge.

(vi) Refusing to sell a drink, mixed drink, beer or ale except in connection with the sale of another commodity.

(g) *Posting of prices.* Every dispenser selling or offering for sale any intoxicating liquor, wine, beer or ale drinks, covered by this section, shall post, in a conspicuous and accessible place where such drinks are sold or offered for sale, a statement or list showing the maximum for every drink sold or offered for sale. The provisions of paragraph (b) (1) of section 10, relating to the marking and posting of prices, shall not be applicable to this section.

(h) *Definitions.* When used in this maximum price regulation the term:

(1) "Drink" or "straight drink" means a drink of not less than one fluid ounce of liquor.

(2) "Mixed drink" means a drink containing not less than one fluid ounce of liquor mixed with an ingredient other than liquor. A drink served with a chaser is not a mixed drink.

(3) "Beer" and "ale" means malt beverages made by the alcoholic fermentation of an infusion or decoction, or combinations of both, in potable brewing water, of malted, barley with hops or their parts or products, and with or without other malted cereals, and with or without the addition of unmalted or prepared cereals, other carbohydrates or products prepared therefrom, and with or without the addition of carbon dioxide, and with or without other wholesome products suitable for human food consumption.

(4) "Liquor" means a distilled or compounded alcoholic beverage of not less than 80° proof, except that sloe gin of not less than 70° proof shall also be deemed "liquor."

(5) "Wine" means any alcoholic beverage commonly known as such, produced by fermentation, and of not more than 24% alcoholic content by volume.

(6) "Imported wine" means wine manufactured outside of the United States, its territories or possessions.

(7) "Domestic wine" means wine manufactured in the United States, its territories or possessions, except the Territory of Hawaii.

(8) "Special wines" means any wine, either imported or domestic, for which the maximum wholesale price, as determined under Section 25 of this Regulation, exceeds $2.75 per four-fifths quart.

(9) "Mainland liquor, beer and ale" means any liquor, beer and ale imported into the Territory of Hawaii.

(10) "Island liquor or beer" means any liquor or beer manufactured in the Territory of Hawaii.

(11) "Dispenser" means any person licensed by the Territorial Government to serve or sell, for consumption on the premises, any alcoholic drinks covered by this section.

(12) "Cabaret dispenser" is any dispenser whose receipts, under the cabaret tax contained in Chapter 10 of the Internal Revenue Code, as amended, are subject to the 30% excise tax effective April 1, 1944.

[Section 25a added by Am. 61, 9 F.R. 6810, effective 4-1-44]

SEC. 26. *Table XIII: Maximum prices for war bicycles.* (a) Maximum Price Regulation No. 158,[38] except as otherwise provided herein, governs the sale of war bicycles in the Territory of Hawaii.

(b) The maximum prices for war bicycles sold or delivered in the Territory of Hawaii shall be:

	Sales at wholesale	*Sales at retail*
War bicycles	$33.25	$43.75

(1) These maximum prices apply to all war bicycles shipped directly from the mainland of the continental United States to the Islands of Hawaii, Molokai, Kauai, or Maui. If war bicycles are trans-shipped from Honolulu to any other of the Hawaiian Islands the maximum prices set forth above may be increased by the amount of the cost of inter-island transportation actually paid or incurred by the seller.

(2) Any additional equipment or accessories placed on the war bicycle prior to sale and not ordinarily a part of the equipment of such bicycle shall be added only at the option of the purchaser. The maximum prices for such additional items, which must be sold separately, are governed by the General Maximum Price Regulation for Hawaii.

SEC. 27. *Table XIV: Maximum prices for sale and rental of used typewriters.* (a) Maximum Price Regulation No. 162," except as otherwise provided herein, governs the sale and rental of used typewriters in the Territory of Hawaii.

(b) On sales of used typewriters the maximum prices set forth in Maximum Price Regulation No. 162 may be increased by the cost of transporting at the time of sale of a similar typewriter from San Francisco, California, to the Territory of Hawaii.

SEC. 28. *Table XV: Maximum prices for soft drinks.* (a) Maximum prices for all soft drinks ordinarily sold over the counter in the bottle not exceeding twelve ounces in size shall be five cents per bottle.

(b) A bottle deposit, which must be refunded when the bottle is returned, of not more than five cents per bottle may be charged.

(c) This maximum price may not be increased by changing customary methods of serving soft drinks by adding a service charge or any additional charge.

(d) For the purposes of this table, the term "soft drinks" means flavored or unflavored non-alcholic beverages and waters in bottles or other closed containers, whether carbonated or not, but excluding milk drinks, fruit juices, vegetable juices, and combinations thereof where at least 85% by weight is pure fruit juice, vegetable juice, or a mixture thereof.

SEC. 29. *Table XVI: Maximum prices for used refrigerators.* (a) Revised Maximum Price Regulation No. 139,[39] except as otherwise provided herein, governs the sale of used refrigerators in the Territory of Hawaii.

(b) On sales of used refrigerators in the Territory of Hawaii, in order to allow for transportation charges, the maximum prices set forth in Revised Maximum Price Regulation No. 139 may be increased by an amount not in excess of the following:

Interior measurement:	
4 cu. ft. or less	$12.00
Over 4 cu. ft. to 5 cu. ft. inc.	13.00
Over 5 cu. ft. to 6 cu. ft. inc.	15.00
Over 6 cu. ft. to 7 cu. ft. inc.	16.00
Over 7 cu. ft.	17.00

(c) The maximum price for any 1941 or 1942 model of used household mechanical refrigerator shall be 70% of the original list price of an identical new refrigerator for sale, delivered in Hawaii, without the addition of the above allowance.

SEC. 30. *Table XVII: Maximum prices for household mechanical refrigerators.* (a) The maximum price for household mechanical refrigerators in the Territory of Hawaii shall be the landed cost multiplied by 1.77. The maximum price for any lower price at which the refrigerator may be sold below the ceiling herein set) includes delivery, installation, servicing, and a 5-year warranty by the seller, and all Federal and Territorial taxes, including the Hawaii Gross Income Tax.

(1) Landed cost is the sum of such of the following items as are expenses actually incurred:

(i) *Factory cost.* Factory cost is the amount actually paid or to be paid to the manufacturer.

(ii) *Cost of warranty contract.* This item may not be included if no additional charge is made therefor by the manufacturer over and above the factory cost.

(iii) *Federal excise tax.* This item may not be included if no additional charge is made therefor by the manufacturer over and above the factory cost.

(iv) *Mainland freight.* Under this item the cost of all freight covering transportation from the point of manufacture to the port of shipment to Hawaii may be included. Federal transportation taxes, terminal charges, and extra charges for shipment of less than carload lots may also be included.

(v) *Cost of mainland storage.* Under this item all warehousing costs incurred as a result of the War Production Board's action in freezing new refrigerator stocks may be included. Other warehousing costs actually incurred by the seller for storage on the mainland United States may be included, but any cost for such storage in excess of three months shall not be included. Insurance charges incurred as a result of such storage may also be included, but limited to three months as above.

(vi) *Ocean freight.* Under this item the cost of all freight covering transportation from the port of shipment to Hawaii, plus Territorial tolls and tonnage taxes as shown on the bill of lading may be included. The cost of freight for shipments between islands of the Hawaiian group may also be included.

(vii) *Cost of transportation insurance.* Under this item the cost of rail, marine and war risk insurance may be included, except that any cost of war risk insurance in excess of the rates charged by the War Shipping Administration shall not be included.

(viii) *Cost of exchange.* Under this item the cost of exchange at rates prevailing in the Territory of Hawaii may be included.

(b) *Evasion.* The limitations set forth in this Maximum Price Regulation No. 373 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to household mechanical refrigerators alone, or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or by tying-agreement, or otherwise.

(c) Specifically, but not exclusively, the following practices are prohibited:

(1) Increasing charges for deferred payment, or for any other form of installment or time payment or credit accounts, above those in effect on February 2, 1942.

(2) Failing to give or shortening the warranty, or failing to give delivery, installation and other services available or in effect to the same general class of purchaser in exchange for the prices prevailing on February 2, 1942.

(d) *Definitions.* When used in this Table XVII, the term:

(1) "Manufacturer" means any person who operates a plant or factory which manufactures household mechanical refrigerators;

(2) "Distributor" means any person other than a manufacturer or dealer, who, prior to February 14, 1942, was engaged in the business of selling household mechanical refrigerators to dealers;

(3) "Dealer" means any person other than a manufacturer or distributor, engaged in the business of selling household mechanical refrigerators to persons purchasing for use, rather than resale;

(4) "Household mechanical refrigerator" means any new refrigerator for household use which operates either by compression or absorption;

(5) "Model" means any combination of size and specifications of equipment;

(6) "Ultimate consumer" means a person who purchases a household mechanical refrigerator for use in his own premises.

SEC. 31. *Table XVIII: Maximum prices for Hawaiian standard blackout bulbs and motor headlight blackout services.* (a) The maximum price at retail for sales of Hawaiian standard blackout bulbs in the Territory of Hawaii shall be 33 cents per bulb.

(b) The maximum price for blacking out the headlights on a motor vehicle in accordance with the specifications of Part 3 of General Orders No. 3 as amended by General Orders No. 36 of the Military Governor of the Territory of Hawaii, shall be $5.00 when such service is guaranteed in the manner provided in paragraph (e) below.

(c) The maximum price for changing the blackout on the headlights of a motor vehicle, which blackout had originally been made in accordance with the specifications of Part 3 of said General Orders No. 3 prior to its amendment by said General Orders No. 36, to conform with the maximum specifications for light permitted by Part 3 of said General Orders 3 as amended by said General Orders No. 36 shall be $2.00 when such service is guaranteed in the manner provided in paragraph (e) below. Such changing shall include any and all scraping and/or repainting of the headlight lenses which is necessary in order to make such headlights conform to said specifications. If such change requires that the hoods on the headlights be replaced by new shields an additional charge of $1.50 may be made for each shield so replaced.

(d) The maximum price for blacking out the rear light or rear lights on a motor vehicle in accordance with the specifications of Part 3 of said General Orders 3 as amended by General Orders 36 shall be $0.50 when such service is guaranteed in the manner provided in paragraph (e) below. Such maximum price shall apply for the blacking out of the total of all rear lights whether one or more than one and regardless of whether such rear light or lights have previously been blacked out.

(e) The maximum prices prescribed above apply only in the event that the person selling such service guarantees to the purchaser to do, without charge, all repair or alteration work necessary to make such blacking out conform to the said specifications for a period of thirty days from the time of completion. Such guarantee need not cover any repair or alteration work made necessary because of damage caused by collision or misuse. A more comprehensive guarantee than the one above may be given, but no extra charge may be made therefor.

(f) In the event that such guarantee is not given the maximum price for the services specified in paragraphs (b), (c) and (d) shall be 50% of the maximum prices above specified.

[Section 31 amended by Am. 7, 8 F.R. 10270, effective 6-17-43; and Am. 22, 8 F.R. 15369, effective 10-4-43]

(b) *Allowance for record scrap.* If the seller of new records requires the buyer to furnish record scrap in order to purchase new records he shall make an allowance to the purchaser for such record scrap at the following rates (where an amount to be allowed or paid includes a fraction of a cent, such amount shall be adjusted to the next higher cent):

(1) In the case of a sale by a retail seller not less than:

(i) 2¢ for each 10" solid stock scrap record;

(ii) 3¢ for each 12" solid stock scrap record;

(iii) 1¢ for each 10" laminated scrap record;

(iv) 1½¢ for each 12" laminated scrap record;

(v) 4¢ per pound for broken record scrap in bulk.

(2) In the case of sales by wholesalers or distributors not more than:

(i) 2½¢ for each 10" scrap record;
(ii) 4¢ for each 12" scrap record;
(iii) 6¢ per pound for record scrap in bulk.

(c) *Maximum charge for securing scrap for buyer.* If the seller of new records, either at wholesale or at retail, requires the buyer to furnish record scrap in order to purchase new records, and the buyer is unable to furnish such record scrap, the seller may make a charge of not more than three cents for each new record sold, for securing for such buyer the required record scrap. In such case, no allowance for record scrap need be made by the seller to the buyer.

(d) *Evasion.* (1) The price limitations set forth herein shall not be evaded directly or indirectly.

(2) Specifically, but not exclusively, the sale of a new record to a buyer, in connection with the sale of another new record or records to the buyer, for use by the buyer in furnishing record scrap to the seller in connection with the sale of such other records, is prohibited.

(3) The seller of a new record or records may not require the buyer thereof to furnish scrap as a condition of sale except to the extent that the seller was required by his supplier to furnish scrap or to promise to furnish scrap in connection with the purchase of such record or records by the seller from his supplier.

(c) Maximum prices for sales of new radio receivers, phonographs, record changers and players in the Territory of Hawaii, but not in the Island of Oahu, shall be the maximum prices set forth in subparagraph (2) of this section, plus ocean freight and war risk insurance premiums actually incurred in any shipment from the Island of Oahu to the place where sale or offer of sale is made.

(d) Maximum prices for sales of new radio receivers, phonographs, record changers and players not set forth in paragraph (b) of this section shall be a price approved by the Office of Price Administration, Iolani Palace, Honolulu, Hawaii, which approval shall be obtained before any such new radio receiver, phonograph, record changer and player is sold or offered for sale.

SEC. 38. *Table XXV: Maximum prices for honey.* (a) The maximum prices for sales of honey produced in the Territory of Hawaii shall be:

(1) *Packaged honey of U. S. #1 grade:*

	Wholesale (each)	Retail (each)
¼ pint size, glass jar (6 oz. net wt. or 4 fluid oz.)	$0.08	$0.10
½ pint size, glass jar (12 oz. net wt. or 8 fluid oz.)	.16	.20
¾ pint size, glass jar (16 oz. net wt. or 12 fluid oz.)	.21	.26
1 pint size, glass jar (24 oz. net wt. or 16 fluid oz.)	.30	.38
1 quart size, glass jar (48 oz. net wt. or 32 fluid oz.)	.51	.65
1 gallon size, glass jar (192 oz. net wt. or 12 lbs. or 128 fluid oz.)	1.80	2.30
No. 10 tins (9 pounds net wt.)	1.35	1.73
60 lb. tins "individuals" (5 gals. fluid content)	8.70	11.14

(i) The maximum prices for honey sold in containers of a size not listed above shall be determined as follows: The price per fluid ounce or other applicable unit of honey in the nearest larger size listed above shall be computed, and that price multiplied by the number of fluid ounces or other appropriate units of content or weight in the container to be priced, and the result will be the maximum price. Prices at retail thus computed shall be adjusted to the nearest cent. For example: the maximum price for a glass jar containing 6 fluid ounces of honey would be determined as follows: the nearest larger size listed is the ½ pint size containing 8 fluid ounces. In such case, the price per fluid ounce at wholesale is $.02 and at retail $.025. These figures multiplied by 6 result in a maximum price of $.12 at wholesale and $.15 at retail.

NOTE.—The maximum price for shells made of rectangular mats shall be the sum of the maximum prices for producers of the mats used (computed under paragraph (b) (1) of this section).

[Above table amended by Am. 41, 9 F.R. 2659, effective 1-17-44]

(2) *Maximum prices for sales of completed purses at wholesale.* (i) The maximum price for sales at wholesale of completed purses shall be the sum of maximum price of the shell, plus the "cost of completion" as determined below, multiplied by 1.2.

(ii) The "cost of completion" shall be the amount appearing in the following table which is appropriate to the size of the purse and the manner in which it has been completed or finished.

	Sizes									
	16" or 17"	14" or 15"	12" or 13"	10" or 11"	9"	8"	7"	6"	5"	4"

NOTE.—If a purse has a sterling silver zipper, the excess of cost of such zipper over an ordinary zipper may be added to the appropriate figure.

[Above table amended by Am. 41, 9 F.R. 2659, effective 1-17-44]

(3) *Maximum prices for sales of completed purses at retail.* The maximum price for sales at retail of completed purses shall be the maximum wholesale price multiplied by 1.5. If initials are woven into the purse at the request of the purchaser, the maximum price may be increased by ten cents for each initial thus woven into the purse.

(b) *Maximum prices for sales of lauhala table mats.*

MAXIMUM PRICES PER SQUARE INCH

	Single rectangular or square mats	Double rectangular or square mats	Oval and round mats
1/16" to 1" natural lauhala	$0.0025	$0.003	
1/16" to ¾" natural lauhala	.003	.0035	$0.004

1/16 to ⅛" bleached lauhala	.005	.0055	.006

(1) *Producer sales.* Maximum prices for sales by producers shall be determined by multiplying the prices per square inch of the appropriate weave listed above by the number of square inches in the mat to be sold. Oval and round mats shall be measured through the center to find the length and width measurements.

(2) *Wholesale sales.* The maximum price for sales at wholesale shall be the maximum producer's price multiplied by 1.2.

(3) *Retail sales.* The maximum price for sales at retail shall be the maximum wholesale price multiplied by 1.5.

(c) The maximum price for sales by producers and for sales at retail and at wholesale of lauhala coasters, cigarette cases, and slippers shall be:

	Coasters			Cigarette cases		
	Producer price	Wholesale price	Retail price	Producer price	Wholesale price	Retail price
¾" to ¾" natural lauhala	$0.14	$0.17	$0.26	$0.27	$0.33	$0.50

Adult slippers—All weaves—Sizes 7" and up	$0.83	$1.00	$1.50
Children's slippers—All weaves—Sizes 6½" and smaller	.69	.83	1.25

(d) *Maximum prices for sales of lauhala shopping bags*—(1) *Producer sales.* The maximum prices for sales by producers of shopping bags shall be:

	12" length shopping bags	
	Without lids	With lids
⅛" to 2" natural lauhala	$1.25	$1.75
¼" to ⅜" natural lauhala	1.50	2.00
1/16" to 2" 2-tone lauhala	1.50	2.00
¼" to ⅜" 2-tone lauhala	1.75	2.25
1/16" to 2" bleached lauhala	1.75	2.25
¼" to ⅜" bleached lauhala	2.00	2.50

NOTE: The producer's maximum price for shopping bags of other lengths shall be determined as follows: for every additional inch in length in excess of 12 inches, the maximum price shall be increased by 10 cents for bags without lids and increased 15 cents for bags with lids; for every inch in length less than 12 inches the maximum price shall be decreased 10 cents per inch for shopping bags without lids and 15 cents for shopping bags with lids. For purposes of this paragraph, "length" of the bag is the sum in inches of the length and width of the base or bottom of the bag.

(2) *Wholesale sales.* The maximum price for sales at wholesale of shopping bags shall be the maximum producer price multiplied by 1.2.

(3) *Retail sales.* The maximum price for sales at retail of shopping bags shall be the maximum wholesale price multiplied by 1.5.

(e) *Maximum prices for sales of lauhala leaves.* (1) The maximum price for sales of lauhala leaves shall be as follows:

	Each
White, bleached wide long	5¢
White, bleached, wide, extra long	6¢
White, bleached wide short	4¢
Brown, bleached white wide long	4¢
Brown, bleached white wide short	3¢
Red, wide long	3¢
Red, wide short	2¢
Brown, wide long	2¢
Brown, wide short	1½¢
Molokai, natural, wide long, 1st grade	2½¢
Natural, wide long, 1st grade	1½¢
Natural, wide short, 1st grade	1¢
Natural, wide long, 2nd grade	1¢
Natural, wide short, 2nd grade	½¢
Green, wide, long, 1st grade	1½¢
Green, wide, short, 1st grade	1¢

"Long" means a leaf 30" or more in length. "Extra long" means a leaf 42" or more in length.

"Short" means a leaf less than 30" in length.

"2nd grade" means a leaf which is spotted and very brittle.

[Above table amended by Am. 41, 9 F.R. 2659, effective 1-17-44]

(f) Maximum prices for sales of lauhala, cocoanut fiber or hau bark hula skirts.

(1) The maximum price for sales of the hula skirts set forth below shall be:

	Size	Maximum producer price	Maximum wholesale price	Maximum retail price
Lauhala or cocoanut fiber hula skirts.	Large	$1.39	$1.67	$2.50
	Small	1.11	1.33	2.00
	Children's	.83	1.00	1.50
Natural hau bark, washed, first grade.	Large	1.67	2.00	3.00
	Small	1.39	1.67	2.50
	Children's	1.11	1.33	2.00
Dyed hau bark, first grade.	Large	1.85	2.22	3.33
	Small	1.60	1.91	2.87
	Children's	1.31	1.57	2.36

(2) The maximum price for second grade washed or dyed hau bark hula skirts shall be 20% less than the applicable price for first grade washed or dyed hau bark hula skirts, 35% less for third grade washed or dyed hau bark hula skirts, 50% less for fourth grade washed or dyed hau bark hula skirts, and 65% less for fifth grade washed hau bark hula skirts.

(g) *Definitions.* As used in this section 39 the term:

(1) "Two-tone weave" means a weave using substantially equal amounts of two or more different colors of lauhala, or a natural or two tone weave in which the word "Aloha," "Hawaii," or some other similar word is woven into the product by use of different colors of lauhala.

(2) "Bleached lauhala" article means any article that is woven with weaving strands three-fourths or more of which have been subjected to a bleaching process.

(3) "Tapa" means genuine tapa cloth and does not include other cloth printed or otherwise marked with a design normally used on tapa cloth.

(4) "First, second, third, fourth and fifth grades" of washed hau bark have the same meaning as is presently attributed to them by persons in the trade.

(5) "Size" means the length in inches of the base or bottom of the purse except in the case of round purses where "size" means the length in inches of the diameter of the purse.

(6) "Shell" means the completed lauhala portion of a lauhala purse from which the completed purse is made by adding thereto a lining or zipper, or both.

[Sec. 39 amended by Am. 18, 8 F.R. 14139, effective 9-29-43 and as otherwise noted]

SEC. 40. [Revoked]

[Sec. 40 added by Am. 1, 8 F.R. 6359, effective 5-19-43; and revoked by Am. 3, 8 F.R. 6849, effective 5-18-43]

SEC. 41. *Table XXVIII: Maximum prices at retail for certain grocery items*—(a) *Records and reports.* Notwithstanding the provisions of section 11 of this Maximum Price Regulation 373, every person making sales of the commodities subject to this section 41 shall on and after the date any such commodity becomes subject to this regulation:

(1) Keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and

(2) Keep a "price book" and enter therein, in the case of commodities for which the maximum prices are calculated by a division or multiplication factor (not the commodities for which dollar and cent prices are specified), the net cost, the number of retail units in the customary wholesale unit (e. g. 48 cans to a case); every step in the calculation, including the division or multiplication factor used, and the resulting maximum price per retail unit. In addition to the matters set forth above, multiple outlet retail stores shall enter the quantity purchased in the price book where the cell-

ing price is computed on a weighted average basis. Such price book shall be available for inspection by the Office of Price Administration, or any consumer.

(b) *Prices to be marked and posted.* On and after the date any commodity becomes subject to this section 41 every person offering to sell any such commodity shall:

(1) Mark the maximum price of such commodity in a manner plainly visible to, and understandable by, the purchasing public. The maximum price may be marked on the commodity itself or on the shelf, bin, rack, or other holder or container upon or in which the commodity is kept, or it may be posted at the place in the business establishment where the commodity is offered for sale: *Provided*, That whichever of the above methods of posting is adopted, the maximum price of each commodity offered for sale shall be plainly visible to the purchaser at the place in the business establishment where the commodity is offered for sale, and shall not be obscured by the posted prices of other commodities, whether by use of price books or catalogs or layers of price lists or otherwise or in any other manner. The maximum price shall be stated as follows: "Ceiling Price $------"; or "Our Ceiling $------".

(2) Post in a place and manner easily accessible to and understandable by the purchasing public the price posters issued by this office, which will contain the maximum prices fixed by this regulation, wherever the sales of 50% of a retail outlet or any department thereof are priced in accordance with this regulation.

(c) *Sales slips and receipts.* Every seller of the commodities subject to this section 41, who has customarily given purchasers sales slips or receipts, shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold and the price received for it.

(d) *Maximum prices.* The maximum prices for the grocery items covered by this section are set forth in Tables A, B, C, D, E and F following paragraph (f) of this section. These grocery items are divided into categories. In each category maximum dollar and cents prices may be specified for certain named items. The maximum prices for all other items in each category shall be computed by dividing or multiplying (as the case may be) net cost of the item by the division factor or the multiplication factor specified in the particular category. Where delivery of an item is received at a net cost different from that of an identical item already on hand, the retailer with multiple outlets may use as his net cost for the entire inventory a weighted average net cost of the inventory on hand. Stores which do not possess multiple outlets must price each delivery separately and market the various lots on a first in first out basis. Sellers in no event may resort to pricing by means of a multiplication or division factor where a dollar and cent price is specified: *Provided, however*, That a peddler purchasing from a second wholesaler in the Territory of Hawaii (who has determined his maximum price under the provisions of section 41a (c) (5) of this Maximum Price Regulation 373) shall determine his maximum retail prices for commodities thus purchased as follows: If a minimum price for the commodity purchased is listed in dollars and cents in this section, such price is the peddler's maximum price; if the maximum price for the commodity is to be determined by means of a division or multiplication factor, said factor shall be applied to the maximum price of the primary wholesaler (from whom the second wholesaler purchased) rather than to the actual price paid by the peddler to the second wholesaler. (Second wholesalers are required by the provisions of section 41a (c) (5) of this Maximum Price Regulation 373 to furnish the peddler with a statement of the maximum price of the primary wholesaler.)

(1) *Example of use of division factor.* Assume the net cost for a case of 24 cans of Brand X is $2.64 and the division factor is .78. Dividing $2.64 by .78 yields $3.385. Dividing this figure by 24 yields 14.1 cents per can. Adjusting this figure to the nearest cent, in accordance with MPR 373, section 7, results in a maximum price of 14 cents per can.

(2) *Example of use of multiplication factor.* Assume the net cost for a case of 24 cans of Brand Y is $3.78 and the multiplication factor is 1.2. Multiplying $3.78 by 1.2 yields $4.536. Dividing this figure by 24 yields 18.9 cents per can. Adjusting this figure to the nearest cent, in accordance with MPR 373, section 7, results in a maximum price of 19 cents per can.

(e) *"Net cost" and certain transportation allowances.*—(1) *Local purchases*—(i) *"Net cost".* In the event an item is purchased from a supplier on the same Island "net cost" means the amount paid by the retailer as shown on the invoice of his supplier, less all discounts except the discount for prompt payment. *Provided*, That, in no event may this "net cost" exceed the maximum wholesale price of the seller of the commodity according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Transportation allowances.* When a retailer located in Zones 2 and 3 of any Island, as defined by Tables B and C of this section 41 purchases any item from a wholesaler located on the same Island but outside of Zones 2 or 3, he may add the actual cost of transportation from the wholesale warehouse to his place of business incurred by him to his invoice cost to obtain his "net cost." This "net cost" may then be divided by the appropriate division factor.

(2) *Inter-island purchases*—(i) *"Net cost".* In the event an item is purchased by a retailer from a producer, retailer, or wholesaler located on another island in the Territory of Hawaii, "net cost" means the amount paid by the retailer as shown on the invoice of his supplier, less all discounts except the discount for prompt payment. *Provided*, That in no event may this "net cost" exceed the maximum wholesale price of the commodity in the island of origin according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Transportation allowances.* After computing his maximum price on the basis of "net cost" as defined above, the retailer importing from another island may increase his maximum price by adding thereto all actual costs necessary to place the article at the shipping terminal of the island of destination, and if the retailer is located in Zones 2 or 3 of the Islands of Maui and Hawaii he may add also the actual transportation cost from the terminal to his place of business; and if the retailer is located outside of Zones 2 or 3 of the Islands of Maui and Hawaii as above defined, he may add also a local trucking charge as actually incurred but in no event to exceed $1.20 per ton by weight or measurement at the option of the retailer. If the retailer is located on the Island of Lanai, no transportation allowance for freight or cartage may be included in "net cost", as defined above.

[Subparagraph (ii) amended by Am. 47, 9 F.R. 3947, effective 3–15–44]

(3) *Mainland purchases*—(i) *"Net cost".* In the event an item is imported by a retailer directly from the mainland, the "net cost" shall be the wholesale ceiling price in the island of destination computed according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Obligations of importing retailers.* Importing retailers shall be subject to all of the provisions of section 41a with respect to imports from the mainland. An importing retailer is a retailer who purchases grocery items directly from a supplier located outside of the Territory of Hawaii. If any such retailer elects not to take the mark-up, provided by said section 41a, he shall be exempt from the obligations imposed by said section 41a, and he shall determine his "costs", upon which the retail mark-up is taken, as the sum of the costs named as elements of "landed cost" in section 41a (c) (1) (i) through (vi) of this Maximum Price Regulation 373, with the exception of the trucking allowance therein provided. In lieu of such trucking allowance, he may, at his option, add instead, as one of his costs, his actual expense for such cartage from the dock to his place of business.

(f) *Definitions.* (1) "Baby foods" mean all foods prepared in hermetically sealed containers of glass, tin, or other material, expecially designed for the nourishment of infants and juniors, such as strained or diced vegetables, Pablum and Cerevim, but do not include (i) Dextrimaltose, (ii) S. [Above table amended by Am. 47]

(c) The specific dollar and cent ceilings listed in Table A for the Island of Oahu shall apply to the Island of Hawaii in all cases where the commodity ceiling price is not set forth in paragraph (b) of this table, except for commodities imported from another Island in the Territory of Hawaii; as to these imported commodities, see paragraph (e) below.

(d) In all cases where a specific dollar and cent ceiling price is not provided for any grocery item covered by this schedule, the ceiling price shall be computed by means of the multiplication or division factors set forth in Table A, and the "net cost", as defined in paragraph (e) of this section 41, except that:

(1) All stores in Zone 2 of the Island of Hawaii must use, in lieu of those set forth in Table A, a division factor .02 higher than those set forth; and in lieu of a multiplication factor of 1.2, a division factor of .85 shall be used. Zone 2 on the Island of Hawaii shall comprise the districts of North Hilo, Hamakua and Kau, as defined by Hawaiian Statute.

(2) All stores in Zone 3 of the Island of Hawaii must use a division factor, in lieu of those set forth in Table A, a division factor .03 higher than those there set forth; and in lieu of a multiplication factor of 1.2, a division factor of .86 must be used. Zone 3 of the Island of Hawaii shall comprise the districts of North Kohala, South Kohala, North Kona and South Kona as defined by Hawaiian Statute.

(e) Where a commodity is imported into the Island of Hawaii from any other Island in the Territory of Hawaii, the specific dollar and cent ceilings set forth in Table A and section (b) of Table B shall not apply, but the maximum price shall be computed by means of the appropriate division or multiplication factors set forth in paragraph (d) of this Table and the "net cost" as defined in paragraph (e) of this section 41. This maximum price may be increased by the addition of such transportation allowances as are permitted by said paragraph (e). No commodity sold by the FSCC in the Island of Hawaii shall be regarded as an "import" regardless of its origin. Wherever a specific dollar and cent ceiling price is specified in Table A or in paragraph (b) of this Table on a FSCC item, such ceiling price shall be in effect on the Island of Hawaii.

(f) All retail grocery stores in Zones 2 or 3 of the Island of Hawaii may add 2 or 3% respectively to the maximum retail sales prices listed or computed in accordance with this Table. These additions must be made as a separate computation at the time of payment. Prior to the addition of the 2 or 3% differential appropriate to each zone, stores shall obtain and prominently display the poster issued by the Office of Price Administration stating the right of the store to this differential. Zones 2 and 3 shall be defined according to paragraph (d) above.

TABLE C—MAXIMUM PRICES FOR THE ISLAND OF MAUI

[Above table amended by Am. 47]

(c) The specific dollar and cents ceilings listed in Table A for the Island of Oahu shall apply to the Island of Maui in all cases where the commodity ceiling price is not set forth in paragraph (b) of this table, except for commodities imported from another Island in the Territory of Hawaii; as to these imported commodities, see paragraph (e) below.

(d) In all cases where a specific dollar and cent ceiling price is not provided for any grocery item covered by this section, the ceiling price shall be computed by means of "net cost" as defined in paragraph (e) of this section 41, and the multiplication or division factors set forth in Table A, except that:

(1) All stores in Zone 2 of the Island of Maui must use, in lieu of those set forth in Table A, a division factor .02 higher than those there set forth; and in lieu of a multiplication factor of 1.2, a division factor of .85 shall be used. Zone 2 of the Island of Maui shall comprise the district of Hana and that portion of the district of Makawao lying south of the south boundary of Ahupuha Kamaole, as defined by Hawaiian Statute.

(e) Where a commodity is imported into the Island of Maui from any other Island in the Territory of Hawaii, the specific dollar and cent ceiling set forth in Table A and paragraph (b) of Table B shall not apply, but the maximum price shall be computed by means of the "net cost" as defined in paragraph (e) of this section 41, and the division or multiplication factors set forth in paragraph (d) of this table for the various sections of Maui. This maximum price may be increased by the addition of such transportation allowances as are permitted by said paragraph (e). No commodity sold by the FSCC in the Island of Maui shall be regarded as an "import" regardless of its origin. Wherever a specific dollar and cent ceiling price is specified in Table A or in paragraph (b) of this table, on a FSCC item, such ceiling price shall be in effect on the Island of Maui.

(f) All retail grocery stores in Zone 2 of the Island of Maui may add 2% to the maximum retail sales prices listed or computed in accordance with this Table C. These additions must be made as a separate computation at the time of payment. Prior to the addition of the 2%, stores shall obtain and prominently display the poster issued by the Office of Price Administration stating the right of the store to this differential. Zone 2 of the Island of Maui shall be defined according to paragraph (d) of this table.

(c) The specific dollar and cents ceiling prices listed in Table A for the Island of Oahu shall apply to the Island of Molokai in all cases where the commodity ceiling price is not set forth in paragraph (b) of this table. To these ceiling prices may be added the differential permitted by paragraph (e) below.

(d) In all cases where a specified dollar and cents ceiling price is not provided in Table A or in paragraph (b) of this table, the maximum price shall be computed by means of the "net cost" as defined in paragraph (e) of this section 41, and the appropriate division factor or multiplication factor named in Table A. No transportation cost from the Islands of Oahu or Maui to the Island of Lanai shall be included in "net cost". To the prices thus computed may be added the differentials permitted by paragraph (e) of this Table F.

(e) All retail grocery stores on the Island of Lanai may add 2% to the maximum retail sales prices listed or computed in accordance with this Table F. This addition must be made as a separate computation at the time of payment. Prior to the addition of the 2% differential, stores shall obtain and prominently display the poster issued by the Office of Price Administration stating the right of the store to this differential.

[Table F amended by Ams. 47 and 58]

[Sec. 41 added by Am. 1, 8 F.R. 6359, 7200, effective 4-20-43; amended by Am. 7, 8 F.R. 10270, 10666, effective 6-28-43; Am. 30, 9 F.R. 173, effective 10-7-43 except that with respect to sales of commodities for which the maximum price is set forth herein in dollars and cents or in dollars of the "net cost" as defined in paragraph (e) of this section 41, and the appropriate division factor. This maximum price may be increased by the addition of such transportation allowances as are permitted by said paragraph (e). The division factors to be used shall be found by adding .03 to all division factors set forth in Table A and by using a division factor of .86 in lieu of a multiplication factor of 1.2 whenever this factor is specified in Table A. To these prices thus computed may be added the differentials permitted by paragraph (e) below.

(e) All retail grocery stores on the Island of Molokai may add 3% to the maximum retail sales prices listed or computed in accordance with this table. This addition must be made as a separate computation at the time of payment. Prior to the addition of the 3% differential, stores shall obtain and prominently display the poster issued by the Office of Price Administration stating the right of the store to this differential.

TABLE F—MAXIMUM PRICES FOR THE ISLAND OF LANAI

(a) This table shall apply to the Island of Lanai only.

(b) The following maximum prices shall apply in the Island of Lanai. To these prices may be added the differentials permitted by paragraph (e) below.

[Sec. 41 added by Am. 1, 8 F.R. 6359, 7200, effective 4-20-43; amended by Am. 7, 8 F.R. 10270, 10666, effective 6-28-43; Am. 30, 9 F.R. 173, effective 10-7-43 except that with respect to sales of commodities for which the maximum price is set forth herein in dollars and cents or in dollars and cents plus a two or three per cent differential shall become effective September 23, 1943.

On and after September 9, 1943 any seller covered by this regulation may, at his option, use as his maximum prices the maximum prices set forth in section 41.]

SEC. 41a. *Table XXVIIIa: Maximum prices at wholesale for certain grocers items*—(a) *Records to be kept.* Notwithstanding the provisions of section 11 of this MPR 373, every person making sales of the commodities covered by this section 41a shall on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each purchase and each sale made by such person, showing the date thereof, name and address of the buyer and seller, the price paid or received, quantity purchased or sold, and all data including sales, freight, and other invoices or memoranda reflecting the charges incurred by the wholesaler in arriving at his "landed cost."

(b) *Reports.* Every person making the kind of sales covered by this section 41a shall make and file with the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., the following reports:

(1) Any reports that the Office of Price Administration, Hawaii Territorial Office, may from time to time require.

(2) Every person making sales of commodities covered by this section 41 (a) shall report to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., on Form OPA–G–2, the maximum price for all sales made by him of any such commodity where the maximum price for such sale has been established by the provisions of Table B, hereof, and where such maximum price is higher or lower than the seller's previous maximum price for that commodity; *Provided*, That such report need be made only if the wholesaler has on hand one hundred cases or more of such commodity, except that reports as to spices and extracts shall be made regardless of the quantity on hand.

(c) For commodities imported directly from the mainland, not including commodities purchased from the Federal Surplus Commodities Corporation and commodities received from or via any other Island in the Territory, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, and container size) of such commodity covered by this regulation as follows:

(1) The wholesaler shall find his "landed cost" for the item he is pricing by adding the amounts permitted in subdivisions (i) through (vi) set forth below. If any of the amounts, or any part thereof, specified in any subdivision has already been included in another subdivision it may not again be added.

(i) An amount equal to the price which the wholesaler agreed to pay the mainland seller before deducting any cash discount, swell allowance or promotional allowance.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery to the mainland port of shipment, including Federal transportation tax, terminal charges, and extra charges for shipment of less than carload lots.

(iii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of six months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler; and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included, but the type of coverage is at the discretion of the buyer or seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of $1.20 per ton, weight or measurement, provided that the commodity is moved from the dock at the wholesaler's expense.

(2) The wholesaler will then divide this "landed cost" by the division factor specified in Table B, for the item he is pricing: *Provided*, That a wholesaler located in the Island of Oahu shall add to his "landed cost" an amount not more than the applicable markup set forth in Table A, for the item he is pricing, in lieu of using the division factor in Table B for such item, if such item is specifically listed in Table A.

(3) In appropriate cases where special service is rendered, the wholesaler may make application to the Office of Price Administration for an additional markup based upon the cost of the service, and the Territorial Director of the Office of Price Administration for the Territory of Hawaii may approve or disapprove an additional margin.

(4) In an identical item (that is, the same kind, brand, grade, and container size) in the wholesaler's inventory on hand has two or more different landed costs, then the "landed cost" for the item may be determined by calculating a weighted average "landed cost" for the entire inventory of that item on hand. Weighted average "landed cost" shall be calculated as follows: each different "landed cost" shall be multiplied by the number of units having such "landed cost." The products of such multiplication shall be added and the sum thereof divided by the total number of the units for which a weighted average "landed cost" is desired. The quotient or result of such division is the weighted average "landed cost." This provision is permissive and not mandatory. The wholesaler need not average the different landed costs for the identical item, but may use each "landed cost" separately.

(5) These maximum prices contemplate distribution by only one wholesaler in the Territory of Hawaii. In the event that in the course of distribution of any commodity covered by this section after arrival, such commodity moves through the hands of more than one wholesaler, then the wholesaler shall distribute between them the margins set forth in tables annexed hereto. In such event the primary wholesaler making the importations shall furnish the wholesaler purchasing from him a statement of the maximum price determined in accordance with this section.

(6) No extra charge may be added for delivery, except as follows:

(i) *Island of Maui.* For delivery in the Hana section of salt and any item bearing a margin of 9 per cent or less as set forth in table B, a wholesaler may add a hauling charge in an amount not in excess of $5.00 per ton, weight or measurment. The Hana section shall comprise all of the district of Hana and that portion of the district of Makawao lying south of the south boundary of the Ahupuha of Kamaole, County of Maui.

(ii) *Island of Hawaii.* For delivery from the City of Hilo to a retail establishment, or the wholesaler's warehouse, located outside of Zone 1, a wholesaler may add an amount not in excess of the trucking charge actually incurred. Zone 1 shall comprise the area of Puna and South Hilo, as defined by the Survey Department of the Commissioner of Public Lands of the Territory of Hawaii.

(7) In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one-quarter per cent (1¼%) of it.

(8) Any maximum prices calculated under this regulation shall be based on the wholesaler's customary unit of sale (that is, per case, per box, per bag, per dozen, or the like). All such calculations resulting in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

(d) In the case of purchases from the Federal Surplus Commodities Corporation, or purchases from mainland sellers where the price to be paid to such seller includes delivery to the dock in the Territory of Hawaii, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, and container size) of a commodity covered by this regulation as follows:

(1) The wholesaler shall find his "landed cost" for the item he is pricing by adding to the net price paid to the mainland seller or the Federal Surplus Commodities Corporation an amount for cartage from the Federal Surplus Commodities Corporation's warehouse or the dock to the wholesaler's warehouse, computed at a rate not in excess of the amounts set forth in paragraph (c) (1) (vi) above.

(2) The wholesaler will then divide this "landed cost" by the division factor specified in Table B, for the item he is pricing: *Provided*, That a wholesaler located in the Island of Oahu shall add to his "landed cost" an amount not more than the applicable markup set forth in Table A, for the item he is pricing, in lieu of using the division factor in Table B for such item, if such item is specifically listed in Table A.

(3) Subparagraphs (3), (4), (5), (6), (7) and (8) of paragraph (c) above are incorporated in this paragraph (d) and shall have the same force and effect as if fully set forth herein.

(e) For commodities received from or via another Island in the Territory, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, and container size) of a commodity covered by this section by adding the amounts permitted in subparagraphs (1) through (4) set forth below. If any of the amounts, or any part thereof, specified in any subparagraph has already been included in another subparagraph, it may not again be added.

(1) An amount equal to the maximum price in the Island from which the item is transshipped, as calculated under paragraph (c) above.

(2) An amount equal to cartage charges for cartage from the warehouse to dock in the Island from which the item is transshipped, calculated at the rates set forth in paragraph (c) (1) (vi) above, whether or not such cartage charges are actually incurred.

(3) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler of transshipment between the Islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading.

(4) An amount equal to cartage charges in the Island on which the wholesaler is located from dock to warehouse, computed at a rate not in excess of the amounts set forth in paragraph (c) (1) (vi) above, *Provided*, That the commodity is moved from the dock at the wholesaler's expense.

NOTE: In the case of sales of beverage bases and concentrates, fountain supplies, and bakers supplies in less than case lots, the division factor in each case shall be 0.77. "Assortment" shall not be considered less than a case lot so long as the buyer is willing to take all of the items in a case containing any element of the assortment. In the case of sales in the Island of Hawaii, the margins named in Table B include delivery with credit for 30 days or less. For cash and carry sales the margin shall be 2 per cent less than the margin specified in Table B for all items for which a margin of 10 per cent or more is specified therein, and shall be 1 per cent less for all items with a margin of 9 per cent or less.

SEC. 43. *Table XXX: Maximum prices for used washing machines.* (a) Maximum Price Regulation 372,[*] except as otherwise provided herein, governs the sale of used washing machines in the Territory of Hawaii.

(b) On sales of used washing machines in the Territory of Hawaii in order to allow for transportation charges the maximum prices set forth in Maximum Price Regulation 372 may be increased by an amount not in excess of the following:

Wringer type	$10.50
Spinner type	14.00
Small automatic	13.00
Large automatic	15.00

[Sec. 43 added by Am. 7, 8 F.R. 10270, effective 7–24–43]

SEC. 44. *Table XXXI: Maximum prices for power laundry services.* (a) The maximum prices established by Maximum Price Regulation 165, as amended, for the family laundry services specified in paragraph (e) are modified as hereinafter provided. The maximum prices for family laundry services, when sold by power laundries located on the Island of Oahu, shall be the prices set forth in paragraph (e). The maximum prices for all other laundry services rendered by power laundries on the Island of Oahu shall be governed by Maximum Price Regulation 165, as amended, or other applicable regulation. Power laundries in this area shall continue to accept as wearing apparel and flat work, those articles which have customarily been accepted as such. In finished and list price services starch must be supplied where necessary for proper finishing of wearing apparel (including shirts), unless the customer requests no starch.

(b) When used in this section 44 the term:

(1) "Family laundry services" means all laundry services except those supplied on a commercial or institutional basis.

(2) "Power laundries" means all establishments on the Island of Oahu offering laundry services for sale, with the exception of such hand laundries as do not use power machinery to wash laundry.

(c) Within thirty days after the issuance of this regulation, power laundries located on the Island of Oahu and offering family laundry services, shall post each in its own establishment, in a place and manner so that it is plainly visible to the purchasing public, a placard or card containing the maximum prices for the family laundry services set forth in paragraph (e) of this section, and for any other family laundry service if offered. Also within thirty days after the issuance of this regulation, power laundries in this area shall furnish to each customer a statement of the maximum prices of the services offered, with a description of each. In this statement the description or the listed services and their prices shall be exactly as set forth in paragraph (e). Thereafter new customers shall be furnished a similar statement.

(d) A laundry may not refuse to supply any low price laundry service which it supplied in April, 1942, if it supplies or offers to supply any higher price service which includes the same, or substantially the same processes (with or without additional processes) as the low price services.

(e) Price list, a service in which wearing apparel, flat work and specialties are washed and returned finished, ready for use:

Towels, bath	.04
Towels, dish	.03
Towels, hand	.03

NOTE: In the price list of service there may be imposed a minimum charge of fifty-one cents (51¢) for delivery customers. All power laundries must offer at least the same discount to cash and carry customers for all laundry services heretofore granted in April, 1942. No additional charges of any kind whatsoever may be added to the maximum prices listed in this regulation, except that where, during April, 1942, a laundry customarily made an extra charge for doing laundry work in less than the regularly scheduled time, such laundry may make a charge for the same service in addition to the maximum prices set forth above; the amount of such charge shall be determined in the same manner as such charges were determined during April, 1942, although a smaller charge may be made.

[Sec. 45 added by Am. 8, 8 F.R. 10666, effective 7–3–43; and revoked by Am. 44, 9 F.R. 3233, effective 2–28–44]

SEC. 46. *Maximum millers', producers' and roasters' prices for Kona coffee sold or delivered in the Territory of Hawaii*—(a) *Records and reports.* Notwithstanding the provisions of section 11 of this Maximum Price Regulation 373, every person making sales of the commodities covered by this section 46 shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each purchase and each sale made by such person, showing the date thereof, name and address of the buyer and seller, the grade or brand and the price paid or received. Millers and roasters shall report to the Office of Price Administration, Honolulu, all 1942–43 crop green coffee inventories held on July 31, 1943, and shall make such further reports as the Office of Price Administration may from time to time require.

(b) *Definitions.* When used in this section 46 the term:

(1) "Kona coffee" means all coffee produced in the Territory of Hawaii.

(2) "Roaster" shall be synonymous with the term "wholesaler."

(3) "Crop year" for the purpose of this section 46 shall begin on August 1, 1943.

(c) *Gross income tax.* In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one quarter percent (1¼%) of the selling price.

(d) *Geographical applicability.* The provisions of this section 46 shall be applicable to the entire Territory of Hawaii.

[*] 8 F.R. 5533; 9 F.R. 5217.

TABLE XXXIII—MAXIMUM PRICES FOR PARCHMENT, GREEN KONA AND KONA COFFEES

1. *Parchment coffee.* (a) The maximum price of parchment coffee, clean basis, delivered roadside shall be $0.1161 per pound.

(1) This maximum price is based on 125 pounds of parchment coffee yielding 100 pounds of the following green grades:

Grade of green	Percent yield	Maximum price of green delivered roadside
		Per lb.
No. 1 extra prime, Extra prime, Peaberry	57	$0.1525
Prime	30	.1425
No. 3X	8	.125
No. 3	5	.11

(1) Parchment coffee sold on a clean basis yielding grades higher than the percentages listed above may command a premium over the maximum price commensurate with the actual increased value. Should the yield be lower, a discount commensurate with the decreased value must be subtracted from the maximum price.

2. *Green coffee*—(a) *Used and returnable new bags.* All green coffee maximum prices established in this section 46 are for packing in good used bags, or in new bags returnable at the seller's expense. If the green coffee is sold in non-returnable new bags, or if the new bags are not returned, an additional charge of $0.16 per bag may be made.

(b) *Shipments via Hilo.* All maximum prices established are for shipments via Hilo. In the case of shipments via Kailua, Hawaii, the maximum price shall be computed by subtracting $0.0045 from the established maximum price. In the case of shipments from ports other than Hilo or Kailua, the maximum price will be established by the Office of Price Administration upon application of the seller or buyer.

(c) *War risk and marine insurance.* All maximum prices established (except f. o. b. mill) include an allowance of $0.0021 per pound freight, $0.15 per $100.00 value marine insurance and $0.50 per $100.00 value war risk insurance calculated on the green coffee cost ex-dock Honolulu. These allowances are based on present freight and insurance rates. In the event that such rates are increased, increased costs actually incurred by the seller may be added. In the event such rates are reduced, the maximum price shall be correspondingly reduced.

(1) In the event that such rates are subsequently changed, war risk and marine insurance shall be calculated on a basis not higher than:

	Per lb.
No. 1 extra prime, Extra prime, Peaberry	$0.181
Prime	.17
No. 3X	.152
No. 3	.136

(d) *Grading.* No grades of green coffee other than specified in paragraph (e) may be sold without prior application to the Office of Price Administration for a maximum price.

(e) *Maximum prices.* The maximum prices for green coffee f. o. b. mill shall be as follows:

Grade	*Maximum price per lb.*
No. 1 extra prime, Extra prime, Peaberry	$0.1736
Prime	.1632
No. 3X	.1448
No. 3	.1288

(1) The maximum prices for green coffee ex-dock Honolulu and ex-warehouse Honolulu shall be as follows:

Grade	Maximum price ex-dock Honolulu	Maximum price ex-warehouse Honolulu
	Per lb.	*Per lb.*
No. 1 extra prime, Extra prime, Peaberry	$0.1824	$0.183
Prime	.1719	.1725
No. 3X	.1532	.1538
No. 3	.1372	.1378

(2) The maximum price of green coffee, ungraded basis, delivered ex-dock Honolulu shall be $0.17465 per pound.

(3) The maximum price of green coffee, ungraded basis, delivered ex-warehouse Honolulu shall be $0.17525 per pound.

(4) The maximum price of green coffee delivered at points other than Honolulu shall not exceed the f. o. b. mill price plus transportation charges from mill to place of destination.

(5) The maximum price of green coffee sold in quantities of less than 5 bags (approximately 500 lbs.) shall be an amount not to exceed 5% above the maximum prices listed in paragraph (e); the maximum price of green coffee sold in quantities of less than one bag (approximately 100 lbs.) shall be an amount not to exceed 10% above the maximum prices listed in paragraph (e).

3. *Roasted Kona coffee.* (a) The maximum prices for bulk and packaged coffees established below in paragraphs (d) to (j), inclusive, apply to sales of coffees made on the Island on which the coffees were roasted. Maximum prices for coffees received via another Island are set forth in paragraph (c) below. It is the intent of this section 46 to allow only one markup in the Territory of Hawaii at the wholesale distribution level. If a roaster or primary wholesaler sells to a second wholesaler or ships to another Island, he shall state on the invoice his maximum price determined in accordance with this section.

(b) No extra charges may be made for local delivery. For deliveries outside the local area, the seller by obtaining prior approval of the Office of Price Administration, Honolulu, may add to the ceiling price an amount not to exceed the prevailing local commercial trucking rates provided that during the calendar year 1941 it was his custom to make extra charges for such deliveries. Roasters making sales to other Islands may add to the maximum prices set forth below in paragraphs (d) to (j), inclusive, cartage charges from warehouse to dock computed at a rate not in excess of $1.20 per ton, weight or measurement, provided the coffee is moved to the dock at the roaster's expense.

(c) To the roaster's or primary wholesaler's maximum price, the distributor of Kona coffees received from or via another Island may add the following:

(1) The ocean transportation charges actually incurred including war risk and marine insurance, and Territorial tolls.

(2) Cartage charges in the port of destination from dock to warehouse computed at a rate not in excess of $2.65 per ton on Molokai and $1.20 per ton on all other Islands weight or measurement, provided that the coffee is moved from the dock at the secondary wholesaler's expense.

(d) The maximum wholesale bulk prices established in paragraph (e) below are for bulk coffees sold in paper bags. When sold in containers other than paper bags, the actual package costs may be added to the price.

(e) The maximum wholesale prices of roasted Kona coffees in bulk in paper bags shall be as follows:

ALL ISLANDS EXCEPT HAWAII

Grade of green	Maximum prices effective Aug. 1, 1943	Maximum prices effective Jan. 1, 1944	Maximum prices effective Apr. 1, 1944
	Per lb.	*Per lb.*	*Per lb.*

No. 3 X	.216	.225	.232
No. 3	.201	.207	.211

(f) *Formulas.* The maximum prices of bulk Kona coffees in paragraph (e) above are based upon the cost of the green coffees. If the formula of any roaster contains two or more grades selling at two or more different prices, the maximum price for that brand shall be the weighted average price of the maximum prices of the various grades contained in the roaster's formula. For example, if a particular brand of coffee roasted on Oahu has a formula of 60% Extra prime and 40% prime, the maximum price would be:

.60 × $0.246 = $0.1476
.40 × 0.239 = 0.0956

Maximum wholesale price = $0.2432 per pound.

(1) Maximum prices as computed above may be reduced to the nearest lower tenth of a cent if the fraction is less than 5/100ths of a cent and may be increased to the nearest higher tenth of a cent if the fraction is 5/100ths of a cent or more.

(g) The maximum wholesale prices of packaged Kona coffees shall be the sum of the maximum prices listed in paragraph (h) below plus the cost of the package provided for in paragraph (i) below.

(h)

(i) To the maximum prices established in paragraph (h) above may be added the actual cost of the containers including the corrugated shipping cartons used for shipment to other Islands.

(j) *Formulas.* The maximum prices of packaged Kona coffees are based upon the cost of the green coffees. If the formula of any roaster contains two or more grades selling at two or more different prices, the maximum price for that brand shall be the weighted average price of the maximum prices of the various grades contained in the roaster's formula. For example, if a particular brand of packaged coffee roasted on Oahu has a formula of 80% Prime and 20% No. 3, the maximum price would be:

.80 × $0.24 = $0.1920
.20 × 0.21 = 0.042

Maximum wholesale price before addition of package cost = $0.234

(1) Maximum prices as computed above may be reduced to the nearest lower tenth of a cent if the fraction is less than 5/100ths of a cent and may be increased to the nearest higher tenth of a cent if the fraction is 5/100ths of a cent or more.

[Sec. 46 added by Am. 12, 8 F.R. 11849, effective 8-1-43]

SEC. 47. *Maximum prices for shoes and slippers at wholesale and at retail.* (a) To what transactions, products and persons this ceiling applies.

(1) *What commodities are covered.* This section 47 applies to all shoes and slippers which are manufactured on, or imported from, the mainland, and which are classified as follows:

(i) *Women's and misses' shoes and slippers.* This applies to all feminine footwear commonly known as ladies', women's, girls' and misses' shoes and slippers, including but not limited to street, evening, play, sport, uniform, sandals and similar types.

(ii) *Men's and boys' shoes and slippers.* This applies to all masculine footwear commonly known as men's and boys' shoes and slippers, including but not limited to street, work, sport, play, boots, slippers and similar types.

(iii) *Children's shoes and slippers.* This applies to all footwear commonly known as children's shoes and slippers.

(iv) *Infant's shoes and slippers.* This applies to all infant's shoes and slippers, including but not limited to both hard-soled and soft-soled shoes and slippers.

(2) *What transactions are covered.* This section applies only to sales at wholesale and sales at retail of the shoes and slippers listed and described in paragraph (a) (1).

(3) The pricing provisions of this section shall not be applicable until October 4, 1943 to retail sales of any commodity covered by this section which are in the inventory of any retailer on August 16, 1943, *Provided, however:* That on and after August 16, 1943, the maximum price of any commodity in the inventory of any retailer on August 16, 1943 which is the same or similar to any new commodity received in inventory after August 16, 1943, shall not exceed the maximum price established herein for such new commodity.

[Subparagraph (3) amended by Am. 18, 8 F.R. 14139, effective 8-16-43]

(b) Maximum prices for sales at wholesale.

(1) The maximum price for sales at wholesale of any article listed and described in paragraph (a) (1) shall be a price 1.20 times the "landed cost" of that article; *Provided* That:

(i) The jobber or wholesaler regularly carries such article in stock and has heretofore carried such article in stock; and

(ii) The particular article being priced was sold out of such stock; and

(iii) The particular article being priced was invoiced and shipped to the wholesaler or jobber.

(2) For articles imported directly from the mainland, "landed cost" shall be the total of the following amounts:

(i) An amount equal to the manufacturer's selling price.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery, to the mainland port of shipment, (including Federal transportation tax and terminal charges), not in excess of public (common or contract) carrier rates.

(iii) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of six months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler; and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer or seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of $1.20 per ton, weight or measurement, provided that the commodity is moved from the dock at the wholesaler's expense.

(3) For commodities received via another island in the Territory the wholesaler or jobber who satisfies the conditions as to inventory set forth in paragraph (b) (1) above shall calculate his maximum price for each article covered by this section by adding the amounts specified in the following subdivisions (i), (ii), (iii) and (iv):

(i) An amount equal to the maximum wholesale price in the island from which the article is transshipped as calculated under paragraph (b) (1) above.

(ii) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped calculated at the rate set forth in paragraph (b) (2) (vi) above, whether or not such cartage charges are actually incurred.

(iii) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for transshipment between the islands and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer or seller.

(iv) An amount equal to cartage charges in the island on which the wholesaler is located, from dock to warehouse computed at a rate not in excess of the amount set forth in paragraph (b) (2) (vi) above, provided that the article is moved from the dock at the wholesaler's expense.

(4) The maximum price for sales at wholesale of any article listed and described in paragraph (a) (1) by a person who has not heretofore regularly carried such article in stock, and such article is not being sold out of stock, and such article was not invoiced and shipped to such person, shall be governed by Sections 2 and 3 of the General Maximum Price Regulation for Hawaii.[*]

(5) Any person who regularly carries shoes and slippers in stock and sells at wholesale out of such stock and who receives in such stock a new article covered by paragraph (a) (1) not heretofore carried in stock may apply to the Office of Price Administration for a maximum price, setting forth the "landed cost" for such article as specified in paragraph (b) (2). The Office of Price Administration may fix a price for such new article.

(c) Maximum prices for sales at retail.

(1) The maximum price for any article listed and described in subparagraph (a) (1) which the retailer purchases from the manufacturer or from a person selling at wholesale pursuant to paragraph (b) (4) shall be a price 1.75 times the manufacturer's selling price for such article.

(2) The maximum price for any article listed and described in subparagraph (a) (1) which the retailer purchases from a local jobber or wholesaler who satisfies the conditions as to inventory set forth in paragraph (b) (1) shall be a price 1.50 times the invoice cost.

(3) The maximum price for any article listed and described in subparagraph (a) (1) of this section which the retailer purchases from a mainland jobber or wholesaler shall be 1.50 times the sum of the wholesaler's or jobber's invoice price plus the amounts set forth in subdivisions (ii), (iii), (iv), (v), and (vi) of subparagraph (b) (2) of this section.

[Subparagraph (3) amended by Am. 31, 9 F.R. 301, effective 11-15-43]

(4) Whenever the calculation of a maximum retail price results in an odd-cent maximum price, the maximum price may be adjusted to the nearest nickel.

[Subparagraph (4) added by Am. 18, 8 F.R. 14139, effective 8-16-43]

(d) *Application for approval of prices for nationally advertised articles.* Application may be made for approval of a price for an article listed and described in paragraph (a) (1) which is nationally advertised by the manufacturer thereof, who also requires that such article be sold at the prices established by such manufacturer. The applicant must set forth:

(1) Description of the article or line to be priced.

(2) Proof that the manufacturer has established a resale price and that such price is so marked on the article that any purchaser can know that it is a nationally advertised price.

(3) A statement that the seller will not sell such article at a price higher than such nationally advertised price. Such application need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this section.

(e) *Records and reports.*—(1) *Purchase records required of persons making sales at wholesale.* Every person making sales at wholesale of any article listed and described in paragraph (a) (1) shall keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each purchase of each such article showing:

(i) The date of purchase and the date of receipt.

(ii) The name and address of the vendor.

(iii) The price paid.

(iv) The quantity purchased.

(v) The manufacturer's selling price. If the person did not purchase the article from the manufacturer but is relying upon his vendor's written statement of the manufacturer's selling price, he shall keep such statement and make it available for examination by this Office for a period of not less than two years after sale of the article.

(vi) All data including purchase, freight, and other invoices or memoranda reflecting the charges incurred by such person in arriving at his "landed cost". Data relating to "landed cost" need not be kept by a person making sales at wholesale pursuant to paragraph (b) (4).

(2) *Sales records required of persons making sales at wholesale.* Every person making sales at wholesale of any article listed and described in paragraph (a) (1) shall invoice each sale of each such article. The original invoice shall be delivered to the buyer and shall state:

(i) The date of sale.

(ii) Itemized list of articles sold.

(iii) The manufacturer's selling price for each such article if the maximum price at wholesale is determined under paragraph (b) (4).

(iv) Such person's ceiling price at wholesale for each article.

(v) The retailer's ceiling price for each article as calculated under paragraph (c). (Use by the wholesaler of a rubber stamp stating in effect "Your retail ceiling price is ------ times this invoice price," or "Your retail ceiling price is ------ times the manufacturer's selling price," as the case may be, will be considered compliance with this requirement. Blank spaces should, of course, be filled in with the appropriate multiple.)

A copy of this invoice shall be kept by the person making sales at wholesale, for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) *Purchase records required of persons making sales at retail.* Every person making sales at retail of any article

[*] 8 F.R. 5307, 6362, 14765, 15586; 9 F.R. 579, 4239, 6238, 6817.

listed and described in paragraph (a) (1) shall keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect complete and accurate records of each purchase of each such article showing:

(i) The date of receipt.

(ii) The name and address of the vendor.

(iii) The manufacturer's selling price if priced under paragraph (c) (1).

(iv) The invoice cost if priced under paragraph (c) (2).

(v) If priced under paragraph (c) (3) all data including freight and other invoices or memoranda reflecting the charges incurred by the retailer in arriving at his "landed cost".

(vi) The manufacturer's stock number, if available.

(vii) The retailer's stock number, if any.

(viii) The percentage used in determining the maximum price.

(ix) The retailer's ceiling price.

The retailer may list the information required above on each purchase invoice covering the article. If the retailer did not purchase the article from the manufacturer but is relying upon his supplier's written statement of the manufacturer's selling price he shall keep such statement and make it available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The retailer shall likewise keep and make available for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his purchase invoice covering that article.

(4) *Sales records required of persons making sales at retail.* (i) Any retailer who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any retailer regardless of previous custom shall give the purchaser a receipt showing the date, the name and address of the retailer, a description of the article sold and the price received for it.

(ii) Every retailer shall keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect records of the same kind he has customarily kept relating to the price charged for such article and in addition records showing as precisely as possible the basis upon which he determined the maximum price for such article.

(f) *Definitions.* When used in this section 47 the term:

(1) "Manufacturer's selling price" means: (i) except in the cases mentioned in subdivision (ii) below, the price at which the manufacturer of the article sold and invoiced it, less all discounts and allowances (except discounts for prompt payment, or parts thereof, up to 5 percent), and shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge;

(ii) In the case of an article sold pursuant to paragraph (b) (4) hereof, the price at which the manufacturer of the article sold and invoiced it to the wholesaler before deduction of discounts or commissions, but shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) [Revoked]

[Subparagraph (2) revoked by Am. 18, 8 F.R. 14139, effective 8–16–43]

(3) "Sale at wholesale" means a sale to any person other than an ultimate consumer, and includes any transaction by a person acting as agent of a seller, whether he guarantees the account or not.

(4) "Sale at retail" means a sale to an ultimate consumer.

(5) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government or any of its political subdivisions and any agency of any of the foregoing.

(6) One article shall be deemed "similar" to another article if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such article, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such articles would ordinarily have been sold, shall not be taken into account.

(g) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(h) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum price.* In cases where a wholesaler or retailer purchases from a manufacturer or wholesaler located outside the Territory of Hawaii any article listed and described in subparagraph (a) (1) of this section, at a price lower than the manufacturer's maximum price and lower than a price which the purchaser previously paid for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer, and the appropriate multiple provided by the section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

[Paragraphs (g) and (h) added by Am. 31, 9 F.R. 801, effective 11–15–43]

(i) *Posting and marking of prices.* Notwithstanding the provisions of section 10 of this regulation, the following posting and marking provisions shall be applicable to this section 47:

(1) *Posting.* On and after the effective date of this section every person who sells or offers to sell any article listed and described in paragraph (a) (1) at retail shall post in a conspicuous place in a manner plainly visible to and understandable by the purchasing public in the department or portion of the premises where any such article is sold or offered for sale, a sign stating "Each pair of shoes and slippers in this store (or on this counter, shelf, or in this case, bin or rack) is marked and sold at our ceiling price or less."

(2) *Marking.* On and after the effective date of this section no person shall sell or deliver or offer for sale any article listed and described in paragraph (a) (1) at retail unless there is firmly attached to such article a stamp, tag or other marking showing the selling price. Such selling price must be plainly visible to and understandable by the purchasing public.

[Paragraph (i) added by Am. 38, 9 F.R. 1528, effective 2–11–44]

(j) *Inability to determine maximum prices.* Any person who is unable to determine the maximum price for any article covered by this section shall apply to the Office of Price Administration for the establishment of such maximum price.

[Paragraph (j) added by Am. 67, 9 F.R. 6885, effective 5–16–44]

[Sec. 47 added by Am. 13, 8 F.R. 12299, effective 8–16–43 and amended as otherwise noted]

(2) The ceiling prices for all other sales of wetland taro shall be established by order of the Office of Price Administration upon written application of the seller to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H.

(c) *Ceiling prices for sales of poi by producer-wholesalers and retailers.* (1) The ceiling prices for sales of poi by producer-wholesalers and retailers shall be:

	Wholesalers		Retailers	
	Oahu	Other islands	Oahu	Other islands
	Cents	*Cents*	*Cents*	*Cents*
Per pound	11	8	13	10

Wholesalers may add 1¼% to the ceiling prices listed above on sales to buyers who do not have a gross income license.

(2) The ceiling prices for all other sales of poi shall be established by order of the Office of Price Administration upon written application of the seller to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H.

(d) *Ceiling prices for sales of ready-mixed poi.* (1) The ceiling prices for sales of ready-mixed poi shall be:

	Oahu	Other islands
	Cents	*Cents*
Per pound	9	6

(e) *Definitions.* When used in this section, the terms:

(1) "Grade A taro" means taro suitable for poi manufacture which meets the specifications set forth under the title, "Suggested Hawaiian Grades on Taro for Poi Manufacture" in Agricultural Circular #156 Revised November 15, 1943, prepared by Agricultural Economics Division, Agricultural Extension Service, University of Hawaii.

(2) "Marketable quality taro" means any taro suitable for poi manufacture that does not meet the specifications of Grade A Taro.

(3) "Poi" means the unadulterated product of the edible taro root made into a paste, which shall contain not less than 30 per cent of total solids.

(4) "Ready-mixed poi" means strained poi mixed with water and containing not less than 18 per cent of total solids.

(f) *Records and invoices.* In addition to the records required by the provisions of section 10 of this Maximum Price Regulation No. 373, sellers making sales covered by this section other than at retail shall at the time of delivery furnish the buyer with an invoice or sales memorandum showing the name and address of the seller and buyer, the kind, quantity and grade of the commodity sold and the price charged or received therefor.

[Sec. 49 added by Am. 15, 8 F.R. 13019, effective 8–9–43 and amended by Am. 41, 9 F.R. 2659, effective 1–27–44]

SEC. 50. *Maximum prices for certain shell jewelry manufactured in the Territory of Hawaii*—(a) *Maximum prices for Niihau shell leis.* (1) Maximum prices for sales in the Territory of Hawaii of Niihau shell leis shall be:

	Size	Maximum wholesale price	Maximum retail price
Leis made exclusively of white Niihau shells (momi keokeo or white Niihau shells mixed with lesser amounts of Niihau colored shells.	30" strand	$1.00	$1.50
Leis made exclusively of Niihau yellow or tan colored shells (momi lenalena), except as varied by small admixtures of other Niihau colored shells.	30" strand	1.25	1.90
Leis made exclusively of Niihau small pink, red, or brown shells known as kahelelani, or of kahelelani varied with small amounts of other Niihau colored shells.	30" strand	1.50	2.25

(b) *Maximum prices for jewelry made with cowry shells and cat's eyes*—(1) *Manufacturer's maximum prices.* If you are a manufacturer of any item of jewelry made from cowry shells or cat's eyes, you determine your maximum prices for such items in the following manner: First, multiply the number of shells used by the price per shell listed in the Shell Price Table below, for the type and size of shell used. To this amount add the net cost of other materials used in the article being manufactured, which in no case may be higher than the maximum wholesale price. Then multiply this total by 1.50. The resulting price is your maximum price.

SHELL PRICE TABLE

Type	Size	Price
		Each
Cowry shell	Small, ⅜" long or less	$0.05
Cowry shell	Medium, ⅜" to 1¼" long	.10
Cowry shell	Large, over 1¼" long	.15
Cat's eye	Small, ½" long or less	.50
Cat's eye	Medium, ½" to ¾" long	.75
Cat's eye	Large, over ¾" long	1.00

(2) *Retailer's maximum prices.* If you are a retailer, you determine your maximum prices for sales of any item of jewelry made from cowry shells or cat's eyes in the following manner: First, multiply your manufacturer's selling price by 1.50. Then adjust this amount to the nearest nickel. The resulting price is your maximum price.

(c) *Inability to determine maximum prices.* If you are unable to determine your maximum price for any article covered by this section, you shall apply to the Office of Price Administration for the establishment of a maximum price.

(d) *Definitions.* (1) "Shell jewelry" means all jewelry made of, set or mounted with natural shells or parts of shells.

(2) "Cowry shell" is the solid oval or pear-shaped shell of a genus of good-sized mollusks. There are many species of cowries, differing both in color and size. Money cowries, ring cowries, golden-ringer cowries, measled cowries, tiger cowries, humpback cowries, and leho are among the names commonly given to these shells.

(3) "Cat's eye" is the thick calcareous operculum to a turbine shell. A cat's eye is convex on the exterior and polished, with ordinarily a bright green spot in the center.

(4) "Other materials used" include such materials as chains, pins, earrings, rings, etc., which are used in the manufacture of jewelry made with cowry shells and cat's eyes, but do not include cotton or other material used for packing the shells, cement, and similar incidental supplies.

(5) "Net cost" is the amount the manufacturer paid his supplier (a manufacturer or wholesaler) for "other materials used" less all discounts and allowances.

(6) "Niihau shell leis" mean leis made exclusively of shells commonly known in the Territory of Hawaii as Niihau shells.

[Sec. 50 added by Am. 16, 8 F.R. 13023, effective 9–1–43; and Am. 68, 9 F.R. 7262, effective 6–19–44]

SEC. 51. *Maximum prices for used tires and tubes.* (a) Maximum Price Regulation No. 107,[1] except as otherwise provided herein, governs the sale of used tires and tubes in the Territory of Hawaii.

(b) Maximum prices for Grade II used tires and basic carcasses shall be 60 per cent of the maximum prices established by Maximum Price Regulation No. 107.

(c) Grade II used tires are tires for which the maximum price when new is 85 per cent or less of the maximum price established for first line manufacturers' brands by § 1315.110 Appendix "A" of Price Schedule No. 63, and any retreaded or recapped tire which has been run 1000 miles or more after having been retreaded or recapped.

(d) The maximum price for any used tire purchased by a dealer between and including August 11, 1943 to September 4, 1943, pursuant to the "Idle Tire Pur-

[1] Revoked: 9 F.R. 4348.

chase Plan" of the Office of Price Administration, Hawaii Territorial Office, shall upon resale of such tire be the applicable maximum price established above plus 25 per cent thereof. In such case, the seller shall furnish the buyer with an invoice, or other sales memo, describing the tire as to size, make and serial number, and upon which such additional 25 per cent or part thereof is separately stated as "Idle Tire Purchase Plan Charge."

[Sec. 51 added by Am. 18, 8 F.R. 14139, effective 8-11-43]

SEC. 52. *Maximum prices for women's and girls' wear and accessories at wholesale and retail*—(a) *To what transactions, products and persons this section applies*—(1) *What commodities are covered.* This regulation applies to all women's and girls' wear and accessories (but does not apply to children's and infants' wear sizes 0 to 6), which are classified and defined as follows:

(xxiii) *Miscellaneous accessories.* This classification includes articles of adornment for wear on the person including but not limited to artificial flowers, but does not include ornaments covered by MPR 374,[*] "Jewelry and Certain Other Articles in the Territory of Hawaii."

(2) *What transactions are covered.* This section applies to sales at wholesale, sales at retail, sales by manufacturing-wholesalers, and sales by manufacturing-retailers of women's and girl's wear set forth in paragraph (a) (1). This section does not apply to sales by custom tailors or dressmakers of garments which are manufactured to the individual measurements of the ultimate consumer.

[Subparagraph (2) amended by Am. 50, 9 F.R. 4194, effective 3-20-44]

(b) *Maximum prices for sales at wholesale*—(1) *Wholesalers and jobbers.* Except in the case of inter-island shipments mentioned in subparagraph (3) below, the maximum price for sales at wholesale of any article listed and described in paragraph (a) which was manufactured outside the Territory of Hawaii shall be the amount determined either by multiplying the manufacturer's selling price, less all trade, cash or other discounts, except cash discounts up to 2%, by 1.25, or by multiplying the "landed cost" by 1.20; *Provided*, That:

(i) The wholesaler or jobber regularly carries such classification of articles in stock and has heretofore carried such classification of articles in stock, and

(ii) The particular article is to be sold out of such stock, and

(iii) The particular article was invoiced and shipped to the establishment of the wholesaler or jobber; and the wholesaler or jobber shall elect to use one of the two alternate methods of determining the maximum price and shall use it for all articles sold by him which are covered by this section. The method elected may not thereafter be changed without written permission of the Office of Price Administration. The wholesaler or jobber must send this office a statement of the method elected, on or before October 1, 1943.

(2) *"Landed cost".* For articles imported from outside the Territory of Hawaii "landed cost" shall be the total of the following amounts:

(i) An amount equal to the manufacturer's selling price less all trade, cash or other discounts and allowances, except cash discounts up to 2%.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery, to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(iii) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler; and there may be included in this amount territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer and seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of $1.20 per ton, weight or measurement: *Provided*, That the commodity is moved from the dock at the wholesaler's expense.

[Subparagraphs (1) and (2) amended by Am. 19, 8 F.R. 14305, effective 9-27-43]

(3) *Inter-island shipments.* In the case of a commodity originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory, the maximum price in the island of final destination for sale by a wholesaler or jobber who has satisfied the conditions as to inventory set forth in paragraph (1) above, and who has elected the second pricing (column 2) shall be the sum of the amounts specified in subdivisions (i) through (iv) below.

(i) An amount equal to the maximum wholesale price in the island from which the article was shipped, calculated under subparagraph (1) above.

(ii) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped, calculated at the rate set forth in subdivision (b) (2) (vi) above, whether or not such cartage charges are actually incurred.

(iii) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for shipment between the islands, and there may be included in this amount territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(iv) An amount equal to cartage charges on the island of destination, from dock to warehouse, computed at a rate not in excess of the amount set forth in subdivision (b) (2) (vi) above, provided that the articles are moved from the dock at the wholesaler's expense.

(4) *Maximum prices for locally made articles.* The maximum prices for sales at wholesale of any article manufactured in the Territory of Hawaii listed and described in paragraph (a) of this section by a wholesaler or jobber who satisfies the conditions as to inventory set forth in subdivision (a) (1) (i) (ii) and (iii) shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(5) *Drop shipments.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section by a person who has not heretofore regularly carried such article in stock, and such article is not being sold out of the stock, and such article was not invoiced and shipped to the establishment of such person, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(6) *Manufacturing - wholesalers and manufacturing - retailers.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section which the wholesaler or retailer makes or has made for him from materials owned by him shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only: (i) the wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material and for the retailer shall be the actual cost of the material to him which may in no case be higher than the wholesale price, (ii) the sewing charges as listed with this office under Maximum Price Regulation 20 of the Military Governor of the Territory of Hawaii or Maximum Price Regulation 165 of the Office of Price Administration, and (iii) the maximum price permitted under this regulation for any block prints which may be printed on the articles by or for the manufacturing-wholesaler or manufacturing-retailer.

[Subparagraph (6) amended by Am. 19 and Am. 31, 9 F.R. 301, effective 11-18-43]

(7) *Inability to determine price at wholesale.* Any person who is unable to determine prices under subparagraph (b) (1), (3), (4), (5) or (6) shall apply to the Office of Price Administration for a maximum price. Such application must set forth the manufacturer's selling price less all trade, cash or other discounts and allowances and/or the "landed cost" for such articles as specified in subparagraph (b) (2) of this section.

(8) *Restrictions on mark-up at wholesale.* (i) The maximum price for sales of commodities at wholesale by persons who have purchased from a local wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer shall be the maximum price which the first wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer would have been entitled to charge under this section, except maximum prices computed under the provisions of paragraph (b) (10) of this section. The purpose of this paragraph is to prevent the addition of more than one full wholesale markup to a commodity, regardless of the number of wholesalers or jobbers purchasing and reselling the commodity.

[Subparagraph (i) amended by Am. 36, 9 F.R. 1487, effective 12-6-43]

(ii) No part of the wholesale markup may be taken by a wholesaler-retailer on any article listed and described in paragraph (a) of this Section that is sold by any retail outlet owned, controlled by, under the control of, controlling, or in any other way affiliated with respect to ownership or control, with the wholesaler.

(9) *Allowance for block printing.* Where a wholesaler block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price the maximum price permitted by this regulation for such prints.

[Subparagraph (9) added by Am. 31]

(10) *Sales by local sub-jobbers.* The maximum price for sales by a local subjobber of any article, listed and described in paragraph (a) of this section, to a retail establishment, shall be:

(i) Where the sale is by a sub-jobber who has purchased the article from a mainland wholesaler or jobber, whether shipped from the establishment of the wholesaler or jobber or direct from the factory, the maximum price shall be computed by multiplying the wholesaler's or jobber's selling price less all allowable discounts and allowances, except cash discounts up to 8%, by 1.20.

(ii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (1) of this section, the maximum price shall be computed by multiplying the wholesaler's or jobber's allowable maximum price by 1.15.

(iii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (5) of this section applying to drop shipments, the maximum price shall be computed by multiplying the manufacturer's selling price by 1.35.

Any sub-jobber who wishes to establish maximum prices in accordance with this paragraph must file with the Office

[*] 8 F.R. 5313, 10269, 10984.

of Price Administration, Honolulu, T. H., a petition for permission to do so. Such petition must show that the applicant has been regularly engaged in performing the function of a sub-jobber during the year 1943 and must also show the estimated percentage of sub-jobbing business done in relation to the total sales during the years 1942 and 1943.

[Subparagraph (10) added by Am. 36]

(c) *Maximum prices for sales at retail*—(1) *Purchases from Mainland Manufacturers.* The maximum price for sales at retail for any article which the retailer purchases from a mainland manufacturer shall be the amount determined by multiplying the manufacturer's selling price, less all discounts except cash discounts up to 8%, by the figure given below in the first column (1) of the Table of Retail Multiplication Figures for the classification of goods to be priced.

(2) *Purchases from distributors.* The maximum price for sales at retail for any article which the retailer purchases from a person selling at wholesale whose maximum prices for the sale are determined by subparagraph (b) (5) (Drop Shipments) shall be the amount determined by multiplying the manufacturer's selling price by the figure given below in the first column (1) of the table below for the classification of goods to be priced.

(3) *Purchases from mainland wholesalers or jobbers.* The maximum price for sales at retail for any article which the retailer purchases from a mainland wholesaler or jobber shall be the amount determined by multiplying the primary wholesaler's or jobber's selling price, less all allowable discounts and allowances, except cash discounts up to 8%, by the figure given below in the second column of the Table below for the classification of goods to be priced.

[Subparagraph (3) amended by Am. 36]

(4) *Purchases from local wholesalers or jobbers.* The maximum price for sales at retail for any article imported from the mainland and which the retailer purchases from a local wholesaler or jobber shall be the amount determined by multiplying the wholesaler's or jobber's selling price by the figure given below in the third column (3) of the table below for the classification of goods to be priced.

(5) *Locally manufactured articles.* The maximum price for sales at retail of any article made by a manufacturer located in the Territory of Hawaii shall be: If the retailer purchases direct from the manufacturer, the amount determined by multiplying the manufacturer's selling price less all discounts except cash discounts up to 8% by the figure given in the fourth column (4) of the table below; if the purchase of a locally manufactured article is made from a wholesaler, the amount determined by multiplying the manufacturer's selling price by the figure given in the fourth column (4) of the table below.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for any article which the retailer purchases from a local manufacturing-wholesaler or manufacturing-retailer, or which he makes or has made for him, shall be the amount determined by mutiplying the wholesale price as determined under subparagraph (b) (6) by the figure given in the third column (3) of the table below for the classification of goods to be priced.

TABLE OF RETAIL MULTIPLICATION FIGURES

	Column 1	Column 2	Column 3	Column 4
1. Dresses, coats, jackets, suits, rainwear, slack suits, play clothes, housecoats:				
(a) Budget. to $7.75 incl.	1.75	1.57	1.52	1.70
(b) Better: over $7.75	1.80	1.62	1.57	1.75
2. Slacks, shirts and blouses, skirts, sweaters	1.75	1.57	1.52	1.70
3. Woven and knitted underwear, nightwear, brassieres	1.75	1.55	1.50	1.70
4. Foundation garments				
(a) Budget: to $2.75 incl.	1.75	1.55	1.50	1.70
(b) Better: over $2.75	1.85	1.55	1.50	1.80
5. Millinery	2.00	1.72	1.67	1.80
6. Hosiery	1.75	1.55	1.50	1.70
7. Gloves, handbags	1.75	1.55	1.50	1.70
8. Miscellaneous accessories, handkerchiefs, scarfs, belts, neckwear	1.70	1.55	1.50	1.65

NOTE.—All designations or price in the table above with respect to "Budget" or "Better" items refer to the appropriate cost price upon which the retailer will use the multiple in the above table to determine his maximum retail price. For example, if the maximum retail price of a housecoat is to be determined by multiplying $7.50 by one of the multiples, the housecoat is a "Budget" item

(7) *Inability to determine price at retail.* Any person who is unable to determine prices at retail under subparagraph (c) (1) through (7) shall apply to the Office of Price Administration for the establishment of a maximum price.

(8) *Odd cent maximum prices at retail.* Whenever the calculation of a maximum retail price results in an odd cent maximum price, the maximum price may be adjusted to the nearest nickel.

(c) (9) *Allowance for block printing.* Where a retailer block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

[Subparagraph (9) amended by Am. 31]

(10) *Purchases from local sub-jobbers.* The maximum price for a sale at retail of any article, listed and described in paragraph (a) of this section, purchased from a local sub-jobber, shall be computed by multiplying the sub-jobber's maximum price, less all allowable discounts and allowances by 1.30.

[Subparagraph (10) amended by Am. 36]

(d) *Maximum prices for nationally advertised articles.* Application may be made for approval of a price for an article listed in paragraph (a) which is nationally advertised by the manufacturer thereof, and who requires that such article be sold at the prices established by such manufacturer. The applicant must set forth:

(1) Description of the article or line to be priced.

(2) Proof that the manufacturer has established a resale price and that such price is so marked on the article that any purchaser can know that it is a nationally advertised price.

(3) A statement that the seller will not sell such article at a price higher than such nationally advertised price. Such application of course need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this regulation.

(e) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the allocation made by the wholesaler or retailer and shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(f) *Maximum prices for certain merchandise purchased at lower than manufacturers maximum price.* In cases where a retailer or wholesaler purchases from a manufacturer or wholesaler located outside the Territory of Hawaii any article listed and described in paragraph (a) of this section, at a price lower than the manufacturer's maximum price and lower than a price which the purchaser previously paid to such manufacturer or wholesaler for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise which maximum price is based upon the higher price previously paid to such manufacturer, and the appropriate multiple provided by this section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

(g) *Maximum prices for retail sales of exclusive and individual articles.* In cases where a retailer at the special order of an ultimate consumer designs and fabricates for such consumer an exclusive and individual article, application may be made at the Office of Price Administration for a maximum price at retail not to exceed two times the cost of such article as otherwise determined under this section. Articles which are produced on a mass or semi-mass production basis or which are made for stock are not exclusive and individual articles.

(h) *Records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373 the following records and reports must be kept:

(1) *Required of person making sales at wholesale*—(i) *Purchase records.* Every person making sales at wholesale of any article listed in paragraph (a) of this section shall keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended remains in effect, complete and accurate records of each purchase of each article showing.

(*a*) The date of purchase and date of receipt.

(*b*) The name and address of the vendor.

(*c*) The price paid, or charged.

(*d*) The quantity purchased.

(*e*) The manufacturer's selling price. If the person did not purchase the article from the manufacturer but is relying upon his vendor's written statement of the manufacturer's selling price he shall keep such statement and make it available for examination by this Office for so long as the E. P. C. A. of 1942, as amended remains in effect.

(*f*) All records and data reflecting the charges incurred by the wholesaler in arriving at the selling price.

(ii) *Sales records.* Every person making sales at wholesale of any article listed in paragraph (a) of this section shall invoice each sale of each such article. The original invoice shall be delivered to the buyer and shall state:

(*a*) The date of sale.

(*b*) Itemized list of articles sold.

(*c*) The manufacturer's selling price for each such article if the maximum price at wholesale is determined under (b) (4) and (5).

(*d*) Such person's ceiling price at wholesale for each article.

(*e*) The retailer's ceiling price for each article as calculated under (c).

(*f*) The price charged or received.

A copy of this invoice shall be made and kept by the person making sales at wholesale, for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) *Required of person making sales at retail*—(i) *Purchase records.* Every person making sales at retail of any article listed in paragraph (a) of this section shall keep and make available for examination by this Office for so long as the E. P. C. A. of 1942, as amended, remains in effect, complete and accurate records of each purchase of each such article showing:

(*a*) The date of receipt.

(*b*) The name and address of the vendor.

(*c*) The manufacturer's selling price if priced under paragraphs (c), (1), (2) and (5).

(*d*) The invoice cost if priced under paragraphs (c) (3) and (4).

(*e*) The manufacturer's stock number if available.

(*f*) The retailer's stock number if any.

(*g*) The percentage used in determining the maximum price.

(*h*) The retailer's ceiling price.

The retailer may list the information required above on each purchase invoice covering the article. If the retailer did not purchase the article from the manufacturer but is relying upon his supplier's written statement of the manufacturer's selling price he shall keep such statement and make it available for examination by this Office for so long as the E. P. C. A. of 1942, as amended, remains in effect. The retailer shall likewise keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his purchase invoice covering that article.

(ii) *Sales records.* (*a*) Any retailer who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any retailer, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the retailer, a description of the article sold and the price received for it.

(*b*) Every retailer shall keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect of any article listed and described in paragraph (a) of this section, records of the same kind he has customarily kept relating to the price charged for such article and in addition records showing as precisely as possible the basis upon which he determined the maximum price for such article.

(i) *Posting and marking of prices.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373 the following posting and marking provisions are applicable.

(1) *Posting.* On and after the effective date of this section every person who sells or offers to sell any article listed and described in paragraph (a) of this section at retail shall post in a conspicuous place in a manner plainly visible to and understandable by the purchasing public in the department or portion of the premises where any such article is sold or offered for sale, a sign stating "Each article of women's and girls' wearing apparel and accessories in this store (or on this counter, shelf, or in this case, bin, or rack) is marked and sold at our ceiling price or less."

(2) *Marking.* (i) On and after the effective date of this section no person shall sell or deliver or offer for sale any article listed and described in paragraph (a) of this section at retail unless there is firmly attached to such article a stamp, tag or other marking showing the selling price. Such selling price must be plainly visible to and understandable by the purchasing public.

(ii) All merchandise that is priced pursuant to paragraph (e) must have the lot number which appears on the invoice also clearly marked on the price ticket of each article.

(j) *Definitions.* When used in this section, the term:

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it, before the deduction of any discounts or allowances, and shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it, without changing its form, to any person other than an ultimate consumer, and includes sales to retailers by manufacturing-wholesalers, but does not include any sale by a producer, manufacturer, or fabricator of any wearing apparel or accessory produced, manufactured or fabricated by him, or on his behalf by an agent or a contractor.

(3) "Wholesaler-retailer" means a firm or person who customarily sells at least 50% of the articles listed and described in paragraph (a) of this section in his own or in an affiliated store.

(4) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer less all allowable discounts except cash discounts up to 8%.

[Subparagraph (4) amended by Am. 19]

(5) "Manufacturing - wholesaler" means a wholesaler who has made for him from materials owned by him, articles for sale to a retailer.

(6) "Manufacturing-retailer" means a retailer who has made for him from materials owned by him, articles for sale to an ultimate consumer.

(7) "Wholesaler or jobber" means a person who purchases articles from a manufacturer for the purpose of resale at wholesale.

(8) A "sub-jobber" is a jobber who purchases merchandise from primary wholesalers or jobbers and resells it to retail sellers.

(9) "Primary wholesaler or jobber" means a wholesaler or jobber who has purchased the article directly from the manufacturer.

[Subparagraphs (7), (8) and (9) added by Am. 36]

[Sec. 52 added by Am. 18, 8 F.R. 14139, effective as of September 16, 1943, on the Island of Oahu, and as of September 22, 1943 on all other Islands of the Territory of Hawaii, except as follows with respect to sales at retail of articles in inventory as of September 16, 1943, on the Island of Oahu, and as of September 22, 1943, on the other Islands of the Territory of Hawaii: Such articles need not be priced under this amendment until November 15, 1943, *Provided,* That any such article which is the same or similar to an article received in inventory after September 16, 1943, on the Island of Oahu, or after September 22, 1943, on the other Islands of the Territory of Hawaii, shall not be sold at a price higher than the maximum price established by this amendment for such new article. For the purposes of this provision one article shall be deemed "similar" to another article if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such article, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such articles would ordinarily have been sold, shall not be taken into account. Sec. 52 amended as otherwise noted]

SEC. 53. *Maximum prices for men's and boys' wear at wholesale and retail*—(a) *To what transactions, products, and persons this section applies*—(1) *What commodities are covered.* This section applies to all men's and boys' wear which are classified and defined as follows:

(i) *Topcoats and overcoats.* This classification includes masculine outerwear garments commonly known as topcoats and overcoats and designed to be worn over other outer apparel.

(ii) *Dress, tropical and wash suits.* This classification includes masculine wear commonly known as men's and boys' suits consisting of a coat, and trousers, with or without a vest and sold at a unit price.

(iii) *Separate or sport coats.* This classification includes all masculine garments commonly sold as separate coats and of a type designed to be worn with dress trousers or slacks, but does not include topcoats, overcoats, or rainwear.

(iv) *Separate trousers and slacks.* This classification includes all masculine garments commonly sold as separate trousers, slacks, and breeches, but does not include work pants.

(v) *Active sportswear.* This classification includes golf, tennis, and other outer shorts, athletic supporters, and sport uniforms, such as basketball suits, baseball suits, and like garments.

(vi) *Dress shirts.* This classification includes masculine garments commonly known as dress shirts in neck sizes, with or without a collar attached, designed to be worn with a tie for street or evening wear, but does not include sport shirts and other casual shirts not sized in neck sizes.

(vii) *Sport shirts.* This classification includes all masculine wear commonly known as sport shirts, and includes Aloha shirts, "T" shirts and Polo shirts, and all other shirts not defined as Dress Shirts in (vi) above, or as work shirts in (xii) below.

(viii) *Pajamas.* This classification includes men's and boys' wear commonly known as pajamas, and includes regular pajamas, brief pajamas, sleep coats, nightgowns, sleep shorts and similar items.

(ix) *Underwear.* This classification includes all masculine garments commonly known as underwear, and includes athletic shirts, athletic drawers, union suits, support garments, and similar items.

(x) *Headwear.* This classification includes all masculine wear commonly known as hats or caps, whether made of fabric, straw, or felt, but does not include straw hats which are made locally of Native Hawaiian Lauhala, coconut, or other similar plant fibres.

(xi) *Rainwear.* This classification includes all masculine garments which are commonly regarded as having for their use protection against rain, and includes jackets, coats, hats, pants, umbrellas, and similar items, but does not include rubbers and other waterproof footwear.

(xii) *Work clothes.* This classification includes all masculine garments commonly known as work clothes, and includes work pants, shirts, socks, gloves, jackets, jumpers, aprons, overalls, uniforms, and similar items.

(xiii) *Accessories.* This classification includes all items worn by men and boys as accessories to the above garments, and includes handkerchiefs, garters, belts, suspenders, and dress or sport socks, but does not include jewelry accessories covered by MPR 374.[37]

(xiv) *Neckwear.* This classification includes all masculine articles worn around the throat, and includes cravats, collars, muffiers, and similar items.

(2) *What transactions are covered.* This section applies to sales at wholesale, sales at retail, sales by manufacturing-wholesalers and sales by manufacturing-retailers of men's and boys' wear set forth in paragraph (a) (1). This section does not apply to sales by custom or merchant tailors of garments which are manufactured to the individual measurements of the ultimate consumer.

[Subparagraph (2) amended by Am. 50, 9 F.R. 4194, effective 3-20-44]

(b) *Maximum prices for sales at wholesale*—(1) *Wholesalers and jobbers.* Except in the case of inter-island shipments mentioned in subparagraph (3) below, the maximum price for sales at wholesale of any article listed and described in paragraph (a) which was manufactured outside the Territory of Hawaii shall be the amount determined either by multiplying the manufacturer's selling price, less all allowable trade, cash or other discounts or allowances, except cash discounts up to two percent, by the figure given in the first column (1) of the Table of Wholesale Multiplication Figures (see below), or by multiplying the "landed cost" by the figure given in the second column (2) of said table: *Provided,* That:

(i) The wholesaler or jobber regularly carries such classification of articles in stock and has heretofore carried such classification of articles in stock, and

(ii) The particular article is to be sold out of such stock, and

(iii) The particular article was invoiced and shipped to the establishment of the wholesaler or jobber; and the wholesaler or jobber shall elect to use one of the two alternate methods of determining the maximum price and shall use it for all articles sold by him which are covered by this section. The method elected may not thereafter be changed without written permission of the Office of Price Administration. The wholesaler or jobber must send this office a statement of the method elected on or before October 13, 1943.

Table of Wholesale Multiplication Figures	Column (1)	Column (2)
Topcoats, overcoats, dress tropical and wash suits, separate or sport coats and slacks, active sportswear, dress and sport shirts, pajamas, headwear, accessories, underwear, and work clothes	$1.29	$1.20

(2) *Landed cost.* For articles imported from outside the Territory of Hawaii "landed cost" shall be the total of the following amounts:

(i) An amount equal to the manufacturer's selling price less all allowable trade, cash or other discounts and allowances, except cash discounts up to two percent.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery, to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(iii) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler, and there may be included in this amount territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer and seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of 1.20 per ton, weight or measurement: *Provided,* That the commodity is moved from the dock at the wholesaler's expense.

(3) *Inter-island shipments.* In the case of a commodity originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory, the maximum price in the island of final destination for sale by a wholesaler or jobber who has satisfied the conditions as to inventory set forth in sub-paragraph (1) above, and who has elected the second pricing (column 2) shall be the sum of the amounts specified in subdivisions (i) through (iv) below.

(i) An amount equal to the maximum wholesale price in the island from which the article was shipped, calculated under subparagraph (1) above.

(ii) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped, calculated at the rate set forth in subdivision (b) (2) (vi) above, whether or not such cartage charges are actually incurred.

(iii) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for shipment between the islands, and there may be included in this amount territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(iv) An amount equal to cartage charges on the island of destination, from dock to warehouse, computed at a rate not in excess of the amount set forth in subdivision (b) (2) (vi) above: *Provided,* That the articles are moved from the dock at the wholesaler's expense.

(4) *Maximum prices for locally made articles.* The maximum prices for sales at wholesale of any article manufactured in the Territory of Hawaii listed and described in paragraph (a) of this section by a wholesaler or jobber who satisfies the conditions as to inventory set forth in subdivisions (b) (1) (i), (ii) and (iii) above, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(5) *Drop shipments.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section by a person who has not heretofore regularly carried such article in stock, and such article is not being sold out of the stock, and such article was no invoiced and shipped to the establishment of such person, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section which the wholesaler or retailer makes or has made for him from materials owned by him shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only: (i) the wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material and for the retailer shall be the actual cost of the material to him which may in no case be higher than the wholesale price, (ii) the sewing charges as listed with this office under Maximum Price Regulation 20 of the Military Governor of the Territory of Hawaii or Maximum Price Regulation 165 of the Office of Price Administration, and (iii) the maximum price permitted under this regulation for any block prints which may be printed on the articles by or for the manufacturing-wholesaler or manufacturing-retailer.

[Subparagraph (6) amended by Am. 31, 9 F.R. 301, effective 11-18-43]

(7) *Inability to determine price at wholesale.* Any person who is unable to determine prices under sub-paragraphs (b) (1), (3), (4), (5) or (6) shall apply to the Office of Price Administration for a maximum price. Such application must set forth the manufacturer's selling price less all trade, cash or other discounts and allowances, except cash discount up to two percent, and/or the "landed cost" for such articles as specified in subparagraph (b) (2) of this section.

(8) *Restrictions on mark up at wholesale.* (i) The maximum price for sales of commodities at wholesale by persons who have purchased from a local wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer shall be the maximum price which the first wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer would have been entitled to charge under this section, except maximum prices computed under the provisions of paragraph (b) (10) of this section. The purpose of this paragraph is to prevent the addition of more than one full wholesale markup to a commodity, regardless of the number of wholesalers or jobbers purchasing and reselling the commodity.

[Subparagraph (i) amended by Am. 36, 9 F.R. 1487, effective 12-6-43]

(ii) No part of the wholesale markup may be taken by a wholesaler-retailer on any article listed and described in paragraph (a) of this section that is sold by any retail outlet owned, controlled by, under the control of, controlling, or in any other way affiliated with respect to ownership or control, with the wholesaler.

(b) (9) *Allowance for block printing.* Where a wholesaler block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price the maximum price permitted by this regulation for such prints.

[Subparagraph (9) added by Am. 31]

(10) *Sales by local sub-jobbers.* The maximum price for sales by a local subjobber of any article, listed and described in paragraph (a) of this section, to a retail establishment, shall be:

(i) Where the sale is by a sub-jobber who has purchased the article from a mainland wholesaler or jobber, whether shipped from the establishment of the wholesaler or jobber or direct from the factory, the maximum price shall be computed by multiplying the wholesaler's or jobber's selling price less all allowable discounts and allowances, except cash discounts up to 8%, by 1.20.

(ii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (1) of this section, the maximum price shall be computed by multiplying the wholesaler's or jobber's allowable maximum price by 1.15.

(iii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (5) of this section applying to drop shipments, the maximum price shall be computed by multiplying the manufacturer's selling price by 1.35.

Any sub-jobber who wishes to establish maximum prices in accordance with this paragraph must file with the Office of Price Administration, Honolulu, T. H., a petition for permission to do so. Such petition must show that the applicant has been regularly engaged in performing the function of a sub-jobber during the year 1943 and must also show the estimated percentage of sub-jobbing business done in relation to the total sales during the years 1942 and 1943.

[Subparagraph (10) added by Am. 36]

(c) *Maximum prices for sales at retail*—(1) *Purchases from mainland manufacturers.* The maximum price for sales at retail for any article which the retailer purchases from a mainland manufacturer shall be the amount determined by multiplying the manufacturer's selling price, less all allowable discounts except cash discounts up to 8 percent, by the figure given below in the first column (1) of the Table of Retail Multiplication Figures for the classification of goods to be priced.

(2) *Purchases from distributors.* The maximum price for sales at retail for any article which the retailer purchases from a person selling at wholesale whose maximum prices for the sale are determined by subparagraph (b) (5) (Drop Shipments) shall be the amount determined by multiplying the manufacturer's selling price by the figure given below in the first column (1) of the table of Retail Multiplication Figures for the classification of goods to be priced.

(3) *Purchases from mainland wholesalers or jobbers.* The maximum price for sales at retail for any article which the retailer purchases from a mainland wholesaler or jobber shall be the amount determined by multiplying the primary wholesaler's or jobber's selling price, less all allowable discounts and allowances, except cash discounts up to 8%, by the figure given below in the second column of the table below for the classification of goods to be priced.

[Subparagraph (3) amended by Am. 36]

(4) *Purchases from local wholesalers or jobbers.* The maximum price for sales at retail for any article imported from the mainland and which the retailer purchases from a local wholesaler or jobber shall be the amount determined by multiplying the wholesaler's or jobber's selling price by the figure given below in the third column (3) of the table below for the classification of goods to be priced.

(5) *Locally manufactured articles.* The maximum price for sales at retail of any article made by a manufacturer located in the Territory of Hawaii shall be: If the retailer purchases direct from the manufacturer, the amount determined by multiplying the manufacturer's selling price less all allowable discounts except cash discounts up to 8 percent by the figure given in the fourth column (4) of the table below; if the purchase of a locally manufactured article is made from a wholesaler, the amount determined by multiplying the manufacturer's selling price by the figure given in the fourth column (4) of the table below.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for any article which the retailer purchases from a local manufacturing-wholesaler or manufacturing-retailer, or which he makes or has made for him, shall be the amount determined by multiplying the wholesale price as determined under subparagraph (b) (6) by the figure given in the third column (3) of the table below for the classification of goods to be priced.

TABLE OF RETAIL MULTIPLICATION FIGURES

	Column 1	Column 2	Column 3	Column 4
1. Topcoats and overcoats	1.80	1.57	1.50	1.75
2. Dress, tropical, slack, and wash suits; separate trousers and slacks; separate coats, sport coats, sweaters; swim trunks or shorts; sport or dress shirts, pajamas, headwear, neckwear, rainwear	1.75	1.57	1.50	1.70
3. Work clothes, active sportswear	1.70	1.57	1.50	1.65
4. Handkerchiefs, belts, garters, suspenders, dress or sport socks	1.70	1.55	1.50	1.65

(7) *Inability to determine price at retail.* Any person who is unable to determine prices at retail under subparagraphs (c) (1) through (7) shall apply to the Office of Price Administration for the establishment of a maximum price.

[37] 8 F.R. 5313, 10296, 10984.

(8) *Odd cent maximum prices at retail.* Whenever the calculation of a maximum retail price results in an odd cent maximum price, the maximum price may be adjusted to the nearest nickel.

(9) *Allowance for block printing.* Where a retailer block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

[Subparagraph (9) added by Am. 31]

(10) *Purchases from local sub-jobbers.* The maximum price for a sale at retail of any article, listed and described in paragraph (a) of this section, purchased from a local sub-jobber, shall be computed by multiplying the sub-jobber's maximum price, less all allowable discounts and allowances, by 1.30.

[Subparagraph (10) added by Am. 36]

(d) *Maximum prices for nationally advertised articles.* Application may be made for approval of a price for an article listed in paragraph (a) which is nationally advertised by the manufacturer thereof, and who requires that such article be sold at the prices established by such manufacturer. The applicant must set forth:

(1) Description of the article or line to be priced.

(2) Proof that the manufacturer has established a resale price and that such price is so marked on the article that any purchaser can know that it is a nationally advertised price.

(3) A statement that the seller will not sell such article at a price higher than such nationally advertised price.

Such application of course need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this section.

(e) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single c" blanket price, he may make application .o the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the allocation made by the wholesaler or retailer and shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(f) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum prices.* In cases where a retailer or wholesaler purchases from a manufacturer or wholesaler located outside the Territory of Hawaii any article listed and described in paragraph (a) of this section, at a price lower than the manufacturer's maximum price and lower than a price which the purchaser previously paid to such manufacturer or wholesaler for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer, and the appropriate multiple provided by the section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

(g) *Records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (h) shall be applicable to this section 53.

(h) *Posting and marking of prices.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (i) shall be applicable to this section 53, except that in section 52 (i) (1) the words "women's and girls'" shall be changed to "men's and boys'" for the purposes of this section 53.

(i) *Definitions.* When used in this section, the term:

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it, before the deduction of any discounts or allowances, and shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it without changing its form, to any person other than an ultimate consumer, and includes sales to retailers by manufacturing-wholesalers, but does not include any sale by a producer, manufacturer, or fabricator of any wearing apparel or accessory produced, manufactured, or fabricated by him, or on his behalf by an agent or a contractor.

(3) "Wholesaler-retailer" means a firm or person who customarily sells at least 50% of the articles listed and described in paragraph (a) of this section in his own or in an affiliated store.

(4) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer less all allowable discounts except cash discounts up to 8%.

(5) "Manufacturing-wholesaler" means a wholesaler who has made for him from materials owned by him, articles for sale to a retailer.

(6) "Manufacturing-retailer" means a retailer who has made for him from materials owned by him, articles for sale to an ultimate consumer.

(7) "Wholesaler or jobber" means a person who purchases articles from a manufacturer for the purpose of resale at wholesale.

(8) A "sub-jobber" is a jobber who purchases merchandise from primary wholesalers or jobbers and resells it to retail sellers.

(9) "Primary wholesaler or jobber" means a wholesaler or jobber who has purchased the article directly from the manufacturer.

[Sec. 53 added by Am. 19, F.R. 14805, effective as of October 6, 1943, except as follows with respect to sales at retail of articles in inventory as of October 6, 1943: Such articles need not be priced under this section until December 6, 1943: *Provided*, That any such article which is the same or similar to an article received in inventory after October 6, 1943 shall not be sold at a price higher than the maximum price established by this section for such new article. For the purposes of this provision one article shall be deemed "similar" to another article if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such article, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such articles would ordinarily have been sold, shall not be taken into account. Sec. 53 amended as otherwise noted]

SEC. 54. *Maximum prices for all sales of second hand or used lumber at wholesale and retail*—(a) *What products are covered.* This section covers all sales of second hand or used lumber. Second hand or used lumber for the purpose of this section is all used lumber that has been recovered as salvage from any source whatsoever. For example, some of the specific sources of such material are demolished buildings, dunnage, crating, scrap from construction projects, and odds and ends purchased from distributors of new lumber which because of the condition of the material can no longer be considered new lumber.

(b) *What persons are covered.* All persons selling second hand lumber either wholesale or retail, regardless of whether or not they maintain distribution yards or sell direct from the original source of the supply.

(c) *Classifications of second hand or used lumber.* For the purpose of this section, second hand lumber shall be divided into the following grades or classifications; firewood, salvage, reclaimed and refined. The following description of the grades is general and not all inclusive. The use intended must be considered in all grades. Recoverable lumber means lumber which is sound and will prevent its use for ordinary construction.

(1) "Firewood" is second hand lumber which contains less than 50% recoverable lumber or is the waste resulting from the refining of second hand lumber.

(2) "Salvage" is second hand lumber which is in its original salvaged condition. It will, however, show more than 50% recoverable lumber in one foot multiple lengths longer than three feet when cleaned of cement, barnacles or other foreign matter, will be free from nails or bolts, and trimmed or ripped to eliminate broken ends, splits, rot or other defects.

(3) "Reclaimed" is second hand lumber from which all the nails, bolts, or other foreign matter has been removed and trimmed if necessary. Although it may be stained, weathered and worn from use, it must be sound and 100% usable for the purpose intended.

(4) "Common refined" is second hand lumber, remanufactured from larger material to a standard uniform size, sawsized or surfaced and trimmed to standard lengths. The lumber must be sound strong lumber, well manufactured of firm grain and suitable for good substantial construction purposes, free from loose or rotten knots, knot holes, shakes, rot and defects which materially impair the strength of the piece. Size of the knots, nail or bolt holes shall be considered in connection with the size of the piece and in combination must not impair the strength of the lumber. This classification may also include lumber which due to only temporary use has the appearance of new lumber and will meet the above requirements without further remanufacture.

(5) "Clear refined" is second hand lumber remanufactured from larger material to a standard uniform size, sawsized or surfaced and trimmed to standard lengths. Defects based on 8" widths 12' long are to be considered in connection with the size of the piece and its general quality. It will allow three of the following defects for each 8 board feet including corresponding half of the edges: sap ¼" width and ¾" thickness, pitch pockets narrow, each not over 4", knots sound, if not in clusters ½" and less in 1" stock varying according to thickness up to 1½" and 5" and thicker, seasoning checks slight, split or check not over width of the piece or equivalent in both ends. Occasional nail holes may be substituted for allowable defects if they do not impair the use of the lumber for the purpose intended. The grade must contain an average of six or more annual rings per inch at either one end or the other of the piece. In general this grade must be suitable for interior finish, furniture manufacture, or other similar uses for which a clear type of lumber with limited defects is needed.

(d) *Maximum prices for second hand lumber.*

Firewood, per cord 4' x 4' x 8'		F. o. b. distribution yard, per MBM			
F. o. b. salvage point	F. o. b. distribution yard	Salvage	Reclaimed	Common refined	Clear refined
$4.00	$5.00	$40.00	$50.00	$65.00	$85.00

(1) Firewood "as is" at original salvage source—$2.00 per cord. Salvage "as is" at original salvage source—$15.00 per MBM. Salvage FOB trucks at original salvage source—$20.00 per MBM. For sales totaling less than $7.50, 10% may be added to the maximum price of Reclaimed, Common Refined, and Clear Refined.

(e) *Delivery charges.* (1) Where the delivery is made by common or contract carrier, an amount equal to the charge made by the carrier to the seller for such delivery.

(2) Where the delivery is made with equipment owned or operated by the seller, an amount not in excess of a maximum charge for such delivery which has been authorized by the Office of Price Administration. In order to obtain authorization for such charges, the seller should file with the Office of Price Administration, Honolulu, T. H., a list of proposed maximum charges for such deliveries. If such proposed charges are not in excess of those currently made by common or contract carriers whose services are available in the area served by the seller, such charges will be authorized and the seller notified that such authorization has been made. Such authorization shall be subject to revocation by the Office of Price Administration.

(3) Any charge made for delivery must be separately stated and shown on the invoice, bill of sale, or such sales memorandum as may be used in connection with the sale.

(f) *Maximum milling charges.* (1) The following additions per 1,000 feet B. M. may be made to the maximum prices when the following workings are required to be performed by a seller and are actually performed:

	6 x 6 and under	Over 6 x 6	4/4, 5/4, 6/4	4/4, 5/4, 6/4 x 6" & 8"	4/4, 5/4, 6/4 x 10" & 12"	All sizes	All sizes

Additional cuts							
More than 500' BM							10.00
One cut							5.00
Additional cuts							

Ripping all sizes:
Less than 500' BM, $0.005 per lineal foot.
More than 500' BM, 1st cut $4.50; Additional cuts $1.50 per MBM.
Mouldings, $0.005 per lineal foot.
Permitted minimum milling charge $0.50.

(2) The above charges for ripping or resawing may be added only to the "reclaimed" or lower grades, and then only upon the specific request of the buyer.

(3) When the work required cannot be performed by the seller making the sale because he does not have the necessary facilities, he may add to the maximum prices the milling charges set forth in subparagraphs (f) (1) and (2) having the work performed at a custom establishment. In adding the working charges permitted by this section, the seller may not make any extra c' arge for hauling or trucking that may be required in getting the stock to or from the custom establishment.

(4) When any of the above charges for workings at the yard or custom establishment are made, the invoice, bill of sale or other billings must clearly state that the work was done at the distribution yard or at the custom establishment, and the amount must be separately shown.

(g) *What the invoice must contain.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not; i. e., grade, quantity, size, type of dressing, pattern or any other extras of specifications which affect the maximum prices.

(h) *Prohibited practices.* In addition to the practices prohibited by section 6 of this MPR 373 the following specific practices are prohibited:

(1) Getting the effect of a higher price by changing credit practices on cash discounts from what they were October 1941 or any subsequent date of the establishment of the concern. This includes reducing the cash discount period, increasing credit periods, or making greater charges for extension of credit. For purposes of this paragraph, no discount over 2% is considered a cash discount.

(2) Grading lumber into any other grades than permitted by this regulation; or wrongly grading or invoicing lumber in any other way.

(3) Refusing to sell on an f. o. b. yard basis, and insisting on selling on a delivered basis.

(4) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(5) Failing to invoice properly and in accordance with the requirements of this regulation.

(i) *Special specifications, workings, or extras.* For special workings, specifications, services or extras not specifically priced under any provision of this regulation, the seller should apply to the Office of Price Administration, Honolulu, T. H. for instructions. In the application the seller must set forth the amount customarily charged (not to exceed the maximum price fixed by the regulation previously controlling such as the General Maximum Price Regulation [25]), for the special working, specifications, service or extra, or in the absence of a customary charge, the amount which in his opinion represents a fair and reasonable charge, together with a statement of how it was arrived at. Instructions will be furnished by letter or telegram. After writing for instructions the seller may quote and deliver at the requested price, but must not accept final payment until the instructions have been received. In the event that they are not received within 30 days after application has been made, the price for which approval is requested shall be deemed to have been approved and may be used by the seller. Instructions issued pursuant to this paragraph apply only to the particular seller who has applied for them.

[25] 9 F.R. 1385, 5169, 6106.

(j) *Posting of price and delivery charges.* (1) On and after the effective date of this regulation every person offering to sell second hand lumber shall post the maximum prices for second hand lumber in a manner plainly visible to and understandable by the purchasing public, in his place of business.

(2) Upon authorization pursuant to paragraph (e) of this section by the Office of Price Administration of maximum delivery charges which may be made by the seller of second hand lumber, such seller shall immediately post a list of such charges at the place in the establishment where second hand lumber is sold.

[Sec. 54 added by Am. 24, 8 F.R. 15851, effective 11-15-43]

(b) *Definitions.* When used in this section the term:

(1) "Count" as applied to shrimp and prawn, means the number of processed shrimp or prawn to the pound.

(2) "Frozen shrimp and prawn" means shrimp and prawn that are naturally and artificially frozen.

(3) "Headless" means shrimp and/or prawn from which the head has been removed.

(4) "Headless and veined" means shrimp and/or prawn from which the head and alimentary canal (sand vein) have been removed.

(5) "Head on" means shrimp and/or prawn as it comes from the water.

(6) "Peeled" means shrimp and/or prawn from which the head and shell have been removed.

(7) "Peeled and veined" means shrimp and/or prawn from which the head, shell and alimentary canal (sand vein) have been removed.

(8) "Sale at retail" means a sale or selling to an ultimate user.

(9) "Sale at wholesale" means a sale to any person other than the ultimate consumer and shall include sales to licensed retail stores, peddlers, hotels, restaurants, licensed boarding houses, the United States or any of its political subdivisions, public institutions, and all commercial and industrial users.

(c) Maximum prices for sales at wholesale and retail of frozen shrimp and prawn not set forth in this section shall be a price approved by the Office of Price Administration, Iolani Palace, Honolulu, Hawaii, which approval shall be obtained before any such shrimp is sold or offered for sale at wholesale or retail.

[Sec. 55 added by Am. 25, 8 F.R. 15852, effective 11-1-43; and amended by Am. 39, 9 F.R. 1530, effective 11-16-43]

SEC. 56. *Maximum prices for distribution yard sales of softwood.*—(a) *What products are covered.* This section covers sales out of distribution yard stock of any lumber or shingles for which "direct mill" maximum prices are fixed in the following maximum price regulations as amended or revised:

Douglas Fir and other West Coast Lumber—Rev. MPR 26
Western Pine and Associated Species of Lumber—MPR 94
Red Cedar Shingles—MPR 164
Redwood Lumber—MPR 253
Sitka Spruce—MPR 290
Western Red Cedar—MPR 402.

This section sets maximum prices which are based upon the price definitions contained in the above "direct mill" regulations. Every dealer affected by this section should, therefore, secure copies of the above regulations for use in connection with this section. Any amendments or revisions subsequently issued to the above regulations shall become effective in the Territory of Hawaii sixty days after the effective date set forth in any such amendment or revision.

(b) *What a distribution yard is.* (1) A "distribution yard" is a wholesale or retail yard which gets lumber from mills or other yards; unloads, sorts, stores and resells or redistributes it; which regularly maintains a varied stock of lumber from different regions; which is equipped to make quick deliveries of different items of lumber and which has been located at its particular site in order to be near a lumber consuming area.

(2) Any wholesale or retail distributor, of softwood covered by this section, who does not maintain a "yard" but who performs any of the operations outlined in subparagraph (1) above, or who sells to his customers on a drop shipment basis, shall be considered to be operating a "distribution yard" for the purposes of this section.

[Paragraphs (a) and (b) amended by Am. 41, 9 F.R. 2659, effective 1-31-44]

(c) *Maximum prices.* (1) The maximum price for sales out of distribution yard stock is the sum, less the amount of any cash discount up to 2% allowed by the seller during October, 1941, of the following:

(i) "Landed cost" as determined under paragraph (d) hereof, plus

(ii) $5.00 per MBM "handling charge" (or 30¢ per square for shingles and 60¢ per M pieces of lath), plus

(iii) The following percentage markups to be applied to the sum of (i) and (ii) above.

(*a*) Quantities of over MBM—45%.
(*b*) Quantities of MBM, or less—50%.

(iv) The amount of any charges permitted under paragraphs (e), (g), (h), and (n) hereof.

(2) The maximum price for sales of softwood ordered for the buyer by a distribution yard and delivered to him at the dock in the port of entry in the Territory of Hawaii shall be the sum of the following:

(i) "Landed cost" as determined under paragraph (d) hereof, plus

(ii) 10% of the f. o. b. mill maximum price.

(d) *Landed cost.* (1) For lumber imported directly from the mainland of the United States landed cost shall be the sum of the following amounts:

(i) F. o. b. mill maximum price, in the mill regulation for the particular species, regardless of the amount actually paid to the mill.

(ii) An amount equal to the transportation charges, if any, actually incurred by the dealer for transportation from the mainland point at which the dealer received delivery to the mainland port of ocean shipment, including Federal transportation taxes and terminal charges.

(iii) An amount equal to any charges incurred on the mainland of the United States for wharfage, demurrage, handling, and/or spraying of lumber for the purpose of camouflaging.

(iv) An amount equal to mainland storage charges and insurance in connection with such storage, actually incurred by the dealer. Charges for storage and insurance in connection therewith in excess of three months shall not be included.

(v) An amount equal to cartage charges actually incurred by the dealer for cartage from the storage yard to the dock in port of ocean shipment.

(vi) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the dealer, including Territorial tolls and tonnage tax shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rate charged by the War Shipping Administration shall not be included.

(vii) An amount not in excess of $1.50 per MBM where cartage from the dock to the yard in the port of entry in the Territory of Hawaii is at the expense of the distribution yard. Where such cartage is for longer hauls than those normally made prior to December 7, 1941, such amount may be equal to the actual costs incurred for such cartage in the following cases only:

(*a*) Where the customary port of entry has, due to war conditions, been closed to commercial shipping.

(*b*) Where a yard is now located farther from its customary port of discharge due to war conditions.

(2) For lumber received from or via another island in the Territory of Hawaii, landed cost shall be the sum of the following amounts:

(i) An amount equal to the maximum price in the island from which the lumber was shipped, as determined under paragraph (d) (1) above:

(ii) An amount equal to cartage charges for cartage from the yard to dock in the island from which the lumber was shipped, but shall not exceed the rate permitted in paragraph (d) (1) (vii) above:

(iii) An amount equal to ocean freight, war risk and marine insurance actually incurred by the dealer for shipment between the islands, including Territorial tolls and tonnage tax shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rate charged by the War Shipping Administration shall not be included.

(iv) An amount equal to cartage charges from dock to yard in the island on which the dealer is located, but shall not exceed the rate permitted in paragraph (d) (1) (vii) above.

(3) If an identical item on hand in the distribution yard has two or more different landed costs then the landed cost for the item may be determined by calculating a weighted average landed cost for the entire inventory of that item on hand. Weighted average landed cost shall be calculated as follows:

(i) Each different landed cost shall be multiplied by the number of units having such landed cost. The products of such multiplication shall be added and the sum thereof divided by the total number of units for which the weighted average landed cost is desired. The quotient or result of such division is the weighted average landed cost. This provision is permissible and is not mandatory. The distribution yard need not average the different landed costs for the identical item but may establish the maximum price for each of the items on the basis of its appropriate landed cost.

(e) *Delivery charges.* (1) No charges for deliveries may be made for deliveries within a radius of five miles of the distribution yard.

(2) For deliveries to points more than five miles from the distribution yard, the following delivery charges may be made:

(i) Where the delivery is made by common or contract carrier, an amount equal to the charge made by the carrier to the distribution yard for such delivery.

(ii) Where the delivery is made with equipment owned or operated by the distribution yard, an amount not in excess of a maximum charge for such delivery which has been authorized by the Office of Price Administration. In order to obtain authorization for such charges, the distribution yard should file with the Office of Price Administration, Honolulu, T. H., a list of proposed maximum charges for such deliveries. If such proposed charges are not in excess of those currently made by common or contract carriers whose services are available in the area served by the distribution yard, such charges will be authorized and the distribution yard notified that such authorization has been made. Such authorization shall be subject to revocation by the Office of Price Administration.

(3) Any charge made for delivery must be separately stated and shown on the invoice, bill of sale, or such sales memorandum as may be used in connection with the sale.

(f) *Prices must be evened out.* In all sales under this section the maximum prices shall be evened out to the nearest 25¢ per MBM on all sales involving a quantity over 1 MBM (or to the nearest 5¢ per square for shingles, or thousand pieces of lath). Where the quantity is 1 MBM or less, the maximum price may be established as per foot or lineal foot, in which event it must be evened out to the nearest quarter of a cent per foot.

(g) *Maximum milling charges.* (1) The following additions per 1000 ft. BM may be made to the maximum prices when the following workings are required to be performed by a distribution yard and are actually performed by it. These charges are to apply to the total quantity involved in one order where the milling does not involve a change in the machine set-up. These are to be added to the maximum price as determined under paragraph (c) hereof; that is, no percentage mark-up may be applied to the amount of the working charge.

(2) Where the required working cannot be performed by the distribution yard making the sale because it does not have the necessary facilities, the yard may add to the maximum prices the milling charges set forth in subparagraph (1) above for having this work performed at a custom establishment. In adding the working charges permitted by this regulation, the distribution yard may not make any extra charge for hauling or trucking that may be required in getting the stock to or from the custom establishment.

(3) When any of the above charges for workings at the yard or at a custom establishment are made, the invoice, bill of sale or other billings must clearly state that the working was done at the distribution yard or at the custom establishment, and the amount must be separately shown.

(4) When lumber is normally ordered rough, due to shipping and climatic conditions an addition for surfacing when required may be added. However, when lumber is ordered surfaced or run to pattern at the mill, no addition over the mill ceiling prices may be added. The additions for ripping, resawing and cross cutting to standard sizes may only be added when it is impossible to procure through normal channels the desired size. In no case may the final cost including milling charges, saw-kerf and waste exceed the most economical final cost of producing the required size. The addition of unnecessary milling charges as a means of increasing the maximum selling price is a violation of this regulation.

(5) When remanufacturing boards, dimension, plank or small timbers from heavier lumber at the yard, a listing of the original sizes as well as a copy of the invoice covering the transaction must be kept on file for inspection by the Office of Price Administration.

(h) *Seasoned lumber.* An addition of $4.00 per MBM may be added for lumber seasoned in the Territorial distribution yards. For the purpose of this regulation seasoned lumber means lumber which has been properly stuck for drying, protected from the elements and which has been on sticks not less than 180 days. This addition is to be added after the percentage mark-up has been added; that is, no percentage mark-up may be applied to the amount of the seasoning charges.

(i) *Lumber in transit.* A sale by a distribution yard may be considered a sale out of distribution yard stock even if the sale was made while the lumber was in transit to the yard.

(j) *What the invoice must contain.* All invoices must contain a sufficiently

complete description of the lumber to show whether the price is proper or not: i. e., grade, quantity, size, condition of dressing, pattern, species, and any other extra, or specification which affects the maximum prices. The amount added for each specification or extra does not have to be separately shown except in those cases where the provision permitting the addition expressly requires it. Where the invoice does not specify the amount of each grade shipped or delivered the maximum price of the lowest grade in the shipment shall apply to the whole order.

(k) *Prohibited practices.* In addition to the practices prohibited by section 6 of this MPR 373, the following specific practices are prohibited:

(1) Getting the effect of a higher price by changing credit practices or cash discounts from what they were in October, 1941. This includes reducing the cash discount period, decreasing credit periods, or making greater charges for extension of credit. For purposes of this paragraph, no discount over 2 percent is considered a cash discount.

(2) Selling as specified lengths a shipment of lumber which is substantially equivalent to standard or random lengths.

(3) Grading as a special grade lumber which can be graded as a standard grade; or wrongly grading or invoicing lumber in any other way.

(4) Refusing to sell on an f. o. b. yard basis, and insisting on selling on a delivered basis, except in the case of sales whose price includes free delivery; or refusing to make delivery within the free delivery zone, unless it has not been the practice of the seller to make delivery in the particular circumstances.

(5) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(6) Breaking up an order which would normally be a single order into a series of smaller orders in order to evade the maximum price limitations in this regulation.

(7) Failing to invoice properly and in accordance with requirements of this regulation.

(l) *Combination grades.* Lumber sold on combination grades may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as No. 2 Common and better is the maximum price fixed for No. 2 Common lumber. But it is permissible to quote a grade with specified percentages of higher grade: *Provided*, That when the lumber is shipped, lumber of each grade is tallied on a board foot basis and invoiced separately at prices not in excess of ceiling prices for the respective grades.

(m) *Determination of quantities.* Quantity is in every instance to be determined by the total amount ordered without regard to the number of kinds or species or grades of lumber included. Furthermore, the amount delivered at a particular time does not determine the quantity. The test is the total amount involved in the transaction. For example, if buyer and seller at the time the sale is negotiated know that the quantity to be bought for a particular job will run to 20,000 feet, the sale is one for 20,000 feet even though it may be split into five orders of 4,000 each or requisitioned in quantities of 4,000 feet, and this is true regardless of whether five different deliveries in loads of 4,000 feet each are made on different days. In determining the size of sale of shingles or lath, a conversion ratio of 10,000 shingles to 1,000 board feet of lumber and 6,000 lath to 1,000 board feet of lumber shall be used.

(n) *Special specifications, workings or extras.* For special workings, specifications, services or extras not specifically priced under any provision of this regulation, the seller should apply to the Office of Price Administration, Honolulu, T. H., for instructions. In the application the seller must set forth the amount customarily charged (not to exceed the maximum price fixed by the regulation previously controlling such as the General Maximum Price Regulation), for the special working, specifications, service or extra, or in the absence of a customary charge, the amount which in his opinion represents a fair and reasonable charge, together with a statement of how it was arrived at. Instructions will be furnished by letter or telegram. After writing for instructions the seller may quote and deliver at the requested price, but must not accept final payment until the instructions have been received. In the event that they are not received within 30 days after application has been made, the price for which approval is requested shall be deemed to have been approved and may be used by the seller. Instructions issued pursuant to this paragraph apply only to the particular seller who has applied for them.

(o) *Effect of changes in mill ceilings.* (1) All changes in the f. o. b. mill ceiling prices (on which the prices established herein are built) apply to all sales made under this regulation as of their effective date. For example, if the ceiling price of No. 1 Common 2 x 4—16' Douglas fir, which is priced at $29.50 per MBM under RMPR 26, should be reduced to $28.50 per MBM, effective December 1, 1943, in establishing the maximum price under this regulation for that item after December 1, 1943, the reduced price, i. e., $28.50 per MBM, shall be used in building up the distribution yard maximum ceiling price regardless of whether or not the seller had stocks on hand at the time which had been purchased at the higher price. The same rule applies to ceiling increases.

(2) Where an amendment to, or a revision of, a mill schedule deletes a specific price for an item theretofore priced, a distribution yard having stocks of the item in inventory or actually in transit on the effective date of the amendment or revision shall have 90 days from the effective date thereof within which to sell these stocks on the basis of ceiling prices in effect before the deletion. Thereafter, it may not use the additions previously established in computing its selling price.

(3) Where producer establishes a specific price for an item under a special pricing provision of a mill schedule, any distribution yard selling that item may use the price so established in figuring its selling price under this regulation, provided it first obtains from the producer written assurances that an authorization has been issued to him, and provided further, that the distribution yard files a copy of its purchase invoice with the Office of Price Administration, Honolulu, T. H.

(p) *Issuance and posting of dollar and cents prices and delivery charges.* (1) On or before November 30, 1943, every distribution yard offering to sell any lumber covered by this section shall prepare a dollar and cents price schedule covering all standard items of lumber. Standard items means the items which have heretofore normally been included in the price lists issued by the distribution yard. A copy of such price schedule must be posted at the place in the establishment where lumber is sold. A copy of such price schedule must also be filed with the Office of Price Administration, Honolulu, T. H.

(2) Upon authorization pursuant to paragraph (e) (2) (ii) by the Office of Price Administration of maximum delivery charges which may be made by a distribution yard, such distribution yard shall immediately post a list of such charges at the place in the establishment where lumber is sold.

[Sec. 56 added by Am. 26, 8 F.R. 15862, effective 11-15-43 and amended as otherwise noted]

SEC. 57. *Maximum prices for used passenger automobiles*—(a) *Applicability of this section.* This section applies to all sales by dealers and other persons of used passenger automobiles.

(b) *Prohibition against dealing in used cars at prices above the maximum.* (1) On and after December 1, 1943, regardless of any contract or other obligation, except as provided in subparagraphs (2), (3) and (4) below,

(i) No person shall sell or deliver any used car at a price higher than the maximum price permitted by this section; and

(ii) No person, in the course of trade or business, shall buy or receive a used car at a price higher than the maximum price permitted by this section, but if he, the purchaser, has received from the seller a statement that the price charged does not exceed the maximum price, and he has no knowledge to the contrary, he shall be deemed to have complied with this subdivision (ii); and

(iii) No person shall agree, offer or attempt to do any of the acts prescribed in subdivisions (i) and (ii) of this section.

(2) The provisions of subdivision (ii) above shall not be applicable to any War Procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer of the United States, with respect to this section, shall be relieved of any and every liability, civil or criminal, imposed by this section or by the Emergency Price Control Act of 1942, as amended.

(3) Nothing in this section shall prevent the fulfillment of any contract for the purchase of a used car whether in the nature of a conditional sales agreement, rental contract providing for purchase or other arrangement, entered into before December 1, 1943, and under which the used car has been delivered prior to December 1, 1943.

(4) Where a promissory note covering payment to a dealer or other seller for a car is discounted by a bank, finance company, or other person and the latter takes possession of the used car after default by the maker of the note, the return of the repossessed used car to the dealer in connection with recovery from him of the unpaid balance of the note does not constitute a sale, purchase, or transfer subject to this section. However, the sale of a repossessed used car by such a holder of "car paper" at public or private sale, except the return of a used car in connection with a contract to repurchase, is subject to this section. Notwithstanding the provisions of this paragraph, where a promissory note covering payment to a dealer or other seller for a car is discounted by a bank, finance company, or other person and the latter takes possession of the used car after default by the maker of the note, nothing in this section shall prevent the bank, finance company, or other person who discounted the note from selling the used car for an amount not exceeding the unpaid balance on the note, or the applicable maximum price if it is higher, in the case of a used car delivered prior to December 1, 1943, by the dealer to the person making the note. For the purposes of this paragraph, a conditional sale agreement shall be deemed a promissory note, and the buyer under such contract the maker thereof.

(c) *Relation to other regulations.* The transactions, persons, and commodities subject to this section shall not be subject to any other regulation issued by the Office of Price Administration insofar as they are affected by this section.

(d) *Less than maximum prices.* Prices lower than maximum prices established by this section may be charged and paid.

(e) *Maximum prices for used cars.* To figure the maximum price for the sale of a used car, the seller must:

(1) Find the base price according to paragraph (f); and

(2) Add to it the allowance in Table C for any piece of equipment listed there which is sold attached to the car; and

(3) If the car is a warranted car (as defined in paragraph (g)), add $100.00 or, if it is higher, add 20% of the total of the base price and any equipment allowance.

(f) *How to find the base price.* In figuring his maximum price, the seller shall first determine his base price of the car he is selling as follows:

(1) *For a complete car listed in Table B.* His base price shall be the base price listed in Table B for that car.

(2) *For a complete car not listed in Table B.* (i) If its body and chassis were made by different manufacturers, his base price shall be the base price listed in Table B of the most comparable car of the same make, model, year, body type, passenger capacity and wheel base.

(ii) If its make is not listed in Table B, his base price shall be the base price listed in Table B of the most comparable car as to model, year, body type, passenger capacity and wheel base.

(iii) If its year model is 1934 or before, and the make is listed in Table B, his base price shall be the base price listed in Table B for the 1935 year model of the same make, body type, passenger capacity and wheel base less 5% of that amount for each year that the year of the model being sold antedates the year 1935.

(iv) If its year model is 1934 or before and the make is not listed in Table B, his base price shall be the base price listed in Table B for the 1935 year model car which is most comparable as to model, year, body type, passenger capacity and wheel base less 5% of that amount for each year that the year of the model being sold antedates the year 1935.

[Paragraphs (e), (f) (1) and (2) amended by Am. 51, 9 F.R. 4245, effective 3-31-44]

(3) *For a chassis or body.* (i) If a chassis of a car is sold separately, the base price shall be 70% of the base price established by this section for the complete car.

(ii) If the body of a car is sold separately, the base price shall be 30% of the base price established by this section for the complete car.

(4) *For a complete car consisting of a used chassis and a new body.* When a seller sells a complete car consisting of a new body attached to a used chassis, the base price shall be:

(i) The base price for the used chassis as established by this section, plus

(ii) The price of the new body under the applicable maximum price regulation.

(g) *Warranted used cars.* (1) A warranted used car is one in good operating condition with which the dealer furnishes the following warranty:

DEALER'S WARRANTY

The used car described below is hereby warranted to be in good operating condition, and to remain in such condition, under normal use and service for a period of 30 days after delivery, or 500 miles, whichever may first occur.

We agree, if said car is delivered during the above period to our place of business, to make with reasonable promptness any repairs or replacements which may be necessary to its good operating condition in accordance with normal use and service.

This warranty does not extend to tires, tubes, paint, glass, upholstery, or to any repairs or replacements made necessary by misuse, negligence or accident.

Serial or motor number_____

(2) *Additional warranties by dealer.* A dealer may extend to the purchaser warranties in addition to those provided in the warranty stated in subparagraph (1) above, but this shall be done in a warranty separate and in addition to the warranty provided in subparagraph (1) above, and the maximum price established by paragraph (e) shall not be increased thereby.

(3) *Purchaser's legal remedies for dealer's failure to perform obligations of warranty.* The nature of a purchaser's legal remedies for the breach of a dealer's warranty, which are those existing under Territorial law, is not changed by this section.

(h) *Federal and other taxes.* There may be added to the maximum price for any used car the amount of any Federal, Territorial, and municipal tax upon, or incident to, the sale, delivery, processing or use of such used car. The amount of such tax must be stated separately on the report of transfer required under paragraph (k). Any taxes paid on the car or extra equipment when new are not to be added to, or included in, the maximum price under this section. Where a tax is based on a period of use, only the portion of such tax proportionate to the unexpired portion of the period may be added.

(i) *Evasion.* It shall be a violation of this section to charge a price above the applicable maximum price in connection with any sale of a used car, either alone or in conjunction with any other consideration even though the price increase appears only indirectly. Specifically, the seller is not permitted to require the purchaser, as a condition of the sale or transfer of the car, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the maximum price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging or transferring or trading in any other vehicle or other product or commodity, or where there is an exchange, transfer or trade-in, to require him to accept an allowance for the vehicle, product, or commodity exchanged, transferred or traded in which is below its reasonable value. Furthermore, the seller is prohibited from providing for purchase of the used car by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable maximum price at the time the rental contract is entered into, and from making the terms and conditions of same more onerous to purchasers than they have customarily been except to the extent allowed by this section. However, the Office of Price Administration, Hawaii Territorial Office, may upon written request grant written permission to any dealer subject to this section to change his credit terms, where such change is necessitated by orders issued by, or at the request of, the United States.

(j) *Label or tag to be attached by dealer to a used car.* Every dealer offering a used car for sale shall attach to it in a conspicuous place a label or tag not smaller than 4" x 8" in the form set forth in Table A, on which shall be set forth legibly all of the information called for in Table A.

(k) *Report of transfer which must be completed for sale of a used car.* Every

person, when he sells a used car, shall complete a Report of Transfer of Used Passenger Automobile, OPA Form THP 3, which may be obtained from any dealer or from any War Price and Rationing Board. The seller shall insert the details of the sale on the said report form, and shall sign such report and certify as to the truth and accuracy of the same before the Executive Secretary or an authorized clerk of the War Price and Rationing Board that issued the gasoline rations for the car that is being sold. Upon completion of the above requirements, the seller shall deliver such report to the buyer, who shall then sign and certify as to the truth and accuracy of the same before the Executive Secretary or an authorized clerk of his local War Price and Rationing Board. The completed report must then be filed by the buyer with the said Board. However, where a dealer is the buyer, he shall file the report with said board within 5 days of the purchase.

[Paragraph (k) amended by Am. 58, 9 F.R. 5438, effective 4-1-44]

(l) *Definitions.* When used in this section, the term:

(1) "Used passenger automobile" (called "used car") means any automobile which has a seating capacity of less than eleven persons and which, irrespective of mileage, has been used for any purpose other than for the purpose of selling it. The definition includes, but is not limited to, taxicabs and station wagons and chassis and bodies for used cars, but does not include 1942 model cars used as demonstrators, or chassis and bodies of 1942 model cars used as demonstrators.

(2) "Dealer" means a person engaged in whole or in part, in the business of buying, selling, repairing and reconditioning used cars and who maintains a place of business for the display, sale, repairing and reconditioning of such cars. A person who cannot qualify as a dealer because he does not maintain a place for repairing and reconditioning may be approved in writing as a dealer under this section by the Office of Price Administration, Hawaii Territorial Office, or by the nearest District Office of the Office of Price Administration, if he provides adequate evidence to that office that he has established, and is in a financial position to maintain, a working arrangement with a reputable business engaged in the repair and reconditioning of used cars.

(3) "Sale" includes sales, dispositions, exchange, and other transfers and contracts and offers to do any of the foregoing. It includes conditional sales and sales under rental contracts, lease agreements or other agreements. It also includes transfers by banks, finance companies, or other persons discounting promissory notes following the taking of possession by such persons upon default of the person making such promissory notes. The term "sale" does not refer to the adjustment of losses made in connection with settlements of claims under policies of insurance against fire, theft, collision, other loss of property or other coverage, even though the right of subrogation may be involved. The terms "sale", "seller", "selling", "purchase", "purchaser" and "purchasing" shall be construed accordingly.

(4) "War Procurement Agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, the Lend-Lease Section of the Procurement Division of the Treasury Department, and the following subsidiaries of the Reconstruction Finance Corporation: Rubber Reserve Corporation, Metals Reserve Corporation, Defense Plant Corporation and Defense Supplies Corporation, or any agency of any of the foregoing.

TABLE A—TAGS TO BE AFFIXED BY DEALERS

The labels or tags prescribed in paragraph (j) hereof shall identify the used passenger automobile not less fully than by setting forth the make, year, model, series, if any; body type, "in-built" equipment or radio, if any; amount of allowance for "in-built" equipment or radio, if any; and the maximum price warranted, if the vehicle is sold with the written warranty as provided in paragraph (g) hereof; or the maximum price without warranty if sold without warranty; and further, each tag must show the statement: "The prices itemized do not exceed the maximum prices established by section 57, OPA Regulation 373, a copy of which is available for inspection."

An example of such tag is set forth below:

Make—Chevrolet.	Maximum price (warranted) $1,275.60
Year—1941.	
Model—A H.	Maximum price (without warranty) -----
Series—Spec. deluxe.	
Equipment—Radio.	Price of equipment (Included in maximum price) $30.00

The prices itemized do not exceed the maximum prices established by section 57, OPA Regulation 373, a copy of which is available for inspection.

Over 700 square inches	.07	.13	.18

(NOTE: The maximum prices listed in Tables A and B above are for finished work, which includes drying and pressing of the printed items. The number of square inches in a print shall be determined by multiplying the width of the print by the length. Length and width shall be measured at the longest and widest portions of the print.)

(d) *Definitions.* (1) "Textile printing" means printing on cloth.

(2) "Block printing" is the reproducing of a decorative design or pattern on cloth by means of a linoleum, zinc or wood block.

(3) "Screen printing" is the reproducing of a decorative design on cloth by means of a silk screen.

(4) "Stenciling" is the reproducing of a decorative design by means of a stencil.

(5) A "print" is a complete design or pattern, printed on cloth, regardless of the number of separate blocks, screens or stencils used in printing the design.

(6) "Textile inks" are those inks commonly known as and labeled as textile inks.

(7) "Printer's inks" are those inks commonly known as and labeled as printer's inks.

(8) "Block printing inks" are those inks which are commonly known as and are labeled block printing inks.

(9) "Certain apparel items" include only the following articles of wearing apparel: dresses, jumpers, skirts, blouses, pinafores, slacks and slack suits, lounging pajamas, housecoats, hostess coats, kimonas, negligees, negligee and gown sets, bed jackets, bed jacket and gown sets, swim suits and sun suits, play suits and shirts; but does not include polo shirts, undershirts, aprons, separate nightgowns, sleeping pajamas and articles commonly known as accessories.

(10) "All other items" include all items made of woven or knitted fabric except those specifically termed "certain apparel items" in subparagraph (9).

(e) *Records and reports.* In addition to such records as the seller is required to keep under section (10) (a) (1) of this regulation, every person making a charge for textile printing, including block printing, screen printing or stenciling, shall furnish the buyer at the time of delivery with a written invoice or sales memorandum, setting forth the following information:

(1) The date of sale.

(2) The name and address of the buyer and seller.

(3) A description of the print reproduced.

(4) The number of reproductions of each print.

(5) The measurement in square inches and the number of colors in each print.

(6) The word "textile" or letter "T" if 100% textile ink is used in reproducing the print.

(7) The price paid or received.

A duplicate of this invoice or sales memorandum must be kept by the seller for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

[Sec. 58 added by Am. 31, 9 F.R. 301, effective 11-18-43; and amended by Am. 64, 9 F.R. 6815, effective 7-15-44 (effective date provision amended by Am. 70, 9 F.R. 7424, effective 6-13-44)]

SEC. 60. *Maximum prices for finished piece goods at wholesale and retail*—(a) *To what commodities and transactions this section applies*—(1) *What commodities are covered.* This section applies to all finished piece goods 12" or more in width. These are classified as follows:

(i) *Woolen or worsted fabrics.* This classification includes all finished piece goods composed of 5% or more of woolen fiber.

(ii) *Dress goods.* This classification includes all finished piece goods commonly used for dress or other garment making except the following: Woolen or worsted fabrics, canvas, denim, cotton duck, cotton drill, men's shirting chambray, work clothing, suedes, whipcord, khaki, buckram, cotton jean, lining materials, sateen, terry cloth, cotton twill, cotton flannel and flannelette, belting cloth, moleskin and coutil.

(iii) *Table damask.* This classification includes finished piece goods commonly known as table damask.

(iv) *Upholstery and drapery fabrics.* This classification includes all finished piece goods commonly used for upholstery and for draperies and includes repp, monk's cloth, damask, cretonne, brocatelle, mohair, brocades, tapestry, novelty upholstery fabrics, and chenille, but does not include denim, canvas, blackout cloth, ticking, buckram, burlap, lining materials, sateen, automobile upholstery and top material, window shade cloth and awning materials.

(v) *Curtain materials.* This classification includes all finished piece goods commonly used for curtains and includes marquisette, net scrim, lace and dotted swiss, but does not include oilcloth, kitchen cloth, shower cloth, gauze, mosquito netting and cheesecloth.

(vi) *All other fabrics.* This classification includes all finished piece goods not included in any of the foregoing classifications and includes finished piece goods commonly used for utility or household purposes such as oilcloth, kitchen cloth, shower cloth, canvas, demin, cotton duck, cotton drill, men's shirting chambray, work clothing suedes, whipcord, khaki, waterproof sheeting, blackout cloth, sheeting, towelling, casing, gauze, ticking, unbleached muslin, mosquito netting, cheesecloth, awning material, buckram, burlap, cotton jean, lining materials, sateen, terry cloth, cotton twill, cotton flannel and flannelette, diaper cloth, belting cloth, bunting, table and laundry felt, moleskin, coutil, buff cloth, filter press cloth, auto upholstery and top material, window shade cloth, and similar materials.

(2) *What transactions are covered.* This section applies to all sales by converter-jobbers and sales at wholesale and retail of the finished piece goods described in subparagraph (1) above.

(3) *Effect upon General Maximum Price Regulation for Hawaii and other maximum price regulations.* The provisions of this section supersedes the provisions of the General Maximum Price Regulation for the Territory of Hawaii, General Order No. 49, and all other maximum price regulations issued by the Office of Price Administration, except as hereinafter provided, with respect to sales at wholesale and at retail in the Territory of Hawaii of the finished piece goods set forth in subparagraph (1) above.

(b) *Maximum prices for sales at wholesale.* The maximum prices for sales at wholesale of finished piece goods shall be:

(1) Where the sale is by a wholesaler or jobber who has purchased the finished piece goods from a mainland converter as a Class I purchaser, the maximum price shall be an amount equal to the sum of the invoice price, less all allowable discounts and allowances except cash discounts up to 2% and the "landing costs" (as defined in paragraphs (f) or (g)), multiplied by 1.22; *Provided*, That:

(i) The wholesaler or jobber carries such finished piece goods in stock, and

(ii) The particular finished piece goods are to be sold out of such stock, and

(iii) The particular finished piece goods are invoiced and shipped directly from the establishment of the converter to the establishment of the wholesaler or jobber, and

(iv) The wholesaler or jobber has in his possession proof that he purchased as a Class I purchaser from the converter. (Where the wholesaler or jobber has purchased finished piece goods from a converter-jobber, he must also have in his possession proof that such finished piece goods were finished by or for the account of such converter-jobber and that no wholesale mark-up has been taken on the finished piece goods.)

(2) Where the sale is by a wholesaler or jobber who has purchased the finished piece goods from a mainland converter as a Class I purchaser and does not sell such finished piece goods out of stock and the finished piece goods were not shipped directly from the establishment of the converter to the establishment of the wholesaler, or jobber, the maximum price shall be an amount equal to the invoice price, less all allowable discounts and allowances multiplied by 1.12: *Provided*, That:

(i) The wholesaler or jobber has in his possession proof that he purchased as a Class I purchaser from the converter. (Where the wholesaler or jobber has purchased finished piece goods from a converter-jobber, he must also have in his possession proof that such finished piece goods were finished by or for the account of such converter-jobber and that no wholesale mark-up has been taken on the finished piece goods.)

(3) Where the sale is by a wholesaler or jobber who has purchased the finished piece goods from a local wholesaler or jobber, the maximum price shall be the same as the maximum price of the local wholesaler or jobber from whom he purchased, as computed under subparagraph (1) or subparagraph (2) of this paragraph.

(4) Where the sale is by a wholesaler or jobber who has purchased the finished piece goods from a mainland converter as a Class II purchaser, or has purchased from a mainland wholesaler or jobber, the maximum price shall be an amount equal to the sum of the invoice price, less all allowable discounts and allowances except cash discounts up to 2% and the "landing costs" (as defined in paragraph (f) or (g)), except in the case of woolen or worsted fabrics sold to custom tailors. In such case the maximum price shall be determined by the pricing formula provided in subparagraph (1) above.

(5) *Sales by local sub-jobbers.* (i) The maximum price for sales by a local sub-jobber of any finished piece goods, listed and described in paragraph (a) of this section, to a retail establishment shall be:

(*a*) Where the sale is by a sub-jobber who purchased the finished piece goods from a mainland converter, as a Class II purchaser, or from a mainland converter-jobber, wholesaler or jobber, the maximum price shall be computed by multiplying the converter's, converter-jobber's, wholesaler's or jobber's maximum selling price less all allowable discounts and allowances except cash discounts up to 3%, by 1.25.

(*b*) Where the sale is by a sub-jobber who purchased the finished piece goods from a local converter-jobber, wholesaler, or jobber, the maximum price shall be computed by multiplying the converter-jobber's, wholesaler's or jobber's maximum wholesale price, as computed under subparagraph (1) of this paragraph, by 1.18.

(ii) Any sub-jobber who wishes to establish maximum prices in accordance with this paragraph must file with the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., a petition for permission to do so. Such petition must show that the applicant has been regularly engaged in performing the function of a sub-jobber during the year 1943 and must also show the estimated percentage of sub-jobbing business done in relation to the total sales during the years 1942 and 1943.

(6) *Inability to price finished piece goods.* Any person who is unable to determine his maximum price for finished piece goods under subparagraphs (1), (2), (3), (4), or (5) above, shall apply to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., for determination of the maximum price.

(c) *Maximum prices for sales by converter-jobbers.* The maximum price for sales by a local converter-jobber of finished piece goods which the converter-jobber finishes or causes to be finished for his account shall be the maximum price established for each converter-jobber upon his application to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H. The application of a converter-jobber for the establishment of such maximum prices must show:

(1) The basic grey goods cost.

(2) The grey freight.

(3) Working allowance.

(4) Finishing cost.

(5) Put-up charges.

(6) The "landing costs" (as defined in paragraph (f) or (g)). With the exception of "landing costs", the foregoing items of cost shall be determined in the manner specified in Maximum Price Regulation 127, as now or hereafter amended.

(d) *Averaging of prices by converter-jobber, wholesaler or jobber.* Where a converter-jobber finishes or causes to be finished for his account or a wholesaler or jobber purchases various colors of the same pattern or style, and where the maximum prices for such colors vary, or where maximum prices for separate lots of the same pattern or style vary, the converter-jobber, jobber or wholesaler shall, after computing the maximum price for each color or lot, determine and use as his maximum price for the entire pattern, style or lot a weighted average of such varying prices.

(e) *Premiums allowed wholesalers*—(1) *Sales of cut lengths.* A premium not in excess of 10% of the applicable maximum price may be charged on the sale of cut lengths less than 20 yards when such lengths are cut from a larger piece by the wholesaler to fill a specific order.

(2) *Sales of woolen or worsted fabrics, lining materials and canvas to custom or merchant tailors.* (i) A premium not exceeding 10% of the applicable maximum price may be charged on the sale of full lengths.

(ii) A premium not exceeding 20% of the applicable maximum price may be charged on the sale of cut lengths.

(iii) A premium not exceeding 30% of the applicable maximum price may be charged on the sale of cut lengths of 15 yards or less when the woolen or worsted fabric is purchased by the local wholesaler from a mainland converter or manufacturer.

(iv) A premium not exceeding 40% of the applicable maximum price may be charged on the sale of cut lengths of 15 yards or less when the woolen or worsted fabric is purchased by the local wholesaler from a mainland wholesaler or jobber.

(f) *Landing costs.* For articles imported from outside the Territory of Hawaii "landing costs" shall be the total of the following amounts:

(1) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery, to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(2) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of three months shall not be included.

(3) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(4) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler, and there may be included in this amount Territorial tolls and tonnage taxes as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer and seller.

(5) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of $1.20 per ton, weight or measurement, *Provided*, That the commodity is moved from the dock at the wholesaler's expense.

(g) *Landing costs in cases of interisland shipments.* In the case of finished piece goods originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory, the "landing costs" in the island of final destination for sale at wholesale shall be:

(1) An amount equal to the "landing costs" at the island from which the article was shipped, calculated under paragraph (f), above.

(2) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped, calculated at the rate set forth in paragraph (f) (5), above, whether or not such cartage charges are actually incurred but in no event shall such cartage charges exceed public (common or contract) carrier rates.

(3) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for shipment between the islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(4) An amount equal to cartage charges on the island of destination, from dock to warehouse, computed at a rate not in excess of the amount set forth in paragraph (f) (5), above, *Provided*, That the articles are moved from the dock at the wholesaler's expense.

(h) *Maximum prices for sales at retail*—(1) *Mainland purchases.* The maximum price for sales at retail of finished piece goods shall be computed by multiplying the converter's or the primary converter-jobber's, wholesaler's or jobber's invoice price, less all allowable discounts and allowances except cash discounts up to 3%, by the figure in column (1) of the table below for the classification of goods to be priced.

(2) *Local purchases.* The maximum price for sales at retail of finished piece goods shall be:

(i) Where the sale is by a retailer who has purchased the finished piece goods from a local converter-jobber, wholesaler or jobber who has computed his maximum price for the sale under paragraph (b) (1), the maximum price shall be an amount equal to the invoice price, less all allowable discounts and allowances except cash discounts up to 3%, multiplied by the figure in column (2) of the table below for the classification of goods to be priced.

(ii) Where the sale is by a retailer who has purchased the finished piece goods from a local converter-jobber, wholesaler or jobber who has computed his maximum price for the sale under paragraph (b) (2), the maximum price shall be an amount equal to the invoice price, less all allowable discounts and allowances, multiplied by the figure in column (1) of the table below for the classification of goods to be priced.

(iii) Where the sale is by a retailer who has purchased the finished piece goods from a local sub-jobber who has computed his maximum price for the sale under paragraph (b) (5), the maximum price shall be an amount equal to the sub-jobber's maximum allowable price multiplied by the figure in column (3) of the table below for the classification of goods to be priced.

TABLE OF RETAIL MULTIPLICATION FIGURES

	Mainland purchases	Local purchases	
	Column (1)	Column (2)	Column (3)
Woolen or worsted fabrics	1.80	1.65	1.35
Dress goods	1.75	1.60	1.35
Table damask	1.75	1.60	1.35
Upholstery and drapery fabrics	1.85	1.65	1.35
Curtain materials	1.75	1.60	1.35
All other fabrics	1.65	1.50	1.35

(3) *Inability to determine maximum price at retail.* Any person who is unable to determine his maximum price at retail under subparagraph (1) or (2) of this paragraph (h) shall apply to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., for determination of the maximum price.

(i) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the resulting maximum wholesale or retail prices determined on the basis of the allocated costs.

(j) *Maximum prices for certain merchandise purchased at lower than manufacturer's, wholesaler's or converter's maximum price.* In cases where a retailer or wholesaler purchases any finished piece goods listed and described in paragraph (a) of this section at a price lower than a price which the purchaser

previously paid to the same seller for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration, Hawaii Territorial Office, Honolulu, T. H., for a maximum price for resale of this merchandise, which maximum price is based upon the higher price previously paid to such seller, and the appropriate multiple provided by this section. Any such application must be accompanied by the invoice for the goods in question and invoice establishing the former higher price or other evidence of a similar nature.

(k) *Odd cent maximum prices at wholesale or at retail.* Whenever the calculation of a maximum wholesale or retail price results in a fraction of a cent, the maximum price shall be adjusted to the nearest cent, except that on finished piece goods retailing for $1.00 per yard and above, the maximum retail price shall be adjusted to the nearest nickel.

(l) *Definitions.* When used in this section 60, the term:

(1) "Class I purchaser" means a wholesaler or jobber who buys finished piece goods at the converter's price to Class I purchasers in accordance with the provisions of the mainland regulation, Maximum Price Regulation 127, Finished Piece Goods.

(2) "Class II purchaser" means a person who buys finished piece goods at the converter's price to Class II purchasers in accordance with the provisions of the mainland regulation, Maximum Price Regulation 127, Finished Piece Goods.

(3) "Converter" means a person who sells finished piece goods after having finished such goods or after causing such goods to be finished for his [redacted].

(4) "Converter-jobber" means a converter who is also regularly engaged in performing, in addition to his converting business, the function of a jobber or wholesaler, and includes a jobber or wholesaler controlling, controlled by or under common control with a converter.

(5) "Wholesaler or jobber" means a person who purchases finished piece goods from a manufacturer or converter for the purpose of resale at wholesale.

(6) "Primary converter-jobber, wholesaler or jobber" means a converter-jobber, wholesaler or jobber who has purchased the finished piece goods directly from the converter or manufacturer.

(7) "Sub-jobber" means a jobber who purchases finished piece goods from primary wholesalers or jobbers and resells them to retail sellers.

(8) "Finished piece goods" means woven fabrics, more than 12" in width, bleached, dyed, printed, mercerized or otherwise finished or processed.

(9) "Weighted average" price means the price computed on the basis of the actual yardage acquired at each separate price.

(m) *Records and reports by sellers other than at retail.* In addition to such records as the seller is required to keep under section 10 of this regulation, every person making a sale of finished piece goods other than at retail shall furnish the buyer at the time of the delivery of the finished piece goods with a written invoice or sales memorandum, setting forth the date of sale, the name and address of the buyer and seller, quantity and description of the finished piece goods sold (style or lot number), the price charged or received therefor, and either the retailer's ceiling price for the finished piece goods as calculated under paragraph (h) or the appropriate retail multiple figure as given in the tables in paragraph (h).

(xxi) *Miscellaneous articles.* This classification includes articles of children's and infants' wear which are made principally of fabric and which are not included in any of the above classifications.

(2) *What transactions are covered.* This section applies to sales at wholesale, sales at retail, sales by manufacturing-wholesalers and by manufacturing-retailers of children's and infants' wear as set forth in paragraph (a) (1). This section does not apply to sales by custom tailors or dressmakers of garments which are manufactured to the individual measurements of the ultimate consumer.

[Subparagraph (2) amended by Am. 50, 9 F.R. 4194, effective 3-20-44]

(3) *Effect upon General Maximum Price Regulation for Hawaii and other maximum price regulations.* The provisions of this section supersede the provisions of the General Maximum Price Regulation for the Territory of Hawaii, General Order No. 49 and all other maximum price regulations issued by the Office of Price Administration, except as may hereinafter be provided, with respect to sales at wholesale and at retail and sales by manufacturing-wholesalers and manufacturing-retailers in the Territory of Hawaii of children's and infants' wear as set forth in paragraph (a).

(b) *Maximum prices for sales at wholesale*—(1) *Wholesalers and jobbers.* Except in the case of inter-island shipments mentioned in paragraph (3) below, the maximum price for sales at wholesale of any article listed and described in paragraph (a) which was manufactured outside the Territory of Hawaii shall be the amount determined either by multiplying the manufacturer's selling price, less all allowable trade, cash, or other discounts or allowances, except cash discounts up to 2%, by 1.25, or multiplying the "landed cost" by 1.20; *Provided*, That:

(i) The wholesaler or jobber regularly carries such classification of articles in stock and has heretofore carried such classification of articles in stock, and

(ii) The particular article is to be sold out of such stock, and

(iii) The particular article was invoiced and shipped to the establishment of the wholesaler or jobber; and the wholesaler or jobber shall elect to use one of the two alternate methods of determining the maximum price and shall use it for all articles sold by him which are covered by this section. The method elected may not thereafter be changed without written permission of the Office of Price Administration. The wholesaler or jobber must send this office a statement of the method elected on or before December 20, 1943.

(2) *"Landed cost."* For articles imported from outside the Territory of Hawaii "landed cost" shall be the total of the following amounts:

(i) An amount equal to the manufacturer's selling price, less all allowable trade, cash or other discounts and allowances, except cash discounts up to 2%.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery, to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(iii) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included, but the type of coverage is at the discretion of the buyer and seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of 1.20 per ton, weight or measurement, *Provided*, That the commodity is moved from the dock at the wholesaler's expense.

(3) *Inter-island shipments.* In the case of a commodity originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory, the maximum price in the island of final destination for sale by a wholesaler or jobber who has satisfied the conditions as to inventory set forth in subparagraph (1) above, and who has elected the second pricing method shall be the sum of the amounts specified in subparagraphs (i) through (iv) below.

(i) An amount equal to the maximum wholesale price in the island from which the article was shipped, calculated under subparagraph (1) above.

(ii) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped, calculated at the rate set forth in subdivision (2) (vi) above, whether or not such cartage charges are actually incurred.

(iii) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for shipment between the islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(iv) An amount equal to cartage charges on the island of destination, from dock to warehouse, computed at a rate not in excess of the amount set forth in subdivision (2) (vi) above, *Provided*, That the articles are moved from the dock at the wholesaler's expense.

(4) *Maximum prices for locally made articles.* The maximum prices for sales at wholesale of any article manufactured in the Territory of Hawaii listed and described in paragraph (a) of this section by a wholesaler or jobber who satisfies the conditions as to inventory set forth in subdivision (i), (ii) and (iii) of paragraph (b) (1) above, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(5) *Drop shipments.* The maximum prices for sales at wholesale of any article listed and described in paragraph (a) of this section by a person who has not heretofore regularly carried such article in stock, and such article is not being sold out of the stock, and such article was not invoiced and shipped to the establishment of such person, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section, which the wholesaler or retailer makes or has made for him from materials owned by him, shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only:

(i) The wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material, and for the retailer shall be the actual cost of the material to him, which may in no case be higher than the wholesale price;

(ii) The sewing charges as listed with this office under Maximum Price Regulation 20 of the Military Governor of the Territory of Hawaii or Maximum Price Regulation 165 of the Office of Price Administration; and

(iii) The maximum price permitted under this regulation for any block prints which may be printed on the article by or for the manufacturing-wholesaler or manufacturing-retailer.

(7) *Allowance for block printing.* Where a wholesaler block prints, or has block printed for him, any article covered in this section, he may, for the purpose of determining the maximum price under this section, add to the manufacturer's selling price the maximum price permitted by this regulation for such prints.

(8) *Inability to determine price at wholesale.* Any person who is unable to determine prices under paragraphs (b) (1), (4), (5) or (6) shall apply to the Office of Price Administration for a maximum price. Such application must set forth the manufacturer's selling price, less all trade, cash or other discounts and allowances and/or the "landed cost" for such articles as specified in paragraph (b) (2) of this section.

(9) *Restrictions of markup at wholesale.* (i) The maximum price for sales of commodities at wholesale by persons who have purchased from a local wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer shall be the maximum price which the first wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer would have been entitled to charge under this section, except maximum prices computed under the provisions of paragraph (b) (10) of this section. The purpose of this paragraph is to prevent the addition of more than one full wholesale markup to a commodity, regardless of the number of wholesalers or jobbers purchasing and reselling the commodity.

[Subparagraph (9) amended by Am. 36, 9 F.R. 1487, effective 12-6-43]

(ii) No part of the wholesale markup may be taken by a wholesaler-retailer on any article listed and described in paragraph (a) of this section that is sold by any retail outlet owned, controlled by, under the control of, controlling, or in any other way affiliated with respect to ownership or control with the wholesaler.

(10) *Sales by local sub-jobbers.* The maximum price for sales by a local sub-jobber of any article, listed and described in paragraph (a) of this section, to a retail establishment, shall be:

(i) Where the sale is by a sub-jobber who has purchased the article from a mainland wholesaler or jobber, whether shipped from the establishment of the wholesaler or jobber or direct from the factory, the maximum price shall be computed by multiplying the wholesaler's or jobber's selling price less all allowable discounts and allowances, except cash discounts up to 8%, by 1.20.

(ii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (1) of this section, the maximum price shall be computed by multiplying the wholesaler's or jobber's allowable maximum price by 1.15.

(iii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (5) of this section applying to drop shipments, the maximum price shall be computed by multiplying the manufacturer's selling price by 1.35.

Any sub-jobber who wishes to establish maximum prices in accordance with this paragraph must file with the Office of Price Administration, Honolulu, T. H., a petition for permission to do so. Such petition must show that the applicant has been regularly engaged in performing the function of a sub-jobber during the year 1943 and must also show the estimated percentage of sub-jobbing business done in relation to the total sales during the years 1942 and 1943.

[Subparagraph (10) added by Am. 36]

(c) *Maximum prices for sales at retail—(1) Purchases from mainland manufacturers.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section, which the retailer purchases from a mainland manufacturer, shall be the amount determined by multiplying the manufacturer's selling price, less all allowable discounts and allowances, except cash discounts up to 8%, by the figure given below in the first column of the table below for the classification of goods to be priced.

(2) *Purchases from distributors.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section, which the retailer purchased from a person selling at wholesale whose maximum prices for the sale are determined by paragraph (b) (5), shall be the amount determined by multiplying the manufacturer's selling price by the figure given below in the first column of the table below for the classification of goods to be priced.

(3) *Purchases from mainland wholesalers or jobbers.* The maximum price for sales at retail for any article, listed and described in paragraph (a) of this section, which the retailer purchases from a mainland wholesaler or jobber, shall be the amount determined by multiplying the primary wholesaler's or jobber's selling price, less all allowable discounts and allowances, except cash discounts up to 8%, by the figure given below in the second column of the table below for the classification of goods to be priced.

[Subparagraph (3) amended by Am. 36]

(4) *Purchases from local wholesalers or jobbers.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section, imported from the mainland and which the retailer purchases from a local wholesaler or jobber, shall be the amount determined by multiplying the wholesaler's or jobber's selling price, less all allowable discounts and allowances except cash discounts up to 8%, by the figure given below in the third column of the table below for the classification of goods to be priced.

(5) *Locally manufactured articles.* The maximum price for sales at retail of any article listed and described in paragraph (a) of this section, made by a manufacturer located in the Territory of Hawaii, shall be: If the retailer purchases direct from the manufacturer, the amount determined by multiplying the manufacturer's selling price, less all allowable discounts except cash discounts up to 8%, by the figure given in the fourth column of the table below; if the purchase of a locally manufactured article is made from a wholesaler, the amount determined by multiplying the manufacturer's selling price by the figure in the fourth column of the table below, for the classification of goods to be priced.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for any article listed and described in paragraph (a) of this section, which the retailer purchases from a local manufacturing-wholesaler or manufacturing retailer, or which he makes or has made for him, shall be the amount determined by multiplying the wholesale price as determined under paragraph (b) (6) by the figure given in the third column of the table below for the classification of goods to be priced.

TABLE OF RETAIL MULTIPLICATION FIGURES

	Column 1	Column 2	Column 3	Column 4
Girls' dresses and suits, boys' suits, children's coats, rainwear, robes and housecoats, underwear and nightwear, slacks, slack suits and shorts, girls' skirts, boys' trousers, blouses and shirts, sweaters, play clothes, headwear, school uniforms; and infants' dresses, rompers, creepers and coats, infants' sweaters, sacques and wrappers, bonnets, booties and socks, barnesses, infants' underwear and nightwear, miscellaneous articles:				
Budget: to $8.75 inclusive	1.75	1.55	1.50	1.70
Better: over $8.75	1.80	1.60	1.55	1.75

NOTE: The cost designation in the table above with respect to "Budget" and "Better" items refers to the appropriate cost price upon which the retailer will use the multiple in the table to determine his maximum retail price.

(7) *Allowance for block printing.* Where a retailer block prints or has block printed for him, any article covered in this section, he may, for the purpose of determining the maximum price under this section, add to the manufacturer's selling price, or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

(8) *Inability to determine prices at retail.* Any person who is unable to determine prices at retail under subparagraphs (1) through (7) of this paragraph (c) shall apply to the Office of Price Administration for the establishment of a maximum price.

(9) *Odd cent maximum prices at retail.* Whenever the calculation of a maximum retail price results in an odd cent maximum price, the maximum price may be adjusted to the nearest nickel.

(10) *Purchases from local sub-jobbers.* The maximum price for a sale at retail of any article, listed and described in paragraph (a) of this section, purchased from a local sub-jobber, shall be computed by multiplying the sub-jobber's maximum price, less all allowable discounts and allowances, by 1.30.

[Subparagraph (10) added by Am. 36]

(d) *Maximum prices for nationally advertised articles.* Application may be made for approval of a price for an article listed in paragraph (a) which is nationally advertised by the manufacturer thereof, and who requires that such article be sold at the prices established by such manufacturer. The applicant must set forth:

(1) Description of the article or line to be priced.

(2) Proof that the manufacturer has established a resale price and that such price is so marked on the article that any purchaser can know that it is a nationally advertised price.

(3) A statement that the seller will not sell such article at a price higher than such nationally advertised price.

Such application, of course, need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this regulation.

(e) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the allocation made by the wholesaler or retailer and shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(f) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum price.* In cases where a wholesaler or retailer purchases from a manufacturer or wholesaler any article listed and described in paragraph (a) of this section, at a price lower than the manufacturer's or wholesaler's maximum price and lower than a price which the purchaser previously paid to such manufacturer or wholesaler for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer or wholesaler, and the appropriate multiple provided by this section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

(g) *Maximum prices for retail sales of exclusive and individual articles.* In cases where a retailer at the special order of an ultimate consumer designs and fabricates for such consumer an exclusive and individual article, application may be made at the Office of Price Administration for a maximum price at retail not to exceed two times the cost of such article as otherwise determined under this section. Articles which are produced on a mass or semimass production basis or which are made for stock are not exclusive and individual articles.

(h) *Records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (h) shall be applicable to this section 61.

(i) *Posting and marking of prices.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (i) shall be applicable to this section 61, except that in section 52 (i) (1) the words "women's and girls' " shall be changed to "children's and infants' " for the purposes of this section 61.

(j) *Definitions.* When used in this section 61, the term:

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it before the deduction of any discounts or allowances, and shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it, without changing its form, to any person other than an ultimate consumer, and includes sales to retailers by manufacturing-wholesalers or manufacturing-retailers, but does not include any sale by a producer, manufacturer, or fabricator of any wearing apparel or accessory produced, manufactured, or fabricated by him, or on his behalf by an agent or a contractor.

(3) "Wholesaler-retailer" means a firm or person who customarily sells at least 50% of the articles listed and described in paragraph (a) of this section in his own or in an affiliated store.

(4) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer before the deduction of cash discounts or other discounts for prompt payment.

(5) "Manufacturing-wholesaler" means a wholesaler who has made for him from materials owned by him, articles for sale to a retailer.

(6) "Manufacturing-retailer" means a retailer who has made for him from materials owned by him, articles for sale to an ultimate consumer.

(7) "Wholesaler or jobber" means a person who purchases articles from a manufacturer for the purpose of resale at wholesale.

(8) A "sub-jobber" is a jobber who purchases merchandise from primary wholesalers or jobbers and resells it to retail sellers.

(9) "Primary wholesaler or jobber" means a wholesaler or jobber who has purchased the article directly from the manufacturer.

[Subparagraphs (7), (8) and (9) added by Am. 36]

[Sec. 61 added by Am. 33, 9 F.R. 580, effective 12-6-43 save as follows with respect to sales at retail of articles in inventory as of December 6, 1943. Such articles need not be priced under this section until February 1, 1944: *Provided*, That any such article which is the same or similar to an article received in inventory after December 6, 1943, shall not be sold at a price higher than the maximum price established by this section for such new article. For the purposes of this provision, one article shall be deemed "similar" to another article if the first has the same use as the second, affords the purchaser fairly equivalent serviceability and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such article, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such articles would ordinarily have been sold, shall not be taken into account. Sec. 61 amended as otherwise noted.]

SEC. 62. *Maximum prices for domestics at wholesale and retail—(a) To what transactions, products, and persons this section applies—(1) What commodities are covered.* This regulation applies to all dry goods items commonly known as domestics which are classified and defined as follows:

(i) *Sheets and pillow cases.* This classification includes all bed sheets and pillow cases.

(ii) *Towels.* This classification includes all hand, bath, kitchen, dish, beach and other towels; wash cloths, bath mats, toilet seat covers and similar articles and combination sets of any of the above listed or similar items when sold at a unit price.

(iii) *Pads and covers.* This classification includes mattress pads and covers, crib pads, ironing board pads and covers, table pads and covers, hot pads, table covers of oil cloth or of materials other than woven fabric, and excludes table mats made of lauhala or other native fibers.

(iv) *Table linens and decorative items.* This classification includes table cloths, napkins, luncheon sets and bridge sets, bureau scarfs, decorative pillow tops, table runners, doilies, art linens and similar fabric articles.

(v) *Bedspreads and blankets.* This classification includes all blankets, comforters, quilts, automobile robes, bedspreads, matched sets of spreads and other articles such as draperies when sold at a unit price, and all similar articles.

(vi) *Pillows and cushions.* This classification includes all pillows and cushions except bed pillows, and includes automobile seat cushions.

[Subparagraph (vi) amended by Am. 67, 9 F.R. 6885; effective 5-8-44]

(vii) *Ready-made curtains.* This classification includes all ready-made curtain and panels, whether used in kitchen, bathroom, shower, bedroom, living room or elsewhere.

(viii) *Ready-made draperies and slip covers for furniture.* This classification includes all ready-made draperies and slip covers for furniture and similar fabric articles.

(ix) *Batting materials.* This classification includes all wool, cotton or other bats.

(x) *Window shades and awnings.* This classification includes window shades, awnings, porch curtains, and similar articles, whether made of woven fabric, paper or synthetics.

(xi) *Diapers.* This classification includes all diapers, whether cloth or paper.

(2) *What transactions are covered.* This regulation applies to sales at wholesale, sales at retail, sales by manufacturing-wholesalers and sales by manufacturing-retailers, of domestics as set forth in paragraph (a).

(3) *Effect upon General Maximum Price Regulation for Hawaii and other maximum price regulations.* The provisions of this section supersede the provisions of the General Maximum Price Regulation for the Territory of Hawaii, General Order No. 49, and all other maximum price regulations issued by the Office of Price Administration, except as may hereinafter be provided, with respect to sales at wholesale and at retail and sales by manufacturing-wholesalers and manufacturing-retailers in the Territory of Hawaii of domestics as set forth in paragraph (a).

(b) *Maximum prices for sales at wholesale—(1) Wholesalers and jobbers.* The maximum prices for sales at wholesale of domestics listed and described in paragraph (a), which were manufactured outside the Territory of Hawaii, shall be an amount equal to the sum of the manufacturer's selling price less all allowable trade and cash discounts and allowances except cash discounts up to 2% and the "landing cost" (as defined in paragraphs (g) and (h)), multiplied by 1.20: *Provided*, That

(i) The wholesaler or jobber regularly carries such classification of domestics in stock and has heretofore carried such classification of articles in stock, and

(ii) The particular articles being priced were sold out of such stock, and

(iii) The particular articles being priced were invoiced and shipped to the establishment of the wholesaler or jobber.

(2) *Drop shipments.* The maximum prices for sales at wholesale of any articles listed and described in paragraph (a) of this section by a person who has not heretofore regularly carried such articles in stock, and such goods are not being sold out of the stock, and such goods were not invoiced and shipped to the establishment of such person, shall be those established by sections 2 and 3 of the General Maximum Price Regulation for Hawaii.

(3) *Maximum prices for locally made articles.* The maximum prices for sales at wholesale of any article manufactured in the Territory of Hawaii listed and de-

scribed in paragraph (a) of this section by a wholesaler or jobber who satisfies the conditions as to inventory set forth in subdivision (i), (ii) and (iii) of paragraph (b) (1) above, shall be those established by sections 2 and 3 of the General Maximum Price Regulation.

(4) *Manufacturing-wholesalers and manufacturing retailers.* The maximum price for sales at wholesale of any article listed or described in paragraph (a) of this section which the wholesaler or retailer makes or has made for him from materials owned by him, shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only

(i) An amount equal to the wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material, and for the retailer shall be the actual cost of the material to him, which may in no case be higher than the wholesale price.

(ii) An amount equal to the cost of cutting and fringing, which in no case may exceed 1¢ for every 15 inches of the perimeter.

(iii) An amount equal to the cost of sewing, which in no case may exceed maximum prices therefor which have been filed with the Price Control Section of the Office of the Military Governor or the Office of Price Administration under Maximum Price Regulation No. 20 of the Military Governor of the Territory of Hawaii, or under Maximum Price Regulation No. 165 of the Office of Price Administration.

(iv) An amount equal to the maximum prices permitted by this regulation for the block print or prints which are printed on the item by or for the manufacturing-wholesaler or manufacturing-retailer.

(5) *Allowance for block printing.* Where a wholesaler block prints, or has block printed for him, any article covered in this section, he may, for the purpose of determining the maximum price under this section, add to the manufacturer's selling price the maximum price permitted oy this regulation for such prints.

(6) *Inability to determine price at wholesale.* Any person who is unable to determine prices under paragraphs (b) (1), (2), (3) or (4) shall apply to the Office of Price Administration for a maximum price. Such application must set forth the manufacturer's selling price less all allowable discounts and allowances except cash discounts up to 2% and the "landing cost" for such articles as specified in paragraphs (g) and (h).

(7) *Restrictions on markup at wholesale*—(i) The maximum price for sales of commodities at wholesale by persons who have purchased from a local wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer shall be the maximum price which the first wholesaler, jobber, manufacturing-wholesaler or manufacturing-retailer would have been entitled to charge under this section, except maximum prices computed under the provisions of paragraph (b) (8) of this section. The purpose of this paragraph is to prevent the addition of more than one full wholesale markup to a commodity, regardless of the number of wholesalers or jobbers purchasing and reselling the commodity.

[Subparagraph (i) amended by Am. 36]

(ii) No part of the wholesale markup may be taken by a wholesaler-retailer on any article listed and described in paragraph (a) of this section that is sold by any retail outlet owned, controlled by, under the control of, controlling, or in any other way affiliated with respect to ownership or control with the wholesaler.

(8) *Sales by local sub-jobbers.* The maximum price for sales by a local subjobber of any article, listed and described in paragraph (a) of this section, to a retail establishment, shall be:

(i) Where the sale is by a sub-jobber who has purchased the article from a mainland wholesaler or jobber, whether shipped from the establishment of the wholesaler or jobber or direct from the factory, the maximum price shall be computed by multiplying the sum of the wholesaler's or jobber's selling price less all allowable discounts and allowances, except cash discounts up to 8%, plus "landing cost" (as defined in paragraphs (g) and (h)), by 1.15.

(ii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (1) of this section, the maximum price shall be computed by multiplying the wholesaler's or jobber's allowable maximum price by 1.15.

(iii) Where the sale is by a sub-jobber who has purchased the article from a local wholesaler or jobber who has computed the maximum price for the sale under paragraph (b) (2) of this section applying to drop shipments, the maximum price shall be computed by multiplying the sum of the manufacturer's selling price, plus "landing cost" (as defined in paragraphs (g) and (h), by 1.25.

Any sub-jobber who wishes to establish maximum prices in accordance with this paragraph must file with the Office of Price Administration, Honolulu, T. H., a petition for permission to do so. Such petition must show that the applicant has been regularly engaged in performing the function of a sub-jobber during the year 1943 and must also show the estimated percentage of sub-jobbing business done in relation to the total sales during the years 1942 and 1943.

[Subparagraph (8) added by Am. 36]

(c) *Maximum prices for sales at retail*—(1) *Purchases from mainland manufacturers.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section which the retailer purchases from a mainland manufacturer shall be the amount determined by multiplying the manufacturer's selling price less all allowable discounts and allowances except cash discounts up to 8% plus the "landing cost" by the figure given below in the first column of the table for the classification to be priced.

(2) *Purchases from distributors.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section which the retailer purchases from a person selling at wholesale, whose maximum prices for the sale are determined by paragraph (b) (2) shall be the amount determined by multiplying the manufacturer's selling price plus the "landing cost" by the figure given below in the first column of the table for the classification of goods to be priced.

(3) *Purchases from mainland wholesalers or jobbers.* The maximum price for sales at retail for any article, listed and described in paragraph (a) of this section, which the retailer purchases from a mainland wholesaler or jobber shall be the amount determined by multiplying the primary wholesaler's or jobber's selling price less all allowable discounts and allowances, except cash discounts up to 8% plus the "landing cost" by the figure given in the second column of the Table for the classification of goods to be priced.

[Subparagraph (3) amended by Am. 36]

(4) *Purchases from local wholesalers and jobbers.* The maximum price for sales at retail for any article listed and described in paragraph (a) of this section that is imported from the mainland and which the retailer purchases from a local wholesaler or jobber shall be the amount determined by multiplying the wholesaler's or jobber's selling price less all allowable discounts and allowances except cash discounts up to 8% by the figure given below in the second column of the table for the classification of goods to be priced.

(5) *Locally manufactured articles.* The maximum price for sales at retail of any article listed and described in paragraph (a) of this section which is made by a manufacturer located in the Territory of Hawaii shall be: If the retailer purchases direct from the manufacturer or from a wholesaler the amount determined by multiplying the manufacturer's selling price less all allowable discounts and allowances except cash discounts up to 8% by the figure given in the second column of the table for the classification of goods to be priced.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for any article listed and described in paragraph (a) of this section which the retailer purchases from a local manufacturing-wholesaler or manufacturing-retailer, or which he makes or has made for him, shall be the amount determined by multiplying the wholesale price as determined under paragraph (b) (4) by the figure given in the second column of the table for the classification of goods to be priced.

TABLE OF RETAIL MULTIPLICATION FIGURES

	Column 1	Column 2
Sheets and pillow cases, pads and covers, pillows and cushions, batting materials, window shades and awnings, diapers	$1.60	$1.50
Towels, ready-made curtains, ready-made draperies	1.65	1.50
Table linens, blankets and bedspreads:		
Budget to $8.75	1.65	1.50
Better over 8.75	1.75	1.50

NOTE: The price designation in the table above with respect to Budget and Better refers to the cost price upon which the retailer will use the multiple in the above table to determine his maximum retail price.

(7) *Allowance for block printing.* Where a retailer block prints, or has block printed for him, any article covered in this section he may, for the purpose of determining the maximum price under this section, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

(8) *Inability to determine price at retail.* Any person who is unable to determine prices at retail under subparagraphs (1) through (6) of this paragraph (c) shall apply to the Office of Price Administration for the establishment of a maximum price.

(9) *Odd cent maximum prices at retail.* Whenever the calculation of a maximum retail price results in a fraction of a cent, the maximum price shall be adjusted to the nearest cent.

(10) *Purchases from local sub-jobbers.* The maximum price for a sale at retail of any article, listed and described in paragraph (a) of this section, purchased from a local sub-jobber, shall be computed by multiplying the sub-jobber's maximum price, less all allowable discounts and allowances, by 1.30.

[Subparagraph (10) added by Am. 36]

(d) *Maximum price for nationally advertised articles.* Application may be made for approval of a price for an article listed in paragraph (a) which is nationally advertised by the manufacturer thereof, and who requires that such article be sold at the prices established by such manufacturer. The applicant must set forth:

(1) Description of the article or line to be priced.

(2) Proof that the manufacturer has established a resale price and that such price is so marked on the article that any purchaser can know that it is a nationally advertised price.

(3) A statement that the seller will not sell such article at a price higher than such nationally advertised price. Such application, of course, need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this section.

(e) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the allocation made by the wholesaler or retailer and shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(f) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum price.* In cases where a wholesaler or retailer purchases from a manufacturer or wholesaler any article listed and described in paragraph (a) of this section, at a price lower than the manufacturer's or wholesaler's maximum price and lower than a price which the purchaser previously paid to such manufacturer or wholesaler for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer or wholesaler, and the appropriate multiple provided by the section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

(g) *"Landing cost".* For articles imported from outside the Territory of Hawaii "landing cost" shall be the total of the following amounts:

(1) An amount equal to the transportation charges, if any, actually incurred by the purchaser for transportation from the mainland point at which the purchaser received delivery, to the mainland port of shipment (including Federal transportation tax and terminal charges), not in excess of public (common or contract) carrier rates.

(2) An amount equal to mainland storage charges, and insurance in connection therewith, actually incurred by the purchaser, but charges for storage and insurance in connection therewith in excess of three months shall not be included.

(3) An amount equal to cartage charges actually incurred by the purchaser for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(4) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the purchaser, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included but the type of coverage is at the discretion of the buyer and seller.

(5) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to warehouse, computed at a rate not in excess of 1.20 per ton, weight or measurement: *Provided,* That the commodity is moved from the dock at the purchaser's expense.

(h) *"Landing cost" in cases of interisland shipments.* In the case of a commodity originally imported from without the Territory of Hawaii to one island of the Territory and subsequently shipped to another island in the Territory, the "landing cost" in the island of final destination shall be the sum of the amounts specified in subparagraphs (1) through (4) below.

(1) An amount equal to the "landing cost" at the island from which the article was shipped, calculated under paragraph (g) above.

(2) An amount equal to cartage charges for cartage from the warehouse to the dock in the island from which the article was shipped, calculated at the rate set forth in paragraphs (g) (2) and (5) above, whether or not such cartage charges are actually incurred, but in no event shall such cartage charges exceed public (common or contract) carrier rates.

(3) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the purchaser for shipment between the islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(4) An amount equal to cartage charges on the island of final destination, from dock to warehouse, computed at a rate not in excess of the amount set forth in paragraphs (g) (2) and (5) above: *Provided,* That the articles are moved from the dock at the purchaser's expense.

(i) *Records and reports.* For the purposes of this section this paragraph supersedes the provisions of section 10 of Maximum Price Regulation 373.

(1) *Required of person making sales at wholesale*—(i) *Purchase records.* Every person making sales at wholesale of any article listed in paragraph (a) of this section shall keep and make available for examination by this office for as long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each purchase of each article showing:

(*a*) The date of purchase and date of receipt.
(*b*) The name and address of the vendor.
(*c*) The price paid, or charged.
(*d*) The quantity purchased.
(*e*) The manufacturer's selling price. If the person did not purchase the article from the manufacturer but is relying upon his vendor's written statement of the manufacturer's selling price, he shall keep such statement and make it available for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.
(*f*) All records and data reflecting the charges incurred by the wholesaler in arriving at the selling price.

(ii) *Sales records.* Every person making sales at wholesale of any article listed in paragraph (a) of this section shall invoice each sale of each such article. The original invoice shall be delivered to the buyer and shall state:

(*a*) The date of sale.
(*b*) Itemized list of articles sold.
(*c*) The manufacturer's selling price for each such article if the maximum price at wholesale is determined under (b) (2) or (3).
(*d*) Such person's ceiling price at wholesale for each article.
(*e*) The retailer's ceiling price for each article as calculated under (c).
(*f*) The price charged or received.

A copy of this invoice shall be made and kept by the person making sales at wholesale, for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) *Required of person making sales at retail*—(i) *Purchase records.* Every person making sales at retail of any article listed in paragraph (a) of this section shall keep and make available for examination by this office for so long

as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each purchase of each such article showing:

(*a*) The date of receipt.
(*b*) The name and address of the vendor.
(*c*) The manufacturer's selling price if priced under (c) (1), (2) or (5).
(*d*) The invoice cost if priced under (c) (3) or (4).
(*e*) The manufacturer's stock number if available.
(*f*) The retailer's stock number if any.
(*g*) The percentage used in determining the maximum price.
(*h*) The retailer's ceiling price.

The retailer may list the information required above on each purchase invoice covering the article. If the retailer did not purchase the article from the manufacturer but is relying upon his supplier's written statement of the manufacturer's selling price he shall keep such statement and make it available for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The retailer shall likewise keep and make available for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, his purchase invoice covering that article.

(ii) *Sales records.* (*a*) Any retailer who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any retailer, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the retailer, a description of the article sold and the price received for it.

(*b*) Every retailer shall keep and make available for examination by this office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records of the same kind he has customarily kept relating to the price charged for such article and in addition records showing as precisely as possible the basis upon which he determined the maximum price for such article.

(j) *Posting and marking of prices.* For the purposes of this section, this paragraph supersedes the provisions of section 10 of Maximum Price Regulation 373.

(1) *Posting.* On and after the effective date of this section every person who sells or offers to sell any article listed and described in paragraph (a) of this section at retail shall post in a conspicuous place, in a manner plainly visible to and understandable by the purchasing public in the department or portion of the premises where any such article is sold or offered for sale, a sign stating "Each article of domestics in this store (or on this counter, shelf, or in this case, bin, or rack) is marked and sold at our ceiling price or less."

(2) *Marking.* (i) On and after the effective date of this section no person shall sell or deliver or offer for sale any article listed and described in paragraph (a) of this section at retail unless there is firmly attached to such article a stamp, tag or other marking showing the selling price. Such selling price must be plainly visible to and understandable by the purchasing public.

(ii) All merchandise that is priced pursuant to paragraph (e) must have the lot number which appears on the invoice also clearly marked on the price ticket of each article.

(k) *Definitions.* When used in this section 62, the term:

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it, before the deduction of any discounts or allowances, and shall not include any transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) "Sale at wholesale" means a sale by a person who received delivery of a commodity and resells it, without changing its form, to any person other than an ultimate consumer, and includes sales to retailers by manufacturing-wholesalers or manufacturing-retailers, but does not include any sale by a producer or manufacturer. (This definition is in lieu of the definition contained in section 12 of this Maximum Price Regulation 373, and is to be used for the purposes of this section only.)

(3) "Sale at retail" means a sale or selling to an ultimate consumer, provided that purchasers for resale, commercial and industrial users, shall not be deemed ultimate consumers.

(4) "Wholesaler-retailer" means a firm or person who customarily sells at least 50% of the articles listed and described in paragraph (a) of this section in his own or in an affiliated store.

(5) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer before the deduction of cash discounts or other discounts for prompt payment.

(6) "Manufacturing-wholesaler" means a wholesaler who has made for him from materials owned by him, articles for sale to a retailer.

(7) "Manufacturing-retailer" means a retailer who has made for him from materials owned by him, articles for sale to an ultimate consumer.

(8) "Wholesaler or jobber" means a person who purchases articles from a manufacturer for the purpose of resale at wholesale.

(9) A "sub-jobber" is a jobber who purchases merchandise from primary wholesalers or jobbers and resells it to retail sellers.

(10) "Primary wholesaler or jobber" means a wholesaler or jobber who has purchased the article directly from the manufacturer.

[Subparagraphs (8), (9) and (10) added by Am. 36]

[Sec. 62 added by Am. 35, 9 F.R. 1158, effective as of December 1, 1943, except as follows with respect to sales at retail of articles in inventory as of December 1, 1943. Such articles need not be priced under this section until February 1, 1944: *Provided*, That any such article which is the same or similar to an article received in inventory after December 1, 1943, shall not be sold at a price higher than the maximum price established by this section for such new article. For the purposes of this provision, one article shall be deemed "similar" to another article if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such article, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such articles would ordinarily have been sold, shall not be taken into account. Sec. 62 amended as otherwise noted]

SEC. 63. *Maximum prices for bamboo rakes.* (a) The maximum prices for bamboo rakes manufactured in the Territory of Hawaii shall be:

Manufacturer's maximum price	Maximum wholesale price	Maximum retail price
Bamboo rakes:		
Island of Oahu only, $0.75	$0.85	$0.95
All other Islands, $0.70	.78	.85

[Sec. 63 added by Am. 42, 9 F.R. 2660, effective 1-31-44]

SEC. 64. *Ceiling prices for sales of imported luggage at wholesale and retail*—(a) *Scope of this section.* This section applies to sales at wholesale and sales at retail of all leather and non-leather luggage which has been imported into the Territory of Hawaii. "Luggage" means any container commonly used for the transportation of personal effects on a journey; for example, furlough bags, zipper bags, utility kits, utility bags and cases, travel cases, buddy kits, overnight cases, travel packs, duffel bags, weekend cases, Pullman cases, men's wardrobes, foot lockers, suitcases and trunks. In addition, the term "luggage" includes physician's bags, sample cases, sample trunks, brief cases and school bags. Furthermore, the term "luggage" as used in this section includes only new luggage; used or reconditioned luggage is not covered by this section.

(b) *Wholesaler's ceiling prices.* If you are a wholesaler, you calculate your ceiling prices for luggage in the following manner:

(1) For out of stock sales: First, multiply your manufacturer's or original importer's selling price by 1.25. Then to this amount add your landing costs. The resulting price is your ceiling price.

(2) For sales on a drop shipment basis: Multiply your manufacturer's or original importer's selling price by 1.17. The resulting price is your ceiling price.

(3) For sales of luggage purchased from a local wholesaler: If you purchased a luggage item from another local wholesaler whose ceiling price is established under subparagraphs (1) and (2) above, you must secure a written record of your supplier's ceiling price. Your ceiling price shall be your supplier's ceiling price.

(c) *Retailer's ceiling prices.* If you are a retailer, you calculate your ceiling prices in the following manner:

(1) For sales of articles purchased directly from your mainland manufacturer or original importer: First: multiply your manufacturer's or original importer's selling price by 1.87. To this amount add your landing cost and the Federal excise tax, and adjust to the nearest 5¢. The resulting price is your ceiling price, inclusive of Federal excise tax.

(2) For sales of articles purchased directly from mainland wholesalers: First, multiply your wholesaler's selling price by 1.58. To this amount add your landing cost and the Federal excise tax and adjust to the nearest 5¢. The resulting price is your ceiling price, inclusive of Federal excise tax.

(3) For sales of articles purchased from local wholesalers out of locally warehoused stock: First, multiply the wholesaler's selling price, less the landing cost, by 1.50. To this amount add the landing cost and the Federal excise tax, and adjust to the nearest 5¢. The resulting price is your ceiling price, inclusive of Federal excise tax.

(4) For sales of articles purchased from local wholesalers on a drop shipment basis: First, multiply your manufacturer's or original importer's selling price by 1.87. To this amount add your landing cost and the Federal excise tax, and adjust to the nearest 5¢. The resulting price is your ceiling price, inclusive of Federal excise tax.

(d) *Inability to determine ceiling prices.* If you are unable to determine your ceiling price of any luggage item, you shall apply to the Office of Price Administration for the establishment of a ceiling price.

(e) *Landing cost*—(1) *Landing cost for articles imported from the mainland.* Landing cost, in the case of articles imported from the mainland, shall be the total of the following amounts:

(i) An amount equal to the transportation charges, if any, actually incurred by the purchaser for transportation from the mainland point at which the purchaser received delivery to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(ii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the purchaser. The charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iii) An amount equal to cartage charges actually incurred by the purchaser for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(iv) An amount equal to charges for ocean freight, War Risk and Marine insurance actually incurred by the purchaser, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of War Risk insurance exceeds the rates charged by the War Shipping Administration shall not be included, but the type of coverage is at the discretion of the buyer and seller.

(v) An amount equal to cartage charges in the port of entry in the Territory of Hawaii from dock to the establishment of the purchaser, computed at a rate not in excess of $1.20 per ton weight or measurement; *Provided*, That the commodity is moved from a dock at the purchaser's expense.

(2) *Landing cost in cases of interisland shipments.* In cases where the article has been shipped from one island to another island in the Territory of Hawaii, the following additional charges may be added to those set forth in subparagraph (1), above:

(i) An amount equal to the actual transportation cost to be computed in accordance with the applicable provisions of divisions (iii), (iv) and (v), above.

(f) *Posting and marking of prices*—(1) *Posting.* On and after the effective date of this section, any person who sells or offers to sell any luggage item at retail shall post in a conspicuous place in a manner plainly visible to and understandable by the purchasing public in a department or portion of his premises where such article is sold or offered for sale, a sign stating, "Each article of luggage in this store (or on this counter, shelf, or in this case, bin or rack) is marked and sold at our ceiling price or less."

(2) *Marking.* On and after the effective date of this section, every person who sells or offers for sale any luggage item at retail shall attach to the top or handle of the item a tag containing in easily readable lettering a statement of the retail ceiling price, retail selling price and the manufacturer's lot number and size. The statement shall be in the following form:

O. P. A. retail ceiling price including federal excise tax _____
Selling price _____
Stock or lot number _____
Size _____
Do not detach

The tag may not be removed until after the luggage has been delivered to the consumer.

Section 10 (b) of Maximum Price Regulation No. 373 shall not apply to this section.

(g) *Records and invoices.* In addition to such records as the seller is required to keep under section 10 (a) (1) of this regulation, every person making a sale of a luggage item other than at retail shall furnish the buyer at the time of the delivery of the article with a written invoice or sales memorandum, setting forth the date of sale, the name and address of the buyer and seller, quantity and description of article sold, manufacturer's lot number and size, the amount of the "landing cost" for each article if paid by the seller, the price charged and received therefor, and the retailer's ceiling price, inclusive of excise tax, for each article as calculated under paragraph (c).

(h) *Definitions.* When used in this section, the term:

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it f. o. b. factory, less all allowable discounts and allowances except cash discounts up to 8%, and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Price Regulation.

(2) "Original importer's selling price" means the price at which the mainland original importer of the article from outside continental United States sold and invoiced it, less all discounts and allowances except cash discounts up to 8%, and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Price Regulation.

(3) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer, less all allowable discounts and allowances except cash discounts up to 2%, and before the addition of any premium or other charges permitted under the Second Revised Maximum Export Regulation.

(4) "Out of stock sales" means sales of articles which the seller carries in stock, sells out of stock and which were invoiced and shipped to the establishment of the seller.

(5) "Sales on a drop shipment basis" means sales of articles which the seller does not carry in stock, which are not sold out of stock and which are not shipped to the establishment of the seller.

[Sec. 64 added by Am. 48, 9 F.R. 3945, effective 4-1-44]

SEC. 65. *Maximum prices for sales of feeds for animals and poultry*—(a) *What this section covers.* This section establishes maximum prices for sales and deliveries of all feeds for animals and poultry, including sales by manufacturers, wholesalers and retailers.

(b) *Definitions.* When used in this section:

(1) "Feed" means all feed used for the purpose of feeding animals and poultry.

(2) "Straight item" means all unmixed ingredients or single items used for feeding animals or poultry.

(3) "Mixed feeds" for animals and poultry includes "mixed feed" and "mineral mixed feed" as hereinafter defined.

(4) "Mixed feed" is a mixture or blend of more than one feed ingredient for the purpose of feeding animals and poultry, except the following commodities:

(i) Mixed feeds for any house pet birds.

(ii) Cat and dog food for which a ceiling price has been determined under the provisions of section 41a of Maximum Price Regulation No. 373, which cat and dog foods shall be and remain subject to said provisions; and

(iii) All other cat and dog foods for which a maximum price has been determined under the provisions of the General Maximum Price Regulation for Hawaii, which cat and dog foods shall remain subject to such provisions.

(5) "Pelleted mixed feed" is a mixed feed further processed into pellets.

(6) "Mineral mixed feed" is a mixed feed at least 60 percent of which consists of a mixture of two or more chemicals or minerals, with or without mixture with other ingredients, and customarily regarded as dietary factors in the feeding of animals and poultry.

(7) "Manufacturer" is one who produces and sells a mixed feed by grinding, mixing or blending, whether by stationary or portable equipment.

(8) A "custom mixer" is one who furnishes to a consumer for a recompense the services of producing mixed feed; either the custom mixer or the consumer or both may furnish the ingredients for the mixed feeds.

(9) A "private brand dealer" is one who resells mixed feed or mineral mixed feed ordered and bought by him from a

manufacturer who produced and packed the same in containers bearing the dealer's private brand.

(10) A "wholesaler" is one who buys any feed item and resells the same to:

(i) A retailer, or

(ii) A consumer on a f. o. b. warehouse basis in lots of five tons or over, or on a f. o. b. destination dock basis.

(11) A "wholesale outlet" is a department, branch or unit of a concern or an affiliated group of concerns or organizations performing like functions as a wholesaler, and which concern or affiliated group of concerns or organizations also handles commodities subject to this section at other levels of distribution: *Provided*, That said wholesale outlet must be a place of business separate from any producing plant of such concern, affiliated group of concerns or organizations.

(12) A "retailer" is one who buys a feed and resells it to consumers.

(13) A "retail outlet" is a department, branch or unit of a concern or an affiliated group of concerns or organizations performing like functions as a retailer and which concern or affiliated group of concerns or organizations also handles commodities subject to this section at other levels of distribution: *Provided*, That said retail outlet must be a place of business separate from any producing plant of such concern or affiliated group of concerns or organizations.

(14) "Reasonable market value" shall have the meaning ascribed thereto by law. It is also known in the trade as replacement value.

(15) "L. c. l. quantities" or less than carload lots or quantities, refers to sales or deliveries of quantities less than the stated capacity of any railroad car, whether the shipment is by rail, motor vehicle, water or other means.

(16) A "billing charge" is a charge or entry as a part of the bookkeeping system of debits and credits made between different departments, branches, or units of one concern or between different units of an affiliated group of concerns or organizations for services rendered or commodities produced by one and furnished or delivered by another.

(17) "F. o. b destination dock basis" means the invoice cost of the feed plus an amount equal to the charges for ocean freight, war risk and marine insurance actually incurred not to exceed the rates charged by the War Shipping Administration and Territorial tolls and tonnage taxes shown on the bill of lading.

(18) "FSCC" refers to The Federal Surplus Commodities Corporation.

(19) "Sub-order FSCC basis" refers to a sale made to a purchaser by a seller who has authority to purchase direct from FSCC where the purchaser receives a sub-order from the seller and takes delivery himself directly either from a FSCC warehouse or directly from the dock.

(c) *Maximum prices for manufacturers.* Every manufacturer of mixed feeds shall determine his maximum price per 100 pounds seller's container for l. c. l. quantities for sales of each mixed feed item as follows:

(1) He shall first compute his cost per 100-pound container of the commodity to be priced as follows:

(i) He shall include the cost of every ingredient which is subject to maximum prices prescribed by the Office of Price Administration at the actual cost thereof to him as if purchased at the time of the calculation not exceeding the maximum price thereon to him at said time, for the quantities normally purchased by him.

(ii) He shall include the cost of every other ingredient used which is not subject to the maximum prices prescribed by the Office of Price Administration at the reasonable market value thereof to him when purchased, for the quantities normally purchased by him: *Provided*, That said reasonable market value shall be such value at his producing plant.

(iii) He shall include either the cost of one 100-pound new bag or container for the commodity to be priced at the maximum price thereof to him at the time of the bag or container purchase, where he furnishes such a bag or container; or, in such cases where second hand bags furnished by the seller are used, he may add the reasonable market value of the bags used (not exceeding any maximum prices established thereon by Revised Maximum Price Regulation 55,[3]—Second-hand Bags).

(iv) In the case of feeds purchased from the FSCC stocks, he may include an allowance for shrinkage actually incurred on such purchases, not to exceed two (2) per cent.

(2) Then, for sales to wholesalers and for deliveries to his wholesale outlets, he shall add his cost per 100-pound container and the applicable dollar and cent markup set forth below:

Class 1 (except scratch feeds)[1]	$0.38
Class 2[1]	.50
Class 3[1]	.60
Scratch feeds (containing cracked corn purchased by manufacturer)	.30
Scratch feeds (containing whole corn cracked by manufacturer)	.38

[1] Classifications of mixed feeds are set forth in paragraph (e), Table 1.

The resulting price is the maximum price and billing charge at his producing plant. It shall also be known as the manufacturer's list price for sales to wholesalers and for deliveries to his wholesale outlets.

(3) Then, for sales to retailers and for deliveries to his retail outlets, he shall add his cost per 100-pound container and the applicable dollar and cent markup set forth below:

Class 1 (except scratch feeds)[1]	$0.53
Class 2[1]	.65
Class 3[1]	.75
Scratch feeds (containing cracked corn purchased by manufacturer)	.35
Scratch feeds (containing whole corn cracked by manufacturer)	.43

[1] Classifications of mixed feeds are set forth in paragraph (e), Table 6.

The resulting price is the maximum price and billing charge at his producing plant. It shall also be known as the manufacturer's list price for sales to retailers and for deliveries to his retail outlets.

(4) Then, for sales to consumers, he shall add his cost per 100-pound container and the applicable dollar and cent markup set forth below:

Class 1 (except scratch feeds)[1]	$0.78
Class 2[1]	.90
Class 3[1]	1.00
Scratch feeds (containing cracked corn purchased by manufacturer)	.60
Scratch feeds (containing whole corn cracked by manufacturer)	.68

[1] Classifications of mixed feeds are set forth in paragraph (e), Table 1.

The resulting price is the maximum price f. o. b. his producing plant.

(5) For sales in seller's containers of less than 100 pounds, the maximum price shall be the applicable maximum price less any container allowance permitted under paragraph (c) (1) (iii) above, plus the appropriate differential at the rate per ton set forth in the following schedule:

Size of containe	Paper bags	Cotton bags	Other container (rate per ton)	Bales
Up to and including 5 pounds	$6.00	$6.00	Reasonable market value of containers at time of sale plus 50¢ per ton.	Reasonable market value of bales at time of sale over opposite differential for small size packages.
Over 5 pounds and up to and including 10 pounds.	5.00	5.00		
Over 10 pounds and up to and including 25 pounds.	1.50	2.50		
Over 25 pounds and up to and including 50 pounds.	1.00	1.25		

(d) *Maximum prices for wholesalers and wholesale outlets of a mixed feed manufacturer.* Every wholesaler and wholesale outlet of a mixed feed manufacturer shall determine his maximum price and billing charge as follows:

(1) For sales of feed per 100-pound container to a retailer store and a retail outlet of a mixed feed manufacturer.

(i) On an f. o. b. destination dock basis or sub-order FSCC basis.

The maximum price shall be the sum of:

(*a*) The actual cost to the seller determined either by the list price of the mixed feed manufacturer or the current FSCC feed price list, and

(*b*) $4.00 per ton or 20¢ per 100-pound container less $1.00 per ton or 5¢ per 100-pound container for cash payment within 10 days after billing.

(ii) On a f. o. b. seller's warehouse basis.

The maximum price shall be the sum of:

(*a*) The actual cost to the seller determined either by the list price of the mixed feed manufacturer or the current FSCC Feed Price list;

(*b*) Transportation costs actually incurred by the seller in hauling to his warehouse, and

(*c*) $6.60 per ton or 33¢ per 100-pound container less $1.00 per ton or 5¢ per 100-pound container for cash payment within 10 days after billing.

(2) For sales of feed per 100-pound container to consumers.

[3] 7 F.R. 10104, 10554, 10585; 8 F.R. 1204.

(i) On a f. o. b. destination dock basis or sub-order FSCC basis: The maximum price shall be the applicable maximum price determined under paragraph (d) (1) (i) above, plus 1¼%.

(ii) On a f. o. b. seller's warehouse basis, in lots of five tons or more of any feed item: The maximum price shall be the applicable maximum price determined under paragraph (d) (1) (ii) above, plus 1¼%.

(3) For sales of feed in containers of 50 pounds or less the maximum price shall be the applicable maximum price determined under paragraph (d) (1) or (2) above, plus $1.50 per ton.

(e) *Maximum prices for retailers and retail outlets of a mixed feed manufacturer.* Every retailer and retail outlet of a mixed feed manufacturer shall determine his maximum price for sales of all feeds including mixed feeds as follows:

(1) For sales of all feed items purchased by the retailer from the FSCC, the maximum price shall be the sum of the following:

(i) His FSCC invoice cost.

(ii) All transportation costs actually incurred by the retailer for transportation of the item being priced to his place of business, and

(iii) A maximum markup of $10.00 per ton.

(2) For sales of all other feed items the maximum price shall be the sum of the following:

(i) Either the list price set forth in paragraph (c) (3) above, or the supplier's maximum price set forth in paragraph (d) (1) above, whichever is applicable.

(ii) All transportation costs actually incurred by the retailer for transportation of the item being priced to his place of business, and

(iii) The applicable dollar and cent markup listed in the schedule of the retail markups set forth below.

(f) *Maximum prices and base period reports for persons doing both wholesale and retail business*—(1) *Maximum prices.* The maximum prices for any person doing both a wholesale and a retail business shall be determined as follows:

(i) For sales as a wholesaler, his maximum price shall be the applicable maximum price set forth in paragraph (d) hereof.

(ii) For sales as a retailer of the percentage of tonnage volume of sales as retailer listed in his base period report, his maximum price shall be the applicable maximum prices set forth in paragraph (d) hereof, plus the appropriate markups set forth below:

	Per ton
Class 1 markup[1]	$3.40
Class 2 markup[1]	5.40
Class 3 markup[1]	7.40

[1] Classifications of mixed feed are set forth in paragraph (e), Table 1.

(iii) For sales as a retailer of any increase in retail sales over the percentage of tonnage volume of sales as a retailer listed in his base period report, his maximum price shall be his invoice cost plus the maximum markup set forth in paragraph (e) (2) above.

(2) *Base period reports.* Any person doing both a wholesale and a retail business shall report to the Office of Price Administration, Iolani Palace, Honolulu, 2, T. H., within two weeks after the effective date of this section, his tonnage volume of sales as a wholesaler and his tonnage volume of sales as a retailer during the immediately preceding week, month, or four months period, whichever he may, at the time of his first calculation of prices, select.

(g) *Delivery charges.* Any seller may add to the maximum prices established by this section the actual transportation costs incurred by him for deliveries from his place of business to the buyer's receiving point, provided such deliveries are made by the usual route and method of transportation.

(h) *Inability to determine maximum prices.* If you are unable to determine the maximum price for any feed item covered by this regulation, you shall apply to the Office of Price Administration, Iolani Palace, Honolulu, 2, T. H., for establishment of a maximum price.

(i) *Rounding of maximum prices.* (1) In ascertaining maximum prices hereunder on a per ton basis round the figure obtained as the maximum price to the nearest even 20 cents.

(2) Notwithstanding the provisions of section 7 of this Maximum Price Regulation 373, in ascertaining maximum prices hereunder on a one 100-pound container basis round the figure obtained as the maximum price to the nearest one cent.

(j) *Dealings between persons of the same class.* No person shall sell feeds including mixed feed or mineral mixed feed bought from a person of the same class to which he belongs at higher than the maximum price at which he may buy the same from such person hereunder.

(k) *Prices to be marked and posted.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, every wholesaler or retailer shall post in his place of business a copy of his maximum prices as computed hereunder.

(l) *Records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373,

(1) Every manufacturer shall keep for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, a complete record of each sale or purchase subject hereto showing the date thereof, the names and addresses of the buyer and seller, the price contracted for, paid or received, and the quantity of the feeds for animals and poultry sold or purchased.

(2) Every wholesaler and retailer shall keep for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, like records of his sales and purchases as he kept during the year 1942.

(3) All sales invoices shall, in addition to the above requirements, specify as a

separate item such charges as may be allowed for transportation or delivery.

[Sec. 65 added by Am. 53, 9 F.R. 4783, effective 4-1-44]

SEC. 66. *Maximum prices for molasses.* (a) The maximum prices for sales of molasses produced from sugarcane for alcohol purposes shall be $14.25 per ton, delivered at Oahu Railroad and Land Depot, Honolulu.

[Sec. 66 added by Am. 54, 9 F.R. 4821, effective 3-13-44]

SEC. 67. *Ceiling prices for sales of imported furniture and bedding at wholesale and retail, and for sales of locally manufactured furniture and bedding at retail*—(a) *Scope of this section.* This section applies to all sales at wholesale and at retail of furniture and bedding which has been imported into the Territory of Hawaii, and to all sales at retail of locally manufactured furniture and bedding. The term "furniture and bedding" includes:

(1) *Living room furniture:* All types of upholstered furniture, whether entirely or partially upholstered, and shall include studio couches, punees, punee cushions, hassocks and ottomans.

(2) *Case goods:* All types and pieces of bedroom and dining room furniture and shall include all types of novelty and occasional furniture such as end tables, coffee tables, smoking stands, mirrors, wall racks, radio cabinets that are sold without the radio set installed, record cabinets, folding chairs, folding card tables, ice-refrigerators (except electric), kitchen tables and chairs, bases, cabinets, dinette sets, stools and bars.

(3) *Outdoor and lanai furniture:* All types of furniture used on lanais or outdoors, whether stationary, portable or collapsible, and shall include steamer and deck chairs, portable barbecue sets, hammocks of all types, umbrellas, portable awnings or sun shades and cabanas.

(4) *Juvenile furniture and bedding:* All types of juvenile furniture, chests, cribs, bunks, chairs and tables, all types of mattresses and bassinets; but shall not include such items as are used for children's entertainment such as slides, sand boxes, swings for larger children, velocipedes, or wagons.

(5) *Beds and bedding:* All types of beds and cots, including folding or collapsible types; all types of bedding, made of new materials and bedding made with reprocessed cotton, hair and feathers and down, including mattresses, bed pillows, but not including domestics such as sheets, pillow cases, blankets and comforters; and all types of bed springs regardless of material used for construction.

(6) *Office furniture:* All types of office furniture, tables such as are used for supporting machines, filing cabinets and other cabinets; but shall not include safes or any type of office machines.

(7) *Institutional furniture:* All types of institutional furniture and such items as are used for similar purposes as household furniture; and shall include portable blackboards, map cases or racks, tablet arm chairs; all types of hospital furniture other than surgical or medical appliances; wheel chairs, invalid chairs and bed trays.

(8) *Unpainted furniture:* All types of unpainted furniture.

(b) *Wholesaler's ceiling prices.* If you are a wholesaler, you calculate your ceiling prices in the following manner:

(1) For out of stock sales: Add your manufacturer's selling price and your landing costs. Then multiply this amount by 1.25. The resulting price is your ceiling price.

(2) For sales on a drop shipment basis: Multiply your manufacturer's selling price by 1.15. The resulting price is your ceiling price.

(3) For sales of furniture and bedding purchased from a local wholesaler: If your purchase furniture and bedding from another local wholesaler whose ceiling price is established under subparagraphs (1) or (2) above, you must secure a written record of your supplier's ceiling price, and your ceiling price shall be your supplier's ceiling price.

(c) *Retailer's ceiling prices.* If you are a retailer, you calculate your ceiling prices in the following manner:

(1) For sales of articles purchased directly from mainland manufacturers:

(i) Add your manufacturer's selling price and your landing costs. Then multiply this amount by 1.70. The resulting price is your ceiling price.

(2) For sales of articles purchased directly from mainland wholesalers:

(i) Add your wholesaler's selling price and your landing costs. Then multiply this amount by 1.36. The resulting price is your ceiling price.

(3) For sales of articles imported from the mainland and purchased from local wholesalers out of locally warehoused stock:

(i) Add your wholesaler's selling price and an amount equal to local transportation charges actually incurred by you not to exceed public (common or contract) carrier rates. Then multiply this amount by 1.36. The resulting price is your ceiling price.

(4) For sales of articles imported from the mainland and purchased from local wholesalers on a drop shipment basis:

(i) Add your manufacturer's selling price and your landing costs. Then multiply this amount by 1.70. The resulting price is your ceiling price.

(5) For sales of all locally manufactured articles:

(i) Add your manufacturer's selling price and an amount equal to local transportation charges actually incurred by you not to exceed public (common or contract) carrier rates. Then multiply this amount by 1.70. The resulting price is your ceiling price.

[Paragraphs (a), (b) and (c) amended by Am. 67, 9 F.R. 6885, effective 5-8-44]

(d) *Landing costs.* (1) "Landing cost" for articles imported from the mainland shall be the total of the following amounts:

(i) An amount equal to the transportation charges, if any, actually incurred by the purchaser for transportation from the mainland point at which the purchaser received delivery to the mainland port of shipment (including Federal Transportation Tax and terminal charges) not in excess of public (common or contract) carrier rates.

(ii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the purchaser. The charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iii) An amount equal to cartage charges actually incurred by the purchaser for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(iv) An amount equal to charges for ocean freight, War Risk and Marine insurance actually incurred by the purchaser, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of War Risk insurance exceeds the rates charged by the War Shipping Administration shall not be included, but the type of coverage is at the discretion of the buyer and seller.

(v) An amount equal to cartage charges in the Port of Entry in the Territory of Hawaii from dock to establishment of the purchaser, computed at a rate not in excess of $1.20 per ton weight or measurement: *Provided,* That a commodity is moved from a dock at the purchaser's expense.

(2) "Landing cost" in cases of Inter-Island shipments. In cases where the article has been shipped from one island to another island in the Territory of Hawaii, the following additional charges may be added to those set forth in subparagraph (1), above:

(i) An amount equal to the actual transportation cost to be computed in accordance with the applicable provisions of subdivisions (ii), (iv) and (v), above.

(3) If an identical item on hand in the wholesaler's or retailer's stock has two or more different landing costs then the "landing cost" for the item may, at the option of the seller, be determined by calculating a weighted average "landing cost" for the entire inventory of that identical item on hand. Weighted average "landing cost" shall be calculated as follows:

(i) Each different landing cost shall be multiplied by the number of units having such landing cost. The products of such multiplication shall be added and the sum thereof divided by the total number of units for which the weighted average landing cost is desired. The quotient or result of such division is the weighted average landing cost.

(e) *Delivery charges.* (1) No charges for deliveries may be made for the following deliveries:

(i) Between Wialupi Radio Station, Kapalama Canal and the mountain range on the Island of Oahu.

(ii) Within a radius of five miles of the seller's place of business on all other islands. However, you may not refuse to make free delivery within the free delivery zones above unless it was not your practice, as a seller, during April, 1942 to make free deliveries in these zones.

(2) For deliveries other than those specified in subparagraph (1), above, you may add an amount not in excess of the charge currently made by common or contract carriers for such services. Any charge made for delivery must be separately stated and shown on the invoice used in connection with the sale.

(f) *Records and reports.* For the purposes of this section, this paragraph supersedes the provisions of section 10 of this regulation.

(1) Required of persons making sales at wholesale.

(i) *Purchase records:* If you make sales of any furniture or bedding article covered by this section at wholesale, you must keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect complete and accurate records of each purchase of each such article showing:

(a) The date of purchase and the date of receipt.

(b) The name and address of the seller.

(c) A description of the article purchased, including the manufacturer's lot number.

(d) The price paid or charged.

(e) The quantity purchased.

(f) The manufacturer's selling price if priced under (b) (1) and (b) (2), above, or the invoice cost if purchased under (b) (3), above. If you did not purchase the article from the manufacturer, but rely upon your vendor's written statement of the manufacturer's selling price, you shall keep such statement.

(g) All data including purchase, freight and other invoices or memoranda reflecting the charges incurred by you in arriving at your landing cost.

(ii) *Sales records:* If you make sales of any furniture and bedding articles covered by this section at wholesale you shall invoice each sale of each such article. A copy of this invoice shall be made and kept by you for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The original invoice shall be delivered to the buyer and shall state:

(a) The date of sale.

(b) Itemized list of articles sold.

(c) A description of the articles sold, including the manufacturer's lot number.

(d) The manufacturer's selling price for each such article if the ceiling price at wholesale is determined under (b) (2).

(e) Your ceiling price at wholesale for each article.

(f) The price charged or received.

(2) Required of persons making sales at retail. The retailer may list the information required below on each purchase invoice covering the article. If the retailer did not purchase the article from the manufacturer but is relying upon his supplier's written statement of the manufacturer's selling price he shall keep such statement and make it available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The retailer shall likewise keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, his purchase invoice covering that article.

(i) *Purchase records:* If you make sales at retail of any furniture and bedding article you must keep and make available for examination by this Office for so long as the Emergency Price Control Act of 1942, as amended, remains in effect complete and accurate records of each purchase of each such article, showing:

(a) The date of purchase and date of receipt.

(b) The name and address of the seller.

(c) A description of the article purchased, including the manufacturer's lot number.

(d) The manufacturer's selling price if priced under (c) (1), (c) (4) or (c) (5), above.

(e) The invoice cost if priced under (c) (2), or (c) (3), above.

(f) The price paid or received.

(g) The retailer's ceiling price.

(ii) *Sales records:* If you make sales of any furniture and bedding article at retail you shall invoice each sale of each such article. A copy of this invoice shall be made and kept by you for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The original invoice shall be given to the buyer, and shall state:

(a) The date of sale.

(b) Itemized list of the articles sold.

(c) A description of the articles sold, including the manufacturer's lot number.

(d) Your ceiling price at retail.

(e) The price charged or received.

(3) Every retailer shall keep and make available for examination by this office, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records of the same kind as he has customarily kept relating to the price charged for such article and in addition records showing as precisely as possible the basis upon which he determined the maximum price for such article.

(g) *Posting and marking of price.* For the purpose of this section, this paragraph supersedes the provisions of section 10 (b) of Maximum Price Regulation No. 373.

(1) *Posting.* On and after the effective date of this section, if you sell any furniture and bedding item at retail, you shall post in a conspicuous place in a manner plainly visible to and understandable by the purchasing public in the department or portion of the premises where such article is sold or offered for sale, a sign stating: "Each article of furniture and bedding in this store (or on this counter, shelf, or in this case, bin or rack) is marked and sold at our ceiling price or less."

(h) *Inability to determine maximum prices.* If you are unable to determine your maximum price for any article covered by this section, you shall apply to the Office of Price Administration for the establishment of a maximum price.

(i) *Definitions.* (1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it f. o. b. factory, less all discounts and allowances except cash discounts up to 2%, and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Price Regulation.

(2) "Wholesaler's selling price" means the price appearing on the wholesaler's invoice to the retailer, less all discounts and allowances except cash discounts up to 2%, and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Price Regulation.

(3) "Out of stock sales" means sales of articles which the seller carries in stock, sells out of stock, and which were invoiced and received at the establishment of the seller.

(4) "Sales on a drop shipment basis" means sales of articles which were not delivered out of stock, but are consigned to the seller, but are not shipped to the establishment of the seller.

[Sec. 67 added by Am. 60, 9 F.R. 6259, effective 5-1-44]

SEC. 68. *Manufacturer's ceiling prices for sales of locally produced furniture and bedding*—(a) *Scope of this section.* This section applies to all sales by manufacturers of locally produced furniture and bedding. The term "furniture and bedding" includes:

(1) *Living room furniture:* All types of upholstered furniture, whether entirely or partially upholstered, and shall include studio couches, punees, punee cushions, hassocks and ottomans.

(2) *Case goods:* All types and pieces of bedroom and dining room furniture and shall include all types of novelty and occasional furniture such as end tables, coffee tables, smoking stands, mirrors, wall racks, radio cabinets that are sold without the radio set installed, record cabinets, folding chairs, folding card tables, ice-refrigerators, (except electric), kitchen tables and chairs, bases, cabinets, dinette sets, stools and bars.

(3) *Outdoor and Lanai furniture:* All types of furniture used on lanais or outdoors, whether stationary or collapsible, and shall include steamer and deck chairs, portable barbecue sets, hammocks of all types, umbrellas, portable awnings or sun shades, cabanas.

(4) *Juvenile furniture and bedding:* All types of juvenile furniture, chests, cribs, bunks, chairs and tables, all types of mattresses and protective pads, bassinets; but shall not include such items as are used for children's entertainment such as slides, sand boxes, swings for larger children, velocipedes or wagons.

(5) *Beds and bedding:* All types of beds and cots, including folding or collapsible types; all types of bedding made of new materials and bedding made with reprocessed cotton, hair and feathers and down, including domestic pads (but not including domestics such as sheets, pillow cases, blankets and comforters), and all types of bed springs, regardless of material used for construction.

(6) *Office furniture:* All types of office furniture, tables, such as are used for supporting machines, filling cabinets

and other cabinets; but shall not include safes or any type of office machines.

(7) *Institutional furniture:* All types of institutional furniture and such items as are used for similar purposes as household furniture; and shall include portable blackboards, map cases or racks, tablet arm chairs; all types of hospital furniture other than surgical or medical appliances, wheel chairs, invalid chairs and bed trays.

(8) *Unpainted furniture:* All types of unpainted furniture. The term furniture and bedding does not include lamps, floor coverings, rugs, stoves or musical instruments. However, the term furniture and bedding as used in this section applies to new furniture and bedding. Used or reconditioned furniture and bedding is not covered by this section other than bedding made from reprocessed cotton, hair, feathers and down.

The term "manufacturer" means the person who makes the first sale of a furniture and bedding article listed above after the article has been completed to a point indicated by the terminology stated in this paragraph (a).

(b) *Ceiling prices.* If you are a manufacturer you calculate your ceiling prices for any locally produced furniture or bedding article in the following manner:

(1) Multiply your current cost per unit of direct labor and materials involved in the production of the article by 1.30. The resulting price is your ceiling price.

However, prior to offering any furniture and bedding article for sale, you must comply with the applicable reporting provision set forth in subparagraphs (2) (i) and (2) (ii), below.

(2) *Reports of ceiling prices*—(i) *Articles first offered for sale before the effective date of this section.* In the case of articles first offered for sale before the effective date of this section for which a ceiling price was determined under the General Maximum Price Regulation for the Territory of Hawaii, the manufacturer shall report the new ceiling price for the item as determined under subparagraph (1), above, to the Office of Price Administration, Iolani Palace, Honolulu, T. H., on or before May 30, 1944. The report shall contain a description of the article being priced including the manufacturing process and the current unit material cost and wage rates involved in the production of the item. At any time prior to May 30, 1944, the manufacturer may offer for sale, sell or deliver the item at a tentative price if he informs the purchaser that the maximum price is calculated under subparagraph (1), above. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time on the written order of the Office of Price Administration.

(ii) *Articles offered for sale after the effective date of this section.* In the case or articles first offered for sale after the effective date of this section, the manufacturer shall submit to the Office of Price Administration, Iolani Palace, Honolulu, T. H., the report required in subparagraph (2) (i), above, prior to first offering the article for sale. Fifteen days after mailing the report, in the absence of contrary direction from the Office of Price Administration, the manufacturer may offer the article for sale at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time on the written order of the Office of Price Administration.

(iii) *Example of report required in subparagraph (2), above.* If the item involved is a dressing table, 24" x 16" x 12", the manufacturer should state in his description of his direct cost of materials, the number of feet of lumber used, the type of lumber, the cost per foot of lumber used, whether the lumber is finished or not, the number of drawers contained in the item, the type of article, and any other information pertinent to the cost of materials. In his statement of wage rates involved, he should submit the number of hours of labor involved, for carpentry, painting and upholstering, etc., and the wage rate per hour for each type of labor.

(c) *Inability to determine maximum prices.* If you are unable to determine your maximum price for any article covered by this section, you shall apply to the Office of Price Administration for the establishment of a maximum price.

(d) *Delivery charges.* (1) No charges for deliveries may be made for the following deliveries:

(i) Within the area bounded by Wialupi Radio Station, Kapalama Canal and the mountain range on the Island of Oahu,

(ii) Within a radius of five miles of the seller's place of business on all other Islands. However, you may not refuse to make free delivery within the free delivery zones above unless it was not your practice, as a seller during April, 1942, to make free deliveries in these zones.

(2) For deliveries other than those specified in subparagraph (1), above, you may add an amount not in excess of the charge currently made by common or contract carriers for such services. Any charge made for delivery must be separately stated and shown on the invoice used in connection with the sale.

(e) *Records and invoices.* Sections 10 (a) (2), (10 (b), 10 (c) and 10 (d) of this regulation shall not apply to this section.

In addition to such records required to be kept under section 10 (a) (1) of this regulation, every manufacturer of furniture and bedding must keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, the following records:

(i) Delivered cost of materials used.

(ii) Material supplier's name.

(iii) Description of material purchased.

(iv) Purchase price.

(v) Date of purchase and amount of purchase.

(vi) All factory production records, time sheets, job tickets, and payroll records and any other data affecting labor costs.

(f) *Sales invoices.* Every manufacturer shall invoice each sale of furniture. A copy of the invoice shall be delivered to the buyer and shall state:

(i) Date of sale.

(ii) Name and address of the buyer and seller.

(iii) Itemized list of articles sold.

(iv) Description of articles sold, including manufacturer's lot number.

(v) The price charged or received.

(vi) Delivery charges.

A copy of this invoice shall be kept by the manufacturer for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect.

PART 1418—TERRITORIES AND POSSESSIONS

[MPR 395–A,[1] Amdt. 1]

DISTILLED SPIRITS SHIPPED FROM THE VIRGIN ISLANDS OF THE UNITED STATES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 395–A is amended in the following respects:

1. Section (1) (a) is amended to read as follows:

(a) *Generally.* This regulation applies to all sales of rum produced in the Virgin Islands (U. S.) and ultimately destined for shipment to the continental United States, regardless of where the sale is consummated.

2. Section 7 is amended to read as follows:

SEC. 7. *Intra-island sales*—(a) *Bulk maximum prices.* Maximum prices for local sales in bulk of rum produced in the Virgin Islands (U. S.) and ultimately destined for shipment to the continental United States shall be $2.65 per proof gallon ex processor's plant. The seller shall file with the Office of Price Administration, St. Thomas, Virgin Islands, (U. S.), duplicate copies of invoices covering every sale made pursuant to this paragraph within three days following such sale. The seller shall also notify each purchaser that the purchaser is required to file with the Office of Price Administration, St. Thomas, Virgin Islands (U. S.), a statement showing the date of sale, the quantity purchased and his certification that all of such rum is ultimately destined for shipment to the continental United States.

(b) *Bottled maximum prices.* Any person in the Virgin Islands (U. S.) who desires to sell to another person therein bottled rum produced in the Virgin Islands and ultimately destined for shipment to the continental United States may apply to the Territorial Director of the Office of Price Administration for the Virgin Islands (U. S.) for a maximum price applicable to such sale. The Territorial Director in his discretion may issue an order authorizing a maximum price not in excess of the maximum prices established in section 2 (b) upon being satisfied that such rum is ultimately destined for shipment to the continental United States.

This amendment shall become effective July 29, 1944.

NOTE: The reporting and record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of July 1944.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[2d Rev. MPR 346,[1] Amdt. 3]

CORN

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Second Revised Maximum Price Regulation No. 346 is hereby amended in the following respects:

1. The definition of "merchandiser" in section 3 is amended to read as follows:

"Merchandiser" means a person, other than one acting in the capacity of a producer, country shipper or importer, who sells corn owned by him in carload quantities.

2. The definition of "sale at wholesale" in section 3 is amended to read as follows:

"Sale at wholesale" means a sale of corn in less than carload quantities by a person, other than one acting in the capacity of a producer, country shipper or importer, to (1) any person other than a feeder; or (2) a feeder in quantities of 30,000 pounds or more.

3. The definition of "sale at retail" in section 3 is amended to read as follows:

"Sale at retail" means a sale of corn in less than a carload quantity by a person, other than one acting in the capacity of a producer, country shipper or importer, to a feeder in quantities of less than 30,000 pounds.

4. Section 3 is amended by adding the following definitions:

"United States", when it refers to an area, means the 48 states and the District of Columbia.

"Importer" means with respect to any lot of corn grown outside the United States, the first person who owns such lot after entry into the United States, and who sells it through his office located in the United States, or who processes it at his plant located within the United States.

"Imported corn" means any lot of corn grown outside the United States which is either to be imported into the United States, or still owned by the importer of such lot.

5. Section 6 (d) (4) (iii) is added to read as follows:

(iii) On the sale in the United States by any person other than the importer of any corn grown outside the United States, the maximum price on such sale shall never include more than one broker's maximum service charge, one merchandiser's maximum markup, and one charge for elevation and handling after movement of the corn by rail or barge from the port of discharge.

6. Section 20 (j) is added to read as follows:

(j) *Formula price for imported corn.* The formula price for imported corn delivered by vessel to a port of discharge in the United States, shall be as follows:

(1) Corn grading No. 1 or 2	$1.25 per bushel
(2) Lower grades or qualities	$1.25 per bushel less the appropriate discounts set forth in Section 20 (f).

7. Section 21 is added to read as follows:

SEC. 21. *Maximum prices for sales by importers.* The maximum price per bushel, bulk, for the sale of any imported corn by the importer shall be the sum of the following:

(a) The formula price for imported corn;

(b) Where incurred by the importer, the expenses incurred (not in excess of any published rates therefor) for any or all of the following:

(1) Taking delivery of the corn from vessel in accordance with the clauses and terms of the ocean bill of lading;

(2) Costs of landing, including lighterage and marine and out-turn insurance while in the lighter;

(3) Clearing through customs, including any taxes and tolls (but excluding import duties) assessed against the corn at port of discharge;

(4) Inspection and weighing from the vessel;

(5) Handling through elevator, warehouse or other facility into conveyance for inland transportation including coopering;

(c) If the importer ships the corn to any point in any state bordering on the Atlantic or Pacific Ocean or the Gulf of Mexico, or to any point in Vermont, Pennsylvania, West Virginia, Kentucky, Tennessee, Arkansas, Oklahoma, Idaho, Nevada, Utah, or Arizona, his transportation cost, if any, from the point of discharge to destination; and

(d) The appropriate one of the following markups:

	Cents per bushel
(1) If the importer sells the corn in a carload quantity	1¼
(2) If the importer sells the corn in a less than carload quantity to any person other than a feeder or to a feeder in quantities of 30,000 pounds or more	2½
(3) If the importer sells the corn to a feeder in quantities of less than 30,000 pounds	5

This amendment shall become effective July 29, 1944.

Issued this 24th day of July 1944.

[Petroleum Directive 77]

PART 1535—PETROLEUM PROCESSING AND REFINING

HIGH-OCTANE AVIATION GASOLINE

The fulfillment of the requirements for the defense of the United States has created in certain areas a shortage in the supply of aviation gasoline for defense, for private account, and for export; and the following directive is deemed necessary for the prosecution of the war and to provide adequate supplies of aviation gasoline for military and other essential uses.

§ 1535.4 *Petroleum Directive 77.* (a) *Scope and purpose.* This directive governs the manufacture, blending, transfer, and delivery of high-octane aviation gasoline and its components. It also describes the functions of the two governmental agencies which exercise coordinate jurisdiction in this field, and specifies how to make application to them for authority to act.

The Petroleum Administration for War is an executive agency deriving its authority from Executive Orders 9276 and 9319. The Aviation Petroleum Products Allocation Committee is a subcommittee of the Munitions Assignment Committee (Air), and derives its authority from directives of the Combined Chiefs of Staff dated June 12, 1942, and September 25, 1943.

The Petroleum Administration for War Controls all transfers within the petroleum industry of aviation-grade base stock, blending agents, and high-octane aviation fuel. The Petroleum Administration for War instructs industry with respect to specifications for the types and grades of high-octane aviation fuel which shall be manufactured or blended in regular commercial production. For the manufacture or blending of any other grade or type of fuel, such as experimental fuels, specific authorization must be obtained from the Petroleum Administration for War.

The Petroleum Administration for War and the Aviation Petroleum Products Allocation Committee exercise joint control over all deliveries, from the petroleum industry to consumers (or their agents), of blending agents, aviation-grade base stock, and high-octane aviation fuel. After the Aviation Petroleum Products Allocation Committee has made an assignment to the War Department, the Navy Department, or for export to any person, delivery cannot be made until, in addition to the assignment by the Aviation Petroleum Products Allocation Committee, a release for each specific quantity to be assigned has been issued by the Petroleum Administration for War. An assignment by the Aviation Petroleum Products Allocation Committee is deemed to carry such release by the Petroleum Administration for War automatically in all cases other than deliveries to the War Department, the Navy Department, or for export.

Consumption of finished high-octane aviation fuel within the petroleum industry (for instance, in research) requires release in advance by the Petroleum Administration for War, which is deemed to carry with it automatically the approval of the Aviation Petroleum Products Allocation Committee.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Blending agents" means materials suitable for use in the manufacture of aviation gasoline, such as, but not limited to, iso-octane, alkylate, hydrocodimer, hot acid octanes, neohexane, isopentane, and cumene. It also means toluene, xylenes, and other aromatic components which are released by the War Production Board to the Aviation Gasoline Program.

(3) "Aviation-grade base stock" means gasoline (either straight-run or cracked) which meets then current Army-Navy specifications for aviation gasoline stability after the addition of inhibitors, and which tests 87 O. N. or higher by the ASTM Aviation Method (ASTM D614-43T) after the addition of the amount of tetraethyl lead then authorized by current Army-Navy specifications for aviation gasoline of 87 octane number.

(4) "High octane aviation fuel" means finished aviation gasoline which has an octane rating of 87 or more (ASTM D357-42T), or which would have an octane rating of 87 or more by said method after the addition of sufficient tetraethyl lead to bring the total thereof up to the total tetraethyl lead content then authorized by current Army-Navy specifications for aviation gasoline of 87 octane number.

(c) *Limitations upon transfers.* No person shall deliver or transfer blending agents, aviation-grade base stock, or high-octane aviation fuel to any other person except as authorized or directed by the agency having jurisdiction, as set forth in paragraph (a).

(d) *Limitations upon use.* No person, unless otherwise authorized by the agency having jurisdiction as set forth in paragraph (a), shall use or consume blending agents or aviation-grade base stock otherwise than in the production and blending of the regular types and grades of high-octane aviation fuel as directed by the Petroleum Administration for War. No person shall use or consume high-octane aviation fuel unless, and until, assignment of such fuel has been made by the agency having jurisdiction as set forth in paragraph (a).

(e) *Applications for authority.* (1) Applications to the Aviation Petroleum Products Allocation Committee for as-

*Copies may be obtained from the Office of Price Administration.

signments of high-octane aviation fuel, or for authority to deliver blending agents or aviation-grade base stock to persons not in the petroleum industry, shall be made upon such forms as may be prescribed from time to time. Such applications shall be addressed to the Executive Secretary, Aviation Petroleum Products Allocation Committee, Interior Building, Washington 25, D. C.

(2) Applications to the Petroleum Administration for War for authority for transfers within the petroleum industry, or for release of materials assigned by the Aviation Petroleum Products Allocation Committee, or for authority to consume finished fuel within the petroleum industry, shall be made in writing in such forms as the applicant may elect. Such applications shall be addressed to the Refining Division, Petroleum Administration for War, Interior Building, Washington 25, D. C.

(f) *Surveys and recommendations by committees.* The Refining Committees of the several Districts of the Petroleum Administration for War, and such Subcommittees on Aviation Gasoline (of nation-wide or District-wide jurisdiction) as have been or may hereafter be appointed, shall, from time to time, obtain, compile, and analyze, as directed by the Petroleum Administration for War, all pertinent and available facts, figures, and other data with respect to the production of all grades of aviation gasoline, including, but not limited to, information concerning the existence, location, and availability of all grades of aviation gasoline base stocks and aviation gasoline blending agents held within the petroleum industry, aviation gasoline manufacturing patents and processes, the capacity of existing aviation gasoline production and manufacturing facilities, and the possibilities of expansion of facilities now employed for such purposes, as well as the conversion thereto of facilities not now so employed. The Refining Committees and the Subcommittees on Aviation Gasoline shall recommend to the Petroleum Administration for War such measures as they deem necessary or proper for improving the quantity or quality of aviation gasoline.

(g) *Applications for exception.* Any person affected by this directive who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may file an application for exception, setting forth the pertinent facts and reasons why he considers himself entitled to relief. Applications for exception shall be addressed to the Director of Refining, Petroleum Administration for War, Interior Building, Washington 25, D. C.

(h) *Effective date.* This directive shall take effect on the date of issuance.

(E.O. 9276, 7 F.R. 10091; E.O. 9319, 8 F.R. 3687).

Issued this 24th day of July, 1944.

PART 1543—PETROLEUM PROCESSING, REFINING, AND MARKETING

PREMIUM MOTOR FUEL

Section 1543.1 (Petroleum Distribution Order No. 21) is hereby amended by changing subparagraph (5) of paragraph (a), and paragraph (b) to read as follows:

(a) *Definitions.* (5) "Base period" means, in the States of Washington, Oregon, California, Nevada, and Arizona, and in the Territories of Alaska and Hawaii, the three months period immediately preceding June 1, 1944, and in all other States of the United States, the six months period immediately preceding April 1, 1944.

(b) *Limitation on manufacture of premium motor fuel.* After the effective date of this order, the percentage of premium motor fuel manufactured by any person:

(1) In the States of Washington, Oregon, California, Nevada, and Arizona, and in the Territories of Alaska and Hawaii, based on his total manufacture of gasoline, shall not exceed nine-twentieths of the percentage of premium motor fuel, based upon total gasoline, which he manufactured during the base period; and

(2) In all other States of the United States, based upon his total manufacture of gasoline, shall not exceed one-half of the percentage of premium motor fuel, based upon total gasoline, which he manufactured during the base period.

Computation to determine that the amount of premium motor fuel manufactured by any person is within this limitation shall be made on the basis of successive three months periods, the first of which shall commence on July 1, 1944.

Nothing in this order shall be construed to limit in any way the volume of gasoline of any grade or type which any person may manufacture or deliver to the Army or Navy.

DEPARTMENT OF LABOR.

Wage and Hour Division.

ST. THOMAS AND ST. JOHN, VIRGIN ISLANDS

NOTICE OF HEARINGS ON MINIMUM WAGE RECOMMENDATIONS

Notice of hearings on the minimum wage recommendations of the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, for the liquor, shipping, property motor carrier, wholesaling, electric power, communications, bay oil, bay rum and miscellaneous manufacturing industries in such municipality and of the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, for the liquor, shipping, property motor carrier, wholesaling, communications and meat packing industries in such municipality.

Whereas, the Acting Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (e) of the Fair Labor Standards Act of 1938, on March 4, 1944, by Administrative Order No. 228, appointed a Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, composed of residents of this municipality and residents of the United States outside of this municipality and including an equal number of representatives of the public, employers in the Liquor Industry, the Bay Oil, Bay Rum and Miscellaneous Manufacturing Industries, the Shipping Industry, the Property Motor Carrier Industry, the Wholesaling Industry, the Electric Power Industry, and the Communications Industry in this municipality and employees in such industries in this Municipality; and by Administrative Order No. 229, dated March 4, 1944, appointed a Special Industry Committee for the municipality of Saint Croix, Virgin Islands, composed of residents of this municipality and residents of the United States outside of this Municipality and including an equal number of representatives of the public, employers in the Liquor Industry, the Shipping Industry, the Property Motor Carrier Industry, the Wholesaling Industry, the Communications Industry, and the Meat Packing Industry in the municipality and employees in such industries in this municipality; and

Whereas, the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, has made separate minimum wage recommendations and has duly filed with the Administrator a report containing such recommendations pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act, for each of the following industries:

Liquor Industry.
Bay Oil, Bay Rum and Miscellaneous Manufacturing Industries.
Shipping Industry.
Property Motor Carrier Industry.
Wholesaling Industry.
Electric Power Industry.
Communications Industry.

and the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, has made separate minimum wage recommendations and has duly filed with the Administrator a report containing such recommendations pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act, for each of the following industries:

Liquor Industry.
Shipping Industry.
Property Motor Carrier Industry.
Wholesaling Industry.
Communications Industry.
Meat Packing Industry.

and

Whereas, the Administrator is required by section 8 (d) of the act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order each of the recommendations of the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, and of the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, if he finds that the recommendations are made in accordance with law, are supported by the evidence adduced at the hearing, and taking into consideration the same factors as are required to be considered by the Industry Committees, will carry out the purposes of section 8 of the act; and, if he finds otherwise, to disapprove such recommendations;

Now, therefore, notice is hereby given that:

A. The separate minimum wage recommendations of the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, for employees engaged in commerce or in the production of goods for commerce in the enumerated industries in such municipality are as follows:

Industry	Recommended minimum
1. Liquor Industry	35 cents an hour.
2. Bay Oil, Bay Rum and Miscellaneous Manufacturing Industries	25 cents an hour.
3. Shipping Industry	32 cents an hour.
4. Property Motor Carrier Industry	30 cents an hour.
5. Wholesaling Industry	30 cents an hour.
6. Electric Power Industry	32 cents an hour.
7. Communications Industry	30 cents an hour.

and the separate minimum wage recommendations of the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, for employees engaged in commerce or in the production of goods for commerce in the enumerated industries in such municipality are as follows:

Industry	Recommended minimum
1. Liquor Industry	80 cents an hour.
2. Shipping Industry	80 cents an hour.
3. Property Motor Carrier Industry	30 cents an hour.
4. Wholesaling Industry	30 cents an hour.
5. Communications Industry	30 cents an hour.
6. Meat Packing Industry	25 cents an hour.

B. The definitions of the industries in the municipality of Saint Thomas and Saint John, Virgin Islands, for which the Special Industry Committee for such municipality has made the foregoing minimum wage recommendations are as follows:

1. The Liquor Industry in the Municipality of Saint Thomas and Saint John, Virgin Islands, shall include the manufacture and blending of spirituous liquors and all operations incidental thereto.

2. D. A public hearing will be held on September 20, 1944, before the Administrator of the Wage and Hour Division, or a representative designated to preside in his place, at 10:00 a. m. in Room 1610, 165 West 46th Street, New York, New York, for the purpose of taking evidence on the question:

Whether the separate recommendations of the Special Industry Committee for the Municipality of Saint Thomas and Saint John, Virgin Islands, shall be approved or disapproved.

and on the question:

Whether the separate recommendations of the Special Industry Committee for the Municipality of Saint Croix, Virgin Islands, shall be approved or disapproved.

E. Any interested person supporting or opposing any of the recommendations of such Special Industry Committees may appear at the aforesaid hearings to offer evidence, either on his own behalf or on behalf of any other person: *Provided*, That not later than September 13, 1944, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, or at the office of the Wage and Hour Division, United States Department of Labor, El Banco Popular Building, San Juan, Puerto Rico, notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.
3. The recommendation or recommendations of the Special Industry Committee for the Municipality of Saint Thomas and Saint John, Virgin Islands, or of the Special Industry Committee for the Municipality of Saint Croix, Virgin Islands, in which he is interested and whether he proposes to appear for or aganst such recommendation or recommendations.
4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, or to the Wage and Hour Division, United States Department of Labor, Post Office Box 112, San Juan 1, Puerto Rico, and shall be deemed filed upon receipt.

F. Any person interested in supporting or opposing any of the recommendations of the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, or of the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, may secure further information concerning the aforesaid hearings by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, or to the Territorial Representative, Wage and Hour Division, United States Department of Labor, Post Office Box 112, San Juan 1, Puerto Rico, or by consulting with attorneys representing the Administrator who will be available at the Office of the Solicitor, United States Department of Labor, in Washington, D. C., and New York, New York.

G. The records made at the public hearing on conditions in the industries in the municipality of Saint Thomas and Saint John, Virgin Islands, held before the Special Industry Committee for such municipality in Charlotte Amalie, Saint Thomas, Virgin Islands, on April 24 to April 28, 1944, inclusive, and in the municipality of Saint Croix, Virgin Islands, held before the Special Industry Committee for such municipality in Christiansted, Saint Croix, Virgin Islands, on May 1 to May 3, 1944, inclusive, may be examined by any interested person at the offices of the Wage and Hour Division, United States Department of Labor, at 165 West 46th Street, New York, N. Y., and El Banco Popular Building, San Juan, Puerto Rico. The records of the public hearing before the Industry Committees with respect to each industry in the municipality of Saint Thomas and Saint John, Virgin Islands, and in the municipality of Saint Croix, Virgin Islands, will be offered in evidence at the public hearing.

A copy of the following document relating to the industries in the municipality of Saint Thomas and Saint John, Virgin Islands, and in the municipality of Saint Croix, Virgin Islands, which is included in the records of the public hearings held before the Special Industry Committee for the municipality of Saint Thomas and Saint John, Virgin Islands, and the Special Industry Committee for the municipality of Saint Croix, Virgin Islands, will be offered in evidence at the hearing before the Administrator or his representative, and will be made available, on request, for inspection by any interested person who intends to appear at such hearing:

A report entitled *Report to Special Industry Committees for the Municipality of Saint Thomas and Saint John, Virgin Islands, and for the Municipality of Saint Croix, Virgin Islands*, February 1944, prepared by the Economics Branch, Wage and Hour and Public Contracts Divisions, United States Department of Labor.

H. Each hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or Presiding Officer as are deemed appropriate:

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice, he will not be permitted to offer evidence at any time except by special permission of the Presiding Officer.

3. At the discretion of the Presiding Officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place by announcement thereof at the hearing by the Presiding Officer or by other appropriate notice.

4. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the Presiding Officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the Presiding Officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be put in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The Presiding Officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the Presiding Officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer. Objections as to approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the Presiding Officer.

12. Before the close of the hearing, written requests shall be received from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing, a complete record of the proceedings shall be filed with the Administrator. No intermediate report shall be filed unless so directed by the Administrator. If a report is filed it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at New York, New York, this 17th day of July 1944.

L. METCALFE WALLING,
Administrator.

INTERSTATE COMMERCE COMMISSION.

MOTOR CARRIERS AND BROKERS

PRESERVATION OF RECORDS

JULY 18, 1944.

Notice to all motor carriers and brokers subject to Part II of the Interstate Commerce Act.

It has come to the attention of the Commission in numerous instances that carriers are not complying with the Commission's orders of April 18, 1942, prescribing Regulations to Govern the Preservation of Records of Class I Motor Carriers and Regulations Governing the Preservation of Records of Motor Carriers (Other than Class I Motor Carriers) and Brokers, which became effective July 1, 1942. Records, accounts, correspondence, and memoranda must be retained for the periods prescribed by these orders.

Attention has been previously directed to the necessity of keeping records for the time prescribed by the Commission's regulations and of having such records readily available for examination by special agents and accountants. In many instances, it has been found that public accountants engaged by motor carriers have removed general books, financial data and working papers, supporting documents, memoranda, and correspondence from the carriers' places of business. Although such records may lawfully be removed from carriers' premises periodically for audit or posting, it is expected that such records will be returned to the carriers' premises promptly in order that they may be readily accessible to authorized representatives of the Commission.

In cases where public accountants retain possession of working papers supporting journal entries covering adjustments in accounts, accrual of depreciation and other items and analyses and schedules as a part of their audit procedure, it is required that copies of such papers which are necessary to the completion of the carriers' accounting records be retained permanently in the offices of motor carriers. Failure to do so by Class I carriers is a violation of Instruction 2—Records, In the Uniform System of Accounts prescribed by the Commission's order of November 29, 1937.

Attention is directed to the penalties provided in section 222 (g) of the Interstate Commerce Act to which a carrier may subject itself if it fails to comply with the prescribed regulations and specific provisions of the law as referred to herein.

[SEAL] W. P. BARTEL,
Secretary.

NIPPON KOGEI

In re: Nippon Kogei. Japan Crafts.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation, finding:

1. That Nippon Kogei—Japan Crafts, whose principal place of business is New York, State of New York, is a sole proprietorship owned by Kaichiro Tazawa and is a business enterprise within the United States;

2. That Kaichiro Tazawa, whose last known address is Japan, is a national of a designated enemy country (Japan);

and determining:

3. That Nippon Kogei—Japan Crafts, a sole proprietorship, is controlled by Kaichiro Tazawa and is a national of a designated enemy country (Japan);

4. That to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

and having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian all right, title and interest of Kaichiro Tazawa in and to Nippon Kogei—Japan Crafts, a sole proprietorship, and all property of any nature whatsoever situated in the United States, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to said Nippon Kogei—Japan Crafts, including but not limited to the following:

(1) Japanese prints, rugs and pottery on consignment to and held for the account of Nippon Kogei—Japan Crafts by Yamanaka & Co., Inc., 680 Fifth Avenue, New York;

(2) All moneys now held or which may hereafter accrue at Yamanaka & Co., Inc., for the account of Nippin Kogei—Japan Crafts;

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States, and

hereby undertakes the direction, management, supervision and control of said business enterprise and all property of any nature whatsoever situated in the United States, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to said business enterprise, to the extent deemed necessary or advisable from time to time by the Alien Property Custodian.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to vary the extent of or terminate such direction, management, supervision or control, or return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on June 19, 1944.

JOHN L. MELVILLE

In re: Estate of John L. Melville, deceased; File No. D–28–7576; E. T. sec. 7906.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by A. Otto Iwen, Esq., as Executor, acting under the judicial supervision of the Morris County Orphans' Court, Morristown, New Jersey; and

(2) Such property and interests are payable or delivered to, or claimed by nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Rosalie Wangemann, Germany.
Ilse Kruse, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Rosalie Wangemann and Ilse Kruse, and each of them, in and to the estate of John L. Melville, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by the Commissioner of Finance, White Plains, acting under the judicial supervision of the Supreme Court, Westchester County, State of New York;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Ida Wagner, Germany.
Anna Krieg, Germany.
Walter Neuland (sometimes known as Walter Neulandt), Germany.
Ida Baumbach, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All the property and estate of Ida Wagner, Anna Krieg, Walter Neuland (sometimes known as Walter Neulandt) and Ida Baumbach held by the Commissioner of Finance of Westchester County, New York, pursuant to a judgment of the Supreme Court of the State of New York in and for the County of Westchester, dated December 18, 1942, and entered in a proceeding entitled Irving Trust Company, as Trustee under a Trust Agreement made the 7th day of May, 1937, by Ernst H. Neulandt, for the benefit of himself and remaindermen, as amended by instruments dated September 24, 1937, August 22, 1938, and October 22, 1938, vs. Erich Neulandt, Ida Wagner, Emily G. Macks, Henry G. Gennert, Jr., as executor of the last will and testament of Helen L. Gennert, deceased, Robert G. Macks, Mrs. Anna Krieg, Walter Neuland (sometimes known as "Walter Neulandt"), Ida Baumbach, Miss Margaret V. Gearty, Lena Simonson, as executrix of the last will and testament of Henry Simonson, deceased, Frederick W. Junker (also known as Frederick Junker) individually and as administrator with the will annexed of the Estate of Ernst H. Neulandt, deceased, Hermann Koehler, Frieda Neubauer, Mrs. Babette Ellenberg,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

DR. OIDTMANN STUDIOS, INC.

In re: Dr. Oidtmann Studios, Inc., bankrupt; File No. D–28–1389; E.T. sec. 6840.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Webster F. Williams, Trustee in Bankruptcy, of Dr. Oidtmann Studios, Inc., Bankrupt, acting under the judicial supervision of the United States District Court for the Eastern District of New York;

(2) Such property and interests are payable or deliverable to, or claimed by a national of a designated enemy country, Germany, namely,

National and Last Known Address

Joseph L. Koenig, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Joseph L. Koenig in and to all indebtedness, contingent or otherwise and whether or not matured, owing to him by said Dr. Oidtmann Studios, Inc., Bankrupt,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate special account or accounts pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form

APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

LUDWIG OULMANN

In re: Estate of Ludwig Oulmann, deceased; File No. D–28–3675; E. T. sec. 6061.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Ernest Oulmann, as Executor, acting under the judicial supervision of the Surrogate's Court, New York County, New York;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Arthur Behrend, 426, Paoting Road, P. O. Box 2018, Shanghai, China.

And determining that—

(3) Arthur Behrend, a citizen or subject of a designated enemy country, Germany, and within an enemy-occupied area, China, is a national of a designated enemy country, Germany;

(4) To the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determination and taken all action after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

The sum of $1,971.26 together with any and all additions of principal and income thereto, subject, however, to all lawful charges,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Guido Schubert, 2820 Farragut Road, Brooklyn, New York, Executor, acting under the judicial supervision of the Surrogate's Court, Kings County, State of New York;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

National and Last Known Address

Arndt Schubert, Germany.
Wolfgang Schubert, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Arndt Schubert and Wolfgang Schubert, and each of them, in and to the estate of Paul Rudolf Schubert, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

SOUTHERN DISTRICT OF CALIFORNIA

In re: Deposit with Edmund L. Smith, as Clerk of the United States District Court for the Southern District of California, Central Division; File D–39–1680; E. T. sec. 5533.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Edmund L. Smith, Depositary, acting under the judicial supervision of the United States District Court for the Southern District of California, Central Division;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Japan, namely,

National and Last Known Address

Wife, name unknown, of Torashiro Shimizu, Japan.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Japan; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of the wife, name unknown of Torashiro Shimizu, in and to the deposit with Edmund L. Smith, as Clerk of the United States District Court for the Southern District of California, Central Division, which consists of money and personal effects deposited pursuant to sections 621 to 628 inclusive and section 706 of Title 46, United States Code Annotated,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

EDWARD WECK & CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 22 under Second Revised Order A-3 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Adjustment of maximum prices for sales of surgical instruments manufactured by Edward Weck & Company, Inc.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, *It is ordered:*

(a) This order permits the manufacturer, Edward Weck & Company, Inc., 135 Johnson Street, Brooklyn, New York, to adjust its maximum prices for sales of surgical instruments and sundries, established by Maximum Price Regulation No. 188, by the amount specified below. This order also authorizes purchasers for resale of these surgical instruments and sundries to adjust their maximum prices by adding the dollar-and-cents amount of the adjustment granted the manufacturer and for which they have become obligated.

(1) *Manufacturer's maximum prices.* Edward Weck & Company, Inc., may adjust its maximum prices for sales and deliveries of the surgical instruments and sundries of its manufacture by an amount not to exceed eleven percent of its established maximum prices for such sales. The permitted adjustment of eleven percent may be made only if separately stated and applies to every item for which a maximum price was established under Maximum Price Regulation No. 188 prior to the effective date of this order. It may not exceed eleven percent of the maximum price so established.

(2) *Maximum prices of purchasers for resale.* Any purchaser for resale of a surgical instrument or sundry for which the manufacturer's maximum price has been adjusted as provided in subparagraph (1) above may add to his properly established maximum price in effect immediately prior to the effective date of this Order the dollar-and-cents amount of the adjustment charge for which he has become obligated provided the amount of such adjustment is separately stated.

(b) At the time of or before the first invoice to each purchaser of an article covered by this order, the seller must furnish the purchaser with a written notice stating the number of this Order and fully explaining its terms and conditions.

(c) This order may be revoked or amended by the Price Administrator at any time.

This Order No. 22 shall become effective on the 24th day of July 1944.

Issued this 22d day of July 1944.

REPPLIER COAL CO.

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 11 to Revised Order No. 47 under Revised Maximum Price Regulation No. 122. Washington area and Alexandria, Virginia.

For the reasons set forth in the opinion issued herewith and in accordance with § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122; *It is ordered*, That Revised Order No. 47 be amended in the following respect:

New paragraph (f4) is added to read as follows:

(f4) The prices set forth in paragraphs (c) (1), (d) and (f) for the respective areas and for "direct delivery" and "yard sales" may be increased for sales of "New Castle anthracite" by no more than 50 cents per net ton or 55 cents per gross ton in the egg, stove, nut and pea sizes; by 40 cents per net ton or 45 cents per gross ton in the buckwheat, rice and barley sizes; if:

(1) The dealer keeps Newcastle anthracite separate in storage and delivery, from any other kind of solid fuel; and

(2) The dealer keeps complete and accurate records of Newcastle anthracite for such time as this paragraph (f4) is in effect. The records shall show: the date he received the call; the name and address of the producer; the quantity in net tons of each delivery to him of such anthracite and all invoices sent him by the producers; and

(3) The Newcastle anthracite is produced by Repplier Coal Company, Buck Run, Pennsylvania, and is sold as "Newcastle".

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment to Revised Order No. 47 shall become effective July 24, 1944.

LAKEY FOUNDRY AND MACHINE CO.

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 8 to Order No. 16 under § 1421.157 (a) of Maximum Price Regulation No. 244. Gray iron castings. Docket No. 3244-102. Lakey Foundry and Machine Company.

For the reasons set forth in the opinion issued simultaneously herewith, *It is hereby ordered*, That Order No. 16 under § 1421.157 (a) of Maximum Price Regulation No. 244 be, and it hereby is, amended as follows:

1. Paragraph (a) of Order No. 16, as amended, is amended by deleting therefrom the entire last proviso beginning with the words "and provided further," and by substituting in lieu thereof the following proviso:

And provided further, That (1) on and after December 1, 1943, Lakey Foundry and Machine Company, Muskegon, Michigan, is hereby authorized to increase by 20 per cent the maximum prices for gray iron castings hereinbefore provided in this paragraph, and (2) the maximum prices established by this paragraph shall not apply to cylinder blocks, Pattern No. H-324432, and cylinder heads, Pattern No. H-325094, sold to Hudson Motor Car Company or to any other cylinder blocks and cylinder heads sold to said purchaser which may bear different pattern numbers but which are substantially the same within the meaning of Maximum Price Regulation No. 244 as the cylinder blocks and cylinder heads made from said Pattern Nos. H-324432 and H-325094.

2. The undesignated paragraph in paragraph (a) of Order No. 16, as amended, beginning with the words "And it is further ordered", is amended to read as follows:

And it is further ordered, That Lakey Foundry and Machine Company, Muskegon, Michigan, shall (1) refund to its purchasers any payments they have made to it for gray iron castings delivered on and after December 1, 1943, which are in excess of the maximum prices specified in Order No. 16, as amended by Amendment No. 8, one half of the applicable refunds to each purchaser to be made not later than August 30, 1944, and the other half to be made not later than October 30, 1944, and (2) file statements with the Iron and Steel Branch of the Office of Price Administration, Washington, D. C., not later than August 30, 1944, and October 30, 1944, to the effect that such refunds have been made and stating the dollars amounts of said refunds to each of its purchasers.

Issued and effective this 22d day of July 1944.

Regional and District Office Orders.

[Region II Order G-2 Under MPR 154]

ICE IN NEW YORK, N. Y.

Order No. G-2 under Maximum Price Regulation No. 154, as amended. Ice. Adjusted maximum prices for the sale and delivery of ice in the City of New York.

For the various reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1393.8 of Maximum Price Regulation No. 154, as amended, it is hereby ordered:

(a) *What this order does*—(1) *Revokes Order No. G-1 as amended.* This Order No. G-2 supersedes Order No. G-1 issued under Maximum Price Regulation No. 154 on May 24, 1944 and amended on May 27, 1944. Order No. G-1 as amended is of no more force and effect and is hereby revoked.

(2) *Maximum prices; area covered.* If you are an ice manufacturer, or wholesale or retail ice dealer, this Order No. G-2 fixes the maximum prices which you may charge; and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for specific quantities of block, crushed and cube ice delivered at the manufacturer's platform within the City of New York, or delivered at or to any point within the City of New York. The City of New York is hereby defined as comprising the counties of New York, Kings, Bronx, Queens, and Richmond.

(3) *Schedule of prices, charges and discounts.* The schedule of prices from which you shall determine the applicable adjusted maximum price at which you may sell ice, or purchase ice in the course of trade or business, is set forth in schedule I below:

SCHEDULE I

ADJUSTED MAXIMUM PRICES FOR THE SALE OR DELIVERY OF ICE IN THE CITY OF NEW YORK

Home consumers						.75
All others						1.30

[1] Per 50 lb.
[2] Per 25 lb.
[3] The applicable adjusted maximum price for crushed ice sold to users who customarily purchased crushed ice in 100-pound quantities and paid the same price for block ice as for crushed ice, is 40¢ per 100 pounds delivered.

(b) *Definitions.* (1) "Ice" means artificial ice.

(2) "Manufacturer" means any person, partnership, corporation or association engaged in the manufacture of artificial ice for sale or delivery within the City of New York.

(3) "Wholesale ice dealer" means any person, partnership or corporation whether or not such person, partnership or corporation is also a manufacturer of ice, who sells or delivers ice in the City of New York, the majority of whose sales or deliveries are customarily made to other ice dealers or who customarily purchases from one ice manufacturer or from one sales representative of ice manufacturers a minimum quantity of 5000 tons of ice per year.

(4) "Retail ice dealer" means any person, partnership, corporation or association whether or not such person, partnership, corporation or association is also a manufacturer of ice, who sells or delivers ice in the City of New York, the majority of whose sales or deliveries are made to ultimate users.

(5) "Sell" means sell, supply, dispose, barter, exchange, transfer, or deliver and contracts and offers to do any of the foregoing.

(6) "White ice" means a cake of ice, at least 25% of which is opaque.

(7) "Platform sale" is a sale of ice, delivery of which is made to the purchaser at the seller's place of business.

(8) "Delivered sale" is a sale of ice delivered to a purchaser at a point other than the seller's place of business.

(c) *What this order prohibits.* Regardless of any contract or other obligation, you shall not

(1) Sell, deliver or offer to sell or deliver, or in the course of trade or business, buy ice at higher than the maximum prices set forth in Schedule I, although you may charge, pay or offer less than such maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Charging for any service which is not especially requested by the buyer;

(ii) Charging for any service for which a charge is not specifically authorized by this order;

(iii) Using any tying agreement or requiring that a buyer purchase any service or commodity from you in addition to the ice requested by him;

(iv) Using any other device by which a price higher than the applicable maximum price is obtained directly or indirectly.

(d) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may at any time, amend, revoke or rescind this order, or any provision thereof.

(e) *Applicability of other regulations.* If you are a manufacturer, or wholesale or retail dealer subject to this Order No. G-2, you are governed by the licensing provisions of Supplementary Order No. 72 and Licensing Order No. 1, which provide that a license is required and automatically granted to all persons who make sales subject to Maximum Price Regulation No. 154, as amended. Your license may be suspended for a violation of such regulation or of this order. If your license is suspended, you may not sell ice during the period of suspension.

(f) If you are a manufacturer or wholesale or retail dealer subject to this order, you shall keep, preserve and make available for a period of 12 months, all sales slips and receipts for examination by the Office of Price Administration.

(g) *Posting of maximum prices; sales slips and receipts.* (1) If you are a manufacturer subject to this order, you shall post all your maximum prices (as set forth in Schedule I hereof) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a wholesale or retail dealer subject to this order, you shall exhibit a list of your maximum prices (as set forth in Schedule I hereof) to each purchaser upon request, and post such list upon each of your wagons or trucks.

(3) If you are a manufacturer or wholesale or retail dealer subject to this order, you shall give each purchaser a sales slip or receipt, if requested by such purchaser or if you customarily gave purchasers such sales slip or receipt, which shall contain your name and address, the quantity of ice sold to him, the date of such sale or delivery, and the price charged.

(h) *Enforcement.* (1) Anyone violating any provision of this order is subject to civil and criminal penalties as provided in the Emergency Price Control Act of 1942, as amended.

(2) Any person who has evidence of any violation of this order is urged to communicate with the New York Office of the Office of Price Administration.

(i) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in Maximum Price Regulation No. .154, as amended, shall apply to terms used herein.

This order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-2 shall become effective July 9, 1944.

Issued this 5th day of July 1944.

SOLID FUELS IN MONROE COUNTY AND ROCHESTER, N. Y.

Amendment No. 4 to Revised Order No. G-18 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Solid fuels delivered by dealers in the City of Rochester and designated portions of Monroe County, State of New York, Coal Area IV.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, Revised Order No. G-18 is amended in the following respect:

1. Paragraph (e) is amended by adding a new subparagraph (3), immediately following subparagraph (2), to read as follows:

(3) *Addition by dealers of charges for oil or chemical treatment of bituminous coal.* Notwithstanding other provisions of this order, if you are a dealer charged a price for oil or chemical treatment of bituminous coal from Districts 2 and 3, you may, on sales of such treated coal, add to the maximum prices set by this order the treatment charge made by your supplier, provided that it does not exceed 10¢ per net ton. This treatment charge may be added only if the treated coal is kept separate and is not mixed with other untreated coal. You shall state the treatment charge separately from all other items on your invoice.

This Amendment No. 4 to Revised Order No. G-18 shall become effective July 10, 1944.

[Region III Order G–10 Under RMPR 122]

SOLID FUELS IN ST. JOSEPH COUNTY, IND.

Order No. G–10 under Revised Maximum Price Regulation No. 122. Solid fuel sold and delivered by dealers. Maximum prices for specified solid fuels in the County of St. Joseph, Indiana.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels made within St. Joseph County, Indiana. These are the highest prices that any dealer may charge when he delivers such fuel at or to a point in such area; they are also the highest prices that any buyer in the course of trade or business may pay for them.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G–10 but less than maximum prices may at any time be charged, paid or offered.

(2) Obtain a higher than ceiling price by:

(i) Charging a price higher than the schedule price for a service or making a charge for a service not authorized by this order.

(ii) Using any other device by which a higher than maximum price is obtained, directly or indirectly,

(iii) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with any requirements or standards with respect to deliveries which have been made or may be issued by an agency of the United States Government.

(c) *Schedule for sales of coal.* (1) *Price schedules.* This schedule sets forth maximum price for sales of specified sizes, kinds and quantities of solid fuels. Column I describes the coal for which prices are established; Column II shows maximum prices for cash or credit sales on a "direct delivery" basis; Column III shows maximum prices for "yard sales" to dealers reselling coal. All prices are for sales on a net ton basis.

VI. Anthracite (Pennsylvania) Egg, stove, and chestnut sizes	15.60	14.60
VII. Coke (excluding reject or reclaimed coke) egg, stove and chestnut sizes	13.10	12.10

[1] In accordance with Regional Supplementary Order No. 3, $0.10 per ton may be added to the prices of these coals if the coal has been subjected to an oil or calcium chloride treatment by the producer to allay dust or prevent freezing and if such charge is separately stated on the dealer's invoice.

(2) *Commercial discounts.* Prices quoted in Column II for sales of more than 25 tons on one order to one location shall be subject to a discount of $.50 per ton.

(3) *Descriptive terms.* All terms used herein to describe size, volatility and producing district are those that were established and defined by the Bituminous Coal Division and in effect as of midnight, August 23, 1943.

(d) The maximum prices for all sales by dealers of solid fuel not provided for by this Order No. G–10 shall be the maximum prices established by Revised Maximum Price Regulation No. 122.

(e) *Schedule of service charges.* This schedule sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Every service charge shall be separately stated in the dealer's invoice.

Maximum service charges shall be as follows:

Carrying from curb (per ton)	$0.50
Carrying up or down one flight of stairs (per ton)	1.00
Service charge for deliveries in quantities of ½ ton	.15
Service charge for deliveries in quantities of ¼ ton	.25

(f) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order, provided the dealer states it separately from the price on his invoice or statement. However it need not be so separately stated on sales to the United States or any agency thereof, the District of Columbia, any state government or any political subdivision thereof.

(g) *Addition of increase in suppliers prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereon; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(h) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72, effective October 1, 1943.

(j) *Right of amendment or revocation.* The Regional Administrator or Price Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(k) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged and the type and kind of solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made for it.

(l) *Posting of maximum prices; sales slips.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in the manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel. No report of the maximum prices established by this order need be made by any dealer under § 1340.262 (c) of Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order.

(m) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with the Indianapolis District Office of the Office of Price Administration.

(n) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer and deliver, and contracts and offers to do any of the foregoing. The term "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping, shoveling, or chuting the fuel from the seller's truck directly into the buyer's bin or storage space, but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Yard sales" shall mean sales and deliveries made by the dealer in his customary manner at his yard.

(6) Except as otherwise provided herein or as the content may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein, and in full force and effect.

(o) *Applicability of this order.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

This Order No. C–10 under Revised Maximum Price Regulation No. 122 shall become effective July 31, 1944.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

UNITED CORPORATION

NOTICE OF FILING OF APPLICATION FOR EXTENSION OF TIME AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of July 1944.

The Commission having entered its order dated August 14, 1943, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935, directing that The United Corporation change its existing capitalization to one class of stock, namely, common stock, and to take such action, in a manner consistent with the provisions of the act, as will cause it to cease to be a holding company;

Notice is hereby given that The United Corporation has filed an application pursuant to section 11 (c) of said act requesting that the time for compliance with said order of the Commission dated August 14, 1943 be extended for an additional year.

All interested persons are referred to said application which is on file in the office of the Commission for details concerning said application.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held to consider said application;

It is ordered, That a hearing on said application under the applicable provisions of the act and the rules of the Commission thereunder be held on the 10th day of August, at 10 a. m., e. w. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318.

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting scope of the issues presented by said application, particular attention will be directed at said hearing to the following matters:

1. Whether The United Corporation has exercised due diligence to comply with the Commission's order of August 14, 1943;

2. Whether an extension of an additional year for compliance with said order of August 14, 1943 is necessary or appropriate in the public interest or for the protection of investors or consumers.

It is further ordered, That any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission, on or before August 7, 1944, his application therefor as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of this order by mailing a copy thereof by registered mail to The United Corporation, and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

PORTSMOUTH GAS CO. AND ASSOCIATED ELECTRIC CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 22d day of July, 1944.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Associated Electric Company, a registered Holding company, and its wholly-owned subsidiary, The Portsmouth Gas Company; and

All interested persons are referred to the said application-declaration which is on file in the office of the said Commission for a statement of the transactions therein proposed, which are summarized below:

Associated Electric Company proposes to sell to A. L. Klees and George Shaw, of Long Island, New York, non-affiliates, for the base price of $100,000, subject to adjustments, all the outstanding shares of stock of The Portsmouth Gas Company, consisting of 4,000 shares of common stock without par value. In connection with such sale, The Portsmouth Gas Company proposes to refund $510,000 of its present open account indebtedness to Associated Electric Company (in the amount of $1,070,000 at December 31, 1943) by issuing and delivering in payment therefor $510,000 principal amount of new twenty-year first mortgage bonds or notes, to bear interest at the rate of 4%; and Associated Electric Company proposes to donate to The Portsmouth Gas Company the balance of such open account indebtedness. The agreement of sale also provides that the purchasers, Klees and Shaw, shall have the option of acquiring from Associated Electric Company the said $510,000 principal amount of bonds or notes to be issued as above described, for cash, and the exercise of such option shall entitle the purchasers to a reduction of $25,000 in the base purchase price to be paid for the common stock being acquired by them.

Associated Electric Company also proposes to acquire from The Portsmouth Gas Company all of the latter's holdings of 490 shares of common stock of Atlantic Utility Service Corporation, for a total cash consideration of one dollar.

The filing designates sections 6 (b), 9 (a) (1), 10, 12, (d), and 12 (f) of the act, and Rules U-43, U-44, and U-45 promulgated thereunder, as applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters;

It is ordered, That a hearing on such matters under the applicable provisions of said act and rules of the Commission thereunder be held on August 8, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Allen MacCullen, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That any person desiring to be heard in connection with the proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before August 5, 1944, his request or application therefor, as provided by Rule XVII of the rules of practice of this Commission.

It is further ordered, That, without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at such hearing to the following matters:

1. Whether the proposed transactions are appropriate and in the public interest and in the interest of investors and consumers;

2. Whether the consideration to be received for the proposed sale is fair and reasonable;

3. Whether the proposed acquisitions by Associated Electric Company of the common stock of Atlantic Utility Service Corporation and of the securities to be issued by The Portsmouth Gas Company comply with the provisions of section 10 of the act;

4. The propriety of the accounting treatment to reflect the proposed transactions on the books of the applicants-declarants;

5. Whether, and to what extent, it is necessary or appropriate in the public interest to impose terms or conditions in regard to the accounts or capital structure of The Portsmouth Gas Company, or otherwise in regard to the proposed transactions;

6. Whether, in all other respects, the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

By the Commission.

CITIES SERVICE POWER & LIGHT CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING AND FOR CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of July, A. D. 1944.

In the matters of Cities Service Power & Light Company, File No. 70-915; Derby Gas & Electric Corporation, The Danbury and Bethel Gas and Electric Light Company, File No. 70-916.

Notice is hereby given that Cities Service Power & Light Company ("Power & Light") and Derby Gas & Electric Corporation ("Derby"), both registered holding companies, and The Danbury and Bethel Gas and Electric Light Company, a subsidiary of Power & Light, have filed with the Commission applications and declarations pursuant to sections 6, 7, 9 10, 11 and 12 and Rules U-44 and U-45 and any other applicable sections of the act or rules thereunder with respect to various proposed transactions, all as more particularly hereinafter described.

All interested persons are referred to said documents, which are on file in the offices of this Commission, for a full statement of the transactions therein proposed, which are summarized below:

Power & Light proposes to sell to Derby, a Delaware company, all of the securities which Power & Light owns of its electric and gas utility subsidiary, The Danbury and Bethel Gas and Electric Light Company ("Danbury"), to wit:

(a) 24,000 shares of common stock of the par value of $25 per share;

(b) 175 shares of 7% cumulative preferred stock of the par value of $25 per share; and

(c) Two 6% demand promissory notes, payable to Power & Light, dated respectively December 31, 1937 and January 27, 1938 in the respective principal amounts of $367,000 and $12,000.

The purchase price for said securities is $1,450,000. Power & Light is also entitled to receive:

(a) All net income of Danbury (either as a dividend or as an adjustment on the purchase price) from February 29, 1944, up to and including the closing date;

(b) All accrued and unpaid interest on said notes and all accumulated and unpaid dividends on said preferred stock up to and including the closing date; and

(c) A dividend of $10,000 payable out of surplus arising prior to February 29, 1944, to cover unbilled revenue.

The purchase price is payable in cash on the closing date, which is specified to be on or before September 1, 1944.

The net proceeds from the sale of said securities will be applied by Power & Light to the prepayment of its Bank Loan Notes in accordance with the terms thereof, as required by Power & Light's Custodian Agreement dated March 15, 1944, with The Chase National Bank of the City of New York, heretofore executed and delivered pursuant to the order of the Commission dated March 14, 1944.

The Commission is requested by Power & Light to issue an appropriate order and findings in connection with the proposed transactions hereinabove described, conforming to the requirements of section 1808 of the Internal Revenue Code.

In connection with the purchase and acquisition by Derby from Power & Light of the aforesaid securities of Danbury, the following transactions are proposed:

(a) Derby will issue and sell to The Equitable Life Insurance Society of the United States, the owner of all Derby's presently outstanding 3% Collateral Trust Debentures, an additional $1,450,000 principal amount of such debentures, to be known as the "3% Series due 1954" at 100% of principal amount plus accrued interest.

(b) Derby will issue and sell an additional number of its no par value common shares to provide Derby with not exceeding $1,000,000 in cash.

(c) At the time of the acquisition by Derby of the aforesaid securities of Danbury, Derby will sell to the aforesaid insurance company $850,000 of the new 3% debentures referred to in subdivision (a) above, and employ $450,000 of such funds, together with approximately $1,000,000 to be received from the proposed issuance and sale of additional shares of its common stock, to consummate the purchase of the aforesaid securities of Danbury from Power & Light; the remaining $400,000 to be received at such time from the aforesaid insurance company will be paid by Derby to Danbury in consideration for the agreement of Danbury to issue to Derby on October 1, 1944 16,000 shares of Danbury's common stock of the par value of $25 per share. Derby will cause Danbury to employ said $400,000 together with certain of Danbury's own funds to redeem at the earliest practicable date all of Danbury's outstanding 16,000 shares of 7% cumulative preferred stock at the redemption price of $27.50 per share plus accumulated dividends on such stock.

(d) Concurrently with the acquisition of the aforesaid securities of Danbury, Derby proposes to make a capital contribution to Danbury by surrendering the two demand promissory notes in the aggregate principal amount of $379,000 which Derby will acquire from Power & Light.

(e) On October 1, 1944 Derby will sell to the aforesaid insurance company $600,000 of the new 3% debentures referred to in subdivision (a) above and pay such funds over to Danbury in consideration of the issuance and sale by Danbury to Derby of 24,000 shares of Danbury's common stock of the par value of $25 per share. Danbury will use said $600,000 together with certain of its own funds to redeem at the next redemption date all of the outstanding $600,000 principal amount of its twenty-five year 6% Mortgage Gold Bonds, Series A, due August 1, 1948, at the redemption price of 101½% of the principal amount thereof plus accrued interest.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters, and that said declarations shall not become effective nor said applications be granted except pursuant to further order of this Commission; and

It further appearing to the Commission that the issues presented by the declarations and applications of Power & Light (File No. 70-915), and of Derby (File No. 70-916) involve common questions of law and fact and should be consolidated and heard together;

It is ordered, That the proceedings in these matters be, and they hereby are, consolidated and that a consolidated hearing under the applicable provisions of the act and rules of the Commission promulgated thereunder be held on August 8, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons

desiring to be heard or otherwise wishing to participate in the proceeding shall file with the Commission on or before August 5, 1944, a written request relative thereto, as provided by Rule XVII of the rules of practice of the Commission; and

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under the Commission's rules of practice; and

It is further ordered, That without limiting the scope of the issues presented by said declarations and applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed transactions meet the requirements of section 12 (d) of the act and applicable rules thereunder;

2. Whether the acquisitions involved comply with the requirements of the applicable provisions of section 10 of the act and particularly subsection 10 (c) thereof;

3. Whether the proposed issue and sale of securities by Derby and Danbury meet the standards of section 7 and the requirements of any other applicable provisions of the act and the rules promulgated thereunder.

4. Whether the proposed redemption by Danbury of its aforesaid 6% Mortgage Gold Bonds and 7% cumulative preferred stock meet the standards of section 12 (c) of the act and the applicable rules thereunder;

5. Whether the proposed capital contribution to Danbury by Derby meets the standards of section 12 (b) of the act and the applicable rules thereunder;

6. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms and conditions in respect of the proposed transactions, and if so, what the terms and conditions should be;

7. Generally, whether the proposed transactions are detrimental to the public interest and to the interests of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

It is further ordered, That notice of the hearing aforesaid be given to the declarants and applicants, to the Connecticut Public Utilities Commission, and to all other persons; said notice to be given to the declarants and applicants and to the Connecticut Public Utilities Commission by registered mail and to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the act, and by publication in the FEDERAL REGISTER.

It is further ordered, That jurisdiction be, and is hereby reserved to separate, whether for hearing in whole or in part, or for disposition in whole or in part, any of the issues, questions or matters herein-before set forth or which may arise in this proceeding, or to consolidate with this proceeding other filings or matters pertaining to the subject matter of this proceeding and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

By the Commission.

WAR FOOD ADMINISTRATION.

[Docket No. AO 83–A 7]

LOWELL-LAWRENCE, MASS., MARKETING AREA

NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to the tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, Marketing Area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the applicable rules of practice and procedure (7 CFR, Cum. Supp., 900.1 et seq.), notice is hereby given of a hearing to be held in the Auditorium, 11 Haverhill Street, Shawsheen Village, Andover, Massachusetts, beginning at 10 a. m., e. w. t., August 1, 1944, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. These amendments have not received the approval of the War Food Administrator.

This public hearing is for the purpose of receiving evidence with respect to the economic or marketing conditions which relate to the amendments or any modification thereof, which are hereinafter set forth. The amendments which have been proposed are set forth below:

Proposed by the New England Milk Producers' Association

1. Permission to a cooperative association, as a handler under the Lowell-Lawrence order, to purchase Class II whole milk or skim milk from dealers not subject to the Lowell-Lawrence Order; to separate such milk into cream and skim; and to pay for such milk on a Class II basis, to be offset against the Class II disposition of such handler.

2. Permission to a cooperative association, as a handler under the Lowell-Lawrence Order, to receive milk from producers for the account of other handlers, the producers to be paid by such other handler in the same way as producers who deliver to his plant.

3. Elimination from §§ 934.6 and 934.10 of the intermediate freight zone, or the "plant handling and transportation differentials" applicable to plants located 21–40 miles from Lowell or Lawrence.

Proposed by Dairy and Poultry Branch War Food Administration

1. Add a new subparagraph to § 934.5 (a) as follows:

(3) If a handler does not report disposition of any Class II milk in a report filed pursuant to § 934.7 (a) none of his milk received from producers shall be considered to be established as Class II milk pursuant to (b) of this section for the delivery period covered by such report.

2. Add a new paragraph to § 934.8 as follows:

(f) *Non-pool milk.* Milk received by a handler from sources not approved by appropriate health authorities for sale, on a regular and continuous basis, for consumption as milk in the marketing area, hereinafter referred to as non-pool milk, shall be excluded from computation of prices to producers pursuant to § 934.9. Exclusion shall be on the basis of the actual disposition of such milk by such handler if the milk is not commingled with other milk in the process of disposition, or in case the milk is commingled with other milk, exclusion shall be on the basis of considering the milk to be first the handler's Class II milk, and then his Class I milk: *Provided*, That if the handler files with the market administrator, prior to his receipt of non-pool milk, a request, in writing, to have his subsequent receipts of non-pool milk excluded as Class I, such basis of exclusion may be allowed if the market administrator determines and publicly announces for a specified period of time that, on the basis of supply, demand, and other pertinent marketing data available to him, non-pool milk is needed by such handler to meet his requirements of milk for sale as Class I, supplies of milk subject to § 934.9 are inadequate to meet such requirements, and receipts and disposition of the non-pool milk will not tend to lower the handler's proportion of Class I milk of the total quantity of milk for the delivery period included in the computation pursuant to § 934.9 (b). Any determination made pursuant to this paragraph shall be subject to review by the War Food Administrator or such duly authorized officer of the United States Department of Agriculture as may succeed the War Food Administrator in the administration of the Agricultural Marketing Agreement Act, as amended.

Copies of this notice of hearing, of the tentatively approved marketing agreement, as amended, and order, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1331 South Building, Washington, D. C., or may be there inspected.

Dated: July 22, 1944.

Assistant to the War Food Administrator.

"MOBY DICK"

DETERMINATION OF VESSEL OWNERSHIP

Notice of determination by War Shipping Administrator pursuant to section 3 (b) of the act approved March 24, 1943, (Public Law 17—78th Congress).

Whereas on November 6, 1942, title to the vessel "Moby Dick," (212366), (including all spare parts, appurtenances and equipment) was requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended; and

Whereas section 3 (b) of the act approved March 24, 1943, (Public Law 17—78th Congress), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, or just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the Act of June 6, 1941, (Public Law 101, Seventy-Seventh Congress), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking; *Provided however*, That no such determination shall be made with respect to any vessel after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner. • • •

and

Whereas no portion of just compensation for the said vessel has been paid or deposited with the Treasurer of the United States; and

Whereas the ownership of the said vessel, spare parts, appurtenances and equipment is not required by the United States; and

Whereas the former owner of the vessel has consented to this determination and to the return of the vessel and the conversion of the requisition of title therein to a requisition of use thereof in accordance with the above-quoted provision of law;

Now, therefore, I, Emory S. Land, Administrator, War Shipping Administration, acting pursuant to the above-quoted provisions of law, do hereby determine that the ownership of said vessel, spare parts, appurtenances and equipment is not required by the United States, and that, from and after the date of publication hereof in the FEDERAL REGISTER, the use rather than title thereto shall be deemed to have been requisitioned, for all purposes, as of the date of the original taking.

AUTHORITY: §§ 969.0 to 969.12, inclusive, issued under 48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 601 et seq.

§ 969.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders under the act (7 CFR, 1941 Supp., 900.1–900.17; 7 F.R. 3350; 8 F.R. 2815) a public hearing was held upon a proposed marketing agreement and upon a proposed order regulating the handling of milk in the suburban Chicago, Illinois, marketing area. Upon the basis of the evidence introduced in such hearing and the record thereof, it is hereby found that:

(1) The issuance of this order regulating the handling of milk in the said marketing area, and all of the terms and conditions of this order, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) This order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement, upon which a hearing has been held; and

(4) The handling of all milk sold or disposed of in the marketing area, as defined herein, is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk and its products.

(b) *Additional findings*—(1) It is hereby found and proclaimed in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the said marketing area, that the purchasing power of such milk during the pre-war period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk for the post-war period August 1919–July 1929 can be satisfactorily determined from available statistics of the Department of Agriculture; and the post-war period August 1919–July 1929 is the base period to be used in connection with the said marketing agreement and this order in determining the purchasing power of such milk.

(2) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will amount to approximately $120,000 per year; and the prorata share of such expense to be paid

by each handler is hereby approved in the maximum amount of 4 cents per hundredweight on all milk received from producers and produced by such handler during each delivery period.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of at least 50 percent of the volume of milk which is marketed within the said marketing area refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act to advance the interests of the producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of the order and who, during the month of April 1944 (said month having been determined to be a representative period), were engaged in the production of milk for sale in the said marketing area; and

(4) The provision of this order providing for the payment to all producers delivering milk to the same handler of uniform prices for all milk delivered by them is approved or favored by at least three-fourths of the producers who participated in a referendum on the question of approval of such provision and who, during the month of April 1944 (said month having been determined to be a representative period), were engaged in the production of milk for sale in the said marketing area, said approval being separate and apart from the approval of producers as set forth in (3) above.

Order Relative to Handling

It is hereby ordered that such handling of milk in the suburban Chicago, Illinois, marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall from the effective date hereof be in compliance with the terms and conditions of this order.

§ 969.1 *Definitions.* The following terms as used herein shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "War Food Administrator" means the War Food Administrator of the United States or any officer or employee of the United States or any officer or employee of the United States Department of Agriculture who is, or who may

hereafter be, authorized to exercise the powers or to perform the duties of the War Food Administrator of the United States hereunder.

(c) "Suburban Chicago, Illinois, Marketing Area," hereinafter called "marketing area," means all of the territory geographically included within the city of Barrington in Lake County, the townships of Dundee, Elgin, St. Charles, Geneva, Batavia, and Aurora in Kane County, Cook, Du Page, and Will Counties, Illinois, and all of the territory geographically included within the townships of North, Calumet, and Hobart in Lake County, Indiana, except territory lying within the corporate limits of the cities and villages of Chicago, Evanston, Wilmette, Kenilworth, Winnetka, Glencoe, and Oak Park, in the State of Illinois.

(d) "Person" means an individual, partnership, corporation, association, or other business unit.

(e) "Producer" means any person, except as provided in § 969.6 (c), irrespective of whether such person is also a handler, who produces milk which is received at (1) a pasteurizing and bottling plant from which milk is disposed of as Class I milk in the marketing area, and (2) any other plant of a handler from which milk is supplied to such a pasteurizing and bottling plant. This definition shall not be deemed to include any person as a producer with respect to such of his milk as is received by a handler under any other milk marketing agreement or order issued under the act.

(f) "Handler" means any person, except as provided by § 969.6 (c), who engages in handling milk, all, or any portion, of which is disposed of as Class I milk in the marketing area, and who engages in such handling of milk as is in the current of interstate commerce, or which directly burdens, obstructs, or affects interstate commerce in milk or its products. This definition shall not be deemed to include any person who is a handler under any other milk marketing agreement or order issued under the act, with respect to such of his milk as is subject thereto.

(g) "Market administrator" means the agency which is described in § 969.2 for the administration hereof.

(h) "Delivery period" means the period from the effective date hereof until the end of the calendar month in which such effective date occurs. Thereafter, "delivery period" shall mean the current calendar month.

(i) "Cooperative association" means any cooperative association of producers which the War Food Administrator determines (1) to have its entire activities under the control of its members, and (2) to have and to be exercising full authority in the sale of milk of its members.

(j) "Grade A milk" means milk labeled Grade A or derived from receipts from which milk labeled Grade A is obtained.

(k) "Grade B milk" means milk not labeled Grade A nor derived from receipts from which milk labeled Grade A is obtained.

(l) "Nonhandler" means any person who is not a handler but who distributes fluid milk on retail or wholesale routes or engages in the manufacture of milk products.

§ 969.2 *Market administrator*—(a) *Selection, removal, and bond.* The agency for the administration hereof shall be a market administrator who shall be a person selected and subject to removal by the War Food Administrator. The market administrator, within 45 days following the date upon which he enters upon his duties, shall execute and deliver to the War Food Administrator a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the War Food Administrator.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the War Food Administrator.

(c) *Powers.* The market administrator shall have the power to: (1) administer the terms and provisions hereof, (2) report to the War Food Administrator complaints of violations hereof, (3) make rules and regulations to effectuate the terms and provisions hereof, and (4) recommend to the War Food Administrator amendments hereto.

(d) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records to examination by the War Food Administrator at any and all times;

(3) Furnish such information and such verified reports as the War Food Administrator may request;

(4) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose, after reasonable notice, the name of any person who has not made reports, pursuant to § 969.3, or made payments required by § 969.8;

(6) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation hereof as does not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof; and

(8) Pay, out of the funds received pursuant to § 969.9, the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and in the performance of his duties, except those expenses incurred and provided for under § 969.10 hereof.

(e) *Announcement of prices.* The market administrator shall compute and publicly announce prices as follows:

(1) Not later than the 5th day after the end of each delivery period, the prices for all classes of milk pursuant to § 969.5 (a) and the differential pursuant to § 969.5 (c).

(2) Not later than the 14th day after the end of each delivery period, the uniform price for each handler computed pursuant to § 969.7 (b).

§ 969.3 *Reports of handlers*—(a) *Submission of reports.* Each handler shall report to the market administrator for each delivery period, in the detail and on forms prescribed by the market administrator, the following:

(1) On or before the 7th day after the end of each delivery period, all milk purchased or received from associations of producers and other handlers; and such handler shall submit to the market administrator and to the association of producers, or handlers, from whom the milk was purchased or received, a record of the utilization of such milk classified pursuant to § 969.4.

(2) On or before the 9th day after the end of each delivery period, the quantity, the butterfat test, and butterfat pounds of the receipts at each plant of (i) milk from producers, (ii) milk and cream from other handlers, (iii) milk and cream from sources other than producers and handlers, and (iv) milk produced by him; and shall report the utilization of all receipts of milk and cream.

(3) On or before the 9th day after the end of each delivery period, the information requested with respect to producer additions, producer withdrawals, and changes in the names of farm operators.

(4) On or before the 25th day after the end of each delivery period, his producer pay roll, which shall show for each producer (i) the total delivery of milk with the average butterfat test thereof, (ii) the net amount of payment to such producer made pursuant to § 969.8, and (iii) any deductions and charges made by the handler; and such other information with respect to producer payments as the market administrator may request.

(b) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit. Each handler shall keep adequate records of the receipts and utilization of milk and shall make available to the market administrator or his representative, during the usual hours of business, all records and facilities as are necessary to enable the market administrator to:

(1) Verify the receipts and disposition of all milk required to be reported pursuant to this section, and, in case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends; and

(3) Verify the payments of producers prescribed in § 969.8.

§ 969.4 *Classification of milk*—(a) *Basis of classification.* All milk, skim milk, and cream received by a handler from producers (including milk produced by him), from associations of producers,

from other handlers, and from all other sources, shall be reported by the handler in the classes set forth in (b) of this section, subject to the following conditions: (1) Milk or skim milk received by a handler from another handler shall be classified as Class I milk, and cream so transferred shall be classified as Class II milk: *Provided*, That if a different classification is agreed upon in written reports to the market administrator, then the milk, skim milk, and cream shall be classified according to such agreement, subject to verification by the market administrator: *Provided further*, That in no event shall the amount so reported in any class be greater than the amount used in that class by the receiving handler; (2) Any milk or skim milk moved from the plant of a handler to the plant of a nonhandler shall be classified as Class I milk and any cream moved to a nonhandler shall be classified as Class II milk, except milk, skim milk, and cream in excess of the amount of fluid milk and fluid cream distributed by such nonhandler; and (3) Milk and cream moved from a plant which has been determined by the market administrator as not receiving milk from producers, to a handler's plant at which milk is received from producers, shall be classified in the lowest class for which such handler has milk.

(b) *Classes of utilization.* Subject to the conditions set forth in (a) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of fluid milk (excluding bulk milk disposed of to bakeries, soup companies, and candy manufacturing establishments, which do not distribute fluid milk), including bulk milk disposed of to hotels, restaurants, and other retail food establishments, and all milk not accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk, except skim milk, disposed of in the form of flavored milk and flavored milk drinks, and all milk the butterfat from which is disposed of in the form of sweet or sour cream, cottage cheese, and buttermilk.

(3) Class III milk shall be all milk the butterfat from which is used to produce a milk product other than one of those specified in Class II and Class IV, and all bulk milk and bulk cream disposed of to bakeries, soup companies, and candy manufacturing establishments, which do not distribute fluid milk.

(4) Class IV milk shall be all milk the butterfat from which is used to produce butter and cheese, except cottage cheese, and all milk accounted for as actual plant shrinkage not in excess of 2 percent of the total receipts of milk from producers (including the handler's own production). Any handler whose report claimed the original classification of milk in this class shall pay the difference between the Class IV and Class III prices for the delivery period in which the Class IV classification was claimed on any such milk, if the butterfat used in the production of butter is subsequently used in the production of ice cream or ice cream mix.

(c) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(d) *Computation of milk in each class.* For each delivery period, each handler shall compute, on forms prescribed by the market administrator, the amount of milk in each class, as defined in (b) of this section, as follows:

(1) Determine the total of the pounds of milk received from (i) producers (including the handler's own production), (ii) other handlers, and (iii) all other sources;

(2) Determine the total pounds of butterfat received by (i) multiplying the weight of the milk and cream received from each source by its respective average butterfat test, and (ii) adding together the resulting amounts;

(3) Determine the total pounds of milk in Class I by (i) converting to quarts the quantity of milk disposed of in the form of milk, and multiplying by 2.15, (ii) multiplying the result by the average butterfat test, and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II, Class III, and Class IV milk computed pursuant to (4) (ii), (5) (ii), and (6) (ii) of this paragraph, is less than the total pounds of butterfat received, computed in accordance with (2) of this paragraph, an amount equal to the difference shall be divided by 3.5 percent and added to the quantity of milk determined pursuant to (i) of this subparagraph;

(4) Determine the total pounds of milk in Class II by (i) multiplying the actual weight of each of the several products of Class II milk by its average butterfat test, (ii) adding together the resulting amounts, and (iii) dividing the result obtained in (ii) of this subparagraph by 3.5 percent;

(5) Determine the total pounds of milk in Class III by (i) multiplying the actual weight of each of the several products in Class III milk by its average butterfat test, (ii) adding together the resulting amounts, and (iii) dividing the result obtained in (ii) of this subparagraph by 3.5 percent; and

(6) Determine the total pounds of milk in Class IV by (i) multiplying the actual weight of each of the several products of Class IV milk by its average butterfat test, (ii) adding together the resulting amounts, (iii) subtracting the total pounds of butterfat in Class I milk, Class II milk, and Class III milk, computed pursuant to (3) (ii), (4) (ii), and (5) (ii) of this paragraph, and the total pounds of butterfat computed pursuant to (ii) of this subparagraph, from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purpose of this paragraph (but in no event shall such plant shrinkage allowance exceed 2 percent of the total receipts of butterfat from producers by the handler), and adding to the result obtained in (ii) of this subparagraph, and (iv) dividing the result obtained in (ii) of this subparagraph by 3.5 percent.

(7) Determine the classification of milk received from producers by (i) subtracting, subject to the provisions of (a) of this section, from the total pounds of milk in each class the total pounds of milk so used which were received from other handlers who receive milk from producers; and (ii) subtracting, subject to the provisions of (a) of this section, from the total pounds of milk in each class the total pounds of milk and milk equivalent of cream so used which were received from sources other than producers or handlers who receive milk from producers.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* In the event of a difference between the total quantity of milk utilized in several classes as computed pursuant to (d) of this section and the quantity of milk received from producers, except for excess milk or the milk equivalent of butterfat pursuant to § 969.7 (a) (4), such difference shall be reconciled as follows:

(1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class IV for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class IV for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

§ 969.5 *Minimum prices*—(a) *Class prices.* Except as provided by (e) of this section, each handler shall pay to producers and to associations of producers, at the time and in the manner set forth in § 969.8, f. o. b. his plant or distributing station, located in the marketing area, from which milk is disposed of at wholesale or retail, not less than the following prices per hundredweight.

(1) *Class I milk.* (i) The price of Grade A Class I milk shall be the price determined pursuant to (b) of this section, plus 70 cents: *Provided*, That beginning in 1945 the price for such Class I milk for the delivery periods of May and June of each year shall be the price determined pursuant to (b) of this section, plus 50 cents.

(ii) The price of Grade B Class I milk shall be the price determined pursuant to (b) of this section, plus 60 cents: *Provided*, That beginning in 1945 the price for such Class I milk for the delivery periods of May and June of each year shall be the price determined pursuant to (b) of this section plus 40 cents.

(2) *Class II milk.* (i) The price of Grade A Class II milk shall be the price determined pursuant to (b) of this section, plus 32 cents.

(ii) The price of Grade B Class II milk shall be the price determined pursuant to (b) of this section, plus 22 cents.

(3) *Class III milk.* The price for Grade A or Grade B Class III milk shall be the average, computed by the market administrator, of prices reported by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price-reporting function) paid for milk containing 3.5 percent of butterfat delivered during the delivery period by farmers to each of the places or evaporated milk plants, as hereinafter listed and for which prices are reported, but in no event shall such price be less than the price computed pursuant to the formula set forth in (b) of this section.

(4) *Class IV milk.* The price for Grade A or Grade B Class IV milk shall be the price resulting from the following computation by the market administrator: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price-reporting function) for the delivery period during which such milk was received, and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (1) add 3½ cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption is above 5½ cents per pound, or (2) subtract 3½ cents per hundredweight for each full one-half cent that the price of such nonfat dry milk solids is below 5½ cents per pound. For purposes of determining this adjustment the price per pound of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture (or by such other Federal agency as may hereafter be authorized to perform this price-reporting function) for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period. In the event prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for nonfat dry milk solids for human consumption, delivered at Chicago, shall be used. In the latter event, the Class IV price shall be subject to the following adjustments: (1) add 3½ cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption, delivered at Chicago, is above 7½ cents per pound, or (2) subtract 3½ cents per hundredweight for each full one-half cent that such price of nonfat dry milk solids is below 7½ cents per pound.

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the prices per hundredweight of Class I and Class II milk, set forth in this section, shall be the price for Class III milk determined pursuant to (a) (3) of this section, the price for Class IV milk determined pursuant to (a) (4) of this section, or that derived from the following formula, whichever is the highest:

(1) Multiply the average wholesale price per pound of 92-score butter at Chicago for the delivery period as reported by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price-reporting function) by six (6);

(2) Add 2.4 times the average weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price of "Cheddars" shall be used in determining the price pursuant to this formula;

(3) Divide by seven (7); add 30 percent to the resulting amount; and

(4) Multiply the sum computed in (3) of this paragraph by 3.5.

(c) *Butterfat differential to handlers.* If any handler has purchased or received milk from producers containing more or less than 3.5 percent butterfat, such handler shall add or deduct, per hundredweight of milk, for each one-tenth of 1 percent of butterfat above or below 3.5 percent, an amount computed as follows: to the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture (or by such other agency as may be authorized to perform this price-reporting function), add 20 percent and divide the result by 10.

(d) *Location adjustments to handlers.* (1) With respect to milk purchased or received from producers at a plant located outside the marketing area and more than 70 miles by rail or highway, whichever is the shorter, from the City Hall in Chicago, Illinois, which is classified as Class I milk or Class II milk, there shall be deducted 10 cents per hundredweight, plus 2 cents per hundredweight and ¼-cent per hundredweight on each class, respectively, for each additional 15 miles or part thereof that such plant is located in excess of 70 miles from the City Hall in Chicago, Illinois: *Provided*, That no such deduction shall apply to unaccounted-for milk classified as Class I milk pursuant to § 969.4 (d) (3) and such unaccounted-for milk shall be considered to have been received at the most distant plant at which the handler received milk from producers: *Provided further*, That if the l. c. l. freight rate, approved by the Interstate Commerce Commission or by the State authorities having power to fix intrastate rail rates, for the movement of cream in 40-quart cans from the shipping point for the plant where the milk is received from producers to the marketing area is greater than ¼-cent per hundredweight of milk such actual freight rate shall be allowed such handler on Class II milk, but in no case shall such rate exceed ½-cent per hundredweight of milk. There shall be no location adjustment to handlers with respect to Class III milk or Class IV milk.

(2) For the purposes of this paragraph and of § 969.4, (i) Class I milk shall be considered to come first from that milk purchased or received from producers by the handler at his plant located in or nearest to the marketing area from which whole milk is disposed of in the marketing area: *Provided*, That when actual shipments of milk by any handler from two or more plants located in different zones are shown to be in excess of such handler's Class I milk, the location adjustments on Class I milk, as provided in this section, shall be applied to such milk, up to and including 110 percent of such handler's Class I milk; and (ii) Class II milk shall be considered to come first from that milk purchased or received from producers by the handler at his plant located in or nearest to the marketing area, after accounting for Class I milk, from which whole milk or cream is disposed of in the marketing area: *Provided*, That if milk for Class II use was received from producers at a more distant plant, location adjustment shall be allowed from the plant at which such milk was received from producers.

(e) *Adjustment of class prices by War Food Administrator.* Whenever the War Food Administrator finds and announces that the Class I or Class II price determined pursuant to this section is not in accord with the public interest, the applicable price for the delivery period shall be the same as the price for the same class for the delivery period immediately preceding.

(f) *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specified price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated

with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the War Food Administrator determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the War Food Administrator to be equivalent to or comparable with the price specified.

§ 969.6 *Application of provisions*—(a) *Handlers who are also producers.* (1) Sections 969.4, 969.5, 969.7, 969.8, 969.9, and 969.10 hereof shall not apply to a handler whose sole sources of supply of milk are receipts from his own production and from other handlers.

(b) *Uniform prices of handler of both Grade A milk and Grade B milk.* If a handler operates both a plant (or plants) from which Grade A milk is disposed of in the marketing area and a plant (or plants) from which Grade B milk is so disposed of, the market administrator shall compute a separate milk value and uniform price for milk disposed of from each type of plant.

(c) *Emergency milk*—(1) Any handler may apply in writing to the market administrator for a determination that the supply of milk or cream available to such handler from sources usual to the marketing area is not sufficient to fulfill such handler's Class I and Class II milk requirements. If such a determination is made by the market administrator such handler, after giving notice to the market administrator of his intention to purchase milk or cream from other sources, may obtain such milk or cream from other plants on terms and conditions other than those provided in §§ 969.5, 969.7, and 969.8 hereof until such time as the market administrator shall revoke his determination; and such milk or cream shall be designated as "emergency milk."

(2) Emergency milk shall be reported to the market administrator by the handler separately from other milk. The person operating the plant from which the handler received such milk shall not be considered to be a handler with respect to milk disposed of in the marketing area under the circumstances described in this paragraph, and the persons who produced such milk shall not be considered to be "producers."

§ 969.7 *Determination of minimum prices to producers*—(a) *Computation of value of milk for each handler.* For each delivery period the market administrator shall compute the value of all milk received by each handler from producers (including such handler's own production and bulk milk received from handlers who are also producers) in the following manner:

(1) Multiply the total quantity of such milk in each class as determined pursuant to § 969.4 by the respective class prices;

(2) Add together the resulting values of each class;

(3) Add or subtract, as the case may be, the amount of the adjustments applicable pursuant to § 969.5 (c) and (d); and

(4) If, after taking account of milk subtracted under § 969.4 (d) (7) (i) and (ii), the handler's records show milk or butterfat in excess of the milk or butterfat which has been credited to his producers as having been delivered by them, add the value of such milk or milk equivalent of such butterfat in accordance with its utilization.

(b) *Computation of uniform prices for each handler.* The market administrator shall compute for each handler the uniform prices per hundredweight of milk received during the delivery period, as follows:

(1) To the value computed pursuant to (a) of this section:

(i) Add the total amount of the location adjustments applicable pursuant to § 969.8 (c);

(ii) Deduct, if the average butterfat content of all milk received from producers is in excess of 3.5 percent, or add, if the average butterfat content of all milk received from producers is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to § 969.8 (b);

(iii) Add an amount representing the fraction used in adjusting the previous month's uniform price to the nearest cent;

(iv) Divide by the hundredweight of milk received from producers; and

(v) Adjust the resulting figure to the nearest cent. This shall be known as the uniform price of the handler for milk of 3.5 percent butterfat content.

§ 969.8 *Payment for milk*—(a) *Time and method of payment.* On or before the 18th day after the end of each delivery period each handler shall pay to each producer, and to each association of producers, for milk purchased or received during the delivery period, an amount of money representing not less than the total value of such milk, at the uniform price per hundredweight computed pursuant to § 969.7 (b), subject to the location adjustments and butterfat differential set forth under (b) and (c) of this section.

(b) *Butterfat differential to producers.* For each one-tenth of 1 percent of average butterfat content above or below 3.5 percent in milk received from any producer or association of producers during the delivery period, the uniform price paid to such producer or association of producers shall be plus or minus, as the case may be, an amount computed as follows: To the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture (or by such other agency as may be authorized to perform this price-reporting function), add 20 percent, and divide the result by 10.

(c) *Location adjustments to producers.* In making payment pursuant to (a) of this section, handlers may deduct with respect to all milk purchased or received at a plant located outside the marketing area and more than 70 miles by rail or highway, whichever is the shorter, from the City Hall in Chicago, Illinois, the amount specified as follows:

	Cents per hundredweight
Within 71 to 85 miles	12
Within 85.1 to 100 miles	14
Within 100.1 to 115 miles	16
Within 115.1 to 130 miles	18
Within 130.1 to 145 miles	20
Within 145.1 to 160 miles	22
Within 160.1 to 175 miles	24

For each 15 miles or part thereof beyond 175 miles from the City Hall in Chicago, Illinois, an additional ½-cent per hundredweight.

(d) *Correction of errors.* Errors in connection with any of the payments prescribed in this section shall be corrected not later than the next date for making payments, pursuant to this section, following the determination of such errors.

§ 969.9 *Expense of administration.* As his prorata share of the expense of administration hereof such handler, except handlers described under § 969.6 (a) (1), shall pay to the market administrator, on or before the 18th day after the end of each delivery period, an amount not exceeding 4 cents per hundredweight with respect to all milk purchased or received by him during such delivery period from producers (including the handler's own production), the exact sum to be determined by the market administrator, subject to review by the War Food Administrator.

§ 969.10 *Marketing services*—(a) *Marketing service deduction.* In making payments to producers pursuant to § 969.8, each handler, with respect to all milk received from each producer during each delivery period, at a plant not operated by a cooperative association of which such producer is a member, shall, except as set forth in (b) of this section, deduct 3 cents per hundredweight (or such lesser amount as the market administrator shall determine to be sufficient, such determination to be subject to review by the War Food Administrator), and shall, on or before the 18th day after the end of such delivery period, pay such deduction to the market administrator. Such moneys shall be expended by the market administrator for verification of weights, samples, and tests of milk received from such producers and in providing market information to such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to, the milk received from such producers.

(b) *Marketing service deductions with respect to members of producers' cooperative associations.* In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members and for whom a cooperative association is actually performing the services set forth in (a) of this section, each handler, in lieu of the deductions specified in (a) of this section, shall make such deductions from payments made pursuant to § 969.8 as may be authorized by such producers, and pay over, on or before the 18th day after the end of each delivery period, such deductions to the cooperative association rendering such service of which such producers are members.

§ 969.11 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the War Food Administrator may declare and shall continue in force until suspended, or terminated, pursuant to (b) of this section.

(b) *Suspension or termination.* Any or all of the provisions hereof, or any amendment hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the War Food Administrator may give and, in any event, shall terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* (1) If, upon the suspension or termination of any or all provisions hereof there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the War Food Administrator so directs, be performed by such other person, persons, or agency as the War Food Administrator may designate.

(2) The market administrator, or such other person as the War Food Administrator may designate, shall (i) continue in such capacity until removed, (ii) from time to time account for all receipts and disbursements and when so directed by the War Food Administrator deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the War Food Administrator shall direct, and (iii) if so directed by the War Food Administrator, execute assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such other person as the War Food Administrator may designate, shall, if so directed by the War Food Administrator, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to handlers and producers in an equitable manner.

§ 969.12 *Agents.* The War Food Administrator may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 20th day of July 1944, to be effective on and after the 1st day of September 1944.

THOMAS J. FLAVIN,
Assistant to the War Food Administrator.

Approved: July 22, 1944.

[Special Reg. 2]

PART 508—SPECIAL REGULATIONS

DELEGATION OF AUTHORITY TO ASSISTANT TO ALIEN PROPERTY CUSTODIAN

Under the authority of the Trading with the Enemy Act, as amended, and the Executive Orders issued thereunder, and pursuant to law, the undersigned hereby issues the following regulation:

§ 508.2 *Special Regulation No. 2.* (a) Thomas H. Creighton, Jr., as Assistant to the Alien Property Custodian and Chief of the Property Division is hereby designated and appointed as agent and delegate of the Alien Property Custodian,

(1) To take such action as he deems necessary in order to effectuate any vestgraphs 2 (f) and 5 of Executive Order No. 9095, as amended, and any orders issued pursuant thereto;

(2) To issue any demand, direction, or instruction directed to any person, firm or corporation, or take any other action necessary in order to effectuate any vesting order issued by the Alien Property Custodian;

(3) To take custody of and to receipt for any property or interest therein, or to accept payment, conveyance, transfer, assignment, or delivery made to or for the account of the Alien Property Custodian.

(b) The instrument of delegation dated August 1, 1942, executed by Leo T. Crowley, as Alien Property Custodian, granting certain powers to Francis J. McNamara, Assistant to the Alien Property Custodian, confirmed by an instrument of delegation dated September 17, 1943, executed by Leo T. Crowley as Alien Property Custodian (8 F.R. 12771), having no further utility, is hereby terminated and revoked, without impairment of any action heretofore taken thereunder or by virtue thereof, and without impairment of the designation and appointment of the said Francis J. McNamara as Deputy Alien Property Custodian nor of any actions heretofore or hereafter taken by him in the capacity of Deputy Alien Property Custodian.

(c) The authority heretofore conferred upon the Chief, Estates and Trusts Section, Territory of Hawaii, by an instrument of delegation dated September 17, 1943, executed by Leo T. Crowley, as Alien Property Custodian, continued in effect by virtue of Special Regulation No. 1, March 27, 1944 (9 F.R. 3479) shall be exercised under the general spervision of Thomas H. Creighton, Jr., as Assistant to the Alien Property Custodian and Chief of the Property Division.

(d) General Order No. 31 is hereby amended as follows and not otherwise: by deleting the name Thomas H. Creighton, appearing in paragraph (b) thereof and substituting therefor the name Thomas H. Creighton, Jr.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

C. H. STEMMONS MFG. CO., ETC.

§ 3.6 (m 10) *Advertising falsely or misleadingly—Manufacture or preparation:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service.* In connection with offer, etc., of respondent's Airflow Arch-Ezur, or any other similar device, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of respondent's said device, which advertisements represent, directly or through inference, (1) that respondent's device performs any corrective function in the treatment of foot conditions, or that its use will relieve painful conditions caused by weak arches, callouses, metatarsal troubles or other forms of foot disabilities; (2) that the use of respondent's device will provide exercise for the foot or have any value in exercising or restoring weak or flabby muscles; (3) that the use of respondent's device will stimulate or increase circulation of the blood in the feet, remove bunions or callouses upon the feet, or rebuild degenerated tissue; (4) that the use of respondent's device will prevent spreading of the foot in the shoe, aid in the restoration of foot health, or relieve foot or body fatigue; (5) that respondent's device is so constructed that it will create an air suction through the shoes sufficient to keep the feet dry, cool, healthy, or comfortable; or (6) that respondent's device is so designed as to fit every individual foot; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, C. H. Stemmons Manufacturing Company, etc., Docket 4882, June 27, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of June, A. D. 1944.

In the Matter of C. H. Stemmons, an Individual Trading as C. H. Stemmons Manufacturing Company, and Airflow Arch-Ezur Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence, and brief filed in support of the complaint (no brief having been filed by the respondent and oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, C. H. Stemmons, an individual trading as C. H. Stemmons Manufacturing Company, or trading under any other name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of his certain device now designated as Airflow Arch-Ezur, or any other device of substantially similar construction or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference,

(a) That respondent's device performs any corrective function in the treatment of foot conditions, or that its use will relieve painful conditions caused by weak arches, callouses, metatarsal troubles or other forms of foot disabilities;

(b) That the use of respondent's device will provide exercise for the foot or have any value in exercising or restoring weak or flabby muscles;

(c) That the use of respondent's device will stimulate or increase circulation of the blood in the feet, remove bunions or callouses upon the feet, or rebuild degenerated tissue;

(d) That the use of respondent's device will prevent spreading of the foot in the shoe, aid in the restoration of foot health, or relieve foot or body fatigue;

(e) That respondent's device is so constructed that it will create an air suction through the shoes sufficient to keep the feet dry, cool, healthy, or comfortable;

(f) That respondent's device is so designed as to fit every individual foot.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's device, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

J. H. CAMP, ETC.

§ 3.6 (y) *Advertising falsely or misleadingly—Safety:* § 3.71 (e) *Neglecting, unfairly or deceptively, to make material disclosure—Safety.* In connection with offer, etc., of respondent's medicinal preparations designated "Phalene" and "Burtone", or any other similar preparations, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of respondent's said preparations, which advertisements represent, directly or by implication, that respondent's preparation "Burtone" is safe and harmless and may be taken continually without ill effects, or which advertisements fail to reveal that neither the preparation "Phalene" nor the preparation "Burtone" should be used by one suffering from abdominal pains, stomach ache, cramps, nausea, vomiting or other symptoms of appendicitis; prohibited, subject to the provision, however, that such advertisements need contain only the statement, "Caution: Use Only as Directed", if and when the directions for use wherever they appear on the label, in the labeling, or both on the label and in the labeling, contain a warning to the above effect. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, J. H. Camp, etc., Docket 4893, June 27, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of June, A. D. 1944.

In the Matter of J. H. Camp, an Individual Trading as J. H. Camp and Drug Profits, Inc.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission (no answer having been filed by the respondent) and a stipulation as to the facts entered into by the respondent, J. H. Camp, trading as J. H. Camp and Drug Profits, Inc., and Richard P. Whiteley, Assistant Chief Counsel for the Commission, which provides, among other things, that without further evidence or other intervening procedure the Commission may issue and serve upon the respondent herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding, the filing of report upon the evidence by the Trial Examiner having been expressly waived, the Commission, having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, J. H. Camp, individually and trading as J. H. Camp and Drug Profits, Inc., or trading under any other name or names, his representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale or distribution of his medicinal preparations designated "Phalene" and "Burtone", or any other preparation or preparations composed of substantially similar ingredients or possessing substantially similar properties, whether sold under the same or any other name or names, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisements by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication, that respondent's preparation "Burtone" is safe and harmless and may be taken continually without ill effects, or which advertisement fails to reveal that neither the preparation "Phalene" nor the preparation "Burtone" should be used by one suffering from abdominal pains, stomach ache, cramps, nausea, vomiting or other symptoms of appendicitis: *Provided, however*, That such advertisement need contain only the statement, "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or both on the label and in the labeling, contain a warning to the above effect:

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparations, which advertisement contains any representation prohibited in paragraph 1 hereof with respect to "Burtone" or which fails to comply with the affirmative requirements set forth in paragraph 1 hereof with respect to both "Burtone" and "Phalene."

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

REX DIATHERMY CORP.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service:* § 3.6 (y 10) *Advertising falsely or misleadingly—Scientific or other relevant facts:* § 3.71 (e) *Neglecting, unfairly or deceptively, to make material disclosures—Safety.* In connection with offer, etc., of respondent's "Rex Diathermy Machine," or any other similar device, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of respondent's said device, which advertisements represent, directly or by implication, (1) that said device, when used by unskilled laymen in the treatment of self-diagnosed conditions, constitutes a competent or effective treatment of or remedy for rheumatism in its various forms in all parts of the body, arthritis, bronchitis, sciatica, lumbago or other similar diseases; (2) that said device constitutes a competent or effective treatment for the alleviation of pain resulting from diseases and ailments of the human body unless specifically limited to conditions which do not involve acute inflammatory processes, glandular structures, or the special senses; or (3) that diathermy treatments are used by all doctors and in all hospitals for the treatment of diseases or diseased conditions; or which advertisements fail to reveal clearly and conspicuously that said device is not safe for use for any condition unless and until a competent medical authority has determined, as a result of a diagnosis, that the use of diathermy is indicated, has prescribed the frequency and rate of application of the treatments, and the user has been adequately instructed by a trained technician in the use of such device; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Rex Diathermy Corporation, Docket 5145, June 26, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of June, A. D. 1944.

In the Matter of Rex Diathermy Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and states that it waives all intervening procedure and further hearing as to the facts, and the Commission having made it findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Rex Diathermy Corporation, a corporation, and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for said, sale, or distribution of respondent's device designated "Rex Diathermy Machine", or any other device of substantially similar character, whether sold under the same name or any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication:

(a) That said device, when used by unskilled laymen in the treatment of self-diagnosed conditions, constitutes a competent or effective treatment of or remedy for rheumatism in its various forms in all parts of the body, arthritis, bronchitis, sciatica, lumbago or other similar diseases.

(b) That said device constitutes a competent or effective treatment for the alleviation of pain resulting from diseases and ailments of the human body unless specifically limited to conditions which do not involve acute inflammatory processes, glandular structures, or the special senses.

(c) That diathermy treatments are used by all doctors and in all hospitals for the treatment of diseases or diseased conditions.

2. Disseminating or causing to be disseminated any advertisement by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement fails to reveal clearly and conspicuously that said device is not safe for use for any condition unless and until a competent medical authority has determined, as a result of diagnosis, that the use of diathermy is indicated, has prescribed the frequency and rate of application of the treatments, and the user has been adequately instructed by a trained technician in the use of such device.

3. Disseminating or causing to be disseminated any advertisement, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's device which advertisement contains any representation prohibited in paragraph 1 hereof or which fails to contain the warning in paragraph 2 hereof.

It is further ordered, That the respondent shall, within ten (10) days after service upon it of this order, file with the Commission an interim report in writing, stating whether it intends to comply with this order and, if so, the manner and form in which it intends to comply; and that within sixty (60) days after the service upon it of this order, the respondent shall file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 802—RULES OF PROCEDURE

STAY OF ORDER OR RULING OF BOARD AGENT

The following new subparagraph has been added to paragraph (b) of § 802.37 (9 F.R. 1612, 3067, 4332) of the rules of procedure of the National War Labor Board:

§ 802.37 *Stay of order or ruling of an agent of the Board.* • • •

(b) *Directive orders in dispute cases.* • • •

(5) Notwithstanding the provisions of subparagraph (3) of this paragraph, that part of a directive order of an agent of the Board which continues in effect the terms and conditions of a prior contract which has expired or been otherwise terminated, shall not be suspended or stayed by the filing of a petition for review, but shall be effective according to its terms, unless and until the Board,

upon consideration of a petition for review, otherwise directs.

PART 802—RULES OF PROCEDURE

AUTHORITY OF REGIONAL BOARDS

Subparagraph (2) of paragraph (b) of § 802.57 (8 F.R. 16676; 9 F.R. 1613, 2083, 4860) of the jurisdiction and procedure of regional boards has been amended to read as follows:

§ 802.57 *Authority of Regional War Labor Boards.* * * *

(b) *Directive orders in dispute cases.* * * *

(2) If after the issuance of a directive order no timely petition for review is filed within the period provided in paragraph (c) below, and if the National War Labor Board within such a period does not review the order on its own motion, the order shall on the day following the last day for filing such a petition stand confirmed as the order of the National War Labor Board and shall immediately be effective according to its terms: *Provided*, That the National War Labor Board may at any time prior to the expiration of the time for the filing of a petition for review make such an order, or any part thereof, immediately effective pending any further proceedings. If a timely petition for review of a directive order of a Regional Board is filed by a party in accordance with the provisions of paragraph (c) below, or if the National War Labor Board reviews such an order on its own motion, the entire order shall be suspended, unless and until the National War Labor Board directs, or has directed, otherwise, or unless the parties otherwise agree. However, the date of expiration of the escape period fixed in a directive order of a Regional Board granting a maintenance of membership provision shall not be affected by the filing of a petition for review of this or any other provision of the order. If only a part of the order is sought to be reviewed, any party may petition the National War Labor Board to make the rest of the order immediately effective according to its terms. The parties may in any case mutually agree upon the date when the order, or any part thereof, shall take effect, except that where a wage or salary adjustment is made subject to the approval of the Economic Stabilization Director, the parties may not by their agreement make such adjustment effective prior to the date of such approval. Notwithstanding any other provisions of this paragraph, that part of a directive order of a Regional Board which continues in effect the terms and conditions of a prior contract which has expired or been otherwise terminated, shall not be suspended or stayed by the filing of a petition for review, but shall be effective according to its terms, unless and until the national board, upon consideration of a petition for review, otherwise directs.

Approved: July 18, 1944.

PART 803—GENERAL ORDERS

WAGE AND SALARY ADJUSTMENTS IN HAWAII

Paragraph (b) (6) of § 3803.36, General Order No. 36 (9 F.R. 7511, 7645), has been amended to read as follows:

(b) *Wage and salary adjustments which may be made effective without approval of Territorial War Labor Board for Hawaii.* * * *

(6) No general order heretofore or hereafter issued by the National War Labor Board shall be applicable to the Territory of Hawaii unless expressly extended thereto by action of the National War Labor Board or Territorial War Labor Board for Hawaii: *Provided, however*, That the Territorial War Labor Board for Hawaii may in case of small total wage and salary increases, modify the provisions of subparagraphs (1) through (5) above, or adopt and apply to the Territory any of the general orders of the National War Labor Board or parts thereof and issue such amendments thereto as it may in its discretion deem necessary for the effective administration of its duties hereunder. Such action shall be promptly reported to the National War Labor Board and shall be subject to the National War Labor Board's ultimate power of review but any modification or reversal thereof shall not be retroactive.

Paragraph (b) (7) has been repealed.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter A—General Provisions

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 37]

PREFERENCE RATING AUTHORITY FOR WAR FOOD ADMINISTRATOR

Pursuant to the authority vested in me by Executive Order No. 9024 of January 16, 1942, Executive Order No. 9125 of April 7, 1942, War Production Board Regulation No. 1 as amended December 31, 1943, and in order to facilitate acquisition of shipping containers for Lend-Lease shipments, it is hereby ordered:

§ 903.51 *Directive No. 37*—(a) *Rating of orders for containers for certain purposes.* The War Food Administrator is hereby authorized to assign a preference rating of AA-2 for the procurement of wooden shipping containers (as defined in Order P-140) or fibre shipping containers (as defined in Order P-146) to be used for packing food which is to be exported as Lend-Lease shipments.

(b) *Conditions of exercising delegated authority.* The War Food Administrator, in exercising the authority delegated in paragraph (a) above, will comply with the following conditions:

(1) The rating will only be assigned to get a specific number of shipping containers required to pack food which will be exported as Lend-Lease shipments pursuant to definite export contracts or programs.

(2) A cancellation or modification of the export contract or program will result in a cancellation or modification of the rating to get the containers.

(3) The War Food Administrator shall file a report monthly with the Program Vice Chairman, setting forth in detail all information relative to his exercise of the authority granted by this directive.

(c) *Form of assignment of rating.* The War Food Administrator shall assign ratings under this Directive in the following form:

Under authority of the War Production Board, as provided in paragraph (k) (2) of Order P-140 or Order P-146, delivery of the shipping containers referred to herein is assigned a preference rating of AA-2. Application and extension of rating shall be made in accordance with paragraph (v) of Orders P-140 or P-146.

(d) *Redelegation.* The War Food Administrator may exercise the authority delegated in this directive through such officials of the War Food Administration as he may designate.

Issued this 25th day of July 1944.

S. W. ANDERSON,
Program Vice Chairman.

PART 3102—NATIONAL EMERGENCY SPECIFICATIONS FOR STEEL PRODUCTS

[Limitation Order L-211, Schedule 7 as Amended July 25, 1944]

RAILS AND TRACK ACCESSORIES

Section 3102.8 *Schedule 7 to Limitation Order L-211* is hereby amended to read as follows:

§ 3102.8 *Schedule 7 to Limitation Order L-211*—(a) *Definitions.* For the purposes of this schedule:

(1) "Rails" means new standard tee rails (weighing over 60 pounds per yard) and plain, grooved and guard types of new steel girder rails for railroad, industrial and transit trackage.

(2) "Track accessories" means new steel joint bars (variously called splice bars, angle bars and fish plates), tie plates, track spikes, and track bolts and nuts for use with rails as defined herein.

(b) *Restrictions on specifications.* No person shall produce, fabricate, deliver, or accept rails or track accessories which he knows or has reason to believe do not conform to a specification set forth in List 1 of this schedule.

(c) *Exceptions.* (1) The provisions of paragraph (b) shall not apply to rails or track accessories:

(i) The production, fabrication, delivery, or acceptance of which is specifically permitted by the War Production Board.

(ii) Which have been produced or fabricated before February 25, 1943, or which before such date have been processed in such manner and to such extent that processing to conform to such provisions would be impracticable.

(2) The provisions of paragraph (b) shall not prevent

(i) Waiver by the purchaser or procuring agency of any of the inspection or test requirements of the specifications prescribed in paragraph (b).

(ii) Delivery or acceptance of rails or track accessories which because of errors in manufacture do not conform to the requirements of paragraph (b), providing such requirements are waived by the purchaser or procuring agency.

(iii) The production, fabrication, delivery, or acceptance of Bessemer steel rails, if and as specified by the purchaser or procuring agency.

(iv) The production, fabrication, delivery, or acceptance of rails with hardened, milled, or beveled ends.

(v) The production, fabrication, delivery, or acceptance of 30, 33, or 39 foot rails (no shorts) of #1 classification without "A" rails, for use in the fabrication of frogs, switches and crossings, provided the purchaser endorses on the purchase order a statement signed by an authorized official, either manually or as provided in Priorities Regulation No. 7, substantially as follows:

As permitted by Schedule 7 to Limitation Order L-211 the rails covered by this purchase order are for use in the fabrication of frogs, switches, or crossings.

[1] For explanation of time during which shipping schedule is frozen see Paragraph (c) (3) of M-293.

(b) In filling out his schedule in accordance with the terms of paragraph (c) of Order M–293, no manufacturer may schedule any purchase order placed after July 25, 1944 unless it bears a preference rating accompanied by a certification as provided in Priorities Regulation No. 3.

(c) Ratings for metal containers described above may be assigned on Form WPB 541 (formerly PD–1A), WPB 542 (formerly PD–3A) or any other applicable form. No preference rating for maintenance, repair and operating supplies (MRO) may be used to obtain metal containers suitable for transportation of gas under pressure covered by item 1 of the above table.

(d) If a manufacturer delivers metal containers of the types referred to in item 1 of the above table more than 10 days before or 10 days after the month in which their delivery was scheduled, he must notify the War Production Board of the reason for the delay or acceleration and when he expects to make the shipment. All shipments are to be reported in the month in which they actually were made. This provision supplements the provisions of paragraph (h) of Order M–293 concerning notice of change in shipping schedules.

(e) Manufacturers shall continue to observe any frozen schedule or specific direction which they have received under Order M–233 until they expire by their terms.

Issued this 25th day of July 1944.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M–73, Direction 1]

IMPORTS OF WOOL

The following direction is issued pursuant to Conservation Order M–73:

To the extent that any authorization to import wool heretofore issued under General Imports Order M–63 limits the purposes for which such wool may be used, all such restrictions are hereby revoked.

This revocation does not affect any liabilities incurred under any such authorizations to import, applicable orders or regulations.

Issued this 24th day of July 1944.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 3 as Amended July 25, 1944]

THIAMINE HYDROCHLORIDE

Section 3293.1003 *Schedule 3 to General Allocation Order M–300* is amended to read as follows:

§ 3293.1003 *Schedule 3 to General Allocation Order M–300*—(a) *Definition.* "Thiamine hydrochloride" means thiamine hydrochloride (also known as thiamine chloride, vitamin B_1 hydrochloride, vitamin B_1) in crude or refined form. This term does not include standard dosage forms (tablets, capsules, ampuls, solutions, etc.), combinations in foods or beverages, or thiamine hydrochloride of natural origin.

(b) *General provisions.* Thiamine hydrochloride is subject to the provisions of General Allocation Order M–300 as an Appendix B material. The initial allocation date is May 4, 1943, the date of issuance of Order M–314 (revoked). The allocation period is the calendar month. The small order exemption without use certificate is 2000 grams or less per person per month.

(c) *Special provisions.* Use, delivery and acceptance of delivery prior to August 1, 1944, will be authorized on the basis of applications filed in the form heretofore prescribed for thiamine hydrochloride as an Appendix C material. Copies of customers' applications on Form WPB–2945 filed during July shall be treated by suppliers as use certificates.

(d) *Suppliers' applications on WPB–2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB–2947 (formerly PD–602). Filing date is the 20th day of the month preceding the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–3. The unit of measure is grams. Specify grade as "USP" or "crude". An aggregate quantity may be requested, without specifying customers' names, for delivery on uncertified small orders. Fill in Table II.

(e) *Certified uses with purchase orders.* Each person placing purchase orders for delivery of more than 2000 grams per month in the aggregate from all suppliers, shall furnish each supplier with a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M–300. It is requested that this statement be filed with the supplier not later than the 15th day of the month preceding the requested delivery month. Specify primary products as multivitamin, B–Complex, or single-vitamin capsules, tablets, ampuls, or liquids; as bread, flour or cereal enrichment concentrates; or as other specified products. Specify as end use, Army, Navy or Lend-Lease requirements, if any, giving contract and requisition numbers when practicable. Proposed use may also be specified as "for authorized resale", "for resale on exempt small orders", or "for export" (specify destination and export license number).

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this schedule should be addressed to War Production Board, Washington 25, D. C., Ref: M–300–3.

Issued this 25th day of July 1944.

PART 3293—CHEMICALS

COTTON LINTERS AND HULL FIBRE

[General Preference Order M–12, as Amended July 25, 1944]

§ 3293.36 *General Preference Order M–12*—(a) *Definitions.* (1) "Cotton linters" means the residual fibres removed by mechanical process from cottonseed and produced in three qualities commonly referred to as "mill runs", "first cuts" and "second cuts".

(2) "First cuts" means those linters resulting from the first delinting of cottonseed by a mill that makes more than one delinting.

(3) "Second cuts" means all those cotton linters resulting from all delinting of cottonseed subsequent to the first.

(4) "Mill runs" means all those cotton linters resulting from the delinting of cottonseed by a mill that makes only one delinting.

(5) "Hull fibre" means the fibres removed by mechanical process from cottonseed hulls.

(6) "Motes" means the fibrous waste materials resulting principally from the moting operation of linter machines.

(7) "Chemical cotton pulp" means pulp manufactured by chemically purifying cotton linters or hull fibre, sometimes described as "cotton linter pulp" or "cottonseed hull shavings pulp".

(8) "Mill" means any plant producing cotton linters, hull fibre or motes.

(b) *Restrictions on delivery and use.* (1) No producer of cotton linters shall deliver to any person other than Commodity Credit Corporation that portion of his production of cotton linters manufactured after July 31, 1944 which War Production Board may direct him in writing to deliver to Commodity Credit Corporation. The basis for determining the portion to be delivered for chemical use shall be the same for each producer.

(2) No producer of hull fibre which is suitable for chemical use shall deliver such hull fibre produced after July 31, 1944 to any person other than a producer of chemical cotton pulp.

(3) Commodity Credit Corporation shall deliver cotton linters produced after July 31, 1944 only to such persons in such amounts and from such sources as may from time to time be designated in writing by War Production Board.

(4) Producers of chemical cotton pulp shall use cotton linters and hull fibre only in the manufacture of chemical cotton pulp.

(5) The delivery of cotton linters and hull fibre acquired or produced prior to August 1, 1944, shall be subject to the restrictions with respect thereto imposed by General Preference Order M–12 as in effect prior to August 1, 1944.

(c) *Production of cotton linters, hull fibre and motes.* (1) Each producer of cotton linters, hull fibre or motes shall comply with such written directions as may be given from time to time by War Production Board with respect to the delinting operations of his mill. Such directions shall be based primarily upon insuring that each mill shall be so operated that it shall produce cotton linters or hull fibre in such quantities and of such quality as shall be suitable for use by producers of chemical cotton pulp.

(2) First cuts, second cuts, mill runs, hull fibre and motes shall be baled separately.

(3) Motes, whether cleaned or uncleaned, shall not be reintroduced into either cotton linters or undelinted cottonseed.

(d) *Special permits.* Special written authorization for delivery of cotton linters and hull fibre may be granted by War Production Board upon application of any person affected by this order in the following cases, among others:

(1) To permit delivery of cotton linters to or by agencies of the United States Government.

(e) *Imports.* The importation of cotton linters, if any, shall be made in conformity with the provisions of General Imports Order M–63, as amended from time to time.

(f) *Applications and reports.* In addition to such other reports as may be required from time to time by War Production Board:

(1) Each person producing cotton linters, hull fibre or motes, except from the delinting of planting seed, shall file Form WPB–166 in the manner prescribed therein on or before the 5th day of each month.

(g) *Exemptions.* (1) Cotton linters produced from the delinting of planting seed may be sold and delivered by the producer without special permission of War Production Board, provided that the cottonseed so delinted are used solely for planting purposes.

(2) [Revoked July 25, 1944. Modified by new paragraph (h) (2).]

(h) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Mills are separate units.* Each mill shall be considered as a separate unit for the purpose of this order.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref.: M–12.

(5) *Effective date.* The changes made in this order by the amendment of July 25, 1944, shall be effective beginning August 1, 1944.

Issued this 25th day of July 1944.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L–99, as Amended July 22, 1944]

COTTON TEXTILE PRODUCTION

Section 3290.46 *Limitation Order L–99,* is amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton textiles and materials for making cotton textiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.46 *Limitation Order L–99*—(a) *Operations of spinning machinery and looms producing cotton textiles.* (1) No person shall, regardless of the presentation of rated orders, operate spinning machinery or looms contrary to the provisions in the schedules of this order. These restrictions shall not prohibit, after written notification to the War Production Board, the manufacture of any construction in any group in the schedules of lower pick than the lowest pick specified in the "May produce only" column as to such group, unless the War Production Board by a specific direction prohibits that manufacture.

In case any person believes it to be in the interest of production for military or essential civilian needs to adjust his production otherwise than as provided in said schedules, he may file an application by letter and the War Production Board will consider such application in the light of programmed requirements.

(2) No person shall operate spinning machinery or looms acquired by him after June 30, 1944 except as specifically authorized in writing by the War Production Board. For such authorization, an application may be made by letter to the War Production Board stating all facts which the applicant deems important and pertinent to his particular case. In all instances he shall state the type of fabric or yarn he wishes to produce, and in instances where he has acquired used spinning machinery or looms he shall state the name of the person who formerly owned or controlled the equipment, and the fabric or yarn produced by such former owner.

(b) *Further restrictions.* (1) No producer or converter of cotton textiles shall produce, convert or deliver cotton textiles and no person shall accept delivery of cotton textiles from a producer or converter, contrary to any specific direction which may be issued from time to time by the War Production Board.

(2) General Conservation Order M–317 provides that each producer must make cotton sale yarn, there defined, available for distribution in accordance with the Cotton Yarns, Cordage, and Twine Distribution Schedule annexed to that order. This order (L–99) requires each producer to make in each calendar quarter at least as much sale yarn as he produced in his base period. His base period is the calendar quarter in 1943 in which he delivered to purchasers the largest percentage of his cotton yarn production. Accordingly, each producer must in the calendar quarter beginning April 1, 1944, and in each subsequent calendar quarter, produce at least the same poundage of sale yarn, by Form WPB–658 Schedule E groups, as he produced in those groups in the base period.

(3) Each producer must in the week beginning May 21, 1944, and in each subsequent week, deliver duck yarns of at least the same poundage as he delivered in the week of 1944 in which he delivered the largest quantity of duck yarns.

Producers who have facilities which can produce additional quantities of duck yarns may receive special directions from the War Production Board to deliver specific amounts to designated weavers.

(4) No spinner shall use or dispose of roving except for spinning or on rated orders, unless specifically authorized in writing by the War Production Board. An authorization to use roving for other purposes may be granted if the War Production Board finds that the roving produced by spinners, who do not have spinning spindles, is not needed to fill rated orders, or in cases where spinners show that their spinning spindles are operating at maximum capacity. To secure such authorization, an application must be made by letter to the War Production Board also stating the quantity of roving which the applicant wishes to use or dispose of for other than spinning or the filling of rated orders, and the hours per week which each spinning machine is being operated.

(5) Each person in the business of producing woven cotton textiles shall, in the calendar quarter beginning July 1, 1944 and in each calendar quarter thereafter, produce a minimum linear yardage of each construction on Schedule A marked with an asterisk, equalling the greater of either of the following:

(i) 90% of the linear yardage of such construction produced by him in the second calendar quarter of 1944, or

(ii) The linear yardage which can be produced by operating each loom producing such construction at not less than the number of hours any other loom in his mill is operated.

(6) No person shall operate at a rate under which his aggregate production of

(i) 31'' and 63'' Army tent twill (U. S. Army Specification JQD–48) and

(ii) 33'' and 65'' substitute duck (tentative U. S. Army Specification JQD–580), and

(iii) Any other fabrics or widths of fabric which may be developed by negotiation between the producer and the U. S. Army and Navy for use as duck or duck substitute

will be less during any calendar quarter than the aggregate linear yardage of the drills, twills and sateens delivered by him on unrated orders in the period from January 1, 1944 through March 31, 1944.

This requirement shall not prevent the production of any cotton textiles for orders rated AA–2X or higher which were accepted before July 22, 1944.

(7) Each loom which on April 1, 1944, produced or was assigned to the production of bed ticking and which is now required to produce Army tent twill shall be operated at least as many hours per week as the loom which is operated the most hours per week at the same plant.

(8) Each producer of corduroys (reported in Item Numbers 152 through 154, Form WPB–658–B (3/17/44)) shall, beginning September 1, 1944, set aside in each succeeding three months period a poundage of yarns equal to 40% of the poundage of yarn he produced and purchased for weaving into corduroy or jungle cloth in the first calendar quarter of 1944, and shall produce from this set aside yarn one or more of the following fabrics:

(i) Duck.
Army.
Flat, single filling.
Flat, double filling.
Numbered.
Shelter tent.
Flat, high sley, 9.5 oz. (tentative Army Spec. JQD–580), 33'' or 65'' width, or any width which may be developed by negotiation between the producer and the U. S. Army or Navy.

(ii) Tent twill (U. S. Army Spec. JQD–48), 31'' or 63'' width, or any width which may be developed by negotiation between the producer and the U. S. Army or Navy.

(iii) Any fabric which may be developed by negotiation between the producer and the U. S. Army or Navy for use as duck or as a duck substitute.

(iv) Jungle cloth for the U. S. Navy.

(c) *Reports and records.* All persons operating spindles or looms for the production of cotton textiles of any kind shall file with the War Production Board, at the time specified in the reporting form, reports on Form WPB–658–A, B, C, D and E, giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

Any appeal from the provisions of paragraphs (b) (6), (b) (7), (b) (8) or Schedule B must contain the following information:

(1) A full statement of the type, model, age and amount of all equipment in the mill, including all pertinent data regarding sizes of rings on spindles owned or operated, and the amount of auxiliary equipment (such as pick gears, reeds, etc. owned).

(2) A full statement of the amount and type of new equipment needed if the provisions of this order are to be met.

(3) A full statement on the amount of labor available in each activity of the mill, and the shifting of this labor which would be necessary and the amount of new labor necessary in order to carry out the provisions of this order.

(4) A full statement of the production of yarns during the preceding three months showing the production of yarns by counts and types of twist.

An appeal for suspension of the requirements of paragraphs (a) or (b) may be made on the ground that compliance will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(e) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(f) *Violations.* Any person who wilfully violated any provision of this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref., L–99.

Issued this 22d day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

Looms which on July 22, 1944 produced or were assigned to produce cotton textiles listed in the column captioned "Did Produce" may produce only cotton textiles of the construction specified in the column captioned "May Produce Only." Where widths and weights are mentioned, pro rata widths of like counts and weights may be produced.

All authorizations issued before July 22, 1944 on appeal from Limitation Order L–99 or from Supplementary Limitation Order L–99–a to produce constructions other than those listed in the "May Produce Only" column of this schedule are revoked.

SCHEDULE B

Looms which on July 1, 1944, produced or were assigned to produce the cotton textiles listed in the column captioned "Did Produce" may, after September 1, 1944, to the extent of the percentages indicated, produce only cotton textiles of the construction specified in column captioned "May Produce Only". The percentages are applicable to the daily average number of looms on assignment or production. Where widths and weights are mentioned, pro rata widths of like counts and weights may be produced. The provisions of this schedule shall not apply to persons who do not own or operate spinning equipment which produces cotton yarns.

All authorizations issued before July 22, 1944, on appeal from Limitation Order L-99 or Supplementary Limitation Order L-99-a to produce constructions other than those listed in the "May Produce Only" column of this schedule, are revoked.

SCHEDULE C

Roving, ring, mule or converted twister spindles which on July 22, 1944 produced or were assigned to produce the yarn and twine listed in the column captioned "Did Produce" may produce only yarn and twine of the descriptions and counts specified in the column captioned "May Produce Only". This, however, shall not prevent the production to fill specific orders on hand rated AA-2X or higher. However, after those AA-2X or higher orders have been filled, the spinning machinery must produce the yarn or twine specified for it in the "May Produce Only" column.

All authorizations relating to the subject matter of this schedule issued before July 22, 1944, on appeal from Limitation Order L-99 or from Supplementary Limitation Order L-99-a are revoked.

PART 1305—ADMINISTRATION

[Gen. RO 11,[1] Amdt. 17]

REPLACEMENT OF RATIONED FOODS USED IN PRODUCTS ACQUIRED BY DESIGNATED AGENCIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 2.4 (a) is amended by substituting the words "If the agency" for the words "However, if the agency" in the second sentence, and by inserting the following sentence between the first and second sentences: "The agency may, in its discretion, permit an application to be made more than 60 days after the products were acquired, if the applicant was unable to file the application within the 60-day period for reasons beyond his control."

This amendment shall become effective July 29, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1305—ADMINISTRATION

[Gen. RO 17[1], Amdt. 1]

EXPORT OF RATIONED FOODS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

General Ration Order 17 is amended in the following respects:

1. Section 7 (a) is amended to read as follows:

(a) Any person who needs to submit proof of export under section 5 or 6 must, unless the foods are exported by mail, submit a copy of a shipper's Export Declaration (Commerce Form 7525) or a bill of lading to the district office within 30 days after the export. The declaration must contain a description of the rationed food exported, showing the amount of each, and a statement signed by an authorized customs official that, to the best of his knowledge and belief, such rationed foods were exported by such person. The bill of lading must contain a description of the rationed foods exported, showing the amount of each, and a statement dated and signed by the master of the vessel on which the foods were consigned or shipped, acknowledging receipt of the foods described and stating that they are destined for export.

2. Section 7 (b) is amended to read as follows:

(b) If exported rationed foods were consigned to an agency of the United States, the exporter may submit a bill of lading, manifest, or other satisfactory evidence that the rationed foods were actually exported to such agency of the United States.

This amendment shall become effective July 29, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1340—FUEL

[MPR 88, Amdt. 12]

FUEL OIL, GASOLINE AND LIQUEFIED PETROLEUM GAS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 88 is amended in the following respects:

1. Section 2.18 (c) is added to read as follows:

(c) *Prince Georges and Montgomery Counties.* In the above counties maximum tank wagon prices of kerosene, No. 1 fuel oil and range oil shall be as follows:

	Cents per gallon
Loaded into buyer's tank wagons	8.3
Tank wagon deliveries to resellers	10.8
Tank wagon deliveries to consumers in quantities of 25 gallons or over	10.8
Tank wagon deliveries to consumers in quantities of less than 25 gallons	12.3

2. Section 2.16 (a) (2) is amended to read as follows:

(2) *Diesel oil; ships' bunkers.* Maximum prices for residual and distillate diesel oil, ships' bunkers (ex lighterage) shall be:

Grade:	Dollars per barrel
Residual	[1] 1.35
Distillate, below 28° API gravity	[1] 1.35
Distillate, 28° API gravity and above	[1] 1.65

[1] On single lot deliveries of less than 50 barrels add 0.10 per barrel.

3. Section 2.30 (a) (1) is amended as follows:

In the table headed by the caption "Delivered prices" the words "including Mt. Kisco" shall follow on a line with "Westchester County" and the parenthetical phrase "(not including Mt. Kisco)" shall be inserted between "Bedford" and "and".

4. Section 2.41 (a) (2) is amended to read as follows:

(2) *Diesel oil; ships' bunkers.* Maximum prices for residual and distillate diesel oil, ships' bunkers (ex lighterage) shall be:

Grade:	Dollars per barrel
Residual	[1] 1.35
Distillate, below 28° API gravity	[1] 1.35
Distillate, 28° API gravity and above	[1] 1.65

[1] On single lot deliveries of less than 50 barrels add 0.10 per barrel.

5. In section 2.41 (c) the entire section except for the heading is redesignated as section 2.41 (c) (1), and to such new paragraph (c) (1) the following heading is added: "(1) *F. o. b. refineries[1] at Texas Panhandle, West Texas, North Texas and East Texas points.*"

6. Section 2.41 (c) (2) is added to read as follows:

(2) *F. o. b. refineries[2] at Lower Inland Texas points.* Maximum prices of the petroleum products listed below loaded[1] into tank cars, motor transports and pipelines f. o. b. refineries[2] located in Lower Inland Texas[3] for shipments to the destinations indicated below shall be as follows:

Products	For shipment to ultimate destinations: Column 1 PAW District 1	Column 2 Other States except Texas
Kerosene, distillate fuel oils and gas oils:	Cts. per gal.	Cts. per gal.
42-44 API gravity w. w. kerosene	4.125	4.375

[1] Products loaded into all types of transportation facilities for ultimate delivery to War Emergency Pipelines and pipelines with Petroleum Administration for War District 1 termini shall be considered destined for Petroleum Administration for War District 1.

[2] Column 1 prices apply to all shipping points within the designated area for shipment to ultimate destinations in Petroleum Administration for War District 1.

[3] The Lower Inland Texas Area (except for shipping points located at Gulf Coast ports) comprises the Counties of Jackson, Lavaca, Gonzales, Bastrop, Travis, Williamson, Burnett, Llano, Gillespie, Kerr, Kinney, Maverick, Webb, Duval, Jim Wells, Nueces, Kleberg, San Patricio, Refugio, Calhoun, Aransas, Victoria, Goliad, Bee, DeWitt, Karnes, Wilson, Guadalupe, Caldwell, Real, Bexar, Comal, Hays, Kendall, Blanco, Bandera, Uvalde, Medina, Zavala, Frio, Atascosa, Dimmit, La Salle, McMullen, Live Oak, Jefferson, Orange, Hardin, Liberty, San Jacinto, Walker, Madison, Leon, Robertson, Falls, Bell, Milam, Lee, Fayette, Colorado, Wharton, Matagorda, Brazoria, Galveston, Chambers, Fort Bend, Harris, Austin, Waller, Montgomery, Washington, Grimes, Burleson, Brazos, Zapata, Jim Hogg, Brooks, Kenedy, Starr, Hidalgo, Willacy, and Cameron in the State of Texas.

[4] Unless separately listed as another product in the above table, any refined distillate or overhead petroleum product (except lube distillates or naphthas sold for blending with gasoline or natural gasoline) of lower than 41 degrees gravity, API, is to be considered a gas oil. For grades of gas oils claimed to be special grades sellers may not charge higher prices than established for gas oils in this paragraph (c) (2) without prior written approval from the Petroleum Branch of the Office of Price Administration, Washington, D. C.

[5] These prices apply only to fuels sold for use in Diesel engines.

7. Section 2.44 (a) is amended to read as follows:

(a) *Counties of Arlington and Fairfax.* In the above counties of the State of Virginia maximum prices shall be as follows:

(1) For kerosene, No. 1 fuel oil and range oil:	Cents per gallon
Loaded into buyers' tank wagons	8.8
Tank wagon deliveries to resellers	10.8
Tank wagon deliveries to consumers in quantities of 25 gallons or over	10.8
(1) For kerosene, No. 1 fuel oil and range oil:	Cents per gallon
Tank wagon deliveries to consumers in quantities of less than 25 gallons	12.3
(2) For No. 2, 3 and 4 distillate fuel oils:	
Tank wagon deliveries to consumers in quantities of 100 gallons or over	9.4
Tank wagon deliveries to consumers in quantities of less than 100 gallons	9.9

8. In section 2.51 (a) the heading "Washington, D. C. tank wagon area" is deleted and a new heading "For tank wagon deliveries" is substituted for the former heading.

9. Section 4.15 (d) is added to read as follows:

(d) *Dixon.* Maximum tank wagon prices of the grades of gasoline listed below shall be as follows:

	Cents per gallon
Premium grade	11.5
Regular grade	10.0

10. In section 4.41 (b) the entire section except for the heading is redesignated as section 4.41 (b) (1), and to such new section the following heading is added: "(1) *F. o. b. refineries[2] at Texas Panhandle, West Texas, North Texas and East Texas points.*"

11. Section 4.41 (b) (2) is added to read as follows:

(2) *F. o. b. refineries[2] at Lower Inland Texas points.* Maximum prices of gasoline according to the specifications listed below[1] loaded[2] into tank cars, motor transports and pipelines f. o. b. refineries[2] located in Lower Inland Texas[4] for shipments to the destinations indicated below shall be as follows:

FOR SHIPMENT TO ULTIMATE DESTINATIONS

Specifications	Column 1 PAW District 1	Column 2 All other States except Texas
Gasoline:	Cts. per gal.	Cts. per gal.
80-82 Oct. ASTM and Ethyl grade	6.75	6.625
80-Oct. 1939 Research	6.00	6.125
72-74 Oct. ASTM	5.75	5.875
63-66 Oct. ASTM	5.25	5.50
60-62 Oct. ASTM and below	5.00	5.125

[1] For gasoline of any specification not listed above, a seller must apply for a maximum price under section 8.3.

[2] Products loaded into all types of transportation facilities for ultimate delivery to War Emergency Pipelines and pipelines with Petroleum Administration for War District 1 termini shall be considered destined for Petroleum Administration for War District 1.

[3] Column 1 prices apply to all shipping points within the designated areas for shipments to ultimate destinations in Petroleum Administration for War District 1.

[4] The Lower Inland Texas Area comprises (except for shipping points located at Gulf Coast ports) the Counties of Jackson, Lavaca, Gonzales, Bastrop, Travis, Williamson, Burnett, Llano, Gillespie, Kerr, Kinney, Maverick, Webb, Duval, Jim Wells, Nueces, Kleberg, San Patricio, Refugio, Calhoun, Aransas, Victoria, Goliad, Bee, DeWitt, Karnes, Wilson, Guadalupe, Caldwell, Real, Bexar, Comal, Hays, Kendall, Blanco, Bandera, Uvalde, Medina, Zavala, Frio, Atascosa, Dimmit, La Salle, McMullen, Live Oak, Jefferson, Orange, Hardin, Liberty, San Jacinto, Walker, Madison, Leon, Robertson, Falls, Bell, Milam, Lee, Fayette, Colorado, Wharton, Matagorda, Brazoria, Galveston, Chambers, Fort Bend, Harris, Austin, Waller, Montgomery, Washington, Grimes, Burleson, Brazos, Zapata, Jim Hogg, Brooks, Kenedy, Starr, Hidalgo, Willacy, and Cameron in the State of Texas.

12. In section 5.1 a new unnumbered paragraph shall be inserted between the

present fourth and fifth unnumbered paragraphs, said new paragraph to read as follows:

Quotations in the above-named periodical for Motor Gasoline 72–74 Octane A. S. T. M. for "New York Harbor, barges," as set forth on page 40 of such publication under the heading "Summary of Daily Gasoline Prices (Sept. 30 to October 6)", and the quotations for gas oil, as set forth on page 42 of such publication under the heading "Gulf Coast", shall not be used for determining a seller's maximum price.

This amendment shall become effective July 31, 1944.

Issued this 25th day of July 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C,[1] Amdt. 138]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. In § 1394.7853 (a) the word "pass" is deleted wherever it appears and the second sentence is amended to read as follows: "Application for such ration must be accompanied by the leave or furlough authorization, and for good cause shown, such application may be filed by an agent".

2. Section 1394.7854 (b) is amended to read as follows:

(b) If the Board grants the application, it shall determine the quantity of gasoline needed by the applicant for accomplishing the purpose stated. The ration shall be computed at a rate not exceeding one gallon for each day of leave or furlough, subject to the following provisions:

(1) The maximum ration issued shall not exceed 30 gallons.

(2) The Board may issue gasoline purchase permits (Form OPA R–571) or coupons, or both. Each permit may not, however, exceed 10 gallons and the total value of permits issued may not exceed 20 gallons. No gasoline purchase permit shall be issued for a fractional part of a gallon.

(3) The Board shall note upon the face of each permit the information required by the form. It shall note the last day of the leave or furlough as the last date on which such ration may be used.

(4) At the time of the issuance of the ration, the Board shall endorse upon the leave or furlough authorization the Board designation and the number of gallons for which the ration was issued.

(5) No furlough ration may be issued after the expiration of the leave or furlough, or for travel on pass, regardless of the duration of the pass.

This amendment shall become effective July 25, 1944.

(Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89, 421, and 507, 77th Cong.; WPB Dir. No. 1, Supp. Dir. No. 1Q, 7 F.R. 562, 9121; E.O. 9125, 7 F.R. 2719)

Issued this 25th day of July 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Rev. RO 11,[1] Amdt. 17]

FUEL OIL

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 11 is amended in the following respects:

1. Sections 1394.5001 (a) (1) and 1394.5001 (a) (7) are revoked.

2. Section 1394.5001 (a) (19a) is added as follows:

(19a) "New facility" means any fuel oil burning equipment acquired or installed after July 31, 1942. The term includes any facility altered or equipped after July 31, 1942 to use fuel oil. The term does not include any of the following:

(i) Space heaters;

(ii) Reinstalled facilities;

(iii) Internal combustion engines, equipment designed and used for domestic cooking or lighting or equipment designed and used for raising and preparing for market crops, other agricultural products, poultry, or livestock; or

(iv) Parts replacing worn-out parts, or equipment replacing fuel oil burning equipment (other than a new facility or a reinstalled facility) for the purpose of increasing efficiency.

(v) Equipment (other than a new facility) reinstalled in the building from which it had been removed or disconnected because of the relocation of that building.

3. Section 1394.5001 (a) (25a) is added to read as follows:

(25a) "Reinstalled facility" means any equipment which was changed over after July 31, 1942, from the use of fuel oil to the use of an alternate fuel and at any time thereafter altered to the use of fuel oil. The term also includes any fuel oil burning equipment used for furnishing heat or hot water, or both, to premises other than a private dwelling, if by September 24, 1943, substantial work had been done on the equipment to change it over to the use of an alternate fuel. The term does not include any of the following:

(i) Space heaters; or

(ii) Internal combustion engines, equipment designed and used for domestic cooking or lighting or equipment designed and used for raising and preparing for market crops, other agricultural products, poultry, or livestock.

4. Section 1394.5001 (a) (27) is amended to read as follows:

(27) "Standby facility" means equipment (other than fireplaces) designed to use an alternate fuel and in serviceable operating condition (or which can be placed in serviceable operating condition at reasonable expense), which is available as a substitute for fuel oil burning equipment.

5. Sections 1394.5151 and 1394.5152 are revoked.

6. Sections 1394.5153, 1394.5154, 1394.5155, 1394.5156, 1394.5157, 1394.5158, and 1394.5159 are added as follows:

SPACE HEATERS AND COOKING EQUIPMENT

§ 1394.5153 *Restrictions on issuance of rations for use in space heaters or domestic cooking equipment*—(a) *General.* No ration shall be issued or used for the operation of a space heater furnishing heat or hot water or for the operation of domestic cooking equipment if there is a standby facility or if the space heater was acquired after August 23, 1943. If the standby facility is not in serviceable operating condition but can be placed in such condition at reasonable expense, an interim ration for the operation of the space heater or cooking equipment may be issued for the period ending on the earliest date when the standby facility can be placed in serviceable operating condition, but not in excess of the maximum ration allowable for such period under the applicable provisions of this order.

(b) *Exceptions.* The restriction in paragraph (a) shall not apply if any of the following conditions is present:

(1) *Standby facility; unavailability of alternate fuel.* The District Director, upon finding that an adequate supply of fuel oil is available in the area, has designated the area in which the applicant's standby facility would be used as one in which a sufficient supply of the alternate fuel required for its operation is not available and the Board finds that the standby facility cannot be used because the alternate fuel is not available to the applicant. In such case, an interim ration may be issued in such amount and for such period as the Board determines the applicant requires to meet his minimum needs until a sufficient supply of the alternate fuel is available but not in excess of the maximum ration allowable for such period under the applicable provisions of this order.

(2) *Standby facility; exceptional and unreasonable hardship.* The Board finds that the denial of a ration because of the standby facility restriction would work an exceptional and unreasonable hardship upon the applicant. (The unavailability of an alternate fuel may not be considered under this subparagraph.) In such case, an interim ration may be issued in such amount and for such period as the Board determines the hardship will continue, but not in excess of the maximum ration allowable for such period under the applicable provisions of this order.

(3) *Standby facility operated at capacity.* The standby facility is operated in such manner as to take the place of the fuel oil burning equipment to the maximum extent and to effect the maximum saving of fuel oil. In such case, the allowable ration shall be reduced by the amount that can be saved by the maximum use of the standby facility.

(4) *Space heaters acquired after August 23, 1943.* Even though the space heater was acquired after August 23, 1943:

(i) The space heater was acquired by the applicant pursuant to Ration Order 9A; or

(ii) The space heater was not new when the applicant acquired it but he would have been eligible (but for that space heater), at the time of application for the ration, for a new space heater under Ration Order 9A; or

(iii) The space heater is to heat the same space heated by it before the applicant acquired it.

(5) *Previous exceptions granted by PAW.* The Petroleum Administration for War has, on an application filed prior to July 1, 1944, granted the applicant a currently valid exception, under Petroleum Distribution Order No. 13, as amended, with respect to the facility.

(c) *Rations for domestic cooking equipment between May 15, 1944 and September 30, 1944.* On or after May 15, 1944, a ration may be issued and used for the operation of fuel oil burning equipment designed for domestic cooking even though there is a standby facility. In that event, the allowable ration for domestic cooking shall be the amount of fuel oil needed (within the maximum provided in paragraph (b) of § 1394.5353), for a period ending not later than September 30, 1944. However, such a ration may be issued only for equipment acquired before June 1, 1944.

CENTRAL HEATING AND SEPARATE WATER HEATING EQUIPMENT

§ 1394.5154 *Restrictions on the issuance of rations for use in central heating equipment or separate water heating equipment*—(a) *General.* No ration shall be issued or used for the operation of central heating equipment furnishing heat or hot water, or for the operation of separate water heating equipment (for which application is made on OPA Forms R–1100 (Revised) or R–1101 (Revised)), if the equipment is a new or reinstalled facility, or if there is a standby facility. If the standby facility is not in serviceable operating condition but can be placed in such condition at reasonable expense, an interim ration for the operation of the fuel oil burning equipment may be issued for the period ending on the earliest date when the standby facility can be placed in serviceable operating condition.

(b) *Exceptions.* The next three (3) sections contain exceptions to the above restrictions.

§ 1394.5155 *When rations may be issued for a new facility.* (a) A ration may be issued for the operation of a new facility designed to furnish heat or hot water, or both, to any premises only if the Petroleum Administration for War has granted the applicant a currently valid exception under Petroleum Distribution Order No. 13, as amended, with respect to the facility.

§ 1394.5156 *When rations may be issued for a reinstalled facility.* (a) A ration may be issued for the operation of a reinstalled facility furnishing heat or hot water, or both, if any of the following conditions is present:

(1) *Unavailability of alternate fuel.* The District Director, upon finding that an adequate supply of fuel oil is available in the area, has designated the area in which the facility will be used as one in which a sufficient supply of the alternate fuel required for its operation is not available and the Board finds that the alternate fuel is not available to the applicant. In such case, the ration issued (pursuant to the applicable provisions of this order) shall be for the balance of the heating year during which the application is made. Such ration shall not be deemed an interim ration.

(2) *Exceptional and unreasonable hardship*—(i) *Private dwellings, or rations under 10,000 gallons in other premises.* The premise is a private dwelling, or if not a private dwelling the ration for the entire heating year during which the application is made would be less than 10,000 gallons, and in either case the District Director finds that the denial of the ration would work an exceptional and unreasonable hardship on the applicant. (The unavailability of an alternate fuel may not be considered under this subdivision.) If the District Director grants the application, he shall promptly notify the applicant's Board which shall issue the ration (pursuant to the applicable provisions of this order) for the balance of the heating year for which the application is made. Such ration shall not be deemed an interim ration. If the District Director denies the application, he shall promptly notify the applicant of the decision and forward a copy to his Board. The application for the ration must be made to the Board, and shall be referred by it to the District Director only if the Board recommends the granting of the application; otherwise the Board shall deny the application.

(ii) *Rations of 10,000 gallons or more in premises other than private dwellings.* The premise is not a private dwelling and the ration for the entire heating year during which the application is made would be 10,000 gallons or more, and the Petroleum Administration for War has granted a currently valid exception, under Petroleum Distribution Order No. 13, as amended, with respect to the facility.

(3) *Previous exceptions granted by PAW.* In the case of any premises, the Petroleum Administration for War has on an application filed, prior to July 1, 1944, granted a currently valid exception, under Petroleum Distribution Order No. 13, as amended, with respect to the facility.

§ 1394.5157 *When rations for heat or hot water may be issued even though there is a standby facility.* (a) A ration may be issued for the operation of central heating equipment or separate water heating equipment even though there is a standby facility if any of the following conditions is present:

(1) *Unavailability of alternate fuel.* The District Director, upon finding that an adequate supply of fuel oil is available in the area, has designated the area in which the standby facility would be used as one in which a sufficient supply of the alternate fuel required for its operation is not available and the Board finds that the standby facility cannot be used because the alternate fuel is not available to the applicant. In such case, an interim ration may be issued (pursuant to the applicable provisions of this order) for the period ending on the earliest date when a sufficient supply of the alternate fuel will be available.

(2) *Standby facility operated at capacity.* The standby facility is operated in such manner as to take the place of the fuel oil burning equipment to the maximum extent and to effect the maximum saving of fuel oil. In such case, the amount of fuel oil, used as a basis for figuring the allowable ration, shall be reduced by the amount that can be saved by the maximum use of the standby facility.

(3) *Exceptional and unreasonable hardship*—(i) *Private dwellings, or rations under 10,000 gallons in other premises.* The premise is a private dwelling, or if not a private dwelling the ration for the entire heating year during which the application is made would be less than 10,000 gallons, and in either case the Board finds that the denial of the ration because of the standby facility restriction would work an exceptional and unreasonable hardship on the applicant. (The unavailability of an alternate fuel may not be considered under this subparagraph.) In such case, an interim ration may be issued (pursuant to the applicable provisions of this order) for such period as the Board determines the hardship will continue.

(ii) *Rations of 10,000 gallons or more in premises other than private dwellings.* The premise is other than a private dwelling and the ration for the entire heating year during which the application is made would be 10,000 gallons or more, and the Petroleum Administration for War has granted the applicant a currently valid exception, under Petroleum Distribution Order No. 13, as amended, with respect to the standby facility. In such case, the ration issued (pursuant to the applicable provisions of this order) shall be for the period specified in the exception granted by the Petroleum Administration for War.

(4) *Previous exceptions by PAW.* In the case of any premises, the Petroleum Administration for War has on an application filed prior to July 1, 1944, granted a currently valid exception, under Petroleum Distribution Order No. 13, as amended, with respect to the standby facility.

(5) *Rations for domestic hot water equipment between May 15, 1944 and September 30, 1944.* On or after May 15, 1944, a ration may be issued and used for the operation of fuel oil burning equip-

ment designed to furnish domestic hot water in a private dwelling even though there is standby central heating equipment, heating stoves or cooking equipment. In that event, the allowable ration determined in accordance with § 1394.5318 (a) shall be for a period ending not later than September 30, 1944.

MISCELLANEOUS USES

§ 1394.5158 *Restrictions on the issuance of rations for use in industrial, commercial or agricultural equipment*—(a) *General.* No ration shall be issued or used for the operation of fuel oil burning commercial, industrial or agricultural equipment (for which application is made on OPA Forms R–1102 or R–1103), if the equipment is a new or reinstalled facility, or if there is a standby facility. If there is a standby facility which is not in serviceable operating condition but can be placed in such condition at reasonable expense, an interim ration for the operation of the fuel oil burning equipment may be issued for the period ending on the earliest date when the standby facility can be placed in serviceable operating condition.

(b) *Exceptions.* The restriction in paragraph (a) shall not apply if the Petroleum Administration for War has granted the applicant a currently valid exception under Petroleum Distribution Order No. 13, as amended, with respect to the specific restriction. In such case, the ration shall be issued (pursuant to the applicable provisions of this order) only during the period specified in the exception granted by the Petroleum Administration for War.

§ 1394.5159 *Restrictions on issuance and use of rations in certain additional cases.* (a) No ration shall be issued or used in any of the following cases:

(1) *Cooling space.* For the operation of fuel oil burning equipment for the purpose of cooling space (other than hospital space) for human or animal occupancy.

(2) *Passenger automobiles.* For the operation of a private passenger automobile, as defined in General Order No. 21 of the Office of Defense Transportation.

(3) *Coal spraying.* For the spraying of coal with fuel oil other than grade No. 5 or No. 6 or Bunker "C" having an A. P. I. (American Petroleum Institute) gravity of 20° or below.

(4) *Weed control.* For weed control purposes on any road, street, highway or railway right-of-way.

(5) *Premises otherwise supplied with heat or hot water.* For furnishing heat or hot water to premises to the extent that such premises are supplied with heat or hot water as a by-product of an industrial process or the production of power.

(6) *Premises served by central heating equipment.* For the operation of any space heater in premises adequately served by central heating equipment, except as otherwise provided in this order.

(7) *Duplicate rations.* For furnishing heat or hot water to any premises served by equipment for the operation of which a currently valid ration (other than an additional ration under §§ 1394.5341 to 1394.5353) for the purpose has been issued. However, a renewed ration may be issued and used even though a currently valid ration has been issued for the purpose if no other renewed ration has been issued for the purpose.

(8) *Buildings not used for living or occupational purposes.* For the operation of fuel oil burning equipment furnishing heat or hot water to a building or structure which is not used for living or occupational purposes. If the equipment serves only a part of the building or structure and that part is not used for living or occupational purposes, no ration shall be issued or used for furnishing heat or hot water by means of that equipment.

(9) *Uninstalled equipment.* For the operation of fuel oil burning equipment unless the installation of the equipment is substantially completed.

(b) *PAW exceptions.* The restrictions contained in paragraph (a) (2), (3) and (4) of this section shall not apply to equipment with respect to which the Petroleum Administration for War has granted a currently valid exception under Petroleum Distribution Order No. 13, as amended. In such case, the ration shall be issued (pursuant to the applicable provisions of this order) only during the period specified in the exception granted by the Petroleum Administration for War.

7. Section 1394.5160 is added as follows:

§ 1394.5160 *District Director approval for standby exceptions.* The District Director may direct that a Board, before issuing a ration because it finds that a standby facility cannot be repaired at reasonable expense or that a denial of a ration because of the standby facility restriction would work an exceptional and unreasonable hardship, shall submit the application to the District Director for approval. Where such a direction has been given, no such ration may be issued unless the District Director has approved the application.

8. Sections 1394.5318 (b) and 1394.5353 (a) (1) are revoked.

This amendment shall become effective on July 29, 1944.

(b) *What products are covered.* This regulation covers the products enumerated in the tables set forth below.

(c) *What persons are covered.* Any person who sells any commodity enumerated in the tables below is subject to this regulation. The term "person" includes an individual, corporation, partnership, association or any other organized group; their legal successors or representatives; the United States, or any government or any of its political subdivisions; or any agency of any of the foregoing.

§ 1418.353 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 288 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

§ 1418.354 *Applications for adjustment.* Any person seeking an adjustment of the maximum prices established by this Maximum Price Regulation No. 288 may file a petition for adjustment in accordance with the provisions of Procedural Regulation No. 7.[4]

§ 1418.354a *Territorial adjustment of maximum prices.* The Territorial Director of the Office of Price Administration in Alaska may issue an order adjusting the maximum price of any item for any locality listed in the Tables of maximum prices in § 1418.363 whenever such action is necessary to correct an error or to prevent substantial hardship caused by an unanticipated increase in the maximum wholesale price or costs of shipment. An order issued pursuant to this section shall remain in effect until superseded by an appropriate amendment.

[§ 1418.354a added by Am. 23, 9 F.R. 4199, effective 4–24–44]

§ 1418.355 *Definitions.* (a) When used in this Maximum Price Regulation No. 288, the term:

(1) "Sale at wholesale" means a sale of a commodity by a person who resells it to any person other than an ultimate consumer and includes any sale to the United States, or any government, or any of its political subdivisions, any religious, educational, or charitable institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library, commercial or industrial user, or any agency of the foregoing.

(2) "Sale at retail" means a sale or selling to an ultimate consumer.

[Former subparagraphs (1) and (2) deleted by Am. 14, 8 F.R. 16865, effective 11–22–43; new (1) and (2) added by Am. 16, 8 F.R. 16793, effective 12–13–43]

[Former subparagraph (3), (4) and (5) added by Am. 3, 8 F.R. 2158, effective 2–22–43; deleted by Am. 21, 9 F.R. 2409, effective 3–6–44]

(3) "Maximum price", except where the context otherwise requires, means the maximum price established by Maximum Price Regulation 288: *Provided, however,* That where pennies are not generally used or available in the course of ordinary retail transactions, adjustments to the nearest nickel may be made by the seller on the total of the combined purchase prices of one or more commodities sold at a single sale, or the total of the combined purchase prices of one or more commodities sold in a series of sales but billed at the end of a period; that the prices of all commodities shall be posted according to the "maximum price" as herein defined.

[Former subparagraph (6) added by Am. 8, 8 F.R. 12549, effective 9–16–43; former (3), (4) and (5) deleted and former (6) redesignated (3) by Am. 21, 9 F.R. 2409, effective 3–6–44]

§ 1418.356 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 288 may be charged, demanded, paid, or offered.

§ 1418.357 *Prohibited practices*—(a) *General.* Any device to obtain a higher-than-ceiling price without actually raising the dollar and cents price is as much a violation of this Maximum Price Regulation No. 288 as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Adjustable pricing.* A price may not be made adjustable to a maximum price which will be in effect at sometime after delivery of any commodity covered by this regulation has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

§ 1418.358 *Records and reports*—(a) *Records to be kept.* (1) Every person making sales at wholesale of the commodities subject to this Maximum Price Regulation No. 288 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase and each sale made by such person, showing the date thereof, the name and address of the buyer and seller, the direct cost thereof, the price paid or received, the mark-up charged, and the quantity purchased or sold.

(2) Every person making sales at retail of the commodities subject to this Maximum Price Regulation No. 288 shall, on and after the date any such commodity becomes subject to this regulation, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and the mark-up charged by the seller to the buyer.

(b) *Prices to be marked and posted.* On and after the date any commodity becomes subject to the Maximum Price Regulation No. 288, every person offering to sell at retail any such commodity shall mark the maximum price of such commodity in a manner plainly visible to and understandable by, the purchasing public. The maximum prices may be marked on the commodities themselves or may be posted at the place in the establishment where the commodities are offered for sale, and may be posted by price lines if the selling price of each commodity is marked thereon. The maximum prices shall be indicated in the form "Ceiling Price $_____" or "Our Ceiling $_____."

(c) *Sales slips and receipts.* Every seller at retail of the commodities subject to this Maximum Price Regulation No. 288 who has customarily given purchasers sales slips or receipts shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

§ 1418.359 *Enforcement and licensing.* (a) Persons violating any provision of this Maximum Price Regulation No. 288 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest office of the Office of Price Administration.

(c) *Licensing.* The provisions of Licensing Order No. 1 [5] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price

[1] 7 F.R. 10581.

[2] Statements of consideration are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (c) amended by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

§ 1418.360 *Relation to other regulations.* (a) Notwithstanding the provisions of Maximum Price Regulation No. 194 [1], maximum prices for the commodities enumerated in the Tables set forth in § 1418.363 of this Maximum Price Regulation No. 288 shall be established by this Maximum Price Regulation No. 288. Maximum prices for commodities not enumerated, and for commodities sold in localities not specified, in the tables set forth in § 1418.363 of this Maximum Price Regulation 288 shall continue to be governed by Maximum Price Regulation 194, The General Maximum Price Regulation [2], or such other price regulations as may be applicable in the Territory of Alaska.

[Paragraph (a) amended by Am. 3, 8 F.R. 2158, effective 2–22–43; Am. 21, 9 F.R. 2409, effective 3–6–44]

§ 1418.361 *Applicability.* The provisions of this Maximum Price Regulation No. 288 shall be applicable to the Territory of Alaska.

§ 1418.362 *Effective dates.* (a) This Maximum Price Regulation No. 288 (§§ 1418.361 to 1418.363, inclusive) shall become effective December 16, 1942.

[MPR 288 originally issued Dec. 16, 1942]

§ 1418.362a *Effective dates of amendments.*

[Effective dates of amendments are shown in notes following the parts affected]

§ 1418.363 *Tables of maximum prices*—(a) *Table I: Maximum prices of turkeys*—(1) *Definitions.* When used in this paragraph, the term:

(i) "Drawn turkey" means a dressed hen or tom turkey from which the head, shank, crop, entrails and gall bladder have been wholly removed without contamination of the body cavity, the gizzard cleaned, and the cleaned gizzard, heart and liver then included with the carcass.

(ii) "Quick frozen eviscerated turkey" means a dressed and singed hen or tom turkey, from which the head, shank, crop, windpipe, esophagus, entrails, gall bladder, lungs, kidney and oilsac have been removed, the giblets of which have been cleaned, wrapped and replaced, and the whole, whether in carcass, split or dismembered form, then individually wrapped or packaged in cartons or boxes, frozen at quick freezing temperatures and ready for cooking upon removal from the package.

(iii) "Regular or dressed turkey" means a hen or tom turkey killed, bled and plucked, but not eviscerated.

(f) *Table VI: Maximum retail prices for edible fats and oils*—(1) *Definitions.* When used in this Table VI the term:

(i) "Standard shortening" means shortening not hydrogenated made from vegetable oils such as corn, soybean, cottonseed, or peanut oils, refined to produce a creamy solid.

(ii) "Hydrogenated shortening" means shortening made from oils, such as cottonseed, soybean, or peanut oils, which are refined and processed to make the flavor blend and then hydrogenated to solidify the product. Hydrogenation is the process by which hydrogen is added to the unsaturated carbon bonds of oils, thus forming fats which may be plastic, hard or brittle, depending upon the completeness of hydrogenation.

(iii) "Lard" means the edible rendered fat from hogs.

(2) The maximum prices for certain edible fats and oils sold at retail in the Territory of Alaska shall be:

(m) Table XIII: *Maximum prices for firewood in Anchorage and vicinity*—(1) *Definitions.* When used in this table, the term:

(i) "Anchorage and vicinity" includes the city of Anchorage and the territory adjacent thereto within a radius of three miles.

(ii) "Carlot" means eighteen cords of four foot lengths.

(iii) "Cord" means one hundred twenty eight cubic feet.

(iv) "Firewood" means dry wood and such other wood cut from logs, as is suitable for fuel. It includes cordwood, but does not include slab-wood and mill ends.

(v) "Rick", if made up of sixteen inch lengths or less, means one-third of a cord. "Rick", if made up of more than sixteen lengths and not more than two foot lengths, means one-half of a cord.

(2) *Maximum prices.* The maximum prices for firewood sold by any person to a consumer in Anchorage and vicinity, delivered to the buyer's receiving point, shall be:

	Per cord	Per rick
16" or less	$23.00	$8.25
More than 16" but not more than 2'	22.00	12.00
More than 2' but not more than 4'	19.00	10.00

(3) *Rail delivery.* The maximum price for firewood in lengths of more than two feet but not more than four feet, delivered to and piled on railroad cars at points along the Alaskan Railroad for shipment to Anchorage, shall be $13.75 per cord, less the carlot freight rate from the point of shipment to Anchorage.

(4) *Prohibited practices.* It shall be a prohibited practice within the meaning of § 1418.357 (a) of this regulation for a seller to offer firewood for sale only in rick quantities to a buyer desiring to purchase in cord quantities for the purpose of obtaining the higher price applicable to rick sales.

[Paragraph (m), Table XIII added by Am. 12, 8 F.R. 16626, effective 12-14-43]

(n) Table XIV: *Maximum prices for fuel wood in Fairbanks and vicinity*—(1) *Definitions.* When used in this table, the term:

(i) "Fairbanks and vicinity" includes the city of Fairbanks and the territory adjacent thereto within a radius of forty miles.

(ii) "Green wood" means all wood intended for fuel which has not been rossed or ringed, which was live timber at the time of cutting, and which has been cut within six months of the date of sale.

(iii) Ringed wood" means all wood intended for fuel from the circumference of which in standing state a strip of the bark not less than three inches wide has been removed not less than six months prior to felling.

(iv) "Rossed wood" means all wood intended for fuel the bark of which has been chipped or stripped and substantially removed.

(2) *Maximum prices for fuel wood.* The maximum prices for fuel wood in Fairbanks and vicinity shall be:

	Length	Price per cord felled and piled in woods or at accessible roads	Price per cord sold and delivered to ultimate consum
Dry, rossed or ringed, other than birch	16 inches to 16 feet	$10.00	$17.00
Dry, rossed or ringed, not less than 80% birch	16 inches to 16 feet	10.00	18.00
Green wood	Any length	6.00	13.00

(3) *Maximum prices for sawing or buzzing.* The maximum price for sawing or buzzing any type of fuel wood into lengths of sixteen, twenty-four or forty-eight inches at the option of the owner, either in dealer or consumer lots, shall be $3.00 per cord.

(4) *Prohibited practices.* It shall be a prohibited practice within the meaning of § 1418.357 (a) of this regulation for a seller of fuel wood to make any charges for shrinkage, storage, extra haulage, special selection or credit, the effect of which is to evade the provisions of this paragraph.
